COMMENCEMENT

May 2007

COMMENCEMENT

I congratulate the members of the Class of 2007 and your families on the achievement we mark at these Commencement exercises.

These past years have been a time of progress and challenge. Our University, already a leader in our region, grew stronger every year you have been with us. Many of you contributed mightily to our success. You arrived at UConn well prepared for higher learning, intellectually curious, and perhaps a bit anxious about the life you were entering. Now, on this day, you can take satisfaction knowing you met high standards in and out of the classroom, took advantage of the opportunities the University offered, and prepared yourselves well for the challenges that lie before you.

Those challenges may be substantial. You enter a world shaped by acts of terror, religious and ethnic conflict, breathtaking economic change, and technological advances that may bode good or ill. It will be for each of you, in your own way, to try to build a better society, even as you strive to build meaningful and productive lives for yourselves. It is said that of those to whom much is given, much is asked. You have been given supportive families, a nation built on democratic values, and, now, a first-class education. You will be asked much in return.

This will be the eleventh year in which I have the privilege of presenting degrees to our graduating students, and this will be my last Commencement as President of the University. Each time I do this I am reminded anew how much this milestone means to our graduates, to our faculty, and to all those who care about UConn. There is no event more meaningful in the life of a great institution of higher learning.

I hope you enjoy this day, and that you always value your association with the University of Connecticut. We are tremendously proud of you, and we wish you the very best for a bright, happy, and productive future.

COMMENCEMENT NOTES

COMMENCEMENT DAY at The University of Connecticut is a time of ceremony and pageantry, portions of which represent traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to spectators.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution changed, its name was changed in 1899 to Connecticut Agricultural College. In 1933 it became the Connecticut State College. It grew slowly becoming a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts. With the development of a university program it became The University of Connecticut in 1939. The first regional campuses were established in 1946 to deal with the influx of veteran students. Today, the University is made up of sixteen different schools and colleges. Through the various agencies of five Divisions and seven Institutes, including forty-nine Special Facilities, Programs, and Centers, the University is privileged to serve many State citizens. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 28,000 students. At Storrs there are over 16,000 undergraduates and more than 6,300 graduate students, representing some 109 nations.

This year, the University will award over 6,650 degrees. Of these approximately 4,551 will be Bachelor's degrees, 1,268 Master's degrees, 183 Juris Doctor degrees, 36 Master of Laws degrees, 88 Doctor of Pharmacy degrees, 36 Doctor of Dental Medicine degrees, 77 Doctor of Medicine degrees, 3 Doctor of Musical Arts degrees, 1 Doctor of Audiology, 3 Doctor of Education degrees, and 324 Doctor of Philosophy degrees. Also to be awarded are 57 diplomas in Professional Education and 24 Associate's Degrees in the two-year Rardcliffe Hicks School of Agriculture.

THE COMMENCEMENT CEREMONY, because of the number of graduates, is divided into five separate exercises. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the three exercises at Storrs is heralded by the ceremonial trumpets which were obtained especially for the University commencement.

THE ACADEMIC PROCESSION begins with the heralding of the trumpeters announcing the arrival of the academic procession. The Bearer of the Mace leads the procession. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, other University officials. The Mace is presented at the center of the stage while those processing enter and take their places. Once the Mace is placed on the stand it signals the beginning of the ceremony.

THE ACADEMIC GOWNS, HOODS AND REGALIA represent more than elegance or colorful attire. Academic caps and gowns represent a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the Doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

THE MACE, carried by Professor Sally Reis, is used at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr., on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it to commemorate the date of the University's founding.

THE BATON, carried by the acting University Marshal, Professor Keith Barker, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

THE SILVER COLLAR/MEDALLION, worn by Philip E. Austin, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloissoné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Twenty Eighth Commencement of The University."

THE RECESSIONAL of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony has concluded.*

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

COMMENCEMENT

UNDERGRADUATE STUDENT REPRESENTATIVES

Our student speakers were asked to provide their own profiles. Following are their statements.

KRISTINE FOLKERTS

KRISTINE FOLKERTS is receiving a Bachelor of Science in Molecular and Cell Biology with a minor in African Studies. She attended middle and high school in Guilford, Connecticut. Her family recently moved to Virginia, which she now calls home. In her free time, Kristine enjoys running, hiking, and spending time with friends.

Since her sophomore year, Kristine has conducted undergraduate research in the laboratory of Dr. David Knecht. With his guidance, she completed her Honors Scholar project on the actin cytoskeleton in the slime mold *Dictyostelium discoideum*.

In the summer of 2004, Kristine traveled to western Kenya with the organization Operation Crossroads Africa. She volunteered in a rural hospital, participated in community health nurse clinics in isolated villages, and worked with an economic development program for widows and orphans. This experience opened Kristine's eyes to devastating health disparities and led her to choose a minor in African studies and to consider a career in medicine.

When Kristine returned to UConn, she continued studying international health. Working with Dr. Rafael Pérez-Escamilla, from the Department of Nutritional Sciences, Kristine designed a study on the malaria care-seeking behaviors of rural mothers in Ghana. With this project she was named a University Scholar in the fall of 2005. Thanks to an Office of Undergraduate Research SURF grant funded by the Alan Bernstein Memorial Award, Kristine was able to spend the summer of 2006 completing interview research in Ghana with women in four rural communities. Kristine learned about the many ways that poverty and traditional beliefs affect malaria care for young children. She hopes to have the opportunity to pursue additional community health research on malaria in the future.

After graduation, Kristine will attend the University of North Carolina-Chapel Hill School of Medicine, where she will pursue an M.D. and a Masters in Public Health. She plans a career in the field of international maternal and child health.

Kristine is incredibly grateful for all the support she has received these past four years. Firstly, she would like to thank her advisors, Dr. David Knecht, Dr. Rafael Pérez-Escamilla, and Dr. Gugler for their mentorship and for sharing their love of research. She thanks the Honors Program for providing her with financial support and with so many wonderful opportunities to pursue her interests. Kristine would also like to thank her entire family, but especially her mother, father, and younger brother Jeff, for all their help, thoughtful criticism, and love.

KEVIN TYLER

KEVIN TYLER is receiving a Bachelor of Science in Engineering for Electrical Engineering with a minor in Mathematics. Kevin is a native of Connecticut, grew up in Bolton and then moved to Storrs. He attended E O. Smith High School. He enjoys running, coffee, and problem solving.

Kevin is an Honors Scholar and was named a University Scholar in the Fall of 2004 as a sophomore. His project involves collaborating with Dr. Rhea Paul, from the Yale Child Study Center's Developmental Disabilities Clinic, to support research in developing an interactive toy for improving communication issues for children with autism. Kevin's work with Dr. Paul has also been guided by UConn's own Dr. Monty Escabí, Dr. Zhijie Jerry Shi, and Dr. Frank Musiek. Kevin draws his inspiration for this project from his sister Melissa, who proudly watches him from the audience today.

Kevin received a Summer Undergraduate Research Fund (SURF) grant from the UConn Honors Program to support his work at the Yale Child Study Center in New Haven, during the Summer of 2005. He was named a Deligeorges Family Scholarship recipient for his pursuit of biomedical engineering research for the 2005/2006 academic year. The Dawn-Marie Sullivan Scholarship from the School of Engineering and an Academic Achievement Scholarship from the University supported his stay at UConn. In his final year, Kevin received the Engineering Outstanding Senior Award in Electrical Engineering for 2007.

Kevin would like to acknowledge those who have helped him along the way. First, he is grateful to the exceptional faculty and students in the School of Engineering. He would also like to thank Dr. Rhea Paul and his other University Scholar advisors. Last but not least, he would like to thank his family and friends—especially Mom, Dad, Gram, Bruce, Beth, Melissa, Greg, Sarah, Clare, Stuart, Jon, Randy and Kishori—for their ongoing help.

HONORARY DEGREE RECIPIENTS AND COMMENCEMENT SPEAKERS

CHARLES N. BERTOLAMI, D.D.S., D.MED.SC.

Health Center Commencement Speaker

DR. CHARLES N. BERTOLAMI is a nationally recognized expert in the field of connective tissue repair and treatment of disorders of the temporomandibular joint. He is the Dean of the School of Dentistry at the University of California, San Francisco, where he also serves as Professor in the Department of Oral and Maxillofacial Surgery. Dr. Bertolami earned his Doctor of Dental Surgery degree with highest honors from the College of Dentistry, Ohio State University in Columbus, and his Doctor of Medical Sciences degree from Harvard University in Cambridge, Massachusetts. He completed his residency in Oral and Maxillofacial Surgery at Massachusetts General Hospital in Boston. He then accepted a position as Assistant Professor in the Department of Oral and Maxillofacial Surgery, School of Dental Medicine, and in the Department of Surgery, School of Medicine, at the University of Connecticut Health Center. Dr. Bertolami went on to serve as Assistant Professor in the Department of Oral and Maxillofacial Surgery at the Harvard School of Dental Medicine in Boston. In 1989, he moved to the West Coast, where he held numerous appointments at the School of Dentistry, University of California at Los Angeles, having reached the position of Associate Dean for Faculty Affairs before leaving for his current position as Dean of the UCSF School of Dentistry.

Dr. Bertolami has more than 25 years of experience and commitment to oral health. He has served as vice president and president of the American Association for Dental Research, and was recently elected President-Elect of the American Dental Education Association. He is a Diplomate of the American Board of Oral and Maxillofacial Surgeons, and a fellow of the American College of Dentists, the International College of Dentists, the Academy of Dentistry International and the Pierre Fauchard Academy. Dr. Bertolami co-chaired the National Institute of Dental and Craniofacial Research Workshop on Biometrics, Tissue Engineering and Biomaterials, and later its Blue Ribbon Panel on Research Training and Career Development. He served as a member of the Dental Panel for the Committee on Monitoring the Changing Needs for Biomedical Research Personnel of the National Research Council, National Academy of Sciences, exploring current and future needs of dental biomedical and behavioral research personnel. Dr. Bertolami serves on several editorial boards, including the Journal of Oral and Maxillofacial Surgery, is a member of numerous professional organizations and committees, and is the recipient of many awards and honors. An outstanding speaker, this will be Dr. Bertolami's ninth commencement address.

ROBIN H. BOGNER, R.PH., PH.D.

School of Pharmacy Commencement Speaker

DR. ROBIN H. BOGNER is Associate Professor of Pharmaceutics in the Department of Pharmaceutical Science at the University of Connecticut; she is also a member of the University's Institute of Materials Science. Dr. Bogner received her Bachelor of Science degree in Pharmacy from Rutgers University, her Master of Science in Pharmaceutical Science from the University of Iowa, and her doctorate in Pharmaceutics, with minors in Physical Chemistry and Chemical Engineering, from Rutgers University. Joining the University of Connecticut faculty in 1989, Dr. Bogner teaches laboratory and lecture courses (including three electives that she developed) in the Professional Pharmacy program and the Pharmaceutical Sciences graduate programs, has served on the Honors Program Board of Directors, and continues to serve as faculty advisor to Lambda Kappa Sigma (LKS), an international fraternity focused on women in pharmacy. Dr. Bogner is also a leading member of her profession at the national level, and has served as the chair of the Teachers of Pharmaceutics Section and on the Graduate Education and Research Committee of the American Association of Colleges of Pharmacy, chair of the Pharmaceutical Technologies Section of the American Association of Pharmaceutical Scientists, and as a member of the FPGEE Review Committee for the National Association of Boards of Pharmacy. She currently serves on the Pharmacy Compounding Expert Committee of the United States Pharmacopeia and is on the editorial boards of American Journal of Pharmaceutical Education, Pharmaceutical Research, and Pharmaceutical Development and Technology. Dr. Bogner's research, service and teaching have earned a number of distinctions within the University: her research group received the Fred Simon Award for a paper in the PDA Journal of Pharmaceutical Science and Technology, she was named LKS Advisor of the Year in 2005, and this year, students in the Class of 2007 selected Dr. Bogner as the School of Pharmacy Teacher of Year.

COMMENCEMENT

HONORARY DEGREE RECIPIENTS AND COMMENCEMENT SPEAKERS

CHRISTOPHER KEEN DONOVAN, CLASS OF 1969

School of Fine Arts Commencement Speaker

Three-time Emmy-nominated director and technical director CHRISTOPHER KEEN DONOVAN began his career as a student in the Department of Dramatic Arts at the University of Connecticut. Upon completion of his Bachelor of Fine Arts in Theatre in 1969, Mr. Donovan began his professional career with WHCT-TV in Hartford, Connecticut, and following completion of his graduate work at the University of California, Los Angeles School of Theatre, Film and Television, he became the manager of West Coast cable programming for the Times Mirror Corporation. Mr. Donovan then went on to become president of the California Cable Television Association. He owned his own production company for a time before becoming a freelance producer and director, first working on a series of situation comedies.

Mr. Donovan's production work earned an unprecedented 25 national cable television awards for excellence in broadcasting and today he enjoys a reputation as one of Los Angeles' top producers and directors. His credits include crew work on television's Home Improvement, Charles in Charge and Ad Lib as well as Mr. Wrong (video insert). Some of his recent production credits include The 20th IFP Independent Spirit Awards (2005) and the 2006 Independent Spirit Awards, Paradise Hotel, The Player and Dinner for Five. His credits as a director include multiple television episodes of Sherman Oaks, Greed, Emmy-nominated Dinner for Five, Who Wants to Marry My Dad and I Want to be a Hilton, as well as The Most Outrageous Game Show Moments (2 & 4), Lifetime Presents: Disney's American Teacher Awards and the 4th, 5th & 6th Annual Family Television Awards. Since 1999, Mr. Donovan has been the director of the prestigious Golden Globe Awards, the second most-watched award show in the world.

SHIRIN EBADI

School of Law Commencement Speaker

An Iranian lawyer and human rights activist, SHIRIN EBADI was awarded the Nobel Peace Prize in 2003 for her efforts to advance democracy and human rights, and especially for her work in behalf of the rights of women and children. She is the first Iranian and the first Muslim woman to receive the prize. Ms. Ebadi is particularly admired by the general public in her own country for her legal advocacy on behalf of victims of the conservative faction's attack on freedom of speech and political freedom, and is recognized globally for her work in support of the rights of refugees. The founder and leader of the Association for Support of Children's Rights in Iran, Ms. Ebadi has written several academic books and articles focused on human rights. Among her works translated into English are *The Rights of the Child: A Study of Legal Aspects of Children's Rights in Iran*, published with support from UNICEF, and *History and Documentation of Human Rights in Iran*. In 2006, Random House published her memoir, *Iran Awakening*, co-authored with the young Iranian-American Azadeh Moaveni.

Ms. Ebadi earned her law degree from the University of Tehran, where she later served on the faculty. From 1975 to 1979 she served as President of the City Court of Tehran. As such she was one of the first female judges in Iran, but she was forced to resign after the revolution in 1979. Widely known as an advocate of an interpretation of Islamic law which is in harmony with concepts of democracy, equality before the law, religious freedom, and freedom of speech, Ms. Ebadi has been involved in several controversial political cases. She was the attorney of the families of the writers and intellectuals who were victims of the serial murders in 1999-2000. She has worked actively and successfully to reveal the principals behind an attack on the students at Tehran University in 1999, in which several students died. As a consequence of her advocacy, Ms. Ebadi has been imprisoned on numerous occasions.

WOLFGANG KETTERLE, Ph.D.

*Doctor of Science
Graduate Ceremony Commencement Speaker*

One of the world's foremost scientists, DR. WOLFGANG KETTERLE was awarded the Nobel Prize in Physics in 2001. Born in Germany, Dr. Ketterle received a diploma (equivalent to an American master's degree) from the Technical University of Munich, and a Ph.D. in Physics from the University of Munich. He did postdoctoral work at the Max-Planck Institute for Quantum Optics in Garching and at the University of Heidelberg in molecular spectroscopy and combustion diagnostics. Dr. Ketterle joined the Department of Physics at the Massachusetts Institute of Technology in 1990, and since 1998 has held the title of John D. MacArthur Professor of Physics.

The work for which Dr. Ketterle was awarded the Nobel Prize builds on work of the Indian physicist Bose and Albert Einstein, referred to as the "Bose-Einstein condensation in an atomic gas," and his own contributions have been characterized as "a remarkable feat of scientific endeavor." In addition, the Nobel Prize recognizes his contribution to the first realization of an atom laser. Dr. Ketterle has also developed important tools to advance research in physics. His work, along with that of his colleagues, has led to a new subfield of atomic physics.

Dr. Ketterle has characterized his approach to discovery as "curiosity-driven science." His other awards include a David and Lucile Packard Fellowship (1996), the Rabi Prize of the American Physical Society (1997), the Gustav-Hertz Prize of the German Physical Society (1997), the Benjamin Franklin Medal in Physics (2000), and the Knight Commander's Cross of the Order of Merit of the Federal Republic of Germany (2002). The University of Connecticut is honored to welcome Dr. Ketterle as this year's Graduate Commencement speaker.

JOHN KRENICKI, CLASS OF 1984

Doctor of Science

As President and CEO of GE Energy, JOHN KRENICKI is one of the world's foremost leaders in a field of vital importance to economic growth, quality of life, and, ultimately, national security. Son of a tool-and-die maker, a native of New Jersey, Mr. Krenicki came to UConn in 1980 to begin his undergraduate education. Four years later he received a Bachelor of Science degree in Mechanical Engineering; equally notable is the fact that while at UConn Mr. Krenicki met his future wife, Donna Samson Krenicki, who received her degree, a Bachelor of Fine Arts in the Class of 1984. Mr. Krenicki later earned a Master of Science degree in Management from Purdue University.

In the twenty-three years since he left UConn, degree in hand, Mr. Krenicki's career has taken him from GE's Technical Marketing Program through a series of progressively more notable leadership roles, including service as CEO of GE-Bayer Silicones (a GE joint venture) in Germany, GE Company Officer and Vice President and General Manager of the Americas for GE Lighting, Vice President and General Manager of GE Superabrasives, President and CEO of GE Transportation Systems, Senior Vice President of GE and President and CEO of GE Plastics, President and CEO of GE Advanced Materials, and, for the past two years, President and CEO of GE Energy. Over time he has established a reputation for turning deeply challenged units around. Equally notable is his commitment to diversity in the engineering workforce. The latter aspect of his leadership, both within his own organization and in the wider profession, is illustrated by his instrumental role in establishing a major endowment in our own School of Engineering for creation of the GE Advanced Materials Endowed Scholar Program Fund, which focuses particularly on African American engineering students at UConn. In this and other ways Mr. Krenicki has maintained close ties to his alma mater. The School of Engineering recognized his commitment with the Distinguished Engineering Alumni Award in 2000 and induction into the Academy of Distinguished Engineers in 2003.

RAY NEAG, CLASS OF 1956

Neag School of Education Commencement Speaker

RAY NEAG is the Co-Founder and retired Executive Vice President and Vice Chairman of Arrow International, Inc., a leading manufacturer of disposable critical care and cardiac products for the medical industry. Mr. Neag continues to serve as a member of the company's Board of Directors. He received a bachelor's degree in Political Science from the University of Connecticut in 1956 and a degree in Foreign Trade from the American Graduate School of International Management, and is a graduate of the Advanced Management Program at Harvard University. Mr. Neag also received an honorary doctorate from UConn in 2001. He is a member of the Neag School of Education Advisory Board and serves on the Leadership Advisory Committee for the Cardio Signature Program at the Health Center. Additionally, Mr. Neag has served as a member of the Chancellor's Executive Roundtable for the Health Center. He is an Emeritus Director of the UConn Foundation Board of Directors, having served from 1996 to 2001, and he was Vice Chair of the University's successful fundraising campaign, Campaign UConn. In October 2004, Mr. Neag received the University Service Award from the UConn Alumni Association.

Mr. Neag and his wife Carole have been among the University's most generous friends, focusing particular support on programs in education and health care. In February of 1999 Mr. Neag provided a \$23 million gift to the University, with \$21 million devoted to the School of Education. Now proudly bearing his name, the Neag School of Education is building on a foundation of excellence as it moves to a position of national leadership. More recently, in 2004, Mr. and Mrs. Neag made a \$10 million gift to the Cancer Center at the Health Center, which was named The Carole and Ray Neag Comprehensive Cancer Center. This past year, Mr. and Mrs. Neag donated \$2.5 million for a Helical TomoTherapy Hi-Art system, making the Health Center the first facility in New England to offer this revolutionary new cancer treatment. The Neags also established several endowments for student and faculty support.

Active in the community, Mr. Neag is a Director of Saint Joseph Hospital Foundation and a former Trustee of the Community General Hospital in Reading, PA.

MARK R. SHENKMAN, CLASS OF 1965

Doctor of Humane Letters

For over 30 years, Mark R. Shenkman has been a Wall Street pioneer located at the epicenter during the evolution and rapid growth of leveraged finance markets. Today he is considered to be a preeminent leader in the high yield and leveraged loan markets and is continually sought after for his market analysis. A native of Rhode Island, Mr. Shenkman graduated from Monson Academy in 1961, the year in which his family moved to West Hartford, Connecticut. He received his Bachelor of Arts degree in Political Science from the University of Connecticut in 1965, and went on to earn a Master of Business Administration degree from The George Washington University in 1967.

Upon graduation from UConn, Mr. Shenkman was commissioned a Second Lieutenant in the United States Army. As the first officer assigned to the U.S. Army Computer Systems Command, he earned the rank of First Lieutenant and was awarded the Army Commendation Medal. Upon leaving military service in 1969, Mr. Shenkman began a business career that would, in its early years, take him from positions at New England Merchants Bank and Stone & Webster Securities Corporation in Boston, to Fidelity Management and Research Company, where he became portfolio manager during the early development of the high yield bond market. In 1979 Mr. Shenkman established one of the first high yield research, trading and sales departments on Wall Street at Lehman Brothers; joining First Investment Asset Management in New York as President and Chief Investment Officer in 1983, he managed the largest high yield mutual fund at that time. Mr. Shenkman founded Shenkman Capital Management, Inc. in July 1985 and is currently President and Chief Investment Officer. Starting with one \$50 million account, Shenkman Capital has grown into one of the largest high yield firms in the world with assets of over \$10 billion and offices in Stamford and New York City. As an industry leader, Mr. Shenkman has shared his knowledge with analysts and students throughout the financial community: in 1999 he co-authored and edited one of the most comprehensive textbooks in his field, *High Yield Bonds: Market Structure, Portfolio Management, and Credit Risk Modeling*.

MARK R. SHENKMAN, CLASS OF 1965

Continued

Over the course of his adult life, Mr. Shenkman has been an active and engaged public citizen, and a loyal alumnus of the schools where he earned his education. He served for ten years on the Board of Directors to the UConn Foundation, and continues to be a member of its Investment Committee. He is a member of the Board of Trustees at The George Washington University, has been Vice Chairman of the Board at Wilbraham & Monson Academy for the past 38 years, and currently serves on the College of William & Mary, Mason School of Business Foundation Board of Directors. He is also on the Board of Directors of the Hillel Foundation in Washington D.C.

FAY WELDON

Doctor of Letters

Novelist, playwright, and screenwriter, FAY WELDON is one of the leading literary figures of the contemporary era. Her vast body of work includes more than twenty novels, five collections of short stories, several children's books and many non-fiction pieces, as well as plays written for television, radio and the stage. Many Americans came to know her work initially through the television series *Upstairs, Downstairs*, whose pilot and several additional episodes she authored in the 1970s. In the years since, such novels as *Life and Loves of a She-Devil*, *Female Friends*, *Remember Me*, *The Bulgari Connection* and many others have attracted a wide and loyal readership in her home country of Great Britain, here in the United States, and across the English-speaking world. Her most recent novel, *She May Not Leave*, was published last year and her latest book is a non-fiction work titled *What Makes Women Happy*.

Born in Great Britain, Ms. Weldon spent her early childhood in New Zealand and returned to England at the age of ten. She studied Economics and Psychology at the University of St. Andrews, worked briefly for the British Foreign Office, and then began her writing career as a journalist and advertising copywriter. Her first novel, *The Fat Woman's Joke*, appeared in 1967, and over the past four decades her work has led to several honors: the PEN/MacMillan Silver Pen Award (for her novel *Wicked Women*), Chair of Judges for the Booker Prize for Fiction, an honorary doctorate from the University of St. Andrews, and designation as a C.B.E. (Commander of the British Empire). Ms. Weldon's work often focuses on the challenges and complexities of women's lives, and also addresses universal economic, political, and scientific concerns. She is a Professor of Creative Writing at Brunel University. During the Spring 2006 semester she was Visiting Writer at the University of Connecticut, where she worked with many of our students and gave several standing-room-only lectures. Today, she returns to our University to receive a much-deserved honorary degree and deliver our Commencement address.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on *gold and blue* ribbons at the commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on *blue and white* ribbons at the commencement exercises.

With Distinction

"With Distinction" is the University's designation for degrees earned by students who give evidence of significant achievement in their major fields. Candidates for the graduation "with Distinction" wear medals on *blue* ribbons at the commencement exercises.

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation is given. Questions or concerns regarding names not listed should be directed to the Office of the Registrar.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

DOCTOR OF AUDIOLOGY

On the cover of this Commencement book is the official seal of the University of Connecticut. The University's seal depicts the ancient and mighty oak. For Connecticut and the University alike, the oak's symbolism is significant. Beautiful and sacred, the venerable oak is synonymous with wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, his emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. The UConn Husky dog is the beloved and official mascot of the University's athletic program. While the Husky symbolizes the vitality and excitement of campus life, the oak seal communicates the broader mission of the University as a center for the pursuit, the creation and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaching toward a limitless future.
