## WELCOME FROM THE PRESIDENT

---

Welcome to the May, 2010 Commencement Ceremonies at the University of Connecticut. The Commencement Ceremony is one of the proudest moments in a student's life – and, perhaps even more so, in the life of her or his family. I guarantee that you'll remember this day forever.

It's also a proud day for the University of Connecticut. Your achievements and successes are substantial. The university is better today because you were here, contributing your special combination of skills, ambitions and individual personality to our academic community. I hope that you will always remember your time here with affection, and that you always remain united with the University of Connecticut as proud alumni.

Last year at our CLAS commencement, Dr. Timothy Shriver, UConn alum and Chairman and CEO of Special Olympics, spoke these words: "I encourage you, graduates, to awaken to a new course. The syllabus is your life. There is no final except the one you won't attend. Every sunrise is a quiz. Every person you meet is a reading. Every moment of loss is an invitation to come in and see the professor. Every moment of triumph is also an invitation to come see the professor. Ask, 'why does it matter?' 'Are triumph and disaster really that different?' Do you know why you're here? Will that 'why' guide you through it?"

Graduates of the University of Connecticut, you've met the rigorous standards set by your discipline and your faculty mentors. You've mastered a body of knowledge that will lead to new opportunities and new associations. These are real accomplishments, and they mean something.

Personally it's a joy to celebrate these achievements with you, and I hope you will carry with you, for a long time to come, every ounce of our heartfelt pride in your success here today. I wish you all the very best, wherever your path next takes you.

With my best wishes and my appreciation,

Michael J. Hogan  
President  
University of Connecticut

## DOCTOR OF PHARMACY COMMENCEMENT SPEAKER

### Joseph T. DiPiro, Pharm.D.

Dr. Joseph T. DiPiro is Executive Dean of the South Carolina College of Pharmacy, which is an integrated program of the Colleges of Pharmacy at the University of South Carolina and the Medical University of South Carolina. He received his B.S. in pharmacy from the University of Connecticut and Doctor of Pharmacy from the University of Kentucky. He served a residency at the University of Kentucky Medical Center and a fellowship in Clinical Immunology at Johns Hopkins University. Before coming to South Carolina, Dr. DiPiro was the Panoz Professor of Pharmacy at the University of Georgia College of Pharmacy and Clinical Professor of Surgery at the Medical College of Georgia. While there, he was also Assistant Dean for the College of Pharmacy and the School of Medicine at the Medical College of Georgia, and Head, Department of Clinical and Administrative Pharmacy.

He is the Editor of *The American Journal of Pharmaceutical Education*. Dr. DiPiro has published approximately 200 journal papers, books, book chapters, and editorials in academic and professional journals, mainly related to antibiotics, drug use in surgery, and pharmacy education. His papers have appeared in *Antimicrobial Agents and Chemotherapy*, *Pharmacotherapy*, *Critical*

*Care Medicine*, *JAMA*, *Annals of Surgery*, *Archives of Surgery*, *American Journal of Surgery*, *Journal of Pharmacology and Experimental Therapeutics*, and *Surgical Infections*. He is the senior editor for *Pharmacotherapy: A Pathophysiologic Approach*, now in its 7<sup>th</sup> edition. He is also the author of *Concepts in Clinical Pharmacokinetics* and Editor of the *Encyclopedia of Clinical Pharmacy*.

He was a President of the American College of Clinical Pharmacy. He is a Fellow of the College and has served on the Research Institute Board of Trustees. He has been a member of the Surgical Infection Society Therapeutic Agents Committee and the American Society of Health-System Pharmacists, having served on the Commission on Therapeutics and the Task Force on Science. In 2002, the American Association of Colleges of Pharmacy selected Dr. DiPiro for the Robert K. Chalmers Distinguished Educator Award. He has also received the Russell R. Miller Literature Award and the Education Award from the American College of Clinical Pharmacy, the Award for Sustained Contributions to the Literature from the American Society of Health-System Pharmacists.

## BACHELOR OF GENERAL STUDIES COMMENCEMENT SPEAKER

### Julie Armstrong Muth

*Class of 1995*

Julie Armstrong Muth is the Director of Nursing/Quality at New York Presbyterian Hospital/Payne Whitney Manhattan. Throughout her thirty-five year nursing career, she has held numerous positions at various facilities in New York State as well as Stamford Hospital in Stamford, Connecticut and New Milford Hospital in New Milford, Connecticut.

As a member of the Behavioral Health Nursing leadership team at Payne Whitney, Julie participated in the development of new evidence based practices for therapeutic treatment of patients in the behavioral health setting. As a member of the American Psychiatric Nurses Association, she has made presentations on this work at numerous national conferences as well as

facilitated poster presentations nationally and here at UConn. Ms. Armstrong Muth received the New York Presbyterian Patient Centered Leadership award 2009. She is very proud of raising her son Jack (a veterinary student) and niece Jessica (a nutritionist) while demonstrating a commitment to learning during her UConn BGS years. She lives with her husband in Middletown, New York.

Ms. Armstrong Muth also holds a Master's Degree in Nursing Administration from the University of Connecticut and an Associates in Applied Science/Nursing from Hudson Valley Community College.

## GRADUATE SCHOOL COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

**Scott S. Cowen, D.B.A.**

*Doctor of Humane Letters*

Scott Cowen was recruited by assistant coach Lou Holtz to attend the University of Connecticut on a football scholarship. After receiving his bachelor of science degree in accounting from UConn in 1968, Cowen entered the United States Army Infantry Officer Candidate School and served for three years, including a tour in Turkey. He received his doctorate in business administration from George Washington University in 1975.

Soon Dr. Cowen began a 23-year tenure at Case Western Reserve University, starting as an assistant professor and finishing as dean and Albert J. Weatherhead Professor in the Weatherhead School of Management. In 1998 he was named the 14th President of Tulane University in New Orleans and was recognized widely as a supporter of reform in the NCAA and a champion of academic integrity in intercollegiate athletics.

When Hurricane Katrina devastated New Orleans in late August, 2005, Dr. Cowen found himself in the national spotlight. Half of Tulane's campus and all of its downtown health sciences center were flooded. The University was closed. Faced with a dire financial crisis and widespread damage to the campus, Dr. Cowen instituted a plan to reduce the size of the university by focusing resources on its top academic and research programs and helping to rebuild New Orleans. Tulane reopened five months later, with 6,000 Tulane students attending 600 colleges and universities around the United States, including the University of Connecticut. By January 2006, the campus was repaired and 87 percent of its students returned to New Orleans for classes.

At Tulane, Dr. Cowen faced not only rebuilding the university but also its surrounding, supporting community. Dr. Cowen adopted a public-service model to help New Orleans, requiring undergraduate students to complete a public service requirement in order to complete their degrees. The Medical Center was reorganized under a new partnership agreement. Tulane chartered a K-12 school in New Orleans and created an Institute for Public Education Initiatives to support the transformation of public education in New Orleans.

In 2009 Dr. Cowen was one of four recipients nationwide of the Carnegie Corporation Academic Leadership Awards. Also in 2009, *TIME Magazine* named President Cowen as one of the nation's top 10 Best College Presidents.

Dr. Cowen is the author of four books and more than 100 academic and professional articles, essays, and reviews. He is the recipient of several national awards and honors, including multiple honorary degrees. In 2010 Dr. Cowen was elected to the American Academy of Arts and Sciences, one of the world's most prestigious honorary societies. Dr. Cowen has held leadership positions in national academic and professional associations, including the American Council on Education, the National Association of Independent Colleges and Universities, and the NCAA. He currently serves as a board member for the National Merit Scholarship Corporation and the Council of Higher Education Accreditation. He also has extensive experience in business as a corporate director and consultant.

## 2010 BOARD OF TRUSTEES DISTINGUISHED PROFESSORS

*Designation as a Board of Trustees Distinguished Professor is the highest honor that the University bestows on faculty members who have demonstrated excellence in the three academic missions of the University. This year, three faculty members are recognized. To be chosen, a faculty member must have spent a significant portion of her or his career at*

*UConn, have made significant academic contributions while in the University's service and be actively engaged scholars, strong in all three areas of research, teaching, and service.*

### Jeffrey D. Fisher, Ph.D.

**D**r. Fisher is a Professor of Psychology at the Storrs campus and the founding Director of the Center for Health, Intervention, and Prevention, a major interdisciplinary center for the study of health behavior and health-behavior change at the University.

Professor Fisher has an international reputation for applying social psychological theory in high impact real-world settings, in which the results of his work can benefit the human condition. He performed important early work on recipient reactions to help and help-seeking, and with his colleague Professor Arie Nadler, began to define the conditions under which receiving help may elicit self-help as opposed to dependency behavior, and produce favorable versus unfavorable recipient reactions to the donor.

For the past twenty-five years, in work that is internationally known, Professor Fisher has made seminal conceptual and applied contributions to understanding the dynamics which promote health-risk behavior, and the conditions which must be mobilized in order to change such behavior. Much of this work has been with Professor William Fisher and other colleagues. Fisher and Fisher's Information, Motivation, Behavioral Skills model of HIV risk and prevention behavior, published in *Psychological Bulletin*, has been very heavily cited, and has been highly influential in public health interventions worldwide aimed at curbing the HIV epidemic. Related work has been funded continuously by the National Institutes of Mental Health since the late 1980s, and has resulted in about \$25 million in major grants with Professor Fisher as principal investigator.

The Center for Health, Intervention, and Prevention, which Professor Fisher founded and directs, performs research on a

health behavior change in a broad array of domains, and has expanded its research focus dramatically since its founding in 2002. New research in the past few years has focused on HIV/AIDS, sexual behavior, alcohol and substance use, medication adherence and management, obesity, exercise science, cancer, autism, health communication marketing, and virtual reality as a method to study health behavior. At present, CHIP has research ongoing, newly funded, or planned in China, Ethiopia, Haiti, India, Malaysia, Mozambique, New Zealand, Nigeria, Thailand, Russia, South Africa, Uganda, Ukraine, and Vietnam. Theory-based health behavior change interventions resulting from work at CHIP have been disseminated around the world, and have saved lives. Researchers at the Center have attracted over \$67 million in external funding to the University since its inception.

Professor Fisher is an exceptional teacher and mentor for his students, and conveys to them his great enthusiasm for his work. He has supervised many graduate and postdoctoral students, and seven of his graduate students have won coveted NIMH NRSA awards, which provide full funding for their graduate studies as well as research expenses. As Director of CHIP, Professor Fisher has helped provide exceptional research and learning experiences for many graduate and undergraduate students at the University.

Professor Fisher has served extensively on committees at the level of his department, his college, and the institution as a whole. He has also provided service to his profession, serving on editorial boards and in other capacities. He frequently provides assistance to researchers and public health institutions worldwide in the domain of health behavior change.

### Harry A. Frank, Ph.D.

**D**r. Frank is a Professor of Chemistry at the University of Connecticut, Storrs. His previous awards include the Chancellor's Excellence in Research Award (2002), the University of Connecticut Alumni Association Excellence in Research Award (1999), and the Connecticut Valley Section

Award for Excellence in Research from the American Chemical Society (1987). He was a Fulbright Scholar to the Netherlands in 1995, a Visiting Scientist at the Centre d'Etudes de Saclay, France in 1987, and a Visiting Professor in the Division of Molecular Biology and Biochemistry at the University of

Glasgow, Scotland in 2003. He is also a member of the Connecticut Academy of Arts and Sciences and the Connecticut Academy of Science and Engineering.

Professor Frank is widely recognized as a leading authority in the world on carotenoids. These molecules are of fundamental scientific interest and are commercially important in the vitamin, aquaculture, and poultry industries. Professor Frank's work has revealed new information about how carotenoids work as light-harvesting pigments, as photoprotectors of photosynthesis, and as biological colorants in plants, crustaceans, and birds, and he has advanced the study of these molecules world-wide. He has published over 150 scientific papers and reviews, delivered many contributed and invited presentations before professional groups around the world, and published numerous conference abstracts and proceedings. His work is currently supported by grants from the NIH, the NSF, and NASA.

Professor Frank is also an accomplished teacher who regularly teaches general chemistry. He was the recipient of the University of Connecticut Outstanding Honors Teacher and Mentor Award in the 2002-03 academic year. He has supervised fourteen Ph.D. students and nine M.S. students. He has also overseen the senior thesis work of two university scholars and several undergraduate students with whom he has coauthored a number of publications in major international chemistry journals.

Professor Frank has a long history of dedicated service at the department, college, and university level, including five and one-half years as associate dean of the College of Liberal Arts and Sciences where he focused primarily on issues related to graduate programs, research infrastructure, information technology, and sponsored-programs administration. His service to his profession has included terms as President of the International Carotenoid Society (2002-05), Councilor for the American Society for Photobiology (2005-08), as a member of grant review panels for federal agencies, and as an organizer, session chair and discussion leader at several international conferences.

## Johann Peter Gogarten, Ph.D.

Dr. Gogarten is Professor of Molecular and Cell Biology, Adjunct Professor of Ecology and Evolutionary Biology, and a member of the Microbiology Graduate Program in the Department of Molecular and Cell Biology in Storrs. He is a Co-Chair of the Bioinformatics Facility of the University of Connecticut Biotechnology-Bioservices Center at the Storrs campus. He was awarded the Justus Liebig University dissertation prize in 1986, elected chair of the Gordon Research Conference on the Origin of Life in 2003, recipient of UConn's Alumni Association Distinguished Faculty Award in Research Excellence in 2006, is listed among BioMed Central's 'Hot100' scientists since 2007, and is the recipient of a Fulbright fellowship in 2009.

Professor Gogarten is a world leader in studying the evolution of life using computational methods for DNA and protein sequence analysis. His work has revealed many of the patterns and processes of organismal evolution and the nature of biological innovations. He is known for rooting the Tree of Life; that is, finding the relationship among the three dominant domains of life: the Bacteria, Eukarya, and Archaea that is now illustrated in all modern biology textbooks. He is recognized as being among the first to discover that gene transfer between unrelated microorganisms is a major driving force in microbial evolution. He has also contributed to research on the molecular biology of intervening sequences of DNA (intons) and the evolution of chloroplasts and photosynthesis. For his work on comparative genomics and the origin of life, he has received numerous grants from the National Science Foundation and the NASA Exobiology Program, totaling over \$5 million. This work

has led to numerous collaborations with colleagues at UConn and at other research institutions both nationally and internationally. Professor Gogarten has published over 120 articles during his career with 38 appearing within the past five years alone; he has co-edited books on *Horizontal Gene Transfer: Genomes in Flux* and on *Computational Methods for Understanding Bacterial and Archaeal Genomes*, and delivered hundreds of invited presentations at national and international conferences and institutions.

Professor Gogarten is an outstanding and engaged classroom instructor. Ten of his students have received Ph.D.s for work performed under his guidance and many of them now hold prestigious positions in their field. Currently two undergraduates, four Ph.D. students, and two postdoctoral fellows are working in his lab. He and his lab regularly participate in programs for underrepresented minorities and gifted high school students training the next generation of scientists.

Professor Gogarten has served on many committees at the departmental, college and university levels, and presently is an elected member of the University Senate. He has organized scientific meetings and sessions at many conferences, is an Associate Editor for the journals *BMC Evolutionary Biology* and *BMC Bioinformatics* and member of the editorial board of several other scientific journals. He also is a member of the Connecticut Academy of Science and Engineering and serves on the Executive Council of the International Society for the Study of the Origin of Life.

### Robert Glidden

Born in Grand Junction, Iowa, Robert Glidden earned his bachelor's degree with distinction in music, his M.A. in music performance, and his Ph.D. in music at the University of Iowa. Dr. Glidden served on the music faculties of Wright State University and Indiana University, and from 1969 to 1972 he was associate professor, director of graduate studies in music, and chairman of music education at the University of Oklahoma. He then became the Executive Director of the National Association of Schools of Music and the National Association for Schools of Art in Washington before moving to Bowling Green State University in 1975, where he was a professor and dean of the College of Musical Arts. In 1979, Dr. Glidden became dean of Florida State University's School of Music, and he was appointed provost and vice president for academic affairs at FSU in 1991. Robert B. Glidden, one of the nation's foremost experts on university accreditation and standards, became the 19th president of Ohio University on July 1, 1994. As head of a major academic institution, Dr. Glidden maintained a high profile as a spokesman for stringent accreditation standards. He has published more than 100 articles on accreditation in higher education journals.

Dr. Glidden's work on accreditation resulted in higher standards and greater progress for American colleges and universities. Thanks in part to his efforts, higher education in the United States has more readily changed with the times and become more responsive to the needs of society. He has staunchly defended higher education in the face of funding cuts at both the state and federal levels.

During his ten-year presidency, Dr. Robert Glidden embraced improvements in technology, aggressively encouraged faculty research, supported major changes to the academic curriculum, and spearheaded the University's Bicentennial Campaign that raised over \$221 million for scholarships, endowed professorships, technological enhancements, innovative programs and capital improvements. President Glidden strongly advocated university service to Appalachia, working with local governments and agencies to undertake technology projects and environmental action. Beyond the region, Dr. Glidden served on the Governor's Science and Technology Council in Ohio, and chaired the Ohio Aerospace Institute, the Inter-University Council, and the Mid-American Conference.

Robert Glidden also chaired the Commission on Leadership and Institutional Effectiveness for the American Council on Education in Washington. Perhaps Dr. Glidden's most enduring contribution to the future of higher education in the United States is his seminal work as the founding chair of the Council on Higher Education Accreditation (CHEA).

In her retirement, President Emeritus Glidden remains active in the business of higher education, as he continues to consult with universities at home and abroad, and he maintains his leadership in the field of university accreditation. Glidden also remains involved with Ohio University, having committed three years of part time work toward raising funds for a new alumni center.

### Jerold Mande

Jerold R. Mande is the Deputy Under Secretary for Food Safety and has been serving in this role since July 2009 when he joined the U.S. Department of Agriculture. He leads and oversees the Food Safety and Inspection Service (FSIS), USDA's public health agency that ensures the nation's commercial meat, poultry, and egg products are safe, wholesome, and correctly labeled and packaged.

FSIS is the nation's premier meat inspection agency, employing more than 8,200 inspection personnel throughout the nation. FSIS field staff work at both large and small processing plants as well as key ports-of-entry receiving imported food. They test products for a variety of pathogens and chemical hazards, and conduct carcass-by-carcass inspections.

Mr. Mande has a wealth of experience in public health, food safety, nutrition, and public policy. Earlier in his career, as senior adviser to the commissioner of the Food and Drug Administration, he helped shape national policy on food safety and tobacco and led the design of the Nutrition Facts label that now appears on virtually all packaged foods.

Following his tenure at FDA, Mr. Mande served on the White House staff as a health policy adviser, working on food safety,

cancer, and tobacco policy, and was deputy assistant secretary for occupational health at the Department of Labor. He began his career as a legislative assistant for Al Gore in the U.S. House and Senate, managing Gore's health and environment agenda, and helping Gore write the nation's organ donation and transplantation laws.

Before coming to FSIS, Mr. Mande was the associate director for public policy at the Yale Cancer Center at Yale University in New Haven, Connecticut. There, he devised a national model that leveraged state leadership to increase cancer prevention and control. He was also on the faculty of Yale's RWJ Clinical Scholars program where he trained physicians for careers in public policy.

Mr. Mande earned a master's degree in public health from the University of North Carolina at Chapel Hill and an undergraduate degree in nutritional sciences from the University of Connecticut. He also completed the program for senior government managers at the John F. Kennedy School of Government, Harvard University. Among his achievements is the Presidential Award for Design Excellence for his work on the Nutrition Facts food label.

His philanthropic work also includes a board seat at Lucille Packard Children's Hospital, a board seat at the University of Connecticut Foundation, and an executive cabinet position for the President of Cal Poly.

Prior to this position, Keith was founder and CEO of Brandsoft, an enterprise software and consulting company focused on brand management. Prior to Brandsoft, Keith was Vice President of Worldwide Corporate Marketing at Cisco Systems. He was responsible for Cisco brand positioning, communications, and education markets company-wide. Keith joined Cisco in January 1996 creating a strong corporate brand identity system, launching the global E-learning initiative, and

establishing the Cisco Network Academy. In 1998 he introduced the Cisco brand to TV for the first time in the company's history, as well as, launching the new Cisco.com global web site. Prior to Cisco, Keith was with Apple Computer from 1980-1995 holding a number of sales, sales management, marketing, and general management positions over a fifteen-year career.

Keith graduated from the University of Connecticut School of Business in 1980 with a major in marketing. He also holds a M.B.A. degree from Babson College in Massachusetts. He is an avid golfer and married to wife Pam for 25 years. They have two children: Katelyn who is a 2010 graduate from the School of Fine Arts at the University of Connecticut, and Jillian who is pursuing a marketing major at Cal Poly, San Luis Obispo.

### Geno Auriemma

Geno Auriemma has redefined the meaning of success in college women's basketball in his 25 years as head coach at the University of Connecticut. During his illustrious tenure, Auriemma has transformed the UConn program into the standard that all others are measured, both on and off the court.

Geno Auriemma was born in Montella, Italy and moved to the U.S. while in elementary school. He is a 1981 graduate of West Chester University of Pennsylvania with a B.A. in political science. Before coming to UConn, Auriemma worked as an assistant girls and boys high school basketball coach at his high school alma mater, Bishop Kenrick High School in Norristown, PA, (1979-81) and was a college women's assistant coach at St. Joseph's University in Philadelphia (1978-79) and the University of Virginia (1981-85).

In 1985, Geno Auriemma began his remarkable tenure which has transformed the UConn program. The development of national caliber student-athletes has been Auriemma's forte during his UConn career and is evident in the fact that every freshman that has played for him and completed her eligibility at UConn has obtained her undergraduate degree. Auriemma

hasn't had a losing season since 1986 and seven of the UConn Women's Basketball teams won the National Championship: 1995, 2000, 2002, 2003, 2004, 2009, 2010. What is even more remarkable is that four of these teams were undefeated: 1994-95 (35-0), 2001-02 (39-0), 2008-09 (39-0) and 2009-10 (39-0).

Geno Auriemma has found success even beyond the college coaching ranks and it has been recognized by his induction into both the Naismith Memorial Basketball Hall of Fame (Springfield, MA) and the Women's Basketball Hall of Fame (Knoxville, TN) in 2006. He also has been selected as coach for the 2012 U.S. Olympic women's basketball team. Auriemma has been involved in many charitable endeavors, including Geno's Cancer Team, co-founded with his wife Kathy, which encourages philanthropic acts at all levels of Connecticut schools. He has given back to the University as well, as exemplified by a sizable gift given to the University of Connecticut Library in 1998. Geno and Kathy Auriemma currently reside in Manchester, Conn. They have three children; Jenna (26), Alyssa (24) and Michael (21).

### Michael Thomas Turvey

Turvey was born in London, England, February 14, 1942. He studied physical education in England as an undergraduate at Loughborough College (1960-1963). His studies in physical education were continued in the USA where he took an MA degree at Ohio State University (OSU) before moving into the Ph. D. program at OSU in experimental and physiological psychology. Delos Wickens, Don Meyer, Bill Howell and Neil Johnson composed his doctoral committee. Upon receiving the doctorate in 1967 he took a faculty position in psychology at the University of Connecticut. In 1970 he also became a research scientist at the Haskins Laboratories in New Haven, Connecticut. Both appointments have continued to the present. Turvey became a Full Professor in 1974 and Professor Emeritus in 2008.

His awards include a Guggenheim Fellow 1973, the American Psychological Association (APA) Early Career Award 1974, Alumni Association Award for Teaching Excellence (University of Connecticut) 1975, Fellow at the Center for Advanced Study in the Behavioral Sciences 1980, James McKeen Cattell Fellow 1987, Alumni Association Distinguished Professor (University of Connecticut) 1994, Honorary Doctorate Free University of Amsterdam 1995, APA Distinguished Scientist Lecturer 1998, Board of Trustees Distinguished Professor (University of

Connecticut) 2000, Fellow of the Society of Experimental Psychologists 1999, National Science Foundation (NSF) Distinguished Speaker 2003, American Psychological Foundation F. J. McGuigan Lecturer 2003, Fellow Japan Society for the Promotion of Science 2004, 'Ig Nobel' Physics Prize 2004, Distinguished Alumnus Award (Ohio State University) 2006, President International Society for Motor Control 2007, Bernstein Award in Motor Control 2009.

He has authored and co-authored more than 370 scientific articles. His research on perception (haptic, visual, auditory) and coordinated movement, conducted under grants from NSF at the Center for the Ecological Study of Perception and Action, University of Connecticut (Storrs, Connecticut), is strongly influenced by the ideas of James Gibson and Nicolai Bernstein. It pursues a law-based approach to perception-action systems and emphasizes principles from classical and nonlinear dynamics. His research on visual word recognition and language, conducted at the Haskins Laboratories under grants from the National Institutes of Health pursues the special role of phonology in reading identified by Alvin and Isabelle Liberman. In his 46 years as an educator, Turvey has taught more than 27,000 undergraduates and produced more than 40 Ph.D.s.

## HONORARY DEGREE RECIPIENT

### Narissa Ramdhani, Ph.D.

*Doctor of Humane Letters*

Narissa Ramdhani, a former anti-apartheid activist and an alumna of the University of Connecticut, is today a leading South African scholar and cultural archivist who has also distinguished herself nationally and internationally in business, community development, and the preservation of cultural heritage.

Dr. Ramdhani completed her bachelor's, honors, and master's degrees in South Africa as she grew increasingly active in resistance activity against the apartheid state. She was forced to leave the country in 1985 and was offered refuge at the University of Connecticut, where she pursued further graduate study in public history and archival management and received a master's degree in 1992. During these years in the United States, she devoted much of her energies to continuing her anti-apartheid activities by encouraging support for the South African cause.

When she left South Africa in 1985 to escape apartheid, Narissa Ramdhani did not know under what circumstances she would return home. What she could not imagine was that her return in 1993 would coincide with the establishment of democratic elections and an invitation from the African National Congress and Nelson Mandela to study and help locate, repatriate and organize its archival material that was strewn across the globe in 33 countries. As Special Advisor to the Nelson Mandela Foundation and Head of ANC Archives, Dr. Ramdhani assisted

in many projects retrieving documents and artifacts of great significance to the national history. Also she advised and assisted several other countries in developing archival policies for documents of formerly oppressed regimes.

In 1998 Dr. Ramdhani was able to reenter academic life in South Africa, where she held three directorships of research centers at the University of Durban-Westville and the University of Kwa-Zulu Natal. With Dr. Ramdhani's assistance, in 1999 the African National Congress and the University of Connecticut signed a partnership agreement to archive and share with scholars materials from the ANC's struggle for human rights in South Africa, to chronicle the struggle through an oral history, and to link UConn and the University of Fort Hare on the Eastern Cape of South Africa in a focus on comparative human rights.

Today, as the chief executive officer of the Ifa Lethu Foundation in Pretoria, Dr. Ramdhani is leading the nonprofit organization's effort to return apartheid-era art and art objects to South Africa and to reclaim a cultural heritage that previously was removed from the country. In her work with the University of Kwa-Zulu Natal's Gandhi-Luthuli Institute she has addressed social injustice and worked to promote conflict resolution and peace in South Africa. She received her doctorate in history from the University of Kwa-Zulu Natal in 2009.

## SCHOOL OF ENGINEERING COMMENCEMENT SPEAKER

### Robert P. Madonna

Prior to establishing himself as a business and technology pioneer and visionary, Mr. Madonna graduated with a BSEE in Biomedical Engineering from the University of Connecticut in 1982.

Shortly following graduation, Bob started his engineering career at American Science and Engineering (AS&E) where he served on a team that designed and developed the world's largest CAT Scanner for testing solid-propellant rocket engines. Yearning first-hand experience with a start-up company, Madonna joined Lan-Tel, a telecommunications equipment manufacturer on Cape Cod, MA. Bob quickly moved up the ranks from lead designer to engineering director. Additionally, Madonna cut his teeth in business development there, rapidly learning the corporate landscape and successfully presenting Lan-Tel's business plans to large venture capitalist firms.

At the ripe age of 28, with a wealth of business and technical knowledge, Bob declined various senior level engineering management positions in favor of establishing his own telecommunications company. With no financial backing but with a sharp determination and uncanny vision, Mr. Madonna founded Excel Switching Corporation in 1988 within an attic above an auto body shop. During his time at Excel, Madonna served as Chairman, Chief Executive Officer, and President.

With the onset of de-regulation in the telecommunications industry, Mr. Madonna saw the opportunity to introduce an open-based switching platform that would enable rapid deployment of new applications and features. Using this

innovative approach, Excel Switching quickly became the leading provider of open-programmable switches to some of the largest telecommunications companies around the world.

In November of 1997, Mr. Madonna took Excel Switching Corporation public; two years later Lucent Technologies purchased Excel in 1999.

Bob's technological vision and passion for start-ups did not cease. In 2005 Mr. Madonna founded Savant Systems LLC, the first and only Apple®-based automation and entertainment system. As Chief Executive Officer at Savant, Madonna is applying similar principles of open platforms that drove Excel Switching to the forefront of telecommunications.

Through Mr. Madonna's foresight, Savant has transformed the automation, control and audio/video landscape with diverse and immersive technologies that are used in education (smart classrooms), commercial and residential markets. Under Madonna's hands-on leadership, Savant was the first company to introduce a native iPhone® application delivering complete home control and automation.

### AWARDS AND RECOGNITION

Mr. Madonna was the 1999 National Finalist of the prestigious Ernst & Young Entrepreneur of the Year Award. Mr. Madonna is also a member of the University of Connecticut's Academy of Distinguished Engineers and Hall of Fame. In addition, Mr. Madonna holds more than a dozen engineering patents.

## SCHOOL OF NURSING COMMENCEMENT SPEAKER

### Beverly Malone, Ph.D., RN, FAAN

Dr. Beverly Malone's dynamic career has encompassed public policy, education, administration, and clinical practice and has included positions as surgical staff nurse, clinical nurse specialist, director of nursing, and assistant administrator of nursing.

In February 2007, she became CEO of the National League for Nursing, the nation's leading voice for nurse educators, and her impact has been enormous and visible. For example, Dr. Malone has quickly moved to put increasing racial, ethnic, and gender diversity among clinical practitioners and faculty on the NLN's front burner, in accordance with NLN and other research that proves the importance to health care outcomes of narrowing the cultural gap between caregivers and their patients.

A vocal advocate for health care reform to create universal health insurance coverage, she led NLN support for the extension of State Children's Health Insurance Program when it was set to expire in 2008. Dr. Malone has testified before Congress on the need to adequately fund nursing workforce development under Title VIII, lobbying for legislation to address the challenge of increasing recruitment and retention of nurse educators, a root cause of the persistent nationwide shortage of nurses.

In the areas of faculty development, research, and global initiatives, Dr. Malone also has been pioneering, setting new standards of excellence and recognition for colleagues in American classrooms and around the world. She worked closely with the International Council of Nurses to form a community of nurse educators from around the world to address and influence issues related to quality nursing

education including accreditation; the preparation and ongoing development of faculty; and the advancement of the science of nursing education.

Prior to her joining the NLN, from June 2001 to January 2007, Dr. Malone was general secretary of the Royal College of Nursing (RCN), the United Kingdom's largest professional union of nurses with more than 390,000 members. She was a member of the Higher Education Funding Council for England and represented the RCN at the pan-European nursing body, the European Federation of Nurses Associations, the Commonwealth Nurses Federation, and the International Council of Nurses, along with the RCN president.

During the 1980s she was dean of the School of Nursing at North Carolina Agricultural and Technical State University, a traditionally black institution of higher education. In 1996 she was elected to two terms as president of the American Nurses Association, representing 180,000 nurses in the United States. In 2000, she became deputy assistant secretary for health within the U.S. Department of Health and Human Services, the highest position so far held by any nurse in the federal government.

Beverly Malone began her nursing career with a bachelor's degree in nursing from the University of Cincinnati in 1970. She combined clinical practice with further academic study, first earning a master's in psychiatric nursing and later, in 1981, a doctorate in clinical psychology. Among her numerous awards and honors, Dr. Malone is an elected fellow of the American Academy of Nursing.

## HONORARY DEGREE RECIPIENT

### Wendell G. Minor

*Doctor of Humane Letters*

For nearly four decades Wendell Minor has illustrated and designed covers for over two thousand books encompassing a wide range of subjects and directed to both adult and child audiences. In addition to providing the illustrations to works by some of the most noted children's book authors, including Jean Craighead George and Alice Schertle, Minor has created cover art for such bestsellers as historian David McCullough's Pulitzer Prize-winning biography *Truman*, Pat Conroy's novel *Beach Music*, and LaVyrle Spencer's *Small Town Girl*. Commissioned by NASA to record the lift-off of the space shuttle *Discovery*, Minor has also created several postcard stamps for the U.S. Postal Service. His work graces books such as *Red Fox Running*, *Julie*, and a collection of poetry by Carl Sandburg titled *Grassroots*, as well as Minor's own work, *Grand Canyon*. Minor has also provided art for several biographies, including a biography of President Lincoln by Ann Turner, titled *Abe Lincoln Remembers*, and *Into the Woods: John James Audubon Lives His Dream*. Environmentalist and author Rachel Carson is also the subject of a biography illustrated by Minor, in *Rachel: The Story of Rachel Carson*.

Born in Aurora, Illinois, Wendell Minor knew in the fourth grade that he would be an artist. A combination of scholarship money and savings from summer jobs brought him to Sarasota, Florida's Ringling School of Art and Design, and he graduated

in 1966. In 1968 Minor began as an illustrator for the studio of Paul Bacon. Two years later he started working independently, taking a studio in New York's Greenwich Village. Inspired by such artists as Winslow Homer, Rockwell Kent, Thomas Moran, and Norman Rockwell, he developed his own style lauded for its classic elements. Minor credits his rural Midwest upbringing and his parents with being major influences upon his career.

Wendell Minor was a member of the faculty of the School of Visual Arts, New York, NY, from 1975-86. In 1988 he began to illustrate children's books, believing they allowed him the greatest creative freedom. He moved to rural Connecticut, where the influences of nature began to be seen more and more in his work. He has exhibited and lectured widely in the United States. A touring retrospective of Minor's work was sponsored by the Center for Children's Illustrations, 2006-08. His work is included in permanent collections at Illinois State Museum, Muskegon Museum of Art, Mattatuck Museum, Arizona Historical Society, NASA, Library of Congress, Museum of American Illustration, New Britain Museum of American Art, U.S. Coast Guard, Norman Rockwell Museum, Eric Carle Museum of Picture-Book Art, and Mazza Collection, Findlay University. He has won over two hundred special awards and honors.

### Samuel Shem

Samuel Shem, pen name of Stephen Bergman, M.D., Ph.D., is a doctor, novelist, playwright and activist. He is a graduate of Harvard College Phi Beta Kappa, and has his M.D. from Harvard Medical School. A Rhodes scholar with a Ph.D. from Oxford University, he was on the faculty of Harvard Medical School for three decades.

Shem has been described in the press as "easily the finest and most important writer ever to focus on the lives of doctors and the world of medicine," and as someone who "brings mercy to the practice of medicine." The Lancet called "The House of God" one of the two "most significant medical novels of the 20th century." Its sequel "Mount Misery" is about training to be a psychiatrist; "Fine" is about a psychoanalyst.

His 2008 novel, "The Spirit of the Place," about a primary care doctor in a small town, was reviewed as "the perfect bookend

to 'The House of God.'" It won the National Best Book Award 2008 in General Fiction and Literature from USA Book News, and the Independent Publishers National Book Award in Literary Fiction 2009.

With his wife Janet Surrey, he wrote the off-Broadway hit play "Bill W. and Dr. Bob" about the founding of Alcoholics Anonymous, which won the Performing Arts Award of the National Council on Alcoholism 2007. The couple also wrote the nonfiction book "We Have to Talk: Healing Dialogues Between Women and Men," winner of the Boston Interfaith Council's Paradigm Shift Award in 1999.

He has given over 50 commencement speeches on "How to Stay Human in Medicine," and lives in Boston and Costa Rica.

Linda Greenhouse is the Knight Distinguished Journalist-in-Residence and Joseph Goldstein Lecturer in Law at Yale Law School. She assumed these positions in January 2009 after 30 years covering the Supreme Court of the United States for *The New York Times*.

Ms. Greenhouse received numerous journalism awards during her 40-year career at *The Times*, including a Pulitzer Prize in 1998 for her coverage of the Supreme Court; the American Political Science Association's Carey McWilliams Award for "a major journalistic contribution to our understanding of politics" in 2002; and the John Chancellor Award for Excellence in Journalism from the Annenberg School for Communication, University of Pennsylvania, in 2004. Also in 2004, she received the Goldsmith Career Award for Excellence in Journalism from Harvard's John F. Kennedy School of Government. In 2008, the non-partisan Constitution Project gave her its annual award for constitutional commentary. Her biography of Justice Harry A. Blackmun, *Becoming Justice Blackmun*, was published in 2005.

Ms. Greenhouse is one of two non-lawyer honorary members of the American Law Institute, which awarded her its Henry Friendly Medal. She is a member of the governing councils of

the American Philosophical Society, which awarded her its Henry Allen Moe Prize for writing in the humanities and jurisprudence, and of the American Academy of Arts and Sciences. In 2009, she was elected to the Harvard University Board of Overseers. She also is a member of the board of directors of the American Constitution Society.

Ms. Greenhouse is a graduate of Radcliffe College, Harvard, and earned a Master of Studies in Law from Yale Law School, which she attended on a Ford Foundation fellowship. For two academic years, 2004 and 2005, she was a Phi Beta Kappa Visiting Scholar, lecturing at colleges and universities around the country. In 2009, she was elected to a six-year term as a member of the national Phi Beta Kappa Senate. She has received ten honorary degrees.

Ms. Greenhouse is married to Eugene R. Fidell, president of the National Institute of Military Justice and the Florence Rogatz Lecturer in Law at Yale. Their daughter, Hannah, is a graduate student at the New School in New York and has recently started her own film production company.

## COMMENCEMENT NOTES

---

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 29,500 students. At Storrs there are over 17,000 undergraduates and more than 6,590 graduate students, representing some 105 nations.

This May, the University will award over 6,970 degrees. Of these, approximately 4,780 will be Bachelor's degrees, 1,345 Master's degrees, 216 Juris Doctor degrees, 30 Master of Laws degrees, 99 Doctor of Pharmacy degrees, 42 Doctor of Dental Medicine degrees, 76 Doctor of Medicine degrees, 1 Doctor of Musical Arts degree, 11 Doctor of Audiology, 4 Doctor of Education degrees, 9 Doctor of Nursing Practice, 7 Doctor of Physical Therapy, and 276 Doctor of Philosophy degrees. Also to be awarded are 46 diplomas in Professional Education and 31 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar /Medallion, worn by Michael J. Hogan, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirty-First Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

---

*Out of respect and courtesy to all graduates, participants and guests  
are requested to remain in their seats until the ceremony is concluded.*

*The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.*

## ACADEMIC HONORS

---

### *University Scholar*

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the commencement exercises.

### *Honors Scholar*

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the commencement exercises.

### *With Distinction*

"With Distinction" is the University's designation for degrees earned by students who give evidence of significant achievement in their major fields. Candidates for the graduation "with Distinction" wear medals on blue ribbons at the commencement exercises.

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation is given. Questions or concerns regarding names not listed should be directed to the Office of the Registrar.

## THE GRADUATE SCHOOL

---

*The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.*

Linda Lee Cook, in Nursing (December 20, 2009)

*Major Advisor:* Sandra L. Bellini

*Doctoral Dissertation:* Heparinized vs. Normal Saline for Maintenance of IV Access: An Evidence-Based Practice Change Initiative

Jill Espelin, in Nursing (May 8, 2010)

*Major Advisor:* Sherry L. Bassi

*Doctoral Dissertation:* Substance Abuse Education for Undergraduate Nursing Students: A Targeted Approach to Program Evaluation

JoAnne Gatti-Petito, in Nursing (May 8, 2010)

*Major Advisor:* Lynn M. Allchin

*Doctoral Dissertation:* Nursing Students' Perceptions of Caring Before and After Simulation in Nursing Education

Darlene Ann Gillotti, in Nursing

*Major Advisor:* Elizabeth C. Polifroni

*Doctoral Dissertation:* Empowerment among Nationally Certified and Non-Certified Registered Nurses

Barbara E. Lakatos, in Nursing (December 20, 2009)

*Major Advisor:* Amy L. Kenefick

*Doctoral Dissertation:* Outcomes of a Psychiatric Nursing Resource Service

Millicent Marie Malcolm, in Nursing

*Major Advisor:* Patricia J. Neafsey

*Doctoral Dissertation:* Prevention of Iatrogenic Suffering in the Elderly

Paula M. McCauley, in Nursing

*Major Advisor:* Rhea C. Sanford

*Doctoral Dissertation:* Evidence-Based Clinical Guidelines and Their Impact on Prevention of Catheter Related Blood Stream Infections

Karen M. Myrick, in Nursing (May 8, 2010)

*Major Advisor:* Rhea Sanford

*Doctoral Dissertation:* Improving Follow-up Care after Fragility Fracture: An Evidence-Based Initiative

Kathleen Mary O'Connor, in Nursing

*Major Advisor:* Colleen Delaney

*Doctoral Dissertation:* Postoperative Pain in Elderly: A Performance Improvement Project to Examine Pain Order

Victoria O. Odesina, in Nursing (December 20, 2009)

*Major Advisor:* Deborah McDonald

*Doctoral Dissertation:* Sickie Cell Pain Management in the Emergency Department: A Two Phase Quality Improvement Project

## DOCTOR OF PHILOSOPHY

**Brian Daniel Adams**, in Biomedical Science: Cell Biology  
(August 24, 2009)

*Major Advisor:* Bruce A. White

*Doctoral Dissertation:* Elucidating microRNA-Mediated Regulation of Estrogen Signaling and Response in Human Breast Cancer Cells

**Mohamed Fathey Ahmed**, in Computer Science and Engineering (December 20, 2009)

*Major Advisor:* Reda A. Ammar

*Doctoral Dissertation:* Micro-Threading for Multi/Many-Cores Architectures

**Kwang Hyun Ahn**, in Biochemistry (December 20, 2009)

*Major Advisor:* Debra A. Kendall

*Doctoral Dissertation:* Structural and Functional Characterization of the Cannabinoid Receptor One: Roles for Two Non-Transmembrane Domains, the Second Extracellular Loop and Carboxyl Terminus

**Craig Douglas Albert**, in Political Science (December 20, 2009)

*Major Advisor:* Jennifer A. Sterling-Folker

*Doctoral Dissertation:* The Identity/Violence Nexus: Measuring the Relationship between Ethnic Group Identity and Intensity of Violence in Contentious Political Arenas

**Sahar Al Seesi**, in Computer Science and Engineering

*Co-Major Advisors:* Reda A. Ammar and

Sanguthevar Rajasekaran

*Doctoral Dissertation:* Grammatical Formalisms for RNA Secondary Structure Analysis

**Mary Grace Amendola**, in Nursing

*Major Advisor:* Deborah A. Shelton

*Doctoral Dissertation:* A Study of Community-Based Participatory Research with Hispanic/Latino Community Leaders and Members

**Ganesh Anandakumar**, in Civil Engineering:

Applied Mechanics (August 24, 2009)

*Major Advisor:* Jeong-Ho Kim

*Doctoral Dissertation:* Three-Dimensional Modal, Dynamic, and Wave Propagation Analyses of Functionally Graded Solids

**Yasaman Ardeshirpour**, in Electrical and Computer

Engineering: Electronics, Photonics, and Biophotonics

*Major Advisor:* Quing Zhu

*Doctoral Dissertation:* Improving the Light Quantification of Near Infrared (NIR) Diffused Light Optical Tomography with Ultrasound Localization

**Kazi Arifuzzaman**, in Natural Resources: Land, Water, and Air  
(May 8, 2010)

*Major Advisor:* Thomas H. Meyer

*Doctoral Dissertation:* A Study on Geodetic Computation, Trigonometric Heighting and Height Modernization

**Ryan Charles Arzamarski**, in Psychology: Ecological Psychology (December 20, 2009)

*Major Advisor:* Claire Michaels

*Doctoral Dissertation:* Cue Combination or Co-Specificity? Effects of Exploration on Attunement in Dynamic Touch

**Chris Ikponwosa Asemota**, in Polymer Science  
(December 20, 2009)

*Major Advisor:* Gregory A. Sotzing

*Doctoral Dissertation:* Electrospinning: Improving Conducting Polymer Electrochromic Speeds and Depositing Aligned Polymeric Nanofibers

**Jonathan D. Axtell**, in Mathematics (December 20, 2009)

*Major Advisor:* Kyu-Hwan Lee

*Doctoral Dissertation:* Vertex Operator Algebras for Type G Affine Lie Algebras

**Besnik Bajrami**, in Chemistry (December 20, 2009)

*Major Advisor:* James F. Rusling

*Doctoral Dissertation:* LC-MS Based Bio-Analytical Methods for DMPK Studies, Toxicity Screening And Identification of DNA/Protein Adducts In The Presence of Bioreactors

**Kunal Bakshi**, in Pharmaceutical Science: Medicinal and Natural Products Chemistry (August 24, 2009)

*Major Advisor:* Spiro Pavlopoulos

*Doctoral Dissertation:* Exploring Structural Mechanism for the Regulation of CB1 Desensitization and Internalization

**Medora Whitney Barnes**, in Sociology (December 20, 2009)

*Major Advisor:* Gaye Tuchman

*Doctoral Dissertation:* Balancing Beliefs, Behaviors, and a Baby: How Young Dual-Career Couples Negotiate Paid and Unpaid Work during the Transition to Parenthood

## RETIRING MEMBERS OF THE FACULTY AND PROFESSIONAL STAFF

- Kinetsu Abe, Professor, Mathematics, 1973 - 2009
- Maria Acayan, Staff Professional, Budget Office, 1989 - 2009
- Sharon L. Alexander, Executive Director, Purchasing & Central Stores, 1997 - 2010
- Gregory J. Anderson, Distinguished Professor, Ecology & Evolutionary Biology, 1973 - 2009
- Robin F. Anderson, Staff Professional, Office of the Registrar, 1976 - 2009
- Susan L. Anderson, Professor, Regional Campuses, 1972 - 2009
- Raymond A. Anselment, Professor, English, 1966 - 2009
- Theodore E. Arm, Professor, Music, 1968 - 2009
- Sandy L. Baker, Staff Professional, Library Acquisitions, 1980 - 2009
- John S. Barclay, Associate Professor, Natural Resource, 1984 - 2009
- Rosine B. Bartkowski, Staff Professional, Student Health Services, 1979 - 2009
- Susan E. Bartlett, Lecturer, Communication Sciences, 1980 - 2009
- John C. Bennett, Associate Professor, Mechanical Engineering, 1980 - 2009
- Ron C. Blei, Professor, Mathematics, 1971 - 2009
- Peter Boardman, Staff Professional, Marine Sciences/MSTC, 1988 - 2009
- Walter F. Bohlen, Professor, Marine Sciences/MSTC, 1969 - 2009
- Robert K. Bohn, Professor, Chemistry, 1965 - 2009
- Peter L. Bonanomi, Staff Professional, Biology Central Services, 2003 - 2009
- Richard D. Bonazza, Staff Professional, Engineering Dean's Office, 1994 - 2009
- Scott Brohinsky, Director, University Relations, 1990 - 2009
- Richard D. Brown, Distinguished Professor, History, 1971 - 2009
- Robert L. Brown, Staff Professional, Center for Academic Programs, 1970 - 2009
- Shirley R. Brown, Staff Professional, School of Social Work, 1998 - 2009
- Ludmilla D. Burns, Staff Professional, Multicultural & International Affairs, 1986 - 2009
- Barbara R. Cervera, Staff Professional, University Library, 1989 - 2009
- Richard M. Clark, Professor, Nutritional Sciences, 1977 - 2009
- Theodore M. Colwell, Staff Professional, Student Health Services, 1999 - 2009
- Lynn K. Cote, Staff Professional, Library Acquisitions, 1971 - 2009
- Mary Crawford, Professor, Psychology, 1998 - 2010
- Christopher L. Crossgrove, Staff Professional, Jorgensen Center for the Performing Arts, 1976 - 2009
- Ruth Cutler, Staff Professional, Department of Extension, 2001 - 2009
- Carol A. Daisy, Assistant Professor, School of Nursing, 1969 - 2009
- Carl W. David, Professor, Chemistry, 1963 - 2009
- Elaine E. David, Assistant Vice President, Information Services, 1986 - 2009
- Judith H. Delottie, Staff Professional, University Library, 1981 - 2009
- B. Ann Denny, Staff Professional, Transportation & Parking Services, 1998 - 2009
- Clifford E. Desch, Professor, Ecology & Evolutionary Biology, 1975 - 2009
- Mohamed J. Dhinbil, Asst. Coop. Extension Educator in Residence, Department of Extension, 1987 - 2009
- James E. Dinger, Associate Professor, Animal Science, 1977 - 2009
- Dianne P. Dolat, Staff Professional, Human Resources, 1985 - 2009
- Susan L. Donnelly, Staff Professional, Pharmacy, 1995 - 2010
- Bari S. Dworken, Cooperative Extension Educator, Department of Extension, 1979 - 2009
- Sherry L. Fisher, Staff Professional, University Communications, 1975 - 2009
- William F. Fitzgerald, Distinguished Professor, Marine Sciences/MSTC, 1970 - 2009
- Martin D. Fox, Professor, Electrical & Computer Engineering, 1972 - 2009
- Gregory C. Frantz, Professor, Civil & Environmental Engineering, 1978 - 2009
- Charles J. Gibbons, Cooperative Extension Educator, Department of Extension, 1976 - 2009
- Linda Diane Glagowski, Staff Professional, Information Technology Services, 1973 - 2009
- Jane A. Goldman, Associate Professor, Human Development & Family Studies, 1974 - 2009
- Lynne C. Grant, Associate Cooperative Extension Educator, Department of Extension, 1976 - 2009
- Karen A. Grava, Staff Professional, University Communications, 1979 - 2009
- Edward Gromak, Staff Professional, Enterprise Admin. Systems, 1998 - 2009
- Lisa J. Hendricks, Staff Professional, University Library, 1981 - 2009
- James G. Henkel, Associate Vice Provost, Research & Graduate Education, 1977 - 2009

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place — a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
