Commencement

M A Y 2 0 1 3

WELCOME FROM THE PRESIDENT

Dear Friends:

This is a wonderful and meaningful day for graduates, families and the entire University of Connecticut community. To our graduates, I offer my warmest and most sincere congratulations on your success and your achievements, which each of you has so clearly strived to earn. Today's commencement exercises are the culmination of your hard work and the symbolic fulfillment of our mission as a university and our promise to you.

I share the pride, excitement and immeasurable hopes for the future that I know each of you feel today. Your education is a great credit to you, and to us: you exemplify the very best we have to offer as you prepare to enter the next chapter of your lives.

Today, a degree will be conferred upon you from one of this nation's truly great public universities. UConn takes great care to ensure that our students are able to receive an exceptional education from incredible faculty on a campus that is home to excellent facilities. It is also vital that each of our students gain the kind of college experience they desire on a thriving campus where as much can be learned and enjoyed outside the classroom as in it. That is the commitment that we made to you. It was in recognition of the fact that just as our expectations for you were high, you were right to expect just as much from UConn in return.

Whatever your plans for the future may be – the workforce, continuing education or public service – I hope that your time here has helped give you the knowledge, experience and confidence that you will need to excel in every aspect of the life you will lead.

The goal of higher education is not confined to academic achievement alone; it is also intended to draw from within you those essential qualities that make each of us an educated, well-rounded individual and, above all, a good citizen. That is one of the simplest, but most important titles we can merit in life and I know each of you will exemplify it, every day. You are a class – and a generation – who will go on to do extraordinary things.

Please enjoy yourselves today and celebrate the honor and distinction that you have earned. And whatever path you choose, I hope you will always carry with you the very fondest memories of your days here at the University of Connecticut.

Congratulations and very best wishes,

A handwritten signature in black ink, which appears to read "Susan Herbst". The signature is fluid and cursive.

*Executive Director & CEO
Society of Women Engineers*

Betty Shanahan is the executive director and CEO for the Society of Women Engineers (SWE), a 21,000 member organization founded in 1950. SWE is the driving force that establishes engineering as a highly desirable career aspiration for women. SWE empowers women to succeed and advance in those aspirations and receive the recognition and credit for their life-changing contributions and achievements as engineers and leaders. As executive director and CEO, Betty is a champion for diversity in engineering and the engineering profession overall.

Prior to joining SWE in 2002, Betty spent 24 years in development, engineering management, and marketing for the electronics and software industries. She has been responsible for products and technologies in document viewing and conversion, parallel processing, signal-processing, and computer-aided software engineering. Most recently she was the vice president of product management and marketing for the Software Components Division of Stellant, Inc.

Betty has earned a B.S. in electrical engineering from Michigan State University, a Master of Software Engineering from the Wang Institute of Graduate Studies, and an M.B.A. in strategic

management from the University of Chicago Booth School of Business.

Betty participates in several forums that advance the engineering profession, including the National Academy of Engineering's committee for "Changing the Conversation" in the public understanding of engineering and their committee for the Lifelong Learning Imperative in Engineering. She serves on the Alumni Board of the Michigan State University College of Engineering, Clemson University College of Engineering and Science Advisory Board, and is president of Council of Engineering and Scientific Society Executives. In 2010 she was the first woman to receive the Claud R. Erickson Distinguished Alumnus Award from the College of Engineering at Michigan State University. In 2012, Betty was named is one of STEMConnector's "100 Women Leaders in STEM."

Betty is a fellow life member of SWE, a Certified Association Executive, and a member of the Institute of Electrical and Electronics Engineers, the American Society of Civil Engineers, the American Society of Mechanical Engineers, and the American Society of Association Executives.

DOCTOR OF PHARMACY COMMENCEMENT SPEAKER

Kerry Blanchard, Ph.D. '94

Dr. Kerry Blanchard obtained a Ph.D. in pharmaceutical sciences from the University of Connecticut in 1994 and subsequently attended Brown University as a postdoctoral fellow in environmental pathology. In 1996, he joined Boehringer Ingelheim as an entry level scientist in the Department of Toxicology and Safety Assessment. During his career with Boehringer Ingelheim, Dr. Blanchard has filled several positions within this department and also spent six months at the company's headquarters in Ingelheim, Germany as part of the International Project Management Group. Externally, he participates in several consortiums within the pharmaceutical industry and is currently the chair of the Preclinical Safety Leadership Group under the Innovation &

Quality Consortium, representing senior preclinical safety assessment leaders from over 30 companies within the industry. Dr. Blanchard has maintained a long standing relationship with the University of Connecticut and also has served as an adjunct professor with the School of Pharmacy since 2005. Currently, he is the vice president of Nonclinical Drug Safety - US. As such, he is responsible for the strategic oversight of the nonclinical safety operations and assessments for projects in support of clinical development. In 2008, this role was expanded to also include managing all animal resources for the Ridgefield, Connecticut site and, in 2010, includes oversight of nonclinical drug safety of all new biological entities developed by Boehringer Ingelheim worldwide.

Born and raised in Dracut, Massachusetts, Lauren DiGrazia attended several Universities prior to finding her home at the University of Connecticut. As a transfer student, Lauren earned her Bachelor of General Studies in Health and Human Services in 2003 and went on to earn a Master of Social Work in Administration in 2011.

While enrolled as an undergraduate, Lauren began working at the Office of the Registrar; it was in this office that Lauren discovered her passion – higher education. Lauren is now the University Registrar and attributes her success to her education. As University Registrar, Lauren is able to utilize her experience

to assist other students attain their educational goals. In service to the University and higher education, Lauren is a member of several national and local organizations as well as an active member on many committees at the University of Connecticut. One of Lauren's passions is advancing the University's policies and practices to move the University forward in a challenging and ever-changing environment.

In addition to Lauren's academic and career achievements, of which she is so proud, she is a wife to Mick DiGrazia and mother to Lilly and Miles DiGrazia – two of her proudest achievements!

Jeffrey R. Immelt

Jeffrey R. Immelt is Chairman and Chief Executive Officer of the General Electric Company, which maintains its corporate headquarters in Fairfield, Connecticut. General Electric employs more than 300,000 worldwide with locations in more than 160 countries. GE has been recognized repeatedly as a highly respected, admired, and innovative company.

Immelt was born in 1956 in Cincinnati, Ohio where his father was manager of the Aircraft Engines Division of General Electric and his mother was a school teacher. He enjoyed sports as a boy and his leadership abilities were evident even at a young age. After high school, he attended Dartmouth College where he majored in Applied Mathematics and graduated in 1978. Immelt has been an active Dartmouth alumnus, serving as a Trustee since 2008. Following his graduation from Dartmouth, Immelt held a position in sales at Procter & Gamble. He then continued his education at Harvard University completing an M.B.A. in 1982.

A short time later, Immelt — as his father had years before — joined GE where he held leadership positions in several of GE's businesses including Plastics, Appliances, and Healthcare. He

became an officer of GE in the late 1980's and he joined the GE Capital Board less than a decade later. Immelt was appointed President and Chief Executive Officer of GE in 2000, and he became the ninth Chairman of GE on September 7, 2001.

Immelt is chairman of the advisory board to the President's Council on Jobs and Competitiveness and, in that role, he oversees collaborative efforts between UConn and GE in connection with the development of UConn's Technology Park. Under Immelt's leadership, GE and its employees also are valued participants in mentoring and internship programs, and a partner in efforts by the state, UConn, and the corporate community to build an innovation-driven economy in Connecticut.

Named three times by Barron's as one of the "World's Best CEOs," Immelt is a member of Change the Equation, a CEO-led initiative to improve learning in science, technology, engineering, and mathematics. He also is a member of the American Academy of Arts and Sciences, and he is a repeat honoree on TIME magazine's list of the world's 100 most influential people.

2013 BOARD OF TRUSTEES DISTINGUISHED PROFESSORS

Designation as a Board of Trustees Distinguished Professor is the highest honor that the University bestows on faculty members who have demonstrated excellence in the three academic missions of the University. This year, two faculty members are recognized. To be chosen, a faculty member must have spent a significant portion of her or his career at UConn, have made significant academic contributions while in the University's service and be actively engaged scholars, strong in all three areas of research, teaching, and service.

Mark A. Boyer

Dr. Boyer is currently a Professor of Political Science and Department Head at the University of Connecticut, Storrs. He is also a Scholar-in-Residence at UConn's Center for Environmental Science and Engineering (CESE) and an affiliated faculty member with the School of Engineering's Environmental Engineering program. Throughout his career as a scholar-teacher, he has actively sought the integration of teaching, research and service in all his professional activities. His research agenda has recurrently allowed him to follow his own curiosity about interesting global problems and he takes great joy in his ability as a scholar-teacher to reinvent himself periodically (from alliance relationships to negotiation and bargaining to environmental issues and climate change, most recently). That academic luxury has kept him fresh, energetic and continually learning new things over the years. It has also helped him to continue to engage and challenge students in creative ways.

Public goods theory is fundamental to much of his teaching and research, as he seeks to bridge the theory-practice gap and help students to do so, as well. In addition to an array of journal articles, his books *International Cooperation and Public Goods* (Johns Hopkins University Press, 1993) and *Defensive Internationalism* (University of Michigan Press, 2005; co-authored with Davis B. Bobrow) developed new theoretical

models of international cooperation and the provision of public goods in the contemporary world system. A second large, long-term research project is the GlobalEd Project (www.globaled.uconn.edu, co-directed with Scott W. Brown (UConn, Educational Psychology)). GlobalEd exemplifies the possibilities that exist for faculty to integrate research, teaching and service at top-tier universities. Started in 1992, GlobalEd conducts Internet-based international studies simulations for secondary school students and has received over \$2.5 million in peer-reviewed grant support in the last 15 years. His most recent project, *Adapting to Climate Change* is currently under contract with the University of Michigan Press (forthcoming 2014) and has been discussed on WPNR's *Where We Live*.

His previous awards include the International Studies Association's Ladd Hollist Award for Service to the Profession, the UConn Alumni Association's Award for Excellence in Teaching at the Graduate Level, the American Political Science Association's Rowman & Littlefield Award for Teaching Innovation, a Pew Faculty Fellowship in International Affairs, and the UConn Chancellor's Information Technology Award. He has twice been selected to edit high profile quarterly journals in the international studies field: *International Studies Perspectives* (2000-2004) and *International Studies Review* (2008-2012; co-edited with Jennifer Sterling-Folker).

Linda S. Pescatello

Dr. Pescatello is a Professor of Kinesiology at the University of Connecticut. She holds joint appointments in the Departments of Allied Health Sciences, Nutritional Sciences, and Physiology and Neurobiology at the University of Connecticut; and the Department of Community Medicine and Health Care in the School of Medicine at the University of Connecticut Health Center. Dr. Pescatello is a Senior Research Scientist in the Metabolic Services Division at the Hospital for Central Connecticut, and has consultant privileges in the Division of Cardiology at Hartford Hospital. Her previous awards include a Distinguished Leader in Sports Medicine and Exercise Science (2012) and a Citation Award from the American College of Sports Medicine (2011), the Outstanding Sports/Leisure Professional Award from the University of Connecticut School of Education Alumni Society (1999), and an Honor Award from the New England Chapter of the American College of Sports Medicine (1998).

Professor Pescatello is an internationally recognized leading scholar on the blood pressure response to exercise among individuals with hypertension. Her work has established the phenomenon of *post-exercise hypotension* as an expected physiological response to exercise such that blood pressure is lower on the days people exercise than on the days they are sedentary. Although most people lower blood pressure after exercise, there is considerable variability in the individual response to exercise as antihypertensive lifestyle therapy. Her work also seeks to find patient characteristics, features of the exercise prescription, and genetic factors that account for this variability. Dr. Pescatello has published over 125 scientific

papers and reviews, three books and numerous book chapters, delivered countless invited presentations before professional groups around the world, and published numerous conference abstracts and proceedings. Her work is supported by grants from the NIH, American Heart Association, American College of Sports Medicine, and Hartford Hospital.

Professor Pescatello is an accomplished teacher who regularly teaches graduate courses in exercise prescription and health promotion for individuals across the lifespan. She intensively mentors and advises numerous graduate and undergraduate honor students that have included 17 Ph.D., 58 M.S., and 12 honor student advisees, and two post-doctoral students. A noteworthy outcome of Dr. Pescatello's mentorship of her students is that the majority of her advisees' theses and dissertations are published in top journals in her field.

Professor Pescatello has a long history of dedicated service to her department, college, and university as well as her professional affiliations with the American College of Sports Medicine and American Heart Association, being appointed a fellow to both organizations. Foremost among her professional service activity is her involvement with the American College of Sports Medicine (ACSM). Dr. Pescatello has led an ACSM position stand on exercise and hypertension and is senior editor of ACSM's *Guidelines for Exercise Testing and Prescription 9th Edition*. ACSM's *Guidelines* are considered the gold-standard in her field, and are the most widely circulated set of guidelines and primary resource for anyone conducting exercise testing and exercise programs in the world.

Jerry Adler

Jerry Adler's career as an acclaimed American theatre producer, director, stage manager, production supervisor and a television and film actor spans well over sixty years.

He was born in Brooklyn, New York, the son of Pauline and Philip Adler, who was a general manager of the legendary Group Theatre. The Group Theatre introduced Stanislavski's "The Method" as an acting approach to the American actor. Actors including Marlon Brando, Paul Newman, James Dean and Robert De Niro popularized the approach.

Mr. Adler began his theatre career as a Broadway Stage Manager working on premiere productions of *Seventeen*, *Of Thee I Sing*, *Lunatics and Lovers*, *My Fair Lady*, *The Jack Benny Show* and *Oh, What A Lovely War* among others. He pioneered the position of Production Supervisor in American Theatre serving in that role for many productions on Broadway including *Mark Twain Tonight!*, *The Apple Tree*, *Black Comedy/White Lies*, *Dear World* starring Angela Lansbury, *Coco* starring Katharine Hepburn, *6 Rms Riv Vu*, *I Remember Mama*, *Annie* and both of Marlene Dietrich's special Broadway concerts.

Mr. Adler directed seven Broadway productions including Dudley Moore and Peter Cook's Tony Award winning play *Good Evening*. He was a Drama Desk Award nominee for "Outstanding Director of a Musical" in 1976 for the Tony Award winning revival of *My Fair Lady*. Mr. Adler's work as a Broadway producer includes Orson Welles' adaptation of *Moby Dick* and the musical *Drat! The Cat!*

At an age when many people would entertain thoughts of slowing down and taking it easy, Jerry Adler's acting career began. In the early

1990s when he was working as a director for a series of television soap operas, he had the opportunity to audition for the role of Arthur Nabler in Howard Franklin's movie *The Public Eye* with Joe Pesci. This success was followed by a series of television and film roles including *Brooklyn Bridge*, *True Colors*, *Quantum Leap*, *Exclusive*, *The Odd Couple: Together Again*, *Law & Order*, *Spin City*, *The West Wing*, *Curb Your Enthusiasm* and the starring role in Woody Allen's film *Manhattan Murder Mystery*. He also played recurring roles on TV's *Northern Exposure*, *One Life to Live*, *Hudson Street*, *Mad About You*, *Alright Already* and the award winning FX series *Rescue Me*. In all, Mr. Adler has been seen in roles on over fifty television and film productions. But the role of Herman "Hesh" Rabkin, Jewish advisor to Tony Soprano on *The Sopranos*, created by David Chase, is the role that has made him most recognizable.

Mr. Adler is currently a regular on the hit television series *The Good Wife*. His recent films include *In Her Shoes* opposite Shirley MacLaine, *Prime* with Meryl Streep and Uma Thurman, and *Synechdoche, New York*, with Philip Seymour Hoffman. Mr. Adler also has roles in upcoming movies, Andy Cochran's *Adult World* and Michael Kase and Barry Morrow's *Remember Sunday*, both in post-production.

Jerry Adler has brought this wealth of knowledge and experience to the School of Fine Arts. He appeared as Gramps in the world premiere of Connecticut native son Mike Reiss's *I'm Connecticut* in the fall of 2011 for our Connecticut Repertory Theatre. Despite his busy filming schedule on *The Good Wife*, Mr. Adler taught a course on Acting Comedy in the Department of Dramatic Arts this academic year. His experience, dedication, and inspiration are invaluable for faculty and students alike.

Charles John Zwick was born in 1926 in Plantsville, Connecticut. He earned his B.S. and M.S. degrees in Agricultural Economics at the University of Connecticut, Phi Beta Kappa, in 1950 and 1951, respectively. He went on to earn a Ph.D. in Economics from Harvard University in 1954.

Dr. Zwick taught at UConn as a lecturer in 1951, and as a lecturer at Harvard University from 1954 to 1956. He then worked as Head of Logistics at the RAND Corporation, studying economic and military assistance programs in Southeast Asia from 1956 to 1963. Subsequently, he was appointed as Assistant Director of the U.S. Bureau of the Budget (now Office of Management and Budget) from 1965 to 1968, and Director from 1968 to 1969 under President Lyndon

Johnson's Administration. He has the distinction of being the only Director to balance the federal budget (until the Clinton Administration) under the financial pressure of Johnson's Great Society programs to eliminate poverty and racial injustice in the 1960s and the Vietnam War.

After leaving government services, Dr. Zwick served as President and Chief Operating Officer, and later as Chairman and Chief Executive Officer of Southeast Banking Corporation until his retirement in 1991. He is a past member or trustee of many corporate and nonprofit boards, including the RAND Corporation, the University of Miami, Carnegie Endowment for International Peace, MasterCard International, Inc., and United Way of Miami-Dade, Inc.

Wally J. Lamb

Among followers of pop culture, *New York Times* bestselling author Wally Lamb is known for causing Oprah Winfrey to have several sleepless nights. His first two novels—"She's Come Undone" (1992) and "I Know This Much Is True" (1998)—kept the TV and talk show icon up all night on more than one occasion and were both named Oprah's Book Club selections, selling millions of copies throughout the world. This along with acclaim from book critics and fans alike has led to Mr. Lamb becoming one of the United States' best known and most beloved contemporary authors, though the Connecticut resident and UConn alumnus sees what he does in a much humbler way. He writes today, he says, for the same reasons as when he started writing in 1981: "to entertain and inform myself." A passionate believer in the power of storytelling and the ability of writing to heal, he has also spent 14 years as a volunteer at the women's maximum-security York Correctional Facility in Niantic, Conn., where he's helped prisoners write and publish two volumes of autobiographical essays, "Couldn't Keep It to Myself" and "I'll Fly Away."

Mr. Lamb's other novels include "The Hour I First Believed" (2008) and "Wishin' and Hopin': A Christmas Story" (2009). His fifth, "We are Water," will be published in November 2013. The fictitious protagonist of "We Are Water" works at a New England university, similar to what Mr. Lamb did from 1997-99 when he served as an associate professor in UConn's Department of English and director of Creative Writing. In the latter position, he helped found UConn's now-renowned student/staff literary arts magazine, "The Long River Review." For 25 years, Mr. Lamb was also an English and writing teacher

at his high school alma mater, Norwich Free Academy in Norwich, Conn., where he founded the school's Writing Center.

For his writing, Mr. Lamb has received a Pushcart Prize, New England Book Award, Connecticut Center for the Book's Lifetime Achievement Award, Missouri Review William Peden Fiction Prize, a National Endowment for the Arts grant and *New York Times* Notable Books of the Year listings, among other honors. "I Know This Much is True," which tells the story of a man with schizophrenia, also received a National Alliance for the Mentally Ill Kenneth Johnson Award for its anti-stigmatizing of mental illness. For his teaching, he has received a national Apple Computers "Thanks to Teachers" Excellence Award. Barnes and Noble also presented him with a "Writers Helping Writers" Award for his work at York.

A past recipient of UConn's and Vermont College's Distinguished Alumni Awards and recipient of the 1999 Distinguished Alumni Award from the Neag School of Education Alumni Society, Mr. Lamb earned two degrees from the Neag School of Education—a bachelor in English Education in 1972 and a master of Secondary Education in 1977. A member of Phi Beta Kappa, he also holds a master of fine arts in Writing from Vermont College of the Fine Arts. A lifelong Connecticut resident, he has set several of his books in the fictitious Connecticut town of Three Rivers, which is based on his hometown of Norwich and nearby New London, Willimantic and Westerly, Rhode Island.

Frank M. Torti, M.D., M.P.H., F.A.C.P.

Frank M. Torti, M.D., M.P.H., is the executive vice president for health affairs for the University of Connecticut Health Center and the eighth dean of the UConn School of Medicine. He assumed leadership of the Health Center on May 1, 2012. Dr. Torti also holds a Board of Trustees professorship at the University.

Dr. Torti received his B.A. and M.A. degrees from Johns Hopkins University, his M.D. from Harvard Medical School (cum laude), and his M.P.H. from the Harvard School of Public Health. He was an intern and resident at the Beth Israel Hospital, Boston, a Harvard teaching hospital, and a fellow in medical oncology at Stanford University, when he subsequently joined the faculty and developed one of the most active genitourinary programs in the country.

Dr. Torti joined Wake Forest University School of Medicine in 1993 as the Charles L. Spurr Professor of Medicine, Director of the Comprehensive Cancer Center, and the founding Chair of the Department of Cancer Biology. He conceived and developed a training program in cancer biology that has become a prototype for cancer biology training nationwide. He founded and is past president of the Cancer Biology Training Consortium, a society of cancer biology chairs and program directors that now involves 70 U.S. academic medical centers.

In 2008, Dr. Torti took a leave from Wake Forest to accept an

appointment as the U.S. Food and Drug Administration's Principal Deputy Commissioner (second ranking official) and the FDA's first Chief Scientist, a new position mandated in the FDA Amendments Act of 2007.

In January 2009, Dr. Torti was appointed Acting Commissioner of the FDA. Dr. Torti developed at the FDA a strong and growing sense of community around the preeminence of science in a regulatory agency. Dr. Torti returned to Wake Forest in the spring of 2009 to assume the newly created position of Vice President for Strategic Programs as well as resuming his positions as Director of the Comprehensive Cancer Center and Chair of the Department of Cancer Biology.

Dr. Torti is an active and well known clinical investigator in urologic oncology. He is widely published in this area and has designed and executed clinical trials that have become standards of care in genitourinary oncology. He has routinely been selected by his peers in national magazines of "America's top doctors" and "top cancer doctors." In 2012, he was again recognized in the category of best doctor in the field of Medical Oncology and Hematology. Dr. Torti has also made fundamental contributions to understanding the molecular mechanisms of cancer. He holds a MERIT award from the NIH for his research on cancer and iron dysregulation. This honor is bestowed on only 3% of all NIH grantees.

Barbara Bennett Jacobs

Barbara Bennett Jacobs, PhD, MPH, RN, CHPN has been the Director of the Clinical Ethics Consultation Service at Hartford Hospital since 2006. She earned a Baccalaureate degree in Nursing from Georgetown University, a Master's degree in Public Health & Epidemiology from Yale University, a Master's degree in Family Nursing from St. Joseph College, and a PhD from the University of Connecticut. Dr. Jacobs completed a two-year postdoctoral fellowship in bioethics at the Center for Clinical Bioethics at Georgetown University Medical Center. Dr. Jacobs has held faculty positions at St. Joseph College, Division of Nursing and the University of Connecticut School of Nursing. She is the author of over 40 published manuscripts and multiple book chapters in the areas of clinical ethics, trauma/emergency nursing, and emergency

medical services. Dr. Jacobs along with her husband Dr. Lenworth Jacobs and Dr. Karyl Burns are the authors of TELOS (Trauma End-of-Life Support). This book is a best practice model for those health professionals working in the pre-hospital setting, emergency department, and intensive care units. The model addresses best practices in end-of-life care for the special population of trauma victims and their families. In November 2012, Dr. Jacobs received the Beverly Koerner Outstanding Alumni Award for Education in Nursing from the UConn School of Nursing. Appointed by the Connecticut Public Health Commissioner, she served on the state's committee that distributed a report entitled Ethical Standards of Care During Prolonged Public Health Emergencies.

Denise Merrill

Denise Merrill was elected as Connecticut's 73rd Secretary of the State on November 2, 2010. As Secretary of the State, Denise Merrill serves as chief elections official and business registrar for the state of Connecticut.

Prior to her election as Secretary of the State, Denise Merrill served as State Representative from the 54th General Assembly district for 17 years, representing the towns of Mansfield and Chaplin. First elected to the General Assembly in 1994, Denise Merrill rose to the rank of House Majority leader from 2008-2010, the second most powerful position in the Connecticut House of Representatives.

Denise Merrill's election as Secretary of the State completes a cycle of commitment to civic participation, accountability and transparency in government that motivated her to pursue a career in public service more than 25 years ago. As a former teacher, she formed a consortium housed at the Secretary of State's office in 1984 to increase law-related education, writing curriculum on constitutional issues for young adults and on Connecticut's constitutional history.

During her tenure in the Legislature, Secretary Merrill is most widely known for spearheading the successful effort to fund

infrastructure improvements at the University of Connecticut known as "UConn 2000." These improvements have been widely credited with helping advance the University to national prominence as a premiere academic and research institution. Secretary Merrill also sponsored numerous bills that later became law encouraging economic growth by developing a strategic plan to create high technology clusters in Connecticut, as well as incentivizing state investments in biotech and high-end manufacturing.

In her dual role as Secretary of the State, Denise Merrill is focused on both civic engagement and fostering business enterprise. As the State's election officer, Denise Merrill is committed to supporting and expanding democratic participation, ensuring that every citizen's rights and privileges are protected and that every vote is counted accurately. Secretary Merrill understands that Connecticut cannot create the jobs of the future if we don't first lend a hand to the existing small businesses that employ today's workers. As Secretary of the State, Denise Merrill is committed to playing a vital role in helping small businesses grow, prosper, expand, and create jobs, thereby reviving Connecticut's economy.

Ferid Murad, M.D., Ph.D.

Ferid Murad is a physician, pharmacologist, professor and researcher who has received many honors during his distinguished career including the Nobel Prize in Medicine.

Dr. Murad has founded or co-founded eight biotechnology companies and has advised many cities and government leaders about technology development. His work has concentrated on the field of cell signaling and signal transduction systems.

In 1998, Murad received the Nobel Prize in Medicine for his work with nitric oxide, a colorless, odorless gas that signals blood vessels to relax and widen, which in turn lowers blood pressure. His research continues to focus on a better understanding of how information is transmitted between cells.

"I knew at the age of 12 that I was going to become a doctor," says Murad. In eighth grade, his teacher asked students to write an essay describing their top three career choices. His choices were physician, teacher and pharmacist. Murad has accomplished all three – a board-certified physician and internist doing both basic and clinical research with considerable teaching in medicine and pharmacology, along with earning a Ph.D. in pharmacology.

Murad completed his undergraduate work at DePauw University and received his M.D. and Ph.D. from Case Western Reserve University. He had a medical residency at Massachusetts General Hospital and a fellowship at the National Institutes of Health. He held positions at a

number of prestigious universities throughout his career including the University of Virginia, Stanford University, Northwestern University and the University of Texas Health Science Center at Houston. He currently is a university professor at George Washington University, and director of the Institute for Cell Signaling.

Among his many awards and honors, Murad received the prestigious Albert and Mary Lasker Basic Medical Research Award, the American Heart Association Ciba Award, and the Baxter Award for Distinguished Research in the Biomedical Sciences from the Association of American Medical Colleges. He also received the American Society of Clinical Pharmacology Distinguished Research Prize and the President's Scholar Award from the University of Texas Health Science Center.

He is a member of the National Academy of Sciences, a member of the Institute of Medicine, fellow of the American Academy of Arts and Sciences, and a member of many foreign academies, as well as an honorary or adjunct professor at a number of universities. Murad also serves on the board of directors or scientific advisory boards of a number of public and private companies and various foundations and universities. He has received 16 honorary degrees and has published 450 manuscripts and authored or edited 28 books.

About 150 trainees who have worked with Dr. Murad in his laboratories are currently academic or pharmaceutical industry leaders around the world.

UNIVERSITY OF CONNECTICUT HEALTH CENTER GRADUATE SCHOOL, SCHOOL OF DENTAL MEDICINE AND SCHOOL OF MEDICINE BOARD OF DIRECTORS FACULTY RECOGNITION AWARD RECIPIENT

Mark D. Litt, Ph.D.

Dr. Mark Litt is a nationally and internationally recognized leader in the study of the cognitive, behavioral and affective processes that lead to changes in behavior in various health-related domains, including the areas of substance abuse, chronic pain, and anxiety control. He is currently a professor in the Division of Behavioral Sciences and Community Health, in the UConn School of Dental Medicine, with a joint appointment as a professor in the Department of Psychiatry and the Department of Obstetrics and Gynecology, in the UConn School of Medicine.

Dr. Litt, a graduate of Claremont Men's College, received his M.S., M. Phil., and Ph.D., in Psychology from Yale University. He joined the UConn Health Center in 1986 as a NIAAA postdoctoral fellow in the Department of Psychiatry, was appointed as an assistant professor in 1988 in both the School of Medicine and School of Dental Medicine, and was promoted to an associate professor with tenure in 1993. In 2000, he was promoted to a professor in the Department of Behavioral Sciences and Community Health and to the same rank in the School of Medicine in 2008.

Dr. Litt is the author of 18 book chapter and more than 60 peer-reviewed manuscripts and articles; he has developed more than 100 scholarly presentations and has served on the editorial boards of three journals in the field of behavioral medicine, as well serving as a reviewer for more than 20 scientific journals. Dr. Litt is a prolific scientist as demonstrated by having continuous NIH funding since 1991,

including eight R01 grants focusing on the cognitive behavioral management of pain and cognitive behavioral intervention in addiction. His accomplishments and contributions to the scientific community have been recognized by the conferral of fellowship status in the Society of Behavioral Medicine and the American Psychological Association.

Dr. Litt has made significant contributions to the educational mission of the Health Center, including commitments to the predoctoral and postdoctoral programs in the School of Dental Medicine and the School of Medicine, including serving as the director of clinical training for the greater Hartford clinical psychology internship program. He provides patient consultative services across the Health Center and serves as the director of TMD research in the School of Dental Medicine.

Since 1989, Dr. Litt has demonstrated continuous, meaningful service to the Health Center community and beyond. He has served as course director for the dental practice and professional development curriculum, has served as a member of more than 20 School and Health Center committees, and has served as the chair of the Senior Appointments and Promotions Committee, since 2001. He is routinely sought out to serve as a reviewer and member for NIH, NIDCR, NIAA programs, study sections, and scientific panels.

Dr. Litt has distinguished himself as a superior educator, clinical, scientist, and scholar and is most deserving for the Board of Directors Faculty Recognition Award.

Georgetown University and Hogan Lovells

Neal Katyal is the Paul and Patricia Saunders Professor of Law at Georgetown University and a Partner at Hogan Lovells. He recently served as Acting Solicitor General of the United States (and before that Principal Deputy Solicitor General), where he argued several major Supreme Court cases involving a variety of issues, such as his successful defense of the constitutionality of the Voting Rights Act of 1965, his victorious defense of former Attorney General John Ashcroft for alleged abuses in the war on terror, his unanimous victory against 8 states who sued the nation's leading power plants for contributing to global warming, and a variety of other matters. In 2006, he won the landmark *Hamdan v. Rumsfeld* in the Supreme Court, a case that challenged President Bush's Guantanamo and Geneva Convention policies. He has argued 17 cases before the U.S. Supreme Court, with 15 of them in the last 4 years.

At Georgetown, Neal was one of the youngest professors to

have received tenure and a chaired professorship in the university's history. He is the recipient of the very highest award given to a civilian by the U.S. Department of Justice, the Edmund Randolph Award, which the Attorney General presented to him in 2011. The Chief Justice of the United States appointed him in 2011 to the Advisory Committee on Federal Appellate Rules. Additionally, he was named as One of the 40 Most Influential Lawyers of the Last Decade Nationwide by National Law Journal (2010); One of the 90 Greatest Washington Lawyers Over the Last 30 Years by Legal Times (2008); Lawyer of the Year by Lawyers USA (2006); Runner-Up for Lawyer of the Year by National Law Journal (2006); One of the Top 50 Litigators Nationwide 45 Years Old or Younger by American Lawyer (2007); and one of the top 500 lawyers in the country by LawDragon Magazine for each of the last six years. He also won the National Law Journal's pro bono award in 2004. His articles have appeared in nearly every major national law review and newspaper.

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 30,250 students. At Storrs there are over 17,170 undergraduates and more than 6,600 graduate students, representing some 104 nations.

This May, the University will award over 7,975 degrees. Of these, approximately 5,575 will be Bachelor's degrees, 1,500 Master's degrees, 204 Juris Doctor degrees, 37 Master of Laws degrees, 94 Doctor of Pharmacy degrees, 35 Doctor of Dental Medicine degrees, 77 Doctor of Medicine degrees, 4 Doctor of Musical Arts degrees, 5 Doctor of Audiology, 3 Doctor of Education degrees, 2 Doctor of Nursing Practice degrees, 24 Doctor of Physical Therapy degrees, and 350 Doctor of Philosophy degrees. Also to be awarded are 45 diplomas in Professional Education and 24 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that she speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirty-Forth Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony is concluded.*

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
