COMMENCEMENT  
1997

*Today is a day of celebration. A day of endings and a day of beginnings.*

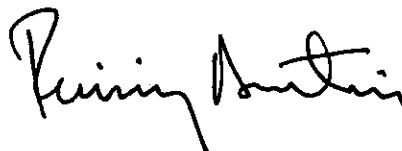

*For you, the proud graduates of this University, today marks the end of one phase of your education and the start of a new phase in your life. Perhaps you will go on to further your education, perhaps you are about to embark on your career. Some of you will begin to contribute to the economic well-being of our state for many years to come; some of you will serve our country in other ways.*

*Today also signifies the start of your new responsibilities in society. As we celebrate your accomplishments, we must remember also that your education endows you with a responsibility to go out into the community and help others, especially those who have not had the same opportunities as you.*

*And today signals the start of a new phase in your relationship with the University. For just as many of the friendships you have formed here over the past few years will last a lifetime, so too will your ties endure with the institution and ours with you.*

*I also am celebrating today, a day that marks the end of my first academic year at this fine institution, yet still the beginning of what I hope will be many happy and productive years here. I am grateful to have shared this year with you and to share this special day with you now.*

*I urge you to continue the quest for excellence in all your endeavors and wish you the very best in the future.*

A handwritten signature in dark ink, appearing to read "Philip Austin". The signature is fluid and cursive, with a large initial "P" and a long, sweeping underline.

## COMMENCEMENT NOTES

COMMENCEMENT DAY at The University of Connecticut is a time of ceremony and pageantry, portions of which represent traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to spectators.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution changed, its name was changed in 1899 to Connecticut Agricultural College. In 1933 it became the Connecticut State College. It grew slowly becoming a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts. With the development of a university program it became The University of Connecticut in 1939. The first regional campuses were established in 1946 to deal with the influx of veteran students. Today, the University is made up of sixteen different schools and colleges. Through the various agencies of five Divisions and seven Institutes, including forty-nine Special Facilities, Programs, and Centers, the University is privileged to serve many State citizens. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 22,300 students. At Storrs there are over 10,350 undergraduates and more than 4,200 graduate students, representing some 91 nations.

This year, the University will award over 4,790 degrees. Of these approximately 2,820 will be Bachelor's degrees, 1,325 Master's degrees, 211 Juris Doctor degrees, 14 Master of Laws degrees, 39 Doctor of Dental Medicine degrees, 84 Doctor of Medicine degrees and 252 Doctor of Philosophy degrees. Also to be awarded are 21 diplomas in Professional Education and 26 Associate's Degrees in the two-year Ratcliffe Hicks School of Agriculture.

THE COMMENCEMENT CEREMONY, because of the number of graduates, is divided into five separate exercises. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the three exercises at Storrs is heralded by the ceremonial trumpets which were obtained especially for the University commencement.

THE ACADEMIC PROCESSION begins with the heralding of the trumpeters announcing the arrival of the academic procession. The Bearer of the Mace leads the procession. The University Marshal, identified by his Baton, leads the President, together with the speaker, the Board of Trustees, vice-presidents, deans, other University officials, and faculty. The Mace is presented at the center of the stage while those processing enter and take their places. Once the Mace is placed on the stand it signals the beginning of the ceremony.

THE ACADEMIC GOWNS, HOODS AND REGALIA represent more than elegance or colorful attire. Academic caps and gowns represent a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor of Arts, Science, and Engineering may be of color distinctive of the degree, and the tassel for the Doctor of Philosophy may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets; the School and College Marshals, who assist in conducting the ceremonies, wear blue Dutch caps.

THE MACE, carried by Keith Barker, Chairman of the Commencement Committee, is used at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr., on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it to commemorate the date of the University's founding.

THE BATON, carried by the University Marshal, Professor Peter L. Halvorson, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as he leads the academic procession into and out of the place of ceremony.

THE SILVER COLLAR/MEDALLION, worn by Philip E. Austin, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloissoné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University seal.

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Certificate, Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, or Doctor of Philosophy for which you have been presented at this One Hundred and Fourteenth Commencement of The University."

THE RECESSIONAL of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

---

*Out of respect and courtesy to all graduates, participants and guests  
are requested to remain in their seats until the ceremony has concluded.*

## HONORARY DEGREE RECIPIENTS

### AARON FEUERSTEIN

#### *Doctor of Humane Letters*

Aaron Feuerstein is president and chief executive officer of Malden Mills Industries Inc., a highly successful textile company founded in 1906 by his grandfather, which he brought into a new era. Under his leadership, the company created Polartec, a revolutionary synthetic fabric that is light, warm, easy to dye and made from recycled plastic bottles. The fabric accounted for half the company's \$400 million in sales in 1995 and has created a \$3 billion industry. Feuerstein became well-known to the rest of America after a fire destroyed three of the factory's buildings, nearly ruining his company just before Christmas 1995. He pledged to rebuild and faithfully paid his employees their salary for three months after the fire, while a new factory was being constructed.

### ROBERT W. FIONDELLA

#### *Doctor of Humane Letters*

Robert W. Fiondella is chairman, president and chief executive officer of Phoenix Home Life Mutual Insurance Co., a Hartford-based insurance and investment management company. Fiondella joined the law department of Phoenix in 1969, then rose steadily through the ranks, assuming his current role in 1994. A 1968 graduate of the University of Connecticut's School of Law, Fiondella also is a tireless contributor to the community, currently serving as chairman of the Greater Hartford Chamber of Commerce, honorary chair of the Canon Greater Hartford Open golf tournament, a cabinet member for the Connecticut Medical Center Campaign for Our Children, and co-chair of Working Wonders, a Hartford summer youth jobs program. He is a director, trustee or board member of 13 other civic groups, and is a director of nine corporations.

### SAMUEL GOLDWYN JR.

#### *Doctor of Fine Arts*

Samuel Goldwyn Jr., winner of an Emmy and many Academic Awards, founded his own motion picture company in 1979. Under his direction, The Samuel Goldwyn Company's activities include film development, production, and distribution, as well as development of first-run television programs and syndication. Goldwyn's keen eye for talent has launched the careers of many writers, directors, producers and actors such as Jim Carrey, Julia Roberts and Robert Townsend. He has served on the board of the American Academy of Motion Picture Arts and Sciences. In 1987 and 1988 Goldwyn produced the 59th and 60th Academy Award shows. He is also the president of The Samuel Goldwyn Foundation, a non-profit organization whose primary interest is education.

### NORMAN HASCOE

#### *Doctor of Science*

The founder of several companies that manufactured advanced materials for computers, telecommunications systems, and other types of electronic equipment, Norman Hascoe has received more than 100 U.S. and foreign patents. His inventions and materials can be found in almost every computer or piece of advanced telecommunication equipment on the market today. Mr. Hascoe founded Semi-Alloys in 1959 and served as the company's president and CEO until 1983, when it was sold to Allied Signal Corporation. He is currently president and chief executive officer of Hascoe Associates Inc., a private investment firm in Greenwich. Mr. Hascoe has also used his success to benefit others, serving on the boards of several non-profit organizations which support the arts, science, medicine, and social issues.

### DAVID M. LEE

#### *Doctor of Science*

University of Connecticut alumnus David M. Lee was a co-recipient of the 1996 Nobel Prize in Physics for his work in discovering the superfluidity of helium-3. The discovery marked a breakthrough in the field of low temperature physics and has dramatically changed the direction and scope of theoretical and experimental research in low temperature phenomena. A professor of physics at Cornell University, Dr. Lee earned his undergraduate degree at Yale University. He is a member of the National Academy of Sciences and has been a visiting professor at Brookhaven National Laboratories. He is also the author of dozens of publications and has won several national and international awards for his research and achievements.

### ALVIN M. LIBERMAN

#### *Doctor of Science*

An acknowledged leader in the field of speech communications, Alvin Liberman has, for five decades, investigated the complex relation between the quasi-continuous sounds of speech and the discrete linguistic segments they convey. Having joined the UConn faculty in 1949, Liberman did his research at Haskins Laboratories, which is associated with UConn and Yale, and then began in 1967 to teach half-time in the Department of Linguistics at Yale. Now retired from both universities, he continues to conduct research at Haskins. Elected to the National Academy of Sciences and the American Academy of Arts and Sciences in 1977, he subsequently received the Schmitt Medal and Prize in Neuroscience, the Distinguished Scientific Contribution Award from the American

Psychological Association, the Warren Medal from the Society of Experimental Psychologists, and the Medal of the College de France. He was named Docteur Honoris Causa by the University Libre de Bruxelles, and Distinguished Professor by the UConn Alumni Association.

REX NETTLEFORD  
*Doctor of Letters*

Historian, thinker, educator and artist, Rex Nettleford is well known for his contributions to Caribbean life. He is deputy vice chancellor of the University of the West Indies, a lecturer in trade unionism, an author of books about Caribbean socio-cultural developments and a founder of Jamaica's internationally acclaimed National Dance Theatre Company, of which he is also artistic director and principal choreographer. A Rhodes Scholar, he has won numerous national and international honors, all attesting to his high standing as a scholar and as an artist. He has been awarded the Order of Merit, one of Jamaica's most important national honors.

ANTONIA PANTOJA  
*Doctor of Letters*

Educator, organizer and advocate Antonia Pantoja has devoted her life to improving the quality of life of the Puerto Rican community through the development of organizations. One of the organizations that has had the greatest impact is ASPIRA. Established in 1961, ASPIRA has helped thousands of young people of Puerto Rican origin focus on their studies, develop their potential as leaders, and feel pride in their heritage. Dr. Pantoja's accomplishments include establishing and directing a research center in Washington, DC; founding and presiding over the Universidad Boricua, a bilingual university for Puerto Ricans in the U.S.; and organizing a new graduate school in California to teach people the skills to solve problems facing their communities. In 1985 she moved back to Puerto Rico to develop PRODUCIR, a community economic development corporation that promotes economic self-sufficiency for people in rural villages. Last year she became the first Puerto Rican woman to receive the Presidential Medal of Freedom, the highest honor awarded to civilians.

WILLIAM C. STEERE JR.  
*Doctor of Science*

William C. Steere Jr. is chairman of the board and chief executive officer of Pfizer Inc., which spends more than \$1 billion annually to discover, develop and market prescription drugs. In 1996, the company had a record 17 new prescription pharmaceutical candidates that have begun early development. Under Steere, Pfizer launched the first pharmaceuticals access program to reach out actively to provide care to low-income patients at more than 350 community, migrant and homeless health centers nationwide. Steere was elected president and chief executive officer of Pfizer Inc. in February 1991, and chairman of the board in March 1992. He is a member of many distinguished organizations and committees, including the 1995 Special Olympics World Summer Games, the Pharmaceutical Research and Manufacturers of America, the Board of Overseers of the Memorial Sloan-Kettering Cancer Center, New York University Medical Center, and the Federal Reserve Bank of New York.

---

LIONEL H. OLMER  
*University of Connecticut Alumni Association  
Distinguished Alumni Award*

Lionel H. Olmer, senior partner in the distinguished Washington, D.C., law firm of Paul, Weiss, Rifkind, Wharton & Garrison, was Under Secretary of Commerce for International Trade under President Ronald Reagan. An active participant in the relief and resettlement efforts of refugees for 20 years as a board member of the International Rescue Committee and as chairman of the Citizens Committee on Afghan Refugees, Mr. Olmer is a 1956 graduate of the University of Connecticut. He holds a law degree from American University.

## ACADEMIC HONORS

### *University Scholar*

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year.

### *Honors Scholar*

Honors Scholars are outstanding students who complete intensive two- to four-year programs, including honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field.

### *With Distinction*

"With Distinction" is the University's designation for degrees earned by students who give evidence of significant achievement in their major fields.

---

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation (August 31 or December 31, 1996) is given.
