Commencement

M A Y 2 0 0 9

WELCOME FROM THE PRESIDENT

Welcome to the May, 2009 Commencement Ceremonies at the University of Connecticut. The Commencement Ceremony is one of the proudest moments in a student's life – and, perhaps even more so, in the life of her or his family. I guarantee that you'll remember this day forever.

It's also a proud day for the University of Connecticut. Your achievements and successes are substantial. The university is better today because you were here, contributing your special combination of skills, ambitions and individual personality to our academic community. I hope that you will always remember your time here with affection, and that you always remain united with the University of Connecticut as proud alumni.

John F. Kennedy, addressing the students at Vanderbilt University in 1963, said, "You have responsibilities, in short, to use your talents for the benefit of the society which helped develop those talents. You must decide, as Goethe put it, whether you will be an anvil or a hammer, whether you will give to the world in which you were reared and educated the broadest possible benefits of that education."

Graduates of the University of Connecticut, you've met the rigorous standards set by your discipline and your faculty mentors. You've mastered a body of knowledge that will lead to new opportunities and new associations. These are real accomplishments, and they mean something.

Personally it's a joy to celebrate that achievement with you, and I hope you will carry with you, for a long time to come, every ounce of our heartfelt pride in your success here today. I wish you all the very best, wherever your path next takes you.

With my best wishes and my appreciation,

Michael J. Hogan
President
University of Connecticut

Victor A. Yanchick, Ph.D.

Victor A. Yanchick was appointed Dean and Professor of the School of Pharmacy at Virginia Commonwealth University, Medical College of Virginia Campus, on July 1, 1996. Prior to his appointment at Virginia Commonwealth University he served for eleven years as Dean and Professor of Pharmacy at The University of Oklahoma Health Sciences Center College of Pharmacy. He began his academic career in 1968 as an Assistant Professor of Pharmacy at The University of Texas at Austin. He remained at The University of Texas until 1985, holding various administrative positions including Assistant Dean for Academic Affairs and Associate Dean. He earned his Bachelor of Science degree in pharmacy and a Master of Science degree in Hospital Pharmacy from The University of Iowa. He also completed an ASHP-accredited residency program in hospital pharmacy from the University Hospitals in Iowa City, Iowa.

Dr. Yanchick received his Ph.D. from Purdue University in 1968.

In 1996 Dr. Yanchick was named Distinguished Alumnus of The School of Pharmacy and Pharmacal Sciences at Purdue

University where he also served as a member of the School's Professional Council. In 2004 he was named the 2004 Distinguished Alumnus of the College of Pharmacy at The University of Iowa. In 2001 he was elected to the National Academies of Practice. He also received numerous teaching awards both at The University of Texas and The University of Oklahoma and has developed and taught courses in geriatric pharmacotherapy and antimicrobial pharmacotherapy at both the University of Texas and the University of Oklahoma. Dr. Yanchick served as Chair of the Council of Deans of American Association of Colleges of Pharmacy from 2003-2006 and is currently serving a third term as a member of the Association's Board of Directors. He was inducted as President of the American Association of Colleges of Pharmacy July 2008 and will officially serve this term through July 2009.

He has published many articles in the areas of geriatrics and gerontology, authored four book chapters, and has given over 200 invited presentations to professional groups and conferences. He has supervised the M.S. or Ph.D. programs of 20 graduate students.

HONORARY DEGREE RECIPIENT AND GRADUATE SCHOOL SPEAKER

Robert J. Sternberg

Doctor of Science

Robert J. Sternberg, Dean of the Tufts School of Arts and Sciences, is an internationally recognized scholar, teacher, and academic administrator in the fields of Psychology, Education, and Management.

Dr. Sternberg received his Ph.D. from Stanford University and his B.A. summa cum laude and Phi Beta Kappa, with honors with exceptional distinction in psychology, from Yale University.

In addition to his appointment as dean of Tufts' School of Arts and Sciences, Dr. Sternberg is also a professor of psychology and Director of the PACE (Psychology of Abilities, Competencies and Expertise) Center at Tufts. Prior to his appointment at Tufts, he was the IBM Professor of Psychology and Education and Professor of Management at Yale University.

A member of the American Academy of Arts and Sciences, Dr. Sternberg's research in human cognition covers a wide range of areas, including intelligence, creativity, wisdom, leadership, love and close relationships, and hate. His theories

of cognitive styles are widely discussed by academic scholars and by the popular press, especially his criticism of intelligence testing as too narrowly measuring the full human intelligence component. He has written over 1,000 journal articles, book chapters, and books, and his research has received over \$18 million in government and other grants and contracts.

Robert J. Sternberg is a member of the editorial boards of numerous journals, including *American Psychologist*. He holds ten honorary doctorates from one North American, one South American, and eight European universities, and additionally holds an honorary professorate at the University of Heidelberg in Germany. He is a past-president of the American Psychological Association (APA) and the Eastern Psychological Association (EPA), and has served on the Boards of Directors of the APA, APA Insurance Trust, and American Psychological Foundation. He is currently on the Boards of the American Association of Colleges and Universities and the Eastern Psychological Association.

2009 BOARD OF TRUSTEES DISTINGUISHED PROFESSORS

Designation as a Board of Trustees Distinguished Professor is the highest honor that the University bestows on faculty members who have demonstrated excellence in the three academic missions of the University. This year, three faculty members are recognized. To be chosen, a faculty member must have spent a significant portion of her or his career at UConn, have made significant academic contributions while in the University's service and be actively engaged scholars, strong in all three areas of research, teaching, and service.

Gregory J. Anderson, Ph.D.

Dr. Gregory J. Anderson, Professor of Ecology and Evolutionary Biology and the 1997 Alumni Association Distinguished Professor, served as Head of the Department of Ecology and Evolutionary Biology from 1990 through 2005 and as Vice Provost for Research and Graduate Education from 2005 through 2008.

Dr. Anderson is an internationally recognized expert on the evolutionary relationships of plants (especially of plants in the potato family), the evolution of plant reproductive systems, and the use of plants and plant products in traditional cultures in Latin America. His research has taken him to all the countries of Mesoamerica, as well as to Peru, Bolivia, Chile, Argentina, Australia, South Africa, the Antilles, the Canary Islands, the Azores, and the Caribbean. In more than 100 peer-reviewed publications and in many symposium contributions and papers at professional meetings, he has provided new insights and interpretations that significantly advanced scientific knowledge of plants. His scholarly contributions have been widely recognized, most notably by a Merit Award and a Centennial Award from the Botanical Society of America.

Dr. Anderson has been the president of four scientific societies: the Society of Economic Botany, the Botanical Society of

America, the American Society of Plant Taxonomists, and the American Institute of Biological Sciences, and he has served on the editorial board of six different scholarly journals. He has been a member of the Board of Trustees for the Joshua's Tract Conservation and Historic Trust for eight years, Vice-Chair of the Board for seven years, and long-serving Sanctuary Caretaker. He also served as co-chair of the Connecticut State House Task Force on Fuel Diversification. He received his B.S. in 1966 from St. Cloud State University, his M.S. in 1968 and Ph.D. in 1971 from Indiana University, Bloomington.

Since joining the University of Connecticut in 1973, Professor Anderson has made extraordinary contributions to graduate and undergraduate teaching. He has supervised eight post-doctoral research associates, 12 Ph.D. students, and ten M.S. students. His students include faculty members at McGill University (Canada), San Francisco State University, and Victoria University of Wellington (New Zealand). A former post-doctoral research associate was recently elected to the Academia Nacional de Ciencias (Argentina). Dr. Anderson has also been a very effective classroom teacher. Students have rated him among the best teachers at the University of Connecticut, describing him as a great lecturer and mentor, extremely helpful both in and out of class.

Diane J. Burgess, Ph.D.

Dr. Diane J. Burgess is Professor of Pharmaceutics in the Department of Pharmaceutical Sciences at the University of Connecticut, on the Storrs campus. Dr. Burgess is an internationally recognized scholar in the area of drug delivery and is particularly recognized for her research that has led to the development of novel drug delivery systems and biosensors, as well as the development of analytical methods and regulatory standards for drug delivery systems and drug/device combination products.

She is currently developing a miniaturized, implantable biosensor for metabolic monitoring, and methods to control the tissue response to this implantable device. Dr. Burgess is also investigating the intracellular trafficking of gene therapeutics. She has over 100 refereed research publications. She has given

over 330 research presentations at major international scientific meetings; over 150 invited lectures and presentations, and ten keynote addresses. Her research has attracted \$10 million in grant funding.

Since joining the University of Connecticut, Dr. Burgess has made outstanding contributions to graduate and undergraduate education. She is a dedicated teacher and recently has led the School of Pharmacy's study abroad efforts and, in three years, has developed five programs in China, Spain and France, including a sister relationship with the School of Pharmaceutical Sciences, Peking University, Beijing, PRC. She was a two-time recipient of the School of Pharmacy Outstanding Teacher of the Year Award (1992 and 2005). Dr. Burgess has served as major advisor for four M.S. and 15

Ph.D. graduates as well as 14 post-doctoral fellows. She is currently major advisor to eight Ph.D. candidates and two post-doctoral fellows.

Dr. Burgess was the 2002 President of the American Association of Pharmaceutical Scientists (AAPS), the premier international organization of pharmaceutical scientists with over 13,000 members globally. She is an AAPS fellow. She is currently the President Elect of the Controlled Release Society, an international organization that crosses a variety of disciplines which have interest in the science of delivery of bioactive molecules. She is a member of the United States Pharmacopeia

(USP) Biopharmaceutics Expert committee and chairs the USP Advisory Panel on Injectables. Professor Burgess is editor of the *International Journal of Pharmaceutics* and of the *Journal of Drug Delivery Science and Technology*. She also edited *AAPS PharmSci* (1999 – 2005) and serves on the editorial boards of seven other international journals. In 2001 she undertook a sabbatical at the Office of Testing and Research at the Center for Drug Evaluation and Research, U.S. Food and Drug Administration. Professor Burgess received her B.Sc. degree in Pharmacy from the University of Strathclyde, U.K. (1979) and her Ph.D. in Pharmaceutics from the University of London, U.K. (1984).

Diane C. Lillo-Martin, Ph.D.

Dr. Diane C. Lillo-Martin is Professor of Linguistics in the College of Liberal Arts and Sciences, at the Storrs campus. Dr. Lillo-Martin is internationally recognized for her research on the structure and acquisition of American Sign Language (ASL). Her research addresses questions of the nature of language and the human capacity to acquire language, by exploring the sentence structure of ASL in comparison with other sign languages and with spoken languages. She tests hypotheses about the structure of ASL by examining the time-course of its acquisition by young Deaf children who are acquiring the language natively from their Deaf, signing parents, and by older Deaf children with delayed linguistic input. With her collaborators, she compares the acquisition and structure of ASL to that of Brazilian Sign Language, providing a rare, detailed cross-sign-language view. Dr. Lillo-Martin's research has been published in her four books, and in a long list of articles, chapters, and encyclopedia entries. Her research has been supported by major grants from the National Institutes of Health (National Institute on Deafness and other Communication Disorders) and the National Science Foundation. She received her B.A. in 1981 from California State University, Northridge, her M.A. in 1983 and Ph.D. in 1986 from the University of California, San Diego.

Since joining the University of Connecticut in 1986, Dr. Lillo-Martin has also made significant contributions to graduate and undergraduate education. She has supervised the work of 15

completed Ph.D. students (including two at other universities), and has served as an associate advisor for 39 others. Her students have gone on to academic and research positions in the U.S. and abroad. She frequently teaches a large section of an undergraduate course on Language and Mind, providing general education students with an introduction to generative linguistics. She also coordinates offerings in American Sign Language studies, and advises students with individualized majors including topics such as ASL, counseling, artistic expression, family studies, and puppetry.

Dr. Lillo-Martin served as the Head of the Department of Linguistics from early 1995 through June 2007. She has also served on numerous University of Connecticut committees, including the University Senate (2003 – 2006, 2007 – 2010), chairing the Senate Scholastic Standards Committee (Fall 2008), Provost's Task Force on Teaching, Learning, and Assessment / Oversight Committee (2006 – present), CLAS Dean Search Committee (1994 – 1996), and many others. Her service to the field of Linguistics and beyond includes being Editor-in-Chief of the journal *Language Acquisition* (2004 – present), serving on the Executive Committee of the Linguistic Society of America (2005 – 2008), serving on grant review panels for NIH and NSF (2001 – present), chairing the LCOM Scientific Review Panel for NIH (2003 – 2005), and serving on the Board of Corporators of the American School for the Deaf (2008 – present).

Gary English

Gary English joined the faculty of the Department of Dramatic Arts in the School of Fine Arts at the University of Connecticut in 1988 as Associate Professor of Stage Design. He is the founding Artistic Director of the Connecticut Repertory Theatre (CRT) and has served as Head of the Department of Dramatic Arts since 1993. Under his leadership, CRT has become an important artistic and cultural resource for central and eastern Connecticut. Serving more than 15,000 patrons annually, CRT is the professional producing arm of the Department of Dramatic Arts, producing theatre that features professional actors, resident faculty and advanced student artists in UConn's highly respected MFA Acting and Design/Tech programs as part of CRT's Mainstage Series. Gary was elected faculty representative to the University of Connecticut Board of Trustees in 1997, served on the university-wide Academic Plan Committee (2002-2003) and has served as a member of the University of Connecticut Senate Executive Committee. Gary English was appointed Interim Dean of the School of Fine Arts at the University of Connecticut July 1, 1999 and served in this capacity through August 1, 2000. He has also served on the faculties at the State University of New York and at Carnegie-Mellon University. In 2003, Gary English was named a University of Connecticut, Board of Trustees Distinguished Professor, the highest academic award at the University of Connecticut. Gary English holds a Bachelor of Fine Arts degree in Drama from the University of Arizona and a Master of Fine Arts in Stage Design from Northwestern University.

With numerous productions to his credit in his areas of expertise in stage directing and stage design, Gary English adds recent directing credits of William Gibson's *The Miracle Worker* and *American Primitive* produced at the Berkshire Theatre Festival at Stockbridge, Massachusetts, to his impressive repertoire. Other projects include, Shakespeare's *Julius Caesar*, *A Little Night Music*, *Carousel*, *Man of La Mancha*, which received the 1997 Best Musical Award for the Connecticut Critics' Circle,

Wings, the Musical which was nominated for Best Direction by the Connecticut Critics' Circle, *Iphigenia and Other Daughters* and *Our Country's Good* at CRT. As a designer, his work includes scenery and costumes for Off-Broadway, television and over 70 productions at many of America's leading repertory theatres, including Milwaukee Repertory Theatre, Cincinnati Playhouse In the Park, Pittsburgh Public Theatre, Buffalo Studio Arena, Stage West, Merrimack Repertory Theatre, George Street Playhouse, Barter Theatre, Brunswick Music Theatre, American Stage Festival, Pittsburgh Civic Light Opera and North Shore Music Theatre. His most recent design credits include *Rosencrantz and Guildenstern are Dead*, *King Lear*, and a new production of *The Dead*, based on the short story by James Joyce, at Salt Lake City's Pioneer Theatre Company, *Of Mice and Men* at the Barter Theatre, Tom Dudzick's *Over the Tavern* at the Pittsburgh Public Theatre, *My Fair Lady* at the Berkshire Theatre Festival, and the world premieres of Beth Henley's *L-Play* and *Good Company*, a new musical by Sheldon Harnick, also at the Berkshire Theatre Festival. Gary English's *The Olive Grove*, a work inspired by the historical invasion of Melos and Thucydides' *Melian Dialogue*, was a featured stage reading at the April 7, 2006 Humanities Day organized by the Humanities Institute at the University of Connecticut and was workshopped at the Clarence Brown Theatre in Tennessee in January. This work was also a part of a mini-marathon of new and published plays in September 2006 at the Founder's Theatre in Lenox, Mass.

Gary English is currently on the Board of Directors serving as Immediate Past President for U/RTA, University/Resident Theatre Association. He is a Full member of United Scenic Artists Local #829, and The Society of Stage Directors and Choreographers. He served as Commissioner of Scene Design for the United States Institute for Theatre Technology, USITT. He is a member of the National Theatre Conference.

The Honorable Mayor William Finch

Agricultural Economics and Rural Sociology, B.S. 1979

Elected Mayor of Bridgeport in November 2007 after serving seven years in the State Senate representing the 22nd Senatorial District, Bill Finch is an established political leader.

Bill Finch grew up in Trumbull and Bridgeport. He received a Bachelor of Science degree in Agricultural Economics and Rural Sociology from the University of Connecticut, and while he was there served as the student representative to the University's Board of Trustees and was elected President of the undergraduate student government.

Mayor Finch began his political career in Bridgeport, where he served as a City Council Member for nine and one-half years. He developed a strong record of cutting taxes, helping to create new jobs and enhancing public safety by voting to add more police officers to the force and promoting programs such as gun safety lock distribution. He helped to negotiate the construction of the Bluefish Baseball Stadium, the Arena at Harbor Yard, Steel Point, and other key projects.

In 2000, Bill was elected State Senator for the 22nd district, representing Bridgeport, Trumbull, and Monroe. He served in the legislature as Senate Chairman of the Environment Committee and as Senate Vice Chairman of the Transportation

Committee. He was also a member of the Education Committee and the Finance, Revenue & Bonding Committee. His legislative priorities included property tax reform, smart growth initiatives, education funding, expanding the Husky healthcare initiative, combating underage drinking, transportation issues, and gun control and crime prevention.

During his first 14 months as Mayor of Bridgeport, Bill has focused on tax reform, professionalizing city government, stabilizing the city's finances and making Bridgeport a cleaner and greener city by signing his first Executive Order to Promote Sustainability in the Park City. A firm believer in the promise the Park City holds as a transit-oriented development hub, the Mayor continues to push economic development projects forward which will help position the city to take advantage of development opportunities when the economy turns around. The Mayor was recognized for his tax reform efforts with the Regional Impact Award by the Bridgeport Regional Business Council in 2008. In April 2009, the Mayor's dedication to the small business sector in the City of Bridgeport, earned him the prestigious Small Business Advocate Award presented by PartnerAmerica™, a public/private partnership of The United States Conference of Mayors and American Management Services.

Richard L. Schwab

Neag School Dean August 1997 – June 2008

Richard L. Schwab, Ph.D., a native of East Haddam, Connecticut and a UConn alum, began his career in education as a history teacher in Chelmsford, Massachusetts. He went on to earn both a master's degree and a doctorate in educational administration at UConn, before spending 10 years on the education faculty at the University of New Hampshire. He spent the next eight years at Drake University in Des Moines, Iowa, where he served three years as head of its Department of Educational Administration, then five years as Dean of the School of Education.

Soon after arriving at UConn in 1997, he worked with School of Education faculty to craft and implement a strategic plan to raise the quality of programs, research and scholarship, while moving the school toward its goal of becoming one of the top education schools in the country. This effort sparked the interest of Ray Neag, a UConn alum and successful entrepreneur. His \$21 million gift to the School in 1999 was, at the time, the largest any school of education had ever received, and today remains the largest in UConn's history.

The Neag School's rise to national prominence during Dr. Schwab's tenure is supported by the 2009 *U.S. News & World Report* rankings — 1st among public schools of education on the East Coast and 12th among all public education schools in the U.S. Other measures of Dean Schwab's successful leadership include the school's endowment, which has steadily grown and currently supports three chairs and a professorship.

He is a member of the American Association of Colleges of Teacher Education and was recently presented with its Margaret B. Lindsey Award for Distinguished Research in Teacher Education. He serves on the National Commission on Teaching America's Future and has been elected to its board of directors. He is past president of the Council of Academic Deans for Research Education Institutions and has held leadership positions in numerous state and regional education organizations. Since 2005, he has served on the Quality Assurance Team for Teacher Education in the state of Qatar, United Arab Emirates. In 2006, he was honored by his undergraduate alma mater, Boston University, with the Ida M. Johnston Award for Outstanding Achievement and Service, and in 2008, received an award for Outstanding Service and Support from the Neag School of Education Alumni Society.

Dr. Schwab has researched, presented and published on issues related to teacher preparation, teacher and administrator education reform, educational technology, and occupational stress and health in educational organizations; most recently, he collaborated with Neag faculty on the book, *Portrait of a Profession: Teaching and Teachers in the 21st Century*, for which he served as co-editor.

In the fall, Dr. Schwab will return to his first love, teaching, in the Neag School's Department of Educational Leadership.

Timothy P. Shriver, an alumnus of the University of Connecticut, is the Chairman and Chief Executive Officer of Special Olympics. In that capacity, he serves 2.5 million Special Olympics athletes and their families in more than 180 countries. He has helped transform Special Olympics into a movement that focuses on acceptance, inclusion, and respect for individuals with intellectual disabilities in all corners of the globe.

In his 11 years of leadership at Special Olympics, Mr. Shriver has launched the organization's most ambitious growth agenda, leading to the recruitment of over 1.5 million new athletes around the world. He has worked with the leaders of China to initiate a thriving Special Olympics Program in their country and supported their efforts to bring the 2007 Special Olympics World Summer Games to Shanghai. He has also worked with world leaders such as Nelson Mandela, Bill Clinton, George Bush, Bertie Ahern, Rafiq Hariri, Thabo Mbeki, Julius Nyerere, Hosni Mubarak and Shimon Peres to advance the growth of the Special Olympics mission and vision while challenging nations to adopt more supportive and just policies. Mr. Shriver has spearheaded programs in developing or war-torn countries such as Afghanistan, Bosnia and Herzegovina, and Iraq.

Among his initiatives are Special Olympics Healthy Athletes, the world's largest public health screening and education program for people with intellectual disabilities, and special programs to promote inclusion and acceptance around the world. In 2007, he received the Lions Humanitarian Award, the highest accolade bestowed by the Lions Club International organization. Previous recipients include former President Jimmy Carter and Mother Teresa.

Before joining Special Olympics, Dr. Shriver created the New Haven Public Schools' Social Development Project, now considered the leading school-based prevention effort in the United States, and co-founded the Collaborative for Academic, Social and Emotional Learning (CASEL), the leading research organization in the United States in the field of social and emotional learning. Shriver currently chairs CASEL.

Timothy P. Shriver received a B.A., Yale University, 1981; Masters Degree, Religion and Religious Education, The Catholic University of America, 1988; Ph.D., Special Education, University of Connecticut, 1997. In 2004, Mr. Shriver was the recipient of the UConn Alumni Association's Graduate of the Last Decade (G.O.L.D.) award.

Sharon L. Nunes

Sharon Nunes is currently Vice President of Big Green Innovations (BGI) at IBM. Begun in 2006, BGI launches new IBM businesses that leverage the company's expertise in information technology and in materials and processing to solve critical environmental challenges. IBM's approach focuses upon collaborative innovation, highlighting the need for multiple parties to contribute to resolving the world's important problems. Since 2007, Sharon has led a worldwide team of IT and domain experts who are developing solutions in carbon management, photovoltaics and water management. Together with clients and partners, IBM is demonstrating how information technology plays a critical role in managing the world's water systems and in helping companies to lower their carbon emissions.

Sharon has held numerous executive positions leading new growth initiatives in IBM. During a one-year special assignment as Vice President of Technology, she worked with IBM's Chairman and the senior executive team to set the technical agenda for the company. She has held many managerial positions in IBM's Research and Development unit, led the launch of IBM's Computational Biology Center in 1997, and

was an executive leader of the Life Sciences business unit launched in 2000.

Sharon received her Ph.D. in Materials Science in 1983 from the University of Connecticut. She is a member of the UConn Engineering Advisory Board and the Board of Directors for the University of Connecticut Foundation. Sharon was a National Academy of Engineering "Frontiers of Engineering" fellow in 2000 and has served on the National Academy of Engineering "Engineer of 2020" advisory board. In 2006, she was inducted into the UConn Academy of Distinguished Engineers.

An ardent advocate for women in technology, Sharon has received IBM's Fran Allen Mentoring Award (2004) and a National Association for Female Executives "Women of Excellence" national award (2006). In 2009, she was a Women's History Month Honoree as one of the "Women Taking the Lead to Save our Planet." Sharon is a leader on the IBM Women in Technology team and a member of IBM's executive advisory council for the Society of Women Engineers. In June 2009, she will be inducted into the WITI (Women in Technology International) Hall of Fame.

SCHOOL OF NURSING COMMENCEMENT SPEAKER

Eleanor Krohn Herrmann

A scholar who exemplifies lifelong learning, Eleanor Krohn Herrmann, Ed.D., R.N., F.A.A.N., has taught generations of nursing students and current leaders and scholars about the giants of nursing on whose shoulders our alumni and faculty stand today.

Dr. Herrmann earned her B.S. in nursing from Adelphi University in New York, her M.S. in nursing from the University of Colorado, and both M.Ed. and Ed.D degrees from the Teachers College of Columbia University. She is also certified by the National Archives and Records Administration in Modern Archives Administration. She is professor emerita from the University of Connecticut, where she was a faculty member of the School of Nursing, as well as having taught at Yale University, University of Wyoming, University of Colorado, Syracuse University, and Cornell University.

As a nurse historian Dr. Herrmann has documented both the ephemeral and the enduring objects of nursing culture, including sheet music songs about nurses, the anatomically correct Mrs. Chase mannequin (created by a physician's wife of the same name), medical devices that have been replaced by newer technologies, and public monuments to nurses around the United States. As a curator of the University of Connecticut, School of Nursing's Josephine A. Dolan Collection of artifacts Dr. Herrmann has documented and expanded the nursing history materials assembled by nurse historian Josephine Dolan, acquiring many rare and unusual objects and ephemera. A personal commitment to the social justice dimensions of health care led Dr. Herrmann to Ecuador where she was instrumental in establishing the country's first university-level school of nursing curriculum under the auspices of Project Hope. She has served frequently as a consultant for the World Health Organization. Since 1969, she has had an ongoing relationship with the nursing profession in Belize, formerly

British Honduras on the Yucatan coast, as well as with several other countries in Central and South America.

Dr. Herrmann published the history of nursing education in Belize in her 1985 book, *Origins of Tomorrow*. Dr. Herrmann is a prolific author and editor, whose works include *Nursing in Society: A Historical Perspective* (published in 1983 with co-authors Josephine A. Dolan and M. Louise Fitzpatrick), *Turn-of-the-century Nursing Artifacts* (published in 1996), *Virginia Avenel Henderson: Signature for Nursing* (published in 1998), and *Capturing Nursing History: A Guide to Historical Methods in Research* (published in 2007 with co-author Sandra B. Lewenson), which received a 2008 Book of the Year Award from the *American Journal of Nursing*. Her numerous "Whatsit" articles in the *American Association of the History of Nursing Bulletin* have shed light on forgotten healthcare technologies.

Her service to the nursing profession, to the University of Connecticut, and to the field of nursing history has been enduring. Since her retirement, Dr. Herrmann has continued as curator of the Josephine A. Dolan Collection. She has served on editorial boards and review panels of *Nursing Outlook*, *Journal of History of Medicine and Allied Health*, *Image: Journal of Nursing Scholarship*, *Journal of Nursing History*, *Medical Heritage* and *Public Health Nursing*. She has served with distinction in the American Association for the History of Nursing, including service as president and board member, as well as service to the nursing honor society Sigma Theta Tau International and to the Connecticut Nurses Association, which in 1992 honored her with the Dolan Award for outstanding contributions to nursing education.

Through this gifted mentor, curator, and historian, all can see farther into the future of human health.

Sheila C. Bair

Chairman, Federal Deposit Insurance Corporation

Sheila C. Bair was sworn in as the 19th Chairman of the Federal Deposit Insurance Corporation (FDIC) on June 26, 2006. She was appointed Chairman for a five-year term, and as a member of the FDIC Board of Directors through July 2013.

Before her appointment to the FDIC, Ms. Bair was the Dean's Professor of Financial Regulatory Policy for the Isenberg School of Management at the University of Massachusetts-Amherst since 2002. Other career experience includes serving as Assistant Secretary for Financial Institutions at the U.S. Department of the Treasury (2001 to 2002), Senior Vice President for Government Relations of the New York Stock Exchange (1995 to 2000), a Commissioner and Acting Chairman of the Commodity Futures Trading Commission (1991 to 1995), and Research Director, Deputy Counsel and Counsel to Senate Majority Leader Robert Dole (1981 to 1988). While an academic, Chairman Bair also served on the FDIC's Advisory Committee on Banking Policy.

Chairman Bair's prior work focused heavily on the banking sector. As the Assistant Treasury Secretary for Financial Institutions, she was charged with helping to develop the Administration's positions on banking policy issues. She worked closely with Treasury's own banking regulatory bureaus, the Office of the Comptroller of the Currency and the Office of Thrift Supervision, as well as the Federal Reserve Board and the FDIC. Ms. Bair's teaching and research at the University of Massachusetts also dealt extensively with banking and related issues.

Ms. Bair has served as a member of several professional and nonprofit organizations, including the Insurance Marketplace Standards Association, Women in Housing and Finance, Center for Responsible Lending, NASD Ahead-of-the-Curve Advisory Committee, Massachusetts Savings Makes Cents, American Bar Association, Exchequer Club, and Society of Children's Book Writers and Illustrators.

Five months after becoming Chairman, Ms. Bair was named to The Wall Street Journal magazine *Smart Money's* (November 2006) "Power 30" list – the magazine's lineup of the 30 most influential people in investing. Chairman Bair has also received several honors for her published work on financial issues, including her educational writings on money and finance for children, and for professional achievement. Among the honors she has received are: Distinguished Achievement Award, Association of Education Publishers (2005); Personal Service Feature of the Year, and Author of the Month Awards, *Highlights Magazine for Children* (2002, 2003 and 2004); and The Treasury Medal (2002). Her first book – *Rock, Brock and the Savings Shock*, a publication for children – was published in 2006.

Chairman Bair received a bachelor's degree from Kansas University and a J.D. from Kansas University School of Law. She is married to Scott P. Cooper and has two children.

Keith Batchelder, D.M.D., M.D.

Keith Batchelder, D.M.D., M.D., Founder and CEO of Genomic Healthcare Strategies, a company focused on the changes in healthcare resulting from advances in molecular medicine. Dr. Batchelder's area of expertise is in the analysis of new markets, channels, partners and the new science supporting the rapidly evolving practice of medicine and wellness. He is one of the first ten volunteers to have their full duplex genomes sequenced and published in Harvard Genetics Professor George Church's Personal Genome Project.

In addition to graduating from the University of Connecticut School of Dental Medicine, Dr. Batchelder was educated at Middlebury College, the Hahneman University School of Medicine, and received postgraduate training in Medical

Informatics at the Boston VA Hospital. He also completed a fellowship at the Food and Drug Administration, and holds a masters degree in biomaterials from New York University.

Dr. Batchelder has served as the chief technical officer of WorldCare International Clinical Trials, the CIO of Harvard Salud Integral, and as a principal of AMICAS Corp. Prior to that he was employed by Massachusetts General Hospital for eight years where he was involved in industry sponsored research in innovative drug discovery.

Dr. Batchelder writes and speaks frequently on the topic of personalized medicine, and we are honored to have him as our guest speaker.

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became the University of Connecticut in 1939. The graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

The University experienced expansion over the years as student enrollment grew. Today, the University has an enrollment of over 29,300 students. At Storrs there are over 16,700 undergraduates and more than 6,500 graduate students, representing some 106 nations.

This May, the University will award over 6,940 degrees. Of these, approximately 4,700 will be Bachelor's degrees, 1,300 Master's degrees, 250 Juris Doctor degrees, 37 Master of Laws degrees, 98 Doctor of Pharmacy degrees, 40 Doctor of Dental Medicine degrees, 76 Doctor of Medicine degrees, 1 Doctor of Musical Arts degree, 5 Doctor of Audiology degrees, 1 Doctor of Education degree, and 275 Doctor of Philosophy degrees. Also to be awarded are 61 diplomas in Professional Education and 21 Associate degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The academic gowns, hoods and regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at the University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Michael J. Hogan, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of the University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirtieth Commencement of the University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony is concluded.*

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the commencement exercises.

With Distinction

"With Distinction" is the University's designation for degrees earned by students who give evidence of significant achievement in their major fields. Candidates for the graduation "with Distinction" wear medals on blue ribbons at the commencement exercises.

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation is given. Questions or concerns regarding names not listed should be directed to the Office of the Registrar.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place — a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
