### 'Varsity Does Well With Hard Schedule

LOSES FIVE GAMES, ALL BY NARROW MARGINS AND AGAINST HEAVY TEAMS—OUTLOOK FOR LAST THREE GAMES BRIGHTER WITH CAPT. DeWOLFE AND TONRY IN THE LINE-UP.

**CONNECTICUT vs. HOLY CROSS.**  
Connecticut opened its season on September 23rd in Worcester by holding Holy Cross down to one touchdown and a goal. The game was a hummer from the first peal of the whistle to the final blast. Several times did the Purple eleven come within our ten-yard line and once did Connecticut reach their ten-yard mark. Most of the time, however, the ball was in the middle of the field where it swayed back and forth, in the possession of Connecticut and then again in Holy Cross's hands.

It was in the third period that Holy Cross managed to push the pigskin over our goal with the aid of Daley, a Torrington, Conn., lad. Donnellan kicked the goal. One touchdown was sufficient for the Worcester players and the rest of the game they played on the defensive.

Captain DeWolfe and "Yank" Quinn were most instrumental in breaking down Holy Cross's stonewall defenses. The latter was a target for his opponents, but he came home unmaimed. Hopwood also performed creditably both in running the team and in kicking punts.

The summary:

Connecticut.	Holy Cross.
Dickinson ... Augley Higgins, Conway	Left End.
DeWolfe .....	Zimmerman
	Left Tackle.
Newmarker, Strong.....	Lynch
	Left Guard.
Quinn. ... Cook, Wallingford, Totterelli,	O'Connor
	Centre.
Maguire, Francis .....	Porah
	Right Guard.
Gleason, Alberti.....	McCullough, Kelly
	Right Tackle.
Ryan.....	Donnellan, Cummings,
	Hahoney
	Right End.
Hopwood .....	Twitchell, Higgins
	Quarterback.
Mahoney.....	Foley, Reardon, Maloney
	Left Half.
McCarthy, Clark.....	Walsh, Daley,
	Fitzpatrick
	Right Half.
Shafer, Smith....	Mitchell, Fitzpatrick,
	Daley
	Fullback.
Referee—D. J. White, of Georgetown.	
Umpire—A. W. Dickinson, of Brown.	
Time—Ten and 8-minute periods.

### Big Entering Class At C. A. C. This Fall

ONE HUNDRED AND THREE NEW STUDENTS ENROLLED—AN INCREASE OF TWENTY-NINE PER CENT. OVER LAST YEAR.

One hundred and three new faces appeared on the Hill on September 12th, an increase of nineteen over the entering class of last fall. This is a percentage increase of 29 and an exceptionally good showing for such a year as this. While in most other New England Colleges the size of the entering class has decreased this fall, because of various reasons, here at Connecticut a satisfactory increase was secured. Rhode Island, Massachusetts Aggies and New Hampshire are illustrative of the Colleges where entering classes this fall were smaller than usual.

Forty-five of the new students have registered in the college courses, as compared with thirty-one last year. There are more co-eds in the entering class here than there are in the first year class at Massachusetts. Many who registered failed to appear for the opening of college. Inquiries by the office revealed the fact that all but one of the thirty-four who had intentions of entering this year, failed to come to college because they were holding positions which they did not care to give up. A list of the new students follows:

**Freshmen (College).**

X—Alberti, L. Carl Dorchester, Mass.  
—Bailey, Harold H. Colchester.  
S—Bauer, Frederic Newark, N. J.  
P—Beers, John F. Washington.  
P—Belden, Robert F. Danbury.  
P—Bigger, J. Henry Bristol.  
S—Blevins, Earl D. Hartford.  
X—Brigham, Earl E. Worcester, Mass.  
P—Evans, Douglas A. Danbury.  
X—Frostholm, Arthur W. Worcester, Mass.  
S—Goodearl, George P. West Acton, Mass.  
X—Goodrich, James S. Hartford.  
X—Griswold, Crawford Hartford.  
C—Grant, Clarence J. Worcester, Mass.  
—Jackman, George W. Bridgeport.  
P—Kinnear, George C. North Stonington.

(Continued on page 4.)

**RESULT OF STRAW VOTE TAKEN ON PRESIDENTIAL CANDIDATES, NOVEMBER THIRD.**

Although a large part of the student body were not present to vote, it is fairly representative of the sentiment on the Hill in regard to President Wilson and Mr. Hughes For:

Woodrow Wilson .....	36
Charles E. Hughes.....	94
Allan L. Benson (Socialist)...	5
J. F. Hanly (Prohibitionist)...	2

### What Others Think Of Our College

EXCERPTS FROM ARTICLE IN HARTFORD COURANT WRITTEN BY A VISITOR AT C. A. C.

In the Hartford Courant for Sunday, August 27, 1916, there appeared an article entitled, "Connecticut's Splendid Agricultural at Storrs," written by the well-known journalist, G. Emil Richter, of Darien, Connecticut. In connection with this article was a picture of the college buildings and farm.

The following is an extract of the article written by Mr. Richter:

"Probably ninety-nine out of every one hundred residents of Connecticut know that for the past five years an international egg-laying contest has been in progress at Storrs, the seat of the State Agricultural College. If ninety-eight out of those ninety-nine persons were to be asked to locate Storrs, or to tell what there is there besides an egg-laying contest, they would probably be perplexed for an answer.

"Yet, although for thirty-five years, the State of Connecticut has maintained this College, which at present represents a value of nearly \$1,000,000, there are probably a full million of its inhabitants who know nothing about its work, except for that egg-laying contest. Not only has this epoch-making contest proved that the 200 eggs-a-year hen is not a dream, but the college has conducted scientific investigations into other phases of agriculture, and also produced some of the finest live stock in the world, and acquired animals for breeding purposes which will render future prize-winners.

"The visitor to Storrs, viewing for the first time the handsome college buildings in their attractive setting, 600 feet above sea-level, with encircling hills, some as much as twenty-five miles distant, is impelled to paraphrase the Psalmist's song about Mount Zion, and to shout 'Beautiful for situation,' the joy of the whole state, is—or should be—the Connecticut Agricultural College.

"The college is a co-educational institution, although it is not generally known that it has courses for girls since its agricultural label is likely to be misleading in this respect. But its courses in home economics offer fine opportunities to the girls of the state, as its other courses do to the boys. The student body is a fine crowd of young people, of serious purpose. It is to be supposed that the college would appeal especially to the sons of the soil—the farmers' boys—yet, strangely enough, seventy per cent. of its students are lads from cities.

"It is a State as well as a national institution. The United States government contributes \$56,750 a year

### Student Body Goes With Team to R. I.

LARGE DELEGATION JOURNEY TO KINGSTON TO CHEER FOR PLUCKY ELEVEN.

October 28, 1916, witnessed the birth of a new, and it is to be hoped, a lasting custom at C. A. C. Practically the whole student body left the campus and journeyed to Kingston, R. I., to watch and cheer its team throughout its biggest game of the season.

The idea of the whole college attending this game was new, but in spite of the newness, and in spite of the fact that to make the trip, one had to part with four big dollars, there were one hundred and fifty-four students who "came across" gladly, and helped to make the trip an overwhelming success.

After eating an early breakfast, the delegation walked to Eagleville, where a special train of four coaches awaited them.

At New London the train stopped long enough to give the rooters a good view of one of Uncle Sam's undersea boats which was taking on supplies at the dock, and to see two of her sister ships in action, one semi-submerged, and the other all hidden except for her periscope.

After an uneventful ride over the New Haven road to Kingston, the Connecticut delegation walked to the College. Here dinner was served. The time between dinner and the game was spent in looking over the campus of our sister college. Many expressed the opinion, that while Storrs was eight miles from Willimantic, it was at least eight miles from a city.

The return trip started with all in rather a gloomy mood, and on all hands were heard remarks which seemed to express doubt as to the fairness of decisions and penalties. However, soon after the train pulled out of Kingston the real C. A. C. spirit came to the front. The stop at New London, enabled the hungry to eat and the curious to look, and when the train started for Eagleville a tired but happy bunch was on board.

toward the college, which is sufficient to pay practically all the salaries of the faculty. The state appropriates \$40,000 a year which is applied to the improvement of the plant. In addition, the federal government appropriates \$15,000 a year and the state \$4,500, for the experiment station department."

And so Mr. Richter goes on to tell about the "handsome Hawley Armory," the "fine dormitories," the extension service and the number of departments at work at the college. And in closing he says, "Thus nobly is the Connecticut Agricultural College fulfilling the purpose of its founders and in-

## "THE COLLEGE"

### Editorials

To all men who have entered Connecticut as new students this fall the CAMPUS extends a most hearty welcome. That your college days may be of great service both to you and C. A. C. is our sincerest wish.

The measure of each man's success is regulated by what he does for himself and for Connecticut. Either one without the other bespeaks failure. A determination to both give and take is the foundation of successful career at "Old Aggie."

\*

The first issue is necessarily late due to the difficulty in providing for a printer. The advance in the price of paper, the higher labor cost, and the installation of a larger press at college, were all factors in the delay.

With the advance in the price of publishing and the cost of two additional pages it has been found necessary to raise the subscription price from \$1.00 to \$1.25.

Neither the delay nor the increased price of subscription were matters within the control of the editors, and it is hoped that no student or alumni support will be withdrawn because of them.

The following editorial taken from the Vermont Cynic so aptly applies to conditions here that it is worth printing and deserving of consideration.

"The freshmen have not yet the right spirit as a body. They are not anxious and ready to do things. They are not looking for opportunities to do something. They have to be asked or forced. They are not awake and they do not realize that they are here to give something as well as to take something. They are not yet acting like college men rather than prep-school men.

"What does it mean? When freshmen pass through a doorway in front

of upperclassmen? Why is it that only about ten freshmen were at Centennial Field, Wednesday night, to watch the practice? Where are the freshmen at the Student Union? What kind of men are those ten Freshmen who did not report to work on the Centennial Field when their names were posted? Why do the freshmen wait to be spoken to?

"The freshmen are not doing enough. It is up to every one of us to see that they do some work and do it with the right spirit. Drastic action in a few cases would set things right for the year and the freshmen class would be of real value to the rest of the college and to themselves. It is time for them to get going as a class and as individuals."

### To the Editor:

Dear Sir:—It has always seemed to me that the Campus has been lacking in one important essential. That is, in the matter of some pronounced system for the expression of student opinion. The College Catalogue refers to the paper as "an exponent of College life, reflecting the feelings, interests, abilities and progress of the students." To my mind it has never measured up to these qualifications. The editorial boards of the past can hardly claim to have aggressively represented the student body in their editorial columns; and the student body itself has either not been interested, or has been too timid to take the initiative.

Because of this the Campus has assumed the character of a newspaper merely, rather than that of the progressive spokesman of the students that it should be.

This is a deplorable condition. And it has occurred to me that by writing this article I might be able to "start the ball rolling," so to speak, and assist in establishing a department that would make the paper an official representative of student opinion and thus be all that the catalogue claims it to be.

In the first place there should be in each issue a discussion by the students themselves, of at least three or four topics of important daily interest. Not merely discussions, but criticisms. Criticise with the intention of making things better. But don't hesitate over the seeming unpleasantness of the topic. Its very unpleasantness is an indication of its undesirability. And when a thing is undesirable, say so. If you don't, we won't know anything about it. You won't hurt anyone's feelings. Criticise the method, not the man.

For example, we are all interested in examinations. And there is one phase of examinations as they are given here, that is extremely undesirable. That is, the old-fashioned habit of giving "catch questions."

The unfairness of this practice has first of all in its motive which is clearly expressed in the meaning of the word itself. The idea of trying to catch a student unawares upon some small point of at least very minor importance, if important at all, and the subsequent omission of really important queries is incompatible with the idea of the exam itself.

Then, when a fellow is able to successfully pass or even to attain a very high grade in an exam that would require a thorough knowledge of the

subject, rather than a freak memory for small oddities mentioned casually at one time or another in the class room, it is very discouraging to be flunked because the instructor has the "catch question" habit.

In a modern progressive institution such as this, we look for more progressive and advanced methods. The day of the "catch question" has passed, along with the "word for word" system of reciting lessons. Neither practice was intelligent or fair. And it would, I think, be for the benefit of all concerned, if the practice could be wholly eliminated here.

There are of course, many of the faculty who do not practice this system at all and they are the ones from whose classes the students claim to derive the most benefit. But where there are others that still continue it, the desired harmony and unity of purpose between preceptor and pupil is impossible.

Q. E. D., '19.

### To the Editor:

Our College has put itself on record in favor of classes on Saturday. It is the old story—the little fellow imitating the big one! Yale has it; Cornell has it—can there be any questioning whether this system is right or wrong? Sometimes I pray that the time may come when the big colleges will look down from the height of their pedestals upon the small colleges and imitate some of the things practiced there.

Let us be frank! The big colleges are not great; they are merely big—"a whole lot" of students, a big faculty, many buildings, and piles of money in the treasury. Occasionally there are one or two really great men in a big university, but occasionally you will also find them in the small college.

The big colleges are old, but old age is not always a stage of growth, oftentimes it is a stage of decay.

There shouldn't be classes on Saturday in any college! A chance should be given the fellow with no wealthy parents back of him, who has to rely entirely upon his own resources, to earn at least part of his expenses while in college. Saturday labor and vacation labor are the only source of income for many a student. College faculties see a few fellows without means coming to their door and working their way through college, and they say: "Where there is a will, there is a way!"

But the faculties overlook the fact that there are always big enrollments for the freshman class, and then the ranks of the students keep on thinning until they are reduced to about half their original number, and if you will look for causes you will trace them, in the majority of cases, to lack of means.

The college faculties see those that are coming to them, but they overlook the vast number of young men who dream all their lives of higher education, of higher standards of life and never pass the threshold of a college. These young men have a will, but by no means can they manage to have their way!

As it is, colleges and higher education are accessible only to the wealthier classes; there is a loophole still left for the exceptionally ambitious

ones among the poorer classes. Why make the opening still narrower?

Things are bad as they are. Why make them still worse!

The grammar schools manage to get along nicely without Saturday classes. The high schools feel comfortable within the five-days'-limit. Why is it that the colleges must have six days?

Some say it is the elective system that necessitates the appropriation of Saturday. Others claim that students are not accomplishing enough in five days a week, and that six days a week will furnish a better finished product at graduation. But why do not colleges extend their schedule to include Sunday? If they don't do it for the sake of a religious principle—let them leave Saturday alone for the sake of common sense.

An average student carries about six hours a day class work, and four hours a day is a conservative estimate of the time required for home work—ten hours a day of strenuous mental labor! There is no time left for reading. You would be surprised to know how backward students are in general reading. There is no time left for independent thinking. There is no time for the digestion of the mental food offered to them. Do not be surprised when a college graduate doesn't know much of his studies—why, his studies have not been digested properly! Information accumulated upon information and there they remained, layers upon layers, in his exhausted and unresponsive brain obstructing the process of churning, absorption and assimilation.

While Sunday is used by students for recreation, visits, walks, personal affairs, the day of Saturday should be set aside by all colleges as a day of reading, thinking and review work.

There is no reason whatsoever for the colleges to change the system being practiced so successfully in our public schools; the five-days-a-week basis should be left unchanged, and schedules arranged accordingly.

And I don't say that my opinion is the only right one. I am only showing the other side of the coin. I am merely opening a discussion.

DIP.

## New Department In Education

A new department in education in charge of Professor Eaton has been added to the college curriculum. It is the plan of the department to give courses that will fit both men and women for teaching. Four courses will be given, as electives, beginning in the Junior year. The first semester's work will cover the Philosophy of Teaching while in the second semester Educational Psychology will be taken up. The work of the first semester of the Senior year will cover the Principles of Teaching. These three courses fit a student for teaching mathematics or sciences in high schools. The second semester work is to be divided into two divisions. One in Home Economics to be taught by Miss Hayes, and the other in Agriculture taught by Professor Eaton.

## Corn and Fruit Show Planned

The third annual corn and fruit show is to be held in the Hawley Armory on Saturday, December 9th. The committee has just been appointed, so nothing definite has been planned.

Rollin H. Barrett, '18, is chairman of the committee and he has selected the following to help with the affair: Henry D. Munroe, '17, will look after the poultry; Alfred C. Sheldon, '17, will represent the Dairy interests, and F. M. Trinder, '17, the horticulture part. These men are specializing in the respective departments, so they will be valuable members of the committee. Besides these there are several other men—G. B. Durham, '19; W. C. Edwards, '17s; Lucas, '20, and W. Marsh, '18s. The department of Home Economics will be represented by Miss Helen Clark. Complete details in regard to the show will be given out in the near future.

## 'Varsity Does Well With Hard Schedule

(Continued from page 1.)

### CONNECTICUT vs. WESLEYAN.

The second game of the football season was played with Wesleyan at Middletown, it being Wesleyan's first game. The game was bitterly and evenly fought and it was only a "fluke" which gave the Red and Black the 7 to 0 victory.

Connecticut defended the north goal with the wind against it. Wesleyan kicked off, the Aggies rushed the ball to their forty-five-yard line but lost it on downs. Wesleyan then began pounding the visitors' line for short gains, with a few end runs which were often broken up for a loss. With the ball on Connecticut's two-yard line it was Wesleyan's second down. Here the Blue and White team held like a stone wall and received the ball on downs. Hopwood punted to the middle of the field against the wind and the first quarter ended with the ball in Wesleyan's possession on the 'Varsity's twenty-five-yard line.

It was in the second quarter that after three gains on line bucking, Wesleyan executed a forward pass to left end. The ball was touched by one of our men but was recovered by a Red and Black end and he carried the ball between the goal posts over the line. The goal was kicked and the half ended.

The second half was a repetition of the first in evenness of play but no more scoring was accomplished by either team. The ball see-sawed back and forth in the middle of the field, now in the visitors' possession and then in Wesleyan's. Frequent substitutions were made for both teams in this half, more in the Wesleyan line-up than in Connecticut's. Once, with the ball on the Aggies' thirty-yard line, Wesleyan tried for a field goal but the kick was blocked and recovered by a Wesleyan player.

Clark made a long run of twenty-five yards in the last quarter around right end and Harmon, of Wesleyan, made one of equal length in the third. Clark, DeWolfe, Newmarker, and Dickinson were our strong men both on the offensive and defensive.

Connecticut showed a slight su-

periority in the signals, for frequently Wesleyan's plays were changed, due to lack of knowledge of signals. Wesleyan repeatedly stalled for time and seemed to be afraid of Connecticut's peppery but light team.

The Aggies were considerably cheered up by the presence of about 75 rooters from Connecticut and the rooters stood by the Blue and White team consistently.

The summary:

Wesleyan.	Connecticut.
Webbe, Peck, Johnson,.....Dickinson	Bean
	Left End.
Wooley.....Gleason, DeWolfe (Capt.)	Left Tackle.
Sutter, Langdon.....Maguire	Left Guard.
Eaton, Ritchie, Fuller.....Quinn	Centre.
Froisevaux, Brown.....Francis, Strong	Right Guard.
Talbot.....Newmarker	Right Tackle.
Roswell.....Reeves, Ryan	Right End.
Peck, Lawson.....Hopwood	Quarterback.
Harman, Rorer, Deatjen (Capt.)..Clark	Left Halfback.
Richards, Wilbur, Harman	Murphy, Schaffer
	Fullback.
Webb.....Mahoney, McCarthy, Smith	Right Halfback.

Score—Wesleyan, 7; Connecticut, 0. Touchdown—Roswell. Goal from touchdown—Webb. Referee—Caldwell, of Marquette. Umpire—Dr. Herr, Dartmouth. Linesmen—Coulter, Brown.

### MASSACHUSETTS "AGGIES" vs. CONNECTICUT "AGGIES."

On October 7th Connecticut's grid-iron heroes travelled via the dangerous C. V. to Amherst where they went down to an honorable defeat at the hands of the heavy Massachusetts Ag. Team, by the score of 12 to 0.

Massachusetts Aggies outweighed the Connecticut Aggies by 20 pounds per man but when the game was ended the Massachusetts boys knew they had been in a game. Connecticut went into the play with four regulars on the side lines or absent, and this weakened the team considerably.

C. A. C. kicked off, rushed the ball for the two first downs, then lost it on downs and on an incomplete forward pass. In this quarter Hopwood made a corking thirty-five-yard run on a fake kick and then tried for a field goal which fell short. The quarter ended with the ball in Massachusetts' possession.

In the first few minutes of the second quarter "Hoppy" again tried a drop kick but failed to get the ball over the cross-bar. Gains by the heavy M. A. C. backs and penalties on the Nutmeg State boys put the ball on the thirty-yard line, from where Ford carried it over on the next play. Captain Grayson failed to kick the goal. The half time was up with the ball in the visitors' territory and in the possession of the opposing team.

Connecticut again kicked off and the ball was rushed and passed to the twenty-five-yard line when a fumble gave C. A. C. the ball, Clark recovering it. Connecticut fumbled on the next play but soon recovered the ball on an unsuccessful forward pass. The third

quarter ended with the ball in the middle of the field.

On the first play Connecticut Aggies were penalized fifteen yards for side-line coaching. Then gains again carried the ball to the ten-yard line. Weeks then took the ball for the second touchdown. Massachusetts again failed to kick the goal. "Hoppy" kicked off again but M. A. C. soon punted to C. A. C. and a thirty-yard forward pass gave the boys new life. The game ended, however, before a score could be made.

Summary:

M. A. C.	C. A. C.
E. Grayson.....Dickinson	Left End.
Holmes.....Gleason	Left Tackle.
Spaulding, Petit.....Strong	Left Guard.
Sauter.....Quinn	Centre.
Blanchard.....Maguire, Murphy	Right Guard.
Edwards, Haggelstein.....Newmarker	Right Tackle.
Day, Richardson.....Ryan	Right End.
Grayson, Whittle, Mack.....Hopwood	Quarterback.
Pond, Rorstrom, Blanchard.....Clark	Left Halfback.
Bolles, Moyinhan.....McCarthy, Smith	Right Halfback.
Weeks.....Schaffer	Fullback.

Score—Massachusetts Aggies, 12; Connecticut Aggies, 0. Touchdown—Pond, Weeks. Time—Twelve-minute periods. Referee—Carpenter. Umpire—Flynn. Linesman—Kennedy.

### UNIVERSITY OF VERMONT vs. CONNECTICUT.

The game at Burlington against the University of Vermont was one played under adverse conditions. The Vermont team was considerably heavier than Connecticut's, both on the line and in the backfield. And then it seemed as if the Connecticut boys were playing both the Vermont team and the officials.

In the third quarter Dickinson ran 35 yards for a touchdown which was not allowed because of a claim that "Dick" had run offside. McCarthy, later in the same period, ran 55 yards for another touchdown but this was not allowed for the same reason.

The Green Mountain Boys scored first when Connecticut held them for downs on the shadow of the latter's goal posts.

C. A. C. fumbled on the first play and Vermont recovered the ball on the goal line. Vermont was allowed a touchdown and then kicked the goal.

With the ball in the home team's possession Dickinson intercepted a lateral pass and ran 55 yards for Connecticut's first score. It was just after this that "Dick" and "Mac" made their runs but the touchdowns were not allowed. But Dick and Mac claimed they did not run offside but to no avail.

Vermont's speedy quarterback scored the second touchdown in the second period. He made a run of 55 yards, running offside and then back in again but the officials did not see it, hence allowed the touchdown.

Hopwood made three points for Connecticut in the third quarter when he booted the ball over the crossbar from the thirty-yard line. This finished the

Bowman, Short.....Schaffer, Smith	Fullback.

## RHODE ISLAND, 13—CONNECTICUT, 6.

## Aggies' Triumph in Everything Except Game.

Fighting nip and tuck as only old rivals can, Rhode Island State defeated the Nutmeg boys, 13 to 6, before the largest audience that has ever witnessed an athletic contest at Kingston. The Little Rhodies got the jump early in the game and after the first touchdown acted mostly on the defensive.

The visitors came back determinedly in the second half. Three times they carried the ball to R. I.'s ten-yard line

and failed to score. On the third try they gave up straight football after a few rushes, chipped in with a well-executed forward pass on R. I.'s forty-five-yard line and went on for a touchdown, Smith scoring. The attempt at the goal was said to be a failure, the official claiming that the ball did not touch the ground before being kicked.

O'Brien, who scored the Kingstonites' first touchdown was also responsible for the second, making a dash through the entire visiting team for a score. This clinched the victory.

The contest had all the attractions of a headline event. The Aggies brought a rooting section of 150 students on a special train and the two contingents alternated between the halves in singing songs and making the Kingston plains reverberate with cheers.

The summary:

Connecticut Aggies.	R. I. State.
Ryan .....	Dunham
Right End.	
Newmarker .....	Dolge
Right Tackle.	
Gleason .....	Malloy
Right Guard.	
Quinn .....	Gibbs
Centre.	
Strong .....	Bartells

I.—Call for Strand, Moore for Call, Harte for Moore, Wood for Knott.

#### N. F. A. vs. SECONDS.

In a game which was characterized by shady playing and injuries to players, the Aggies' Scrubs outscored the Norwich Free Academy, 19 to 13. Wilson's plunging stood out as the feature of the game. The contest will probably be remembered as the game in which Arthur Frosholm, the speedy end, suffered a slight concussion of the brain and remained unconscious for twenty-four hours. Mr. Warner and Mr. Ackerman were the officials.

#### SECONDS LOSE TO MUNSON.

The second team opened its season against Munson on October 11th at Munson; and met with defeat to the tune of 13 to 0.

As a team the boys played well, but they didn't get started in good shape until the second half. Munson received the kickoff and was held for downs on the forty-yard line. After a few more plays the scrubs were held for downs, and a poor pass to Murphy, who was kicking gave the ball to Munson. DeMarsh then took the ball over for a touchdown. Throughout

the first half DeMarsh circled the second's end almost at will and another touchdown soon resulted.

During the second half Connecticut repeatedly assumed the offensive and several times brought the ball within the very shadow of their goal, but couldn't push it over. For Munson, DeMarsh was the star of the game, while Christopher, Reeves and Ryan did excellent work for the seconds.

### Class Officers

### Judging Teams Get Some High Scores

#### C. A. C. DOES WELL IN LIVE STOCK AND BUTTER JUDGING. WIN CASH PRIZE AT SPRING-FIELD.

A live stock judging team, representing Connecticut, competed in a judging contest at Brocton, Mass., which was open to all New England Colleges. A team consists of three men and one alternate, and awards made for team scores as well as individual records. In this contest the Connecticut team received first place on Ayrshires, second on horses, and was tied for second place on Holsteins. C. A. Barnes, of Mystic, made the highest score in the contest on Ayrshires, and A. C. Sheldon, of West Springfield, was second highest on this breed. S. M. Mead, of Greenwich, Conn., made the second highest individual score on Holsteins. J. A. Kuelling, of Brooklyn, N. Y., accompanied the team as alternate.

This same team competed at the National Dairy Show, in which the competition was much stronger, there being eighteen teams competing. The scores for all teams and contestants were very close. The best score was made by S. M. Mead, who stood second in Ayrshires, in a field of fifty-four men.

A team was also sent to the National Dairy Show to judge butter. The members of this team were A. C. Sheldon, West Suffolk; G. T. Cannon, New Haven; J. E. Ayer, North Franklin, and J. A. Kuelling, Brooklyn, N. Y., as alternate. Nine Agricultural colleges competed in this contest, and the Connecticut team ranked fourth, winning a cash prize of twenty-five dollars.

## Cottage Notes

Miss Corinne R. Taply, of Watertown, New York, who is a graduate of Pratt Institute, has been appointed instructor in Home Economics to fill the place of Mrs. Cousley, whose resignation takes place this fall.

The former gymnasium in Grove Cottage is being transformed into a cooking laboratory. New equipment, such as porcelain sinks, electric stoves, modern cooking desks and larger store-room facilities will greatly improve the conditions under which the students work.

There are twenty students, resident and day, taking work in Home Economics.

There will be an informal dance at the Cottage every Tuesday evening from six-forty-five to eight. Everyone is cordially invited.

Miss Hayes was instructor in Household Arts Education at the Columbia University summer session.

Miss Costello attended the summer session at Columbia University, taking courses in Educational Psychology, Household Arts Education and Design.

## Connecticut Second In Judging Horses

**SECOND ONLY TO M. A. C. IN NEW ENGLAND.—COLLEGE HORSES DO WELL WITH DRAGON JR. SECOND.**

The standing of the Connecticut team in the horse classes at the New England Contest in Brocton is as follows:

Massachusetts, \$387.5.  
Connecticut, \$382.5.  
Maine, \$352.5.  
Rhode Island, \$327.5.  
New Hampshire, \$260.0.

The horses judged were particularly hard classes as they averaged over a ton in weight, were all the same color, and practically the same age and in high condition. Both classes were shown at the same time in a small ring, and only a short time was allowed for placing, all of which tended to confuse the contestants.

The horses shown by the Animal Husbandry Department at the National Dairy Show caused much favorable comment, and were beaten only by J. Crouch & Son, of Indiana.

That Dragon Jr. was entitled to win in his class is the consensus of opinion of all who were close observers. This would have given him a championship in Percheron stallions and while it is no disgrace to stand second to a Crouch entry, it was very disappointing not to get the championship.

The comment of the Breeders' Gazette of Chicago follows:

"The class for stallions, two years old and under, four brought out Dragon Jr., shown by the Connecticut Agricultural College, a splendid specimen of the breed. 'Ideal,' a horse with a little more scale was placed over Dragon Jr., who was popularly pronounced superior in conformation, quality, action and set of legs and feet. Dragon Jr. is a black, weighing 1,750 pounds; as a two-year-old, he was the popular choice for championship honors."

John Buckler, superintendent for Mr.

John A. Spoor, ex-president of the Union Stock Yards, Chicago, said:

"There is no question about his superiority over the other colt. Dragon Jr. should have easily won in his class and been champion of the show." Mr. Buckler showed Dragon at the International Live Stock Exposition at Chicago in 1907, when he won grand championship. He states that in his opinion the colt is equal to his sire in every respect and superior in the stables. His opinion was voiced by many of the leading stock men of this country and Canada.

Carbon II, who through the kindness of Mr. S. D. Wicks, of Pomfret, stayed at the College barn last year was third, and the Crouch farm stood fourth, with their second entry in this class.

In the three-year-old Percheron mare class, Crouch secured first and second, and Queen Victoria, shown by the College, won third, and a Massachusetts entry fourth.

## Alumni Notes

R. C. Ackerman is employed by the International Agricultural Co-operation of Buffalo, N. Y.

B. T. Avery, Jr., has charge of the field experiments in plant genetics at the Carnegie Station of Experimental Evolution, Cold Spring Harbor, Long Island, N. Y.

M. R. Cahill is superintendent of the Cow Test Association of Litchfield County. His connection is with the County bureau with headquarters at Grassland Farm, Toconic, Conn.

Harry Costello is foreman for the Basswood Holstein Farm, Andover, Conn.

J. R. Case is instructor in Agriculture at Hampton Institute, Hampton, Va.

Imbert Fellows is head packer for the Washington Fruit Growers' Association, Washington, Conn. Address yet unsettled.

D. G. Horton is herdsman for the Woodland Farm, South Manchester, Conn.

Harold Hurlbut is working on Professor A. G. Guiley's fruit farm, Rockville, Conn.

Raymond James is employed as head gardener on an estate in Oakdale, Conn.

C. E. Lee is assistant Agricultural Instructor at the Concord High School, Concord, Mass.

E. B. Lyons is in the employ of the Bowker Fertilizer Co. as extension man for establishing new agencies. His headquarters are at Albany, N. Y.

B. A. McDonald is assistant Field Demonstrator, Extension Department, Connecticut Agricultural College, Storrs, Conn.

F. P. Miller is working on the Connecticut Agricultural College Farm.

Harry Persky is working at Shuttle Meadow Orchards, owned by Elijah Rogers in Southington, Conn.

Old Doc Hull, ex '10, has purchased a farm at Larchmont, eighteen miles from New York City, and says he expects to grow some large crops of wild carrots.

Edwin Choate Eaton, '11, on September 29th, finished construction of a cement tennis court at Juniper lodge for girls on Chekaque Island, Maine. Mr. Eaton is now at Creton Hill Farm,

laying out plans for a 19-hole golf course and two tennis courts, and figuring up on the cost and labor required to install a 200-yard by 50-yard concrete swimming pool in running water, course, courts and pool to be finished on or before June 17th, 1917.

Edwin Dana Jewett, M. S., '13, advises all those taking forestry, upon receiving their degree, to take examinations for the Canadian forestry service, "as thousands of Canadian foresters are at the front, with pay, field and hours are good."

R. U. Enholm, '11, and wife, visited his parents at Newton Hover Falls, Mass., for the last three weeks. Enholm spent a large part of his time among his old golfing friends at the Woodland links where he was formerly head caddie and assistant green tender.

C. I. Nesmith, '10, Reading, Mass., has recently bought two Percheron horses for his market garden business. C. I. Jr. is now eight months old and is the dead image of "Old Nes."

Lewis W. Ritch, '10, formerly of the firm of Ritch & Eaton, landscape gardeners of Boston, is a member of the Carmel, N. Y., Athletic Association. He is manager of several fruit farms in said town and of the Grange and of the Congregational Church Men's Glee Club and Choir.

#### SOUTH OF THE MASON-DIXON LINE.

Harold Skinner, ex '15s, was recently married and is now located on a farm of his own in Screemerville near Harrisburg, Va.

Harold S. Hatfield, '12, is instructor in Mechanical Engineering at Howard University, Washington, D. C.

Herbert W. Wood, '13, has a poultry and fruit farm at Twin Mountain, West Virginia.

Moses A. Wadhams, '11s, is Superintendent of Construction for a company in Washington, D. C.

Dr. Rufus W. Stimson, president of the College from 1906-1908, and now field agent for the Massachusetts State Board of Education, is making an investigation in the methods of instruction used in the Hampton Normal and Agricultural Institute at Hampton, Va.

Men formerly connected with C. A. A. and now at Hampton are Charles K. Graham, Director of Agriculture, who was professor of Dairy at Storrs for five years, and James R. Case, '16, now a teacher in the Agricultural Department.

James H. Gamble, '09, is at Washington, D. C., working for the U. S. D. A.

A. V. Osmun, '02, has recently been appointed to take charge of the Botanical Department at Massachusetts Agricultural College.

A. L. Clark, '05, has resigned as assistant state leader in farm demonstrations for the state of New Jersey.

Professor (in genetic class as he wrote on the board 1,000,000--400,000--500,000—"You see we are just dealing with round numbers."

Student (in back of the room)—"Eh, yes, naturally."

## Department Notes

### DAIRY.

Minnie Fay Pieterje, a Holstein cow in the College herd, has just finished a year's test record, having produced 20,822.7 pounds of milk and 687.47 pounds of butter fat, equivalent to 759.3 pounds of butter. She was born in 1910 and had for her first year's record, last year, 17,019 pounds of milk and 525 pounds of fat.

The first student butter judging contest was held this fall in Springfield at the National Dairy Show. There were ten college teams represented with three men on each team. Pennsylvania won the contest while our team took fourth prize. The members of the team consisted of A. C. Sheldon, G. T. Cannon and J. E. Ayer.

At the stock judging contest at the National Dairy Show our team was made up of C. Barnes, S. Mead and A. Sheldon, with Kuelling as alternate. There were 18 teams in the contest. We secured fifteenth place. The four leading dairy breeds, Holsteins, Jerseys, Guernseys, and Ayrshires were scored in two classes consisting of four bulls and four cows. S. Mead was second high man in the Jerseys. Nearly all the prizes were taken by the Western Colleges. Eight successive hours of work were required to complete all the breeds.

### EXTENSION.

Mr. J. E. Gifford has recently been elected county agent for Tolland County and Mr. B. N. Ellis for Windham County. At present the demand for county agents far exceeds the supply. It would be well for any student who has not as yet decided what he wants to do to look into the matter, as there is a big opportunity here for college graduates.

Messrs. Baker and Davis of this department will represent this state at the conference of county agents to be held in Washington.

### ANIMAL HUSBANDRY AND FARM.

Two head of short-horn cattle consigned to the New England sale at Greenfield, Mass., averaged \$312.50. One of these went to Bath, New York, and the other to Dalton, Mass.

The alfalfa crop on the College farm has been very satisfactory for the season just passed. From approximately thirteen acres, seventy-one loads of cured hay and 60,780 pounds of green hay have been harvested in three cuttings.

## Former Prof. Ballou In Egypt

H. A. Ballou, M. Sc., Associate Professor of Forestry, Botany and Military Science here at Connecticut during the years 1897-1900, has arrived in Egypt. He has made a special study of Entomology since leaving here and his services are now employed by the Egyptian Government for a year. Mr. Ballou is going to conduct an investigation into the insect problem of cotton production in Egypt.

## Titan 10-20 \$900 Cash f. o. b. Chicago

THERE is hardly a farm with a hundred acres or more of tillable land but what has belt work enough to keep a 20-H. P. engine busy when not doing field work. This belt work alone will in most cases pay the entire yearly fuel bill of a Titan 10-20 tractor. Add to this the deep plowing, disking, harrowing, seeding, fallowing, harvesting and hauling the Titan will do during the year, at less than horse cost, and you see at once what a gilt edged investment this tractor is.

Power, strength and economy as combined in the Titan 10-20, mean everyday usefulness. It has power and strength to take care of the everyday work of the farm. It is small enough to run light machines with economy. It works successfully on kerosene. It reduces the number of work horses needed. It saves so much in so many different ways, and does so much that it cannot help but pay for itself long before it is worn out.

Write for full information about this Titan 10-20—the tractor that pays for itself, that furnishes power at kerosene cost (less than half the price of gasoline), and that is just the right size, weight, and style for farms of 100 acres or more.

## The Tribridy Weldon Co.

THE METROPOLITAN STORE of Willimantic

## Tankage

"A man who'd maliciously set fire to a barn," said Deacon Jones, "and burn up a stable full of horses and cows, ought to be kicked to death by a jack-ass, and I'd like to be the one to do it."

A subscriber asks, "How long cows should be milked"

The same as short ones, old top.

Bill Brown asked for an opinion on late plowing—"We find Bill, that as a rule plowing should not be continued later than eleven o'clock at night. It gets the horses into the habit of staying out late, and it unduly exposes the plow.

"What I want," said a noted college professor, pointing at one of his pupils, "is good, common sense."

"Exactly," said the student, "That's just what you need."

Professor—"What is found in salt water besides chloride of iodine"

Sophomore—"Herrings, sir."

### Storrs Definitions.

Aggie—Any bright young man who comes here to Storrs to learn how to be a stockholder or an insurance agent.

Goofer—A person who believes that farming will pay.

Deceased—The fellow that said the best thing about Storrs was the road to Willie.

(New student watching goal posts being set up)—"What are those for, the running high jump?"

## Wyandottes Win 5th Egg Laying Contest

O. G. KNIGHT, OF BRIDGETON, R. I., TAKES FIRST PRIZE—SOME NEW RECORDS ESTABLISHED.

October 29th marked the end of the fifth international egg-laying contest held at Storrs, conducted by the Connecticut Agricultural College, and the Storrs Experiment Station. O. G. Knight, of Bridgeton, R. I., captured first place with a pen of White Wyandottes, having a total of 2,265 eggs for the year. A pen of White Wyandottes, owned by Tom Barron, of England, with 2,198 eggs, took second prize, and Oregons from the Oregon Agricultural College with 2,122 eggs third prize. A pen of Red Sussex had the lowest total, with only 924 eggs or less than an average of 100 eggs per hen.

The highest individual record was obtained by a White Leghorn owned by A. F. Robinson. She laid a total of 296 eggs, establishing a new record for contests held at Storrs in which ten birds have been used in a pen. A White Wyandotte owned by O. G. Knight was second with 281 eggs.

The average egg production for breeds was as follows: Plymouth Rocks 160.4, Wyandottes 169.4, R. I. Reds 158.7, White Leghorns 165.4, and miscellaneous 147.2. The average for all was 162. Nineteen varieties of birds from fifteen states and three countries were represented in the contest.

The eggs laid during the whole contest weighed about 10 tons and sold for an average of \$450 per ton. The

death rate this year was slightly lower than the year previous, being 115 and 126, respectively. At present it is estimated that the returns from sale of eggs and cost of entering pens will total a little higher than the cost of conducting the contest, although the official report has not been given out.

The sixth international egg-laying contest will begin on November 1st. There are only nine varieties being represented this year. Nearly half of them are Leghorns. There are forty-three pens of Leghorns, two of Campines, two of Orphington, two of Barred Rocks, three of White Rocks, two of Buff Rocks, fourteen of White Wyandottes, two of Buff Wyandottes, and the remaining pens out of the 100 are R. I. Reds. Only one pen arrived out of condition and those were English birds. The new birds are laying heavier so far this year, and appear to be a better set than those of former years.

## A Labor Day for C. A. C.

We of the East are accustomed to look to the West for big things. We carefully peruse the annual catalogs of certain institutions in the land of the setting sun and envy the men who have been fortunate enough to obtain or finish their higher education there. We speak with pride of the men of our faculty who have graduated from colleges in the West and call attention to the fact that the departments with which they are connected are our biggest and most progressive. Fifty years ago Horace Greeley said, "Go West, young man, go West," and we cannot get away from this advice.

California, perhaps, of all the states in the Far West has been "Boosted" the most, and she holds the topnotch place for progressivism only because she has earned it. The Golden Gate commonwealth boasts of many universities and colleges of exceptionally high rank. The University of California, to take a particular example, is one of the largest and most progressive of any of the institutions supported entirely or in part by State funds. That statement means that in the number of students, size of faculty, breadth of study and investigation possible, in elaborateness of equipment and in character of the work turned out, California is nearly at the head of the list. Nor are these things all.

"Cal," as the students affectionately denominate their Alma Mater, has student body without parallel for the work they do or the way they do it. To tell of all their customs, exploits and plans would take a book, but one occasion which they celebrate every year is noteworthy indeed.

With hundreds of acres of land as the campus, the students need not look far to find various little imperfections and wrongs, but instead of sending the advisory committee to petition Prexy to remedy the evil they ask permission to fix it themselves. A Labor Day is designated annually and on this holiday all the students gather to do their particular stunt. Many miles of walks about the grounds have been made in this way and various other improvements are credited to the co-operation of the students.

A few years ago a mountain which

## Ready!—"Roll Your Own!"

A fresh, lively "roll your own" cigarette of "Bull" Durham is as quickening and inspiring as the roll of drums or the "get busy" notes of a bugle call. "Bull" Durham is the smoke of the red-blooded—the bright and breezy smoke that goes with youthful enthusiasm and energy.

## GENUINE "BULL" DURHAM SMOKING TOBACCO

No other tobacco in the world has the unique, mellow-sweet mildness or the delightful aromatic fragrance of "Bull" Durham.

Made of rich, ripe Virginia-North Carolina leaf, "Bull" Durham has that distinctive, exclusive quality which has made it the favorite smoke of three generations.

Only by "rolling your own" with "Bull" Durham can you get a cigarette with the individuality and personality that give such perfect, lasting satisfaction.

THE AMERICAN TOBACCO COMPANY

## Study Your Wheat Before You Harvest It

If the yield and quality are bad you must do better. If they are good it will pay you to make them better. A better fertilizer will do it. The usual wheat fertilizers do not contain enough

## POTASH

Use 6 to 8 per cent. Potash, instead of 1 to 2, and balance the phosphoric acid of the bone or phosphate.

Tell Your Dealer about this Now before the fertilizer salesman arrives. Write us today for our free book, "Fall Fertilizers."

We sell Potash Salts in any amount from 1 bag (200 lbs.) up. Write for prices, stating quantity needed.

San Francisco, 25 California St.

was plainly visible from all parts of the campus was decorated with a large "C" made of concrete. It was a three-mile journey from the University grounds to the letter, but the work was completed in one day, and a big celebration came every year on that date when the anniversary was renewed by the Freshman class.

Not satisfied with this large testimonial to their abilities the student body last year decided to construct a walk to the top of the mountain where the letter was. The College of Law attended to the lease and right-of-way, the Engineers surveyed the land, plotted the grade and the Co-eds promised a dinner. When the Labor Day came each class had a section to complete and even the Faculty was allowed to play. The few hundred yards that each class must grade, drain and surface were soon finished and benches conveniently placed told the tale of the workmen.

After eating the Co-eds' offering the judges placed the sections in regard to quality of workmanship. Of course the Engineers were first and the Faculty—way down. Then with the band at the head, the students marched to the top of the hill above the letter, sang their Alma Mater and shouted their cheers of triumph and self-congratulation. That night the letter and walks were lighted up and ever since the locality has attracted many visitors.

Now, here at Storrs there are many things to be desired, but there is one particular way in which the student body would do well in imitating our far western friends.

Our poultry building is the only one of its kind in New England and the equal of any in the country. It is, however, situated at a distance from the dormitories and main building and should be of easier access. At least eighty men must go there every day in the year for classes and that particular stretch is always in use.

Here then is the plan, settle on some day for a Labor Day and put in a good high, well drained walk of any material, from the Dairy building up the hill to Poultry. Get the College teams and do a good job while you are about it. Put some shade trees in later and you may rest assured that for your little share future generations of C. A. C. and A. O. P. men will call you blessed.

This is no scatter brain idea, but a good, sensible plan to follow. It is worth doing and worth doing well. It is for the welfare of every man who will ever have a class at poultry. It is an unselfish and altruistic proposal. Now is the time. A large, cold, wet winter is in prospect and rubber boots are going up in price all the time. Here is the chance to do a little constructive criticism instead of crabbing. Are we equal to the occasion?

JE R CHO.

## Annual Rope Pull

Some of the real old life and pep was seen at C. A. C. at the annual Sophomore-Freshman Rope Rush held early in October. As is usually the case the Freshmen disturbed the stillness of Swan Lake by their presence therein but it was by no means a walk away

for the Sophs. For the first six minutes it was nip and tuck and at one time the Freshmen had five or six feet of rope to spare. Gradually, however, their footing in the sand and sawdust on the south side of the lake gave way and this disadvantage, together with the system and experience of the Sophs, finally proved too much for the Freshies. The whistle blew at the end of the allotted ten minutes with the Freshmen in the middle of the lake still clinging to the rope.

As the Freshmen began to emerge from the water depths at the other side of the lake they were met by the victorious upperclassmen who deemed it necessary to give them one more ducking while the "kettle was boiling," but much to their surprise they found more than they had anticipated and after the rush many of the Sophmores as well as the Freshies were participating in a much needed shower bath.

The committee in charge were: Edward L. Newmarker, '17; Henry A. Weidlich, '17; Arthur B. Watson, '17. Officials—Professor Judkins, referee; Coach Donahue, starter and timer.

## Noves In Faculate

SOME WORTHY ADDITIONS TO THE FACULTY ROSTER.

PROFESSOR EATON.

Professor Theodore H. Eaton, secretary of the faculty and professor of Education, was graduated from Harvard, in 1900, with an A. B. Degree. The next year he spent in graduate work at the Massachusetts Agricultural College. He received his Masters degree in Education at Columbia in 1915 and expects to get a doctor's degree at the same university in a few weeks. His thesis on "Organization and Methods in Agriculture in Secondary Schools" has already been submitted.

Professor Eaton comes here well-fitted for his work, having been a dairy farmer for six years, principal of a high school from 1906-'09, a poultry farmer from 1909-'12, instructor in Animal Husbandry at Cornell in 1912-'13, professor of Agricultural Education at the Central State Normal School of Michigan from 1913-'14, and instructor in Agriculture and Rural Education at Columbia from 1914 until he came here.

PROFESSOR SMITH.

Professor Guy C. Smith, who takes Professor E. O. Smith's place as head of the Department of Economics, also has charge of co-operation in regard to the marketing of farm products in the extension service.

He was graduated from the Michigan State Normal College, in 1906, where later he was assistant librarian for two years. He has held the position of principal of the High School at Evart, Michigan, and superintendent of schools at Homer, Michigan. He received his bachelor's degree at the University of Chicago, in 1911, where he also spent one year at graduate work. In the fall of 1911 he became associate professor of Economics at New Hampshire State College and head of that department in 1913. Last year Professor Smith conducted an investigation in New Hampshire on the condition of farm mortgage credit and published a research bulletin on that subject.

## The College Book Store

is not conducted for profit. It is run for the convenience of students, college departments and employees. Such student and office supplies are carried in stock as are usually in demand. These are sold at ten to twenty-five per cent. below regular retail prices.

The store will also buy for you any article not carried in stock. To our way of thinking this service is simply applying the Golden Rule to a business transaction. We aim to serve you as we ourselves would like to be served. We believe we shall realize our aim in every detail.

*We Save You Money*

*We Give Service*

It will pay you to buy ALL your stationery supplies at this store.

## The Connecticut Agricultural College

STORRS, CONN.

**FOUR-YEAR COURSE** in Agriculture designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements four-year high school course. B. S. degree.
