COMMENCEMENT

The University of Connecticut has entered the new millennium on an exceptionally high note. Building on a strong foundation, we are emerging as a national leader in undergraduate, graduate and professional education, research and scholarship, and service to our state and nation. The promise of UCONN 2000 is fast becoming a reality, both in terms of physical transformation and through the pursuit of excellence in every important sphere.

The Class of 2000 has lived with the inconvenience of construction, but you have also participated in the exhilaration of dramatic progress. Magnificent new structures, technological advancement, enhancement in the quality of student life, and great athletic achievements have marked your years at the University. The education you received here has prepared you well for a challenging future, and the degree you receive at this Commencement indicates to the world at large your ability to meet very high standards.

Some things remain constant. As it has been throughout its history, the University remains dedicated to the concept that education is the greatest gift society can bestow on its young people. An essential instrument of scientific progress and economic advancement, it is even more valuable simply as an end in itself — as the activity that defines and nourishes the human spirit.

I know that each of you has grown and changed over the course of your college career, and I hope that you continue to reap the benefits of your education throughout your lifetime. I am glad you were with us, and I hope that you remain a part of the UConn community in the years to come.

COMMENCEMENT NOTES

COMMENCEMENT DAY at The University of Connecticut is a time of ceremony and pageantry, portions of which represent traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to spectators.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution changed, its name was changed in 1899 to Connecticut Agricultural College. In 1933 it became the Connecticut State College. It grew slowly becoming a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts. With the development of a university program it became The University of Connecticut in 1939. The first regional campuses were established in 1946 to deal with the influx of veteran students. Today, the University is made up of sixteen different schools and colleges. Through the various agencies of five Divisions and seven Institutes, including forty-nine Special Facilities, Programs, and Centers, the University is privileged to serve many State citizens. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 22,700 students. At Storrs there are over 11,490 undergraduates and more than 3,600 graduate students, representing some 105 nations.

This year, the University will award over 4,680 degrees. Of these approximately 2,800 will be Bachelor's degrees, 1,200 Master's degrees, 170 Juris Doctor degrees, 31 Master of Laws degrees, 44 Doctor of Dental Medicine degrees, 83 Doctor of Medicine degrees, 7 Doctor of Musical Arts degrees, and 275 Doctor of Philosophy degrees. Also to be awarded are 35 diplomas in Professional Education and 29 Associate's Degrees in the two-year Ratcliffe Hicks School of Agriculture.

THE COMMENCEMENT CEREMONY, because of the number of graduates, is divided into five separate exercises. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the three exercises at Storrs is heralded by the ceremonial trumpets which were obtained especially for the University commencement.

THE ACADEMIC PROCESSION begins with the heralding of the trumpeters announcing the arrival of the academic procession. The Bearer of the Mace leads the procession. The University Marshal, identified by his Baton, leads the President, together with the speaker, the Board of Trustees, vice-presidents, deans, other University officials, and faculty. The Mace is presented at the center of the stage while those processing enter and take their places. Once the Mace is placed on the stand it signals the beginning of the ceremony.

THE ACADEMIC GOWNS, HOODS AND REGALIA represent more than elegance or colorful attire. Academic caps and gowns represent a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor of Arts, Science, and Engineering may be of color distinctive of the degree, and the tassel for the Doctor of Philosophy may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets; the School and College Marshals, who assist in conducting the ceremonies, wear blue Dutch caps.

THE MACE, carried by Keith Barker, Co-Chairman of the Commencement Committee, is used at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr., on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it to commemorate the date of the University's founding.

THE BATON, carried by the University Marshal, Professor Peter L. Halvorson, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as he leads the academic procession into and out of the place of ceremony.

THE SILVER COLLAR/MEDALLION, worn by Philip E. Austin, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloissoné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Certificate, Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, or Doctor of Philosophy for which you have been presented at this One Hundred and Seventeenth Commencement of The University."

THE RECESSIONAL of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony has concluded.*

Depicted on the cover of this Commencement book is the official seal of the University of Connecticut. The seal is utilized by all schools, colleges, professional schools, regional campuses and the Health Center. It represents the University as a fully integrated institution and a comprehensive academic resource for the 21st century.

The University of Connecticut's symbol is the ancient and mighty oak. For Connecticut and the University, the oak's significance is compelling.

Beautiful and sacred, the venerable oak is synonymous with wisdom, longevity and hospitality. To Aristotle, the oak's represented human potential.

A majestic oak in Hartford became the hiding place of the Royal Charter. This charter, issued by England's King Charles II, has provided self-governing status to the Connecticut colony for twenty-five years. Officials dispatched by King James II in 1687 to retrieve the legal document were foiled when the charter was secretly spirited to a temporary shelter—the Charter Oak. The oak is now the official state tree and an international symbol of freedom.

In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs Campus. This grove was long a favorite gathering place for a variety of open-air meetings.

The University of Connecticut's graphic interpretation of the oak is a symmetrical and elegant synthesis of three oak leaves and two acorns, together representing maturation as well as intellectual and moral strength. It communicates a powerful message about an institution that is rooted in a proud past and destined for an extraordinarily bright future.

The UConn Husky dog is the beloved and official mascot of the University's athletic programs.
