COMMENCEMENT

Today the Class of 2005 passes into history. Let me join your families and friends in congratulating you on the achievements that led you to this day and in wishing you the very best for the future.

These have been extraordinary years at the University of Connecticut and we are proud to have included you in our community. The university you leave today looks very different from the one you arrived at just a few short years ago. Our campuses, though still in the process of physical transformation, are now among the most attractive and advanced in the nation. Our stature as a center of excellence in research is higher than ever. Private support has increased dramatically. The excitement of student life is at a level unimagined by past generations and, above all, the rigor of the academic program stands at an unprecedented level. Once a leader in our region, the University of Connecticut is now recognized as one of the foremost public universities in the nation.

We are blessed with a faculty dedicated to the process of teaching and learning and a staff committed to student maturation and growth. But our greatest advantage over these past years—your years—has been the quality of our student body. Your energy, curiosity, and ambition reflect well on your parents and yourselves, and your presence contributed mightily to our continuing progress. While we rejoice with you as you receive your degrees, we are truly sorry to see you go.

Just as the University is changing, so is the world around us. You come of age at a time characterized by international conflict and economic challenge. The problems are tremendous; so are the opportunities. I am confident that your education has prepared you not only to build a constructive future for yourselves and your families, but to work toward a more equitable, just, and peaceful world. In doing that, you will more than repay the investment in your future made by your professors, your families, and the people of our state.

Good luck to you all.

COMMENCEMENT NOTES

COMMENCEMENT DAY at The University of Connecticut is a time of ceremony and pageantry, portions of which represent traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to spectators.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution changed, its name was changed in 1899 to Connecticut Agricultural College. In 1933 it became the Connecticut State College. It grew slowly becoming a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts. With the development of a university program it became The University of Connecticut in 1939. The first regional campuses were established in 1946 to deal with the influx of veteran students. Today, the University is made up of sixteen different schools and colleges. Through the various agencies of five Divisions and seven Institutes, including forty-nine Special Facilities, Programs, and Centers, the University is privileged to serve many State citizens. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 27,500 students. At Storrs there are over 15,750 undergraduates and more than 6,000 graduate students, representing some 113 nations.

This year, the University will award over 5,870 degrees. Of these approximately 2,726 will be Bachelor's degrees, 564 Master's degrees, 173 Juris Doctor degrees, 14 Master of Laws degrees, 73 Doctor of Pharmacy degrees, 36 Doctor of Dental Medicine degrees, 75 Doctor of Medicine degrees, 1 Doctor of Musical Arts degree, 1 Doctor of Audiology, 7 Doctor of Education degrees, and 88 Doctor of Philosophy degrees. Also to be awarded are 4 diplomas in Professional Education and 23 Associate's Degrees in the two-year Ratcliffe Hicks School of Agriculture.

THE COMMENCEMENT CEREMONY, because of the number of graduates, is divided into five separate exercises. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the three exercises at Storrs is heralded by the ceremonial trumpets which were obtained especially for the University commencement.

THE ACADEMIC PROCESSION begins with the heralding of the trumpeters announcing the arrival of the academic procession. The Bearer of the Mace leads the procession. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, other University officials. The Mace is presented at the center of the stage while those processing enter and take their places. Once the Mace is placed on the stand it signals the beginning of the ceremony.

THE ACADEMIC GOWNS, HOODS AND REGALIA represent more than elegance or colorful attire. Academic caps and gowns represent a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor of Arts, Science, and Engineering may be of color distinctive of the degree, and the tassel for the Doctor of Philosophy may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

THE MACE, carried by Professor Sally Reis, is used at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr., on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it to commemorate the date of the University's founding.

THE BATON, carried by the University Marshal, Professor Keith Barker, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

THE SILVER COLLAR/MEDALLION, worn by Philip E. Austin, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloissoné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Twenty Fourth Commencement of The University."

THE RECESSIONAL of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony has concluded.*

UNDERGRADUATE STUDENT REPRESENTATIVES

CARLA A. HILL

CARLA HILL is receiving a Bachelor of Arts degree in Art History from the School of Fine Arts.

She is from Cheshire, Connecticut where she graduated from Cheshire High School as salutatorian. With the Nutmeg Scholarship to pay for tuition, room, and board, she was given the financial freedom to travel abroad, which she did beginning her freshmen year in a spring break trip to England as part of an interdisciplinary course on the Arthurian legend. Since then, she has spent six weeks in Germany, a semester in Italy, and a month in Belgium working on an archeological site.

She is an Honors Scholar and University Scholar in art history. Her project, "Finding a Masterpiece with Fiction," combines research on art theft during World War II in Italy with creative writing. To pursue this research, she received a Summer Research Grant and a Humanities Institute Fellowship. She was named a Babbidge Scholar three times, inducted as a member of the honor society, Phi Beta Kappa; and given multiple scholarships from the School of Fine Arts. She has been active in the University community, volunteering and serving on several committees in the Honors Program and the School of Fine Arts.

In her spare time, Carla plays the flute and volunteers as an usher at the Hartford Stage Company with her mother. She thanks her family and friends for their support over the years.

KYLE M. NOONAN

Kyle Noonan is receiving a Bachelor of Arts in Economics and a minor in Ecology and Evolutionary Biology from the College of Liberal Arts & Sciences.

He is a lifelong resident of Old Town, Maine, and a 2001 graduate of Old Town High School. At the University, he conducted research on the genetics of tropical water lilies under Dr. Donald Les. His research was presented at the 2003 Frontiers in Undergraduate Research exhibition. In the summer of 2004, he accompanied a research team under Dr. John Silander to South Africa for a plant biogeography project.

In fall 2003, he was accepted as a University Scholar—the highest academic honor awarded to undergraduates—to pursue his honors thesis on the economic health of Connecticut's downtowns. He was inducted as a member of the honor society Phi Beta Kappa during that year. Throughout college he has been active with the public health and consumer advocacy efforts of ConnPIRG (Public Interest Research Group) and has served as the Chair of the Student Board the last two years. Currently he is employed at the University's Office of Environmental Policy, working on climate change and land use initiatives. He has served as a student representative on various boards and committees at the University since 2001.

HONORARY DEGREE RECIPIENTS

EDUARDO AGUIRRE, JR.
Doctor of Humane Letters

At Eduardo Aguirre's swearing-in ceremony as the first Director of United States Citizenship and Immigration Services—an Under Secretary rank position in the U.S. Department of Homeland Security—Secretary Tom Ridge asked, “What better leader for the organization that shepherds immigrants through the American citizenship process than a man who, at age fifteen, arrived at Miami's shore in search of a better life?” Embodied in this rhetorical question is a summary of an extraordinary life's journey, from teenage immigrant seeking refuge from tyranny to a position at the highest levels of American government. Eduardo Aguirre did indeed arrive in the United States from Cuba, unaccompanied, at age 15, seeking a land characterized by freedom and opportunity. Landing ultimately in Louisiana, he attended Louisiana State University, where he earned a Bachelor of Science degree; he is also a graduate of the American Bankers Association's National Commercial Lending Graduate School. A distinguished 24-year career with Bank of America culminated in the position of President of International Private Banking; concurrently, Mr. Aguirre served as an active, engaged citizen in his Houston, Texas community and beyond, including service as member and then chairman of the Board of Regents of the University of Houston System, membership on the National Commission for Employment Policy, and leadership positions in a range of philanthropic and community service organizations. In 2001 President George Bush appointed Mr. Aguirre to the Export-Import Bank of the United States, where he served as Vice Chairman, Chief Operating Officer, and, from December 2001 to December 2002, as Acting Chairman. In August of 2003 he assumed his current position at the Department of Homeland Security, where he leads a team of 15,000 in helping over six million men and women who seek immigration benefits each year, and meets the extraordinarily difficult mandate of balancing sensitive, efficient customer service with protection of national security.

MORRIS SHEPPARD ARNOLD
Doctor of Laws

Morris Sheppard Arnold was born in Texarkana, Texas, in 1941 and was educated at Exeter, Yale, the University of Arkansas, Harvard Law School, and the University of London. He has taught at numerous American law schools, including Indiana, Stanford, Texas, Michigan, and the University of Pennsylvania, where he also served as a vice president of the university and was a professor of law and history. He was dean of the Indiana University Law School in 1985. He is a former president of the American Society for Legal History and former vice president of the Selden Society. Judge Arnold has published eight books and numerous articles, mostly on the subject of legal history and the history of colonial Arkansas. His latest book is *The Rumble of a Distant Drum, The Quapaws and Old World Newcomers, 1673-1804*, which won the Booker Worthen Prize in 2001. The French government named him a Chevalier de l'Ordre des Palmes Académiques for his work on eighteenth-century Louisiana. A United States District Judge for seven years, he was appointed to the United States Court of Appeals for the Eighth Circuit on May 26, 1992.

JONATHAN F. FANTON
Doctor of Laws

Over the course of an extraordinary career in higher education and the world of philanthropy, Jonathan Fanton has contributed significantly to the breadth, depth, and intellectual vitality of American life. It is indeed appropriate that we should welcome him as Connecticut's flagship public university's Graduate Commencement speaker, primarily because of his own illustrious credentials, but also as a representative of our state's history and heritage: Dr. Fanton's family settled in Weston, Connecticut in 1680, where he was also raised. He received his baccalaureate, master's in philosophy, and doctorate in American history at our neighbor to the south, Yale University. Concurrent with his graduate studies, Dr. Fanton taught American history and served in Yale's administration as special assistant to president Kingman Brewster and as associate provost. He then spent four years as vice president for planning and a member of the faculty at the University of Chicago. From 1982 to 1999, he was the president of the New School for Social Research (now known as New School University) in New York City; there, Dr. Fanton oversaw the institution's physical expansion, academic enhancement, increased collaboration with other New York centers of higher learning, and ten-fold growth in endowment. The New School's University in Exile was founded in 1933 and helped save scholars put at risk by the Nazi regime. Inspired by that tradition, in the 1980's, Dr. Fanton helped build the University's ties with dissident academics working in East and Central Europe, providing them with scholarly material and support. The John D. and Catherine T. MacArthur Foundation named him president in 1999 and in this capacity he leads one of the nation's fifteen largest foundations in its support for community development, affordable housing, public education, reform of mental health and juvenile justice systems, international peace and security, biodiversity conservation, population and reproductive health, and other programs of critical importance. Dr. Fanton's work in the area of human rights – at the MacArthur Foundation, in his capacity as a board member and former Board Chair of Human Rights Watch, and as the Chair of HRW's Committee for International Academic Freedom – is of particular note to our own University, where study and community work in the area of human rights has been defined as a key point of institutional focus.

HENRY B.C. LOW
Doctor of Medicine

One of the pioneers of cardiovascular surgery in Connecticut, Dr. Henry Low established the heart transplant program at Hartford Hospital and performed the first successful heart transplant in the state in 1984. He also performed the state's first coronary artery bypass. He developed cardiothoracic surgery programs at John Dempsey Hospital, Hartford Hospital and St. Francis Hospital and Medical Center. The Henry Low Heart Center at Hartford Hospital was established in 2001. Born in Shanghai, Dr. Low has lived in the United States for more than 50 years. Since 1986, he has returned regularly to China, volunteering as a teacher and building a collaboration between Hartford Hospital, the UConn School of Medicine, and Shanghai Second Medical University. For decades, he has volunteered to teach surgical techniques to UConn School of Medicine students. Dr. Low has held appointments at Harvard Medical School and the UConn School of Medicine, where he served in the Department of Surgery from 1974 to 2002, rising to the position of Professor of Surgery and Chairman of Cardiothoracic Surgery in 1994, currently serving as Chairman Emeritus. Dr. Low has held many leadership positions at Hartford Hospital since 1957, including Director of the Division of Cardiothoracic Surgery from 1985 until his retirement in 2002, becoming Director Emeritus. He has served as a consultant for decades at a number of Connecticut hospitals. He is a member of numerous medical societies and the recipient of many prestigious honors and awards, including UConn's University Medal, recognition from The Mended Hearts, Inc., for his "outstanding dedication and distinguished contribution to excellence in cardiovascular surgery," and most recently the Magnolia Silver Award from the City Government of Shanghai. Dr. Low is also a researcher, having conducted heart and lung related research projects. He is also well known for his philanthropy and community involvement, serving on the boards of the Hartford Symphony and Bushnell Memorial. Dr. Low earned his medical degree at St. John's University School of Medicine in Shanghai in 1950. He completed a rotating internship at Bridgeport Hospital in 1950 and a surgical internship in 1951 at Gallinger Municipal Hospital in Washington, followed by residencies and fellowships at Hartford Hospital; Hahnemann Hospital, Philadelphia; Mt. Auburn Hospital, Cambridge; Malden Hospital, Malden, Mass.; and Peter Bent Brigham Hospital, Boston. He is certified by the National Board of Medical Examiners, the American Board of Surgery and the American Board of Thoracic Surgery.

ROGER S. NEWTON, '74

Doctor of Science

A nationally renowned pharmaceutical researcher whose work has contributed to the health of millions, Roger S. Newton is a member of the University of Connecticut Graduate School Class of 1974. Perhaps best known as co-discoverer of Lipitor, the most widely prescribed cholesterol-reducing drug in the world, Dr. Newton serves as Senior Vice President and Director of Esperion Therapeutics, which he founded in 1998 and was acquired by Pfizer Global Research and Development in February 2004. Esperion is dedicated to the discovery, development and commercialization of therapies to improve the treatment of cardiovascular diseases using HDL therapy. Dr. Newton received a bachelor of arts degree in biology from Lafayette College; he came to UConn in the early 1970s for graduate work in the College of Agriculture and Natural Resources, earning a master of science in nutritional biochemistry. He received a doctorate of science in nutrition from the University of California at Davis, and then received a post-doctoral fellowship at the University of California at San Diego, where he specialized in atherosclerosis research. Over the course of his career, he has served as an adjunct faculty member in the Department of Pharmacology at the University of Michigan Medical School, co-authored more than one hundred peer-reviewed articles and chapters, and served as a Distinguished Research Fellow in Vascular and Cardiac Diseases at Parke-Davis Pharmaceutical Research, a Warner-Lambert Company. It was during his tenure there, as Chairman of the Atherosclerosis Drug Discovery Team, that he co-discovered Lipitor. Dr. Newton has supported the University of Connecticut over the years, most notably through his endowment of the Hamilton D. Eaton Award for Research Excellence in Nutritional Science and the Nutritional Sciences 30th Anniversary Fund at the College of Agriculture and Natural Resources.

TIM PAGE

Doctor of Fine Arts

In honoring Tim Page, the University of Connecticut welcomes back to Storrs one of the foremost figures in American music—a Pulitzer Prize-winning critic, prolific author, widely heard media commentator, and, from time to time, an eminent teacher, lecturer, and producer. Those who knew Timmy Page as a child, growing up just a short walk from where today's Commencement is held, must have suspected that he was destined for significant things: in 1968, still a child, he was the subject of a short film presented at Lincoln Center entitled "A Day With Timmy Page." Around that time, this son of University Professor Ellis Page and his wife Elizabeth found joy and, most likely, his ultimate profession at the University of Connecticut's Music Library, where he regularly listened to classical recordings. A few years later his interest in music took him in a slightly different direction: dropping out of E.O. Smith High School, he played with a rock band. Ultimately he resumed his education, earning a baccalaureate degree in Music and English at Columbia University and studying music with several outstanding mentors. His career in criticism began with a series of freelance articles, then a post as chief classical music critic for *The Soho Weekly News*, as a columnist for *The Saturday Review*, as music writer and culture reporter for *The New York Times*, chief classical music critic for New York and Long Island *Newsday*, and, since 1995, as chief music critic and now culture writer for *The Washington Post*. His writing for that newspaper earned him the 1997 Pulitzer Prize for Distinguished Criticism. Along the way he has written or edited nearly a dozen books, including several volumes on the important but hitherto nearly forgotten American author Dawn Powell; produced and hosted several radio and television shows, and lectured at universities across the nation. Yet Mr. Page has not forgotten the town of his childhood: the University's Music Library, where his journey began, has been the beneficiary of thousands of items he has donated over the years that are today a valued part of our collection.

ANTONIA NOVELLO

HEALTH CENTER COMMENCEMENT SPEAKER

Dr. Antonia Novello has served as New York State Commissioner of Health since 1999. With a budget of more than \$34 billion, she heads one of nation's leading public health agencies, one that is responsible for protecting and improving the health of nearly 19 million people. Among the agency's many responsibilities are the administration of public health insurance programs providing health care to four million children and adults; the quality oversight of hospitals, health centers, nursing homes, physicians and physician assistants; and numerous education and prevention initiatives related to HIV/AIDS, asthma, diabetes, cancer, heart disease, tobacco use, and many other health problems. Previously, Dr. Novello served as Surgeon General of the United States, becoming the first woman and the first Hispanic ever to hold this position. She also served as a Special Representative for Health and Nutrition with the United Nations Children's Fund, and spent many years working at the National Institutes of Health. Dr. Novello is a board-certified pediatrician and nephrologist. Born in Fajardo, Puerto Rico, she earned her bachelor of science and medical degrees at the University of Puerto Rico. She has earned master's and doctorate degrees in public health from Johns Hopkins University. She has been the recipient of many awards and honors, including the Surgeon General's Exemplary Service Medallion and Medal, Distinguished Service Medal of the U.S. Public Health Service, the American Medical Association's Nathan B. Davis Award, the Johns Hopkins Society of Scholars Award, and the Elizabeth Blackwell Award. An inductee of the National Women's Hall of Fame, Dr. Novello holds more than 45 honorary degrees.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the commencement exercises.

With Distinction

"With Distinction" is the University's designation for degrees earned by students who give evidence of significant achievement in their major fields. Candidates for the graduation "with Distinction" wear medals on blue ribbons at the commencement exercises.

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation (August 24 or December 19, 2004) is given.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

On the cover of this Commencement book is the official seal of the University of Connecticut. The University's seal depicts the ancient and mighty oak. For Connecticut and the University alike, the oak's symbolism is significant. Beautiful and sacred, the venerable oak is synonymous with wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, his emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. The UConn Husky dog is the beloved and official mascot of the University's athletic program. While the Husky symbolizes the vitality and excitement of campus life, the oak seal communicates the broader mission of the University as a center for the pursuit, the creation and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaching toward a limitless future.
