## THE LOOKOUT

**Connecticut Agricultural College.**

**POULTRY  
DEPARTMENT**

Barred Plymouth Rocks,  
White Plymouth Rocks,  
Buff Plymouth Rocks,  
Buff Wyandottes,  
White Pekin Ducks,

White Wyandottes,  
S. C. White Leghorns,  
Black Langshans,  
Buff Orpingtons,  
Colored Muscovy Ducks.

A limited amount of breeding stock and eggs for hatching in season. For information concerning the above and the Special Poultry Courses, address

**POULTRY DEPARTMENT, - STORRS, CONN.**

### **BRADLEY'S FERTILIZERS**

**THE WORLD'S BEST  
BY EVERY TEST.**

**Bradley Fertilizer Works,  
BOSTON, MASS.**

### **ERNEST P. CHESBRO, Auto Station.**

*Agent for the BUICK  
and OVERLAND.*

**RENTING and SUPPLIES.**

**1029 MAIN ST.,  
WILLIMANTIC, CONN.**

## *The* **NORWICH BULLETIN**

**IS THE FIRST DAILY TO REACH  
WILLIMANTIC IN THE MORNING.**

In this way all the rural delivery routes through the surrounding towns are thoroughly covered.

### **THE BULLETIN HAS THE FULL ASSOCIATED PRESS REPORT**

which is taken by our own telegraph operator in our office. The news is then set up on typesetting machines, enabling us to print the very latest dispatches each morning.

**SUBSCRIPTION PRICE BY MAIL: 50c. A MONTH, \$6.00 A YEAR.  
SEND IN A TRIAL SUBSCRIPTION.**

# The Lookout

VOL. XVI.

MAY, 1911.

No. 8.

## EDITORIALS

THE LOOKOUT publishes this month an outline of the changes recently made in the courses of studies. It will be seen that, in some respects, these changes are fundamental. The courses, framed by a committee of the faculty, approved in their present form by that body, and later by the trustees, will go into effect at the beginning of the next college year.

The most notable change is the deletion of the academic course in the lower two years of the old curriculum. The student may now enter from the common school directly upon the study of agriculture, completing in two years, and in a practical way, all the work in that subject hitherto required in four years. By this means, the interposition between the entering student and the agriculture for which he seeks this institution, of two years of high school work, will be done away with.

That this academic course has been viewed with disfavor is evident from the notable increase in the number of students entering upon the work of the junior year. It is clear that there is an increasing tendency to complete at home the academic work necessary for the preparation for a scientific study of agriculture. We have heretofore noted this tendency, and suggested that it would eventually lead to the omission of the two preparatory years.

It has been confidently expected that the current month would behold the completion of the new dining hall. In happy anticipation of so cheerful an event the committee whose pleasing function it is to provide for College entertainments, had planned to celebrate it with a somewhat formal opening. But it appears probable that the opening feast will have to be postponed or even omitted, since

it seems quite likely that the summer vacation will have come and mostly gone before the new building is ready for occupancy.

The formal opening was planned for the twenty-seventh. But there seems no likelihood of the realization of the plan. More's the pity. For in the absence of the usual Junior-Senior banquet, such a gathering of students and faculty would have been very pleasant. Let us hope that the contractor will see the error of his ways and get a move on.

### Alumni Notes

Evidently the Alumni of the Connecticut Agricultural College are taking a rest, so far as notoriety is concerned, as but little information of any nature can be obtained by the editor. The items of interest usually obtained by this department are weddings, births, or the acceptance of some new position by some Alumnus. However, anything from a lawsuit with your next door neighbor or a breach of promise suit, to the purchase of a good cow or aeroplane would be greatly appreciated.

As the flower yearns for a drop of rain in a drought, so the Alumni pigeon-hole yearns for just a little news of those who were once students at C. A. C.

If you have a girl and are not engaged, propose at once and send her full name and address to the editor. If she has accepted you, marry her before she changes her mind; send us the full details in order that your classmates and friends may congratulate you, and perhaps someone will send you a present. If you do not like your position, or if you find a better one, let us tell your friends of your change of address.

If you cannot find a desirable position, perhaps if some Alumnus knew your wants, he would help locate one for you. You helped one another while in College, why not do the same outside? If a

post-card is too small to hold all you wish to write, use a two-cent stamp and send a letter to the Alumni Editor of THE LOOKOUT.

It is hardly necessary to mention here the efforts which are being made to secure funds for the painting of the picture of Willis Nicholas Hawley, of the class of '98, who died during the Spanish-American war. If you have not made your contribution toward this fund, please do so as soon as possible. Professor Wheeler states that about one hundred dollars has been received so far.

'98. C. W. Pincus visited the College, May 8th. Mr. Pincus says that he is trying to stir up his class letter which has been lost somewhere. While in New Haven recently, he met one of his classmates, W. S. Gillette, whom he had not seen since he graduated thirteen years ago. On June 8th, Mr. Pincus is to speak before the Jewish section of the National Conference of Charters and Corrections, on social work among farmers.

'99. W. M. Nettleton will remain in Washington for the present instead of moving to Guilford, as reported in the April number.

'06. C. J. Grant was home from Ohio the latter part of April to attend the funeral of his grandfather. He visited friends at the College one day. Mr. Grant is now at Wooster, Ohio. He is engaged in extension work at Ohio State University.

'07. Earl Bemis spent Sunday, May 7th, on the hill.

'09. P. B. Whitehead has purchased a farm of L. F. Harvey, '02, of Washington, and is getting together a herd of pure bred Jerseys. His address is Romford, Conn.

Mr. and Mrs. J A. Gamble will be at home after June 1st at thirty-seven Warriner Avenue, Springfield, Mass.

'10. H. D. Hatfield, captain of Company B of the College Battalion, has been promoted to the rank of major.

Exam. Time:—

Ram it in, cram it in,  
Still there's more to follow;  
Scold it in, hold it in,  
All that they can swallow.  
Crunch it in, punch it in,  
Rap it in, slap it in,  
Pump it in, stump it in,  
Students' heads are hollow. —Ex.

Jimmie (to his father)—"If I am James, Junior, will my little boy be James, Sophomore?"—Ex.

*Artman*

# COLLEGE NOTES

Early on the morning of April 14th the safe in the office of the chief clerk was blown open by burglars. The safe was wrecked, and the office thrown into confusion, but the thieves failed to secure anything of value. The robbers escaped and no clue to their identity has yet been found.

Luck seems to be against us in baseball this year. Up-to-date, we have been unable to score a victory. We cannot credit these results to poor playing or to lack of training, but attribute it solely to the fact that our opponents have represented larger colleges than ours, affording them more material from which to select their team.

We have been seriously handicapped in lacking an efficient corps of pitchers, although Lautenberger has been pitching exceptionally fine ball, as we have no one in reserve to relieve him during a game. Captain Keating has been compelled to occupy the box on several occasions, leaving a vacancy in the field which cannot be well filled.

While sliding to third base in the game with Springfield Training School on April 29th, McDonough dislocated his ankle and tore several ligaments in his left leg. He was removed to the hospital in Willimantic, where it is reported that he is doing nicely. It is hoped that Larry will be able to return to College within a few days.

A chapter of the American Federation of Jewish Socialists has been organized in "Goldstein" Hall. Meetings are held before meals, after meals, and during meals; mostly during meals. Mass meetings are frequently held in the halls under the leadership of "Chief Howler" Horwitz.

**Bald-headed Avery Hangs Another on Captain Keating—**  
Special to THE LOOKOUT, May 15th—During a heated discussion

with Captain Keating, Mr. Avery informed us that he had discovered our beloved captain's ancestors to be honorary members of the American Federation of United Hod-carriers.

Several new commissions have been issued by Commandant Churchill.

H. D. Hatfield has been promoted to major to fill the office of Brundage, who was obliged to resign on account of illness.

J. E. Zeller has been promoted to captaincy to fill the office previously held by Hatfield.

M. A. Wadhams has been promoted to fill the office of Captain Piper, who has recently left College.

On the evening of April 28th a concert was given in the College Chapel by the Cecilian Harp Trio and Miss Bessie Hall, reader. The program was exceptionally well rendered and was pleasing to all.

If Joe Austin should let several of Professor Stoneburn's chickens escape, could Foster Ketcham?

The young ladies of the junior and senior classes were pleasingly entertained by Mrs. A. G. Gulley at her home recently.

Guests at the Cottage during the past month were Miss Edith Butler, Miss Allana Mix, Mrs. E. W. Ellison, Miss M. F. North, and Miss Leola Clarke.

The girls' gymnasium class has recently taken up target practice as a pastime.

### SPRING.

The spring has come, the spring has come!  
And brightly shines the sun above.  
It's golden rays proclaim aloud  
A time of peace, a time of love.

The spring has come, O, spring is here!  
With warm and quiet days of May.  
And in peaceful moonlight sings  
The nightingale its dreamy lay.

—J. N. N., '12.

### FARM DEPARTMENT.

There has been a transfer of fourteen or more acres of tillable land from the farm to the Experiment Station and other departments. Owing to this fact, it will be necessary to clear some land for planting this season, and as a result the usual acreage of potatoes and corn will be decreased. However, an effort will be made to produce the usual amount of these crops on the smaller acreage.

It is planned to sow six acres of alfalfa this spring, which will give us a total of eight acres. In spite of the fact that alfalfa is a troublesome crop to start, there are now two acres of it in fairly good condition.

The horse barn is not yet ready for occupancy. At present a new road is being built to it, grading is being done around the barn, and when these, with other minor details, have been attended to, the barn will be put into service.

Gaiety, a French coach mare, has foaled an exceptionally good colt. If he fulfils all expectations, the College will have a prize winner. One of the Percheron mares also has a colt.

Four calves have been born in the beef herd and will be raised.

A streak of bad luck recently overtook the swine, and as a result the breeding stock was nearly wiped out. It is thought that the calamity was due to the feeding of garbage.

### THE STATE GAME HATCHERY.

An experiment, in which every bird lover in Connecticut should be interested, is now being carried on at the College, under the direction of the State Ornithologist, Rev. H. K. Job. Mr. Job, who is well-known as a naturalist, has planned to breed quail on an extended scale.

Every sportsman in the State feels that the money which he pays for a license for hunting ought to be devoted for the propagation of game. The sum available from licenses amounts to about \$15,000 annually, and if wisely expended no difficulty should be experienced in preserving our native game. The importation of Hungarian partridge and other game birds has not proven to be a great

success. Many of the birds are weak or diseased when purchased, and the majority of them have great difficulty in surviving the first year. The only remedy seems to be in breeding the birds in captivity and then liberating them in places where they are needed. The quail is naturally hardy, and because of its beauty and friendliness is well liked by all who are interested in bird life. For these reasons, and as quail are rather scarce, it was decided that this bird should be experimented with. Forty strong birds were purchased at Kansas City and all but one survived the passage. They are now snugly sheltered in a building and yard situated far up on the slope of the hill across from the poultry plant. Mr. Joseph Austin of 1912 will be in charge of the work during the coming season, and under Mr. Job's able supervision, the best results should be obtained.

#### HORTICULTURAL DEPARTMENT.

The new peach orchard has been planted. It contains about two hundred and fifty trees, most of which are standard varieties, while a few are for experimental purposes.

A new vineyard has also been set out. This contains about four hundred plants and includes about fifty varieties. In addition to these a large number of currant and gooseberry bushes have been set out.

#### MECHANICAL DEPARTMENT.

Twenty-three three-gallon fire extinguishers have recently been placed in the new buildings and cottages. This makes a total of fifty-seven now on the campus.

Eight fire axes have been placed in the larger buildings. One hundred feet of new hose has been added to the main building equipment, making hose enough to cover Gold Hall or the Chemical Laboratory.

The new four-inch water main has been laid to the Dairy Building and openings have been left at various points for future needs.

"Hush! Hush! my boy; you musn't call your playmate a liar."

"That's all right, Ma; I don't really mean it. We're playing government and I'm being investigated."—Ex.

Waiter (serving soup)—"It looks like rain."

Student (tasting the soup)—"Yes, and it tastes like it, too."—Ex.

"What's the best way to teach a girl how to swim?"

"Why, first you put your left arm around her waist and gently take her left hand, then—"

"Come out of it. She's my sister."

"Aw! Push her off the dock."

A man asked the pretty waitress for his bill, and she handed him a bill of \$2.43.

"Aren't you a little dear?" he asked.

"Yes, sir; that's what all the young men say," answered the waitress, delighted.—Ex.

# ATHLETIC NOTES

## C. A. C., 9. ROCKVILLE, 17.

On the 15th of April the Rockville team journeyed to Storrs where they played our boys a game of baseball. "Mac." returned from home that morning and pitched for our team. His arm being in very poor condition he did not show up in his usual form. As the score shows there was considerable heavy hitting and quite a number of runs were scored in the game.

Summary: Struck out—by McDonough 9, by Weber 14. Base on balls—Off McDonough 7, off Weber 8. Umpire—Nichols.

## C. A. C., 2. SPRINGFIELD, 14.

The Springfield Training School team played here on the 29th of April. The first three innings were very interesting, and the spectators were in the hopes that our boys would give the visitors a good rub. In the first inning no Springfield man reached first base, while two of our men were on bases in our first inning at bat, but both failed

to score. Later in the game our boys made many errors making the game from then on decidedly one-sided. The score was as follows:

C. A. C.						SPRINGFIELD.					
	H	R	PO	A	E		H	R	PO	A	E
Keating .....	3	1	0	0	5	Kelley .....	2	2	7	0	1

\*In the last inning of the game while sliding third, Mac. badly wrenched his ankle, straining the ligaments. He was taken from the field. A doctor was summoned immediately, who advised taking him to the hospital, which was done. It will be some time before Mac. will be able to be around again; we shall miss his smiling face, his many jokes, and his good work on the baseball team.

#### C. A. C., 4. NORWICH, 20.

On the second of May the Norwich University baseball team of Northfield, Vermont, came to Storrs and played us in a game of ball. For the first four innings the game was fast and exciting. Our boys took the lead, and for a time it looked as though we were going to win the game; but soon the tide turned, the Norwich men began to hit and to steal bases. During the last half, the game was slow and lacked interest. The score was as follows:

C. A. C.						NORWICH.					
	H	R	PO	A	E		H	R	PO	A	E
Keating .....	1	2	2	0	2	Munsell .....	3	3	4	2	3

Totals .....	7	4	20	11	11						

The tennis season opened on the second Wednesday of April with the single tournament, which lasted for a week, due to the poor weather and only one court being in condition.

Deming defeated	Trueman.....	6-1	6-4
Browning "	Bishop.....	7-5	6-4
Browning "	Mitchell.....	6-4	6-0
Deming "	Browning.....	6-2	7-5
Amrheim "	Stretch.....	6-2	6-4
Mason "	Van Wagnor.....	6-1	6-0

Semi finals:

Mason defeated	Deming.....	6-2	4-6	6-3
Mason "	Capt. Eaton.....	6-4	6-8	6-2

Finals:

Zellar, winner of 1910 tournament, defeated Mason, this year's runner up, 6-2, 6-3.

In doubles Mason and Zellar defeated Capt Eaton and Deming, 6-4, 7-5.

### C. A. C., O. WESLEYAN UNIVERSITY, 6.

The tennis team opened their season Saturday, April 22d, by playing Wesleyan, runners up in the New England Intercollegiate Tournament of 1910. The game was played at Middletown. Wesleyan won; our team being handicapped by lack of practice due to muddy courts. All games went to deuce. Wesleyan's familiarity with the courts and bounds, together with their two weeks of practice, helped them in getting their winning points.

WESLEYAN.		C A. C.	
Rowell defeated	Capt Eaton...	6-2	6-0
Crane "	Deming.....	6-2	6-2
Murphy "	Zellar.....	6-2	6-0
Jones "	Mason.....	6-0	6-0

In doubles the results were as follows: Crane and Jones defeated Eaton and Deming, 6-2, 6-2. Rowell and Clarke defeated Mason and Zellar, 6-0, 6-0.

## HAVE YOU EVER TRAVELLED FOR BUSINESS OR PLEASURE ?

### WHY NOT COMBINE THE TWO ?

Our proposition assures your expenses and you can make a considerable sum for next college year. The work is the most valuable training a young man could have.

Physicians are the best class of men to do business with and are accustomed to buying from salesmen.

Later on you will be tied down by your chosen occupation. A season on the road will be something pleasant to look back on. There is nothing that broadens the young man and puts an edge on a keen mind like road work.

White us for details.

## WYANDOTTE DAIRYMAN'S CLEANER AND CLEANSER

Wyandotte Dairyman's Cleaner and Cleanser is a cleaner that cleans *clean*, that does not injure the milk nor that upon which it is used. Test after test shows where Wyandotte Dairyman's Cleaner and Cleanser is used you have far the lowest bacterial count, in fact, it shows almost absolute purity. Clean containers mean clean milk and the highest price, or clean milk means high scoring butter and cheese and high scoring butter and cheese means the best of prices.

To every dairyman, be he the owner of a few cows, or of many, be he a butter maker or a cheese maker, the use of this cleaner has a meaning which he can well afford to heed.

Indian in circle

in every package

Wyandotte Dairyman's Cleaner and Cleanser needs no defence from us—its defenders include all the Dairy and Agricultural Colleges of this country, Canada, New Zealand, Australia and several European countries, thousands of Butter makers, Cheese makers, Dairymen and Housewives who use it day in and day out, year in and year out. Are you one of this great army? Ask your dealer for a small cotton sack of it, or for larger quantities, barrels or kegs, write your dairy supply house.

It is not a scouring powder.

The J. B. Ford Company, Sole Mfrs., Wyandotte, Mich., U. S. A.  
This Cleaner has been awarded the highest prize wherever exhibited.

# Wagons Of Lifetime Service Bear The I H C Trade Mark

There is no need of taking a chance on your next wagon. You will be sure to get a good wagon if it bears the I H C trade mark. It is the seal of excellence—the guarantee of quality—it stands for an established reputation—and utmost wagon value. It is your assurance of getting a good wagon—one that will be a source of pride and profit—one that will give you excellent service for years to come. Choose any one of these—

## **Weber New Bettendorf**

Look these wagons over carefully. They are built to meet every condition—to fill every requirement—and whether you buy a Weber, Columbus, New Bettendorf, or Steel King, you will get the same satisfactory service.

Only the toughest, most carefully selected, air dried and perfectly seasoned wood is used in the Weber construction. Weber wagon boxes and gears are protected by paint and varnish of the best quality, applied by workmen who have made wagon painting a life-long study. For 65 years the Weber wagon has been king of the wagon world.

Columbus wagons are favorites with exacting farmers. The gears are made of selected oak and hickory, strongly ironed. The wheels have oak rims and oak and hickory spokes. The wheel is properly tired and banded. Superior workmanship and high-class material, assures the durability and light-running qualities which characterize every Columbus wagon.

The New Bettendorf has given general satisfaction because it has exceptional strength, light-running qualities, and is very durable. It has a one-piece tubular steel axle, and the wheels are the same quality as those used on the Weber.

The Steel King is a new I H C wagon and it is up to the I H C standard. It is the only steel gear wagon on the market having an axle and skein with internal reinforcements and a bolster having an adjustable stake.

Visit the International local dealer and let him point out the many features and advantages of wagons bearing the I H C trade mark. Get booklets and all information from him, or if you prefer, write direct for the information you desire.
