THE CONNECTICUT CAMPUS

PUBLISHED SEMI-MONTHLY DURING THE COLLEGE YEAR

VOL. V

STORRS, CONN., FRIDAY, FEBRUARY 7, 1919

No. 6

INCREASED FUNDS ARE RECOMMENDED

FINANCE COMMITTEE MAKES A
FAVORABLE REPORT.

Trustees ask for \$260,580 for Erection
of New Buildings on Campus.

The State Finance Committee has recommended to the Legislature an increase in the biennial appropriation for the College for current expenses, from \$105,000 to \$160,000; of the Storrs Experiment Station for maintenance, from \$15,000 to \$25,000; and of the Extension Division for maintenance, from \$30,000 to \$134,300.

The Trustees have petitioned the Legislature for an appropriation of \$260,580 for the erection of a Dining Hall, Woman's Building, Students' Infirmary, Faculty Cottages and other improvements.

MID-YEAR EXAMS. THREATEN.

Schedule for Tests to be given the
Young Women.

Again the shadow of mid-year examinations is clouding the horizon. The young women's semester closes Tuesday, February 11, and the following schedule of examinations will be in order:

Thursday, 9 a. m.—Chemistry 2; Marketing 4e.

Thursday 1.30 p. m.—History 2a; Home Economics 3; Poultry 1c.

Friday, 9 a. m.—English 2; Home Economics 3a; Home Economics 1a.

Friday, 1.30 p. m.—Zoology, 1a; Education 3c; Home Economics 4g; Home Economics 2a.

Saturday, 9 a. m.—Education 3a; Home Economics 2c; Home Economics 4a; English 1.

JUNIOR SHORT COURSE.

A Junior Short Course will be held at the college from March 24 to 29 inclusive. Those enrolled will be the members of the champion demonstration teams which competed at the State Fair in Berlin. They are getting their expenses as prizes for the work accomplished at this fair. Besides these boys and girls, the course is open to other members of Boys' and Girls' Clubs.

At present, Miss Helen Bolan, Assistant State Club Leader, expects about 25 girls and 50 boys to enroll. The boys will room in the dormitories, and the girls will room in Grove Cottage, which will be vacant, since at

(Continued on page 2)

R. O. T. C. SOON TO BE REALITY

NEW COMMANDANT ARRIVES
ON SCENE.

Formerly in Charge of Feeding 3500
Hungry Soldiers.

Captain Claude E. Cranston, Infantry, arrived in Storrs, Friday morning, January 31, to take charge of the R. O. T. C. unit, which will soon be in running order.

Captain Cranston was born in Richland Center, Wisconsin. He first became attached to the army as a private in 1910. He served three years and was discharged in 1913. Before the outbreak of the war Captain Cranston was manager of the firm of E. E. Atkinson, Minneapolis, Minn.

He entered the first training camp at Fort Snelling, Minn., and was commissioned Second Lieutenant in Infantry Reserve. After leaving the training camp he joined the 40th Infantry, and it was with this division that he was advanced to a First Lieutenantcy. He was sent to Fort Sheridan, Illinois, as Mess Officer, responsible for the feeding of 3500 men at an S. A. T. C. camp there.

This in itself was no small proposition. Captain Cranston says: "We used 1600 pounds of potatoes for one meal, 2000 pounds of bread for one day, 42 cases of pears for one meal, and either 63 cases of peaches, 21 cases of oranges, 42 cases of grapefruit, 1200 pounds of watermelon, or 315 gallons of ice cream per meal. The men always had fresh fruit twice a day." An average menu, according to Captain Cranston, follows: "Cream of tomato soup, roast beef and brown gravy, mashed potatoes, stewed peas, bread and butter, banana fritters, grapes and coffee."

While carrying on his duties as Mess Officer he was promoted to his captaincy and was sent to the University of Alabama as Professor of Military Science and Tactics. It is from there that Captain Cranston comes to us.

If accommodations can be made, Captain Cranston will bring his wife and three children to live at Storrs, but for the present they will remain in Tuscaloosa, Alabama.

MISS WALLACE TO RETURN.

Miss Anna Mary Wallace, who has been doing war work in Boston expects to resume her duties as instructor in English and Public Speaking at the college on February 15.

Frederick M. Trinder, '17, was in Storrs January 29.

ROPE RUSH WON BY SOPHOMORES

FRESHMEN TOOK TO WATER IN
CROSSING.

Both Teams Struggled Hard—Neither
on Pond when Contest Ended.

Monday afternoon, January 27, marked the first real contest between the Freshmen and Sophomores, to which the whole college was invited. Other and important struggles may have occurred, but they were not exactly public affairs. This contest, the annual rope rush, was held across ice instead of water. The rules which were made by the senior class were posted as a surprise on Saturday. Up to that time neither of the lower classes had thought much about the matter, except to wonder if it might not be held some time next spring.

The "Sophs" were the first to wake up to the fact that a practice pull might be in order and, consequently, a stone drag and portions of a stone wall situated near the home of C. H. Savage served to hold their attention most of Saturday afternoon.

About Sunday morning the Freshmen fell for the same idea and took to the woods, with the Sophs close to their heels. There seems to be two sides to the story as to whether the sophomores broke up the practice or not.

However, to make a long story short, on Monday afternoon 1920 and 1922 and their friends gathered on the south bank of the pond, and 1919 and 1921 congregated on the north side.

R. E. Dodge read the rules and George W. Fraser started off the contest, which lasted ten minutes.

Walter F. Wood, Jr., led the freshmen, while Everett D. Dow led the Sophomores. The sides were very evenly matched, but little by little the Sophomores gained, and when the shot rang out, Prof. W. L. Slate declared the victory theirs. The freshmen were at the edge of the ice, but not on it.

The freshmen then started to cross the pond where it was frozen all the way over, but the sophomores protested. W. I. Graf stepped into the icy water first and the others quickly followed suite. The water was less than waist deep where the Freshmen had to wade.

Lieutenant P. N. Manwaring, who returned from France in the Dixie Division, has returned to the Connecticut Agricultural College and is entered in the Junior class.

ETA LAMBDA SIGMA MEETS IN FRANCE

FRATERNITY MEMBERS GATHER
AT LE MANS.

Six Men from the Same Organization
Happen Together During Big Fight.

The following letter was received by the Eta Lambda Sigma fraternity from Captain Richard G. Plumley: Brothers of the good old "X":

It may interest you to know that a very enthusiastic meeting of the "X" was held in the City of Le Mans (Sarthe), France, last month.

The following "X" men who are in the service over here just happened to be at Le Mans at the same time, and of course were mighty glad to meet someone else from Eta Lambda Sigma and C. A. C.: Major Charles T. Senay, Captain Richard G. Plumley, First Lieutenant Edward Ryan, First Lieutenant Louis W. Seggel, Second Lieutenant J. Herbert Wood, First Sergeant Williard H. Allen.

Since we have been too busy to write, and none of us knew where the others were, it was a rather remarkable coincidence and an unbounded pleasure to be a party to such a gathering.

As a further item of interest it will please you, no doubt to know that Major Senay is a member of probably the best American division which we had in France and has won the American Distinguished Service Cross in addition to the French "Croix de Guerre", with a palm. The palm is an added token, to show that the wearer has been cited in orders by the commander of the French Army who awarded the cross.

Of course we all hope soon to be able to return to America and attend another real "X" meeting.

Best wishes to all.

Faternally,

RICHARD G. PLUMLEY,
Captain 59th, Infantry.

"CAMPUS" CIRCULATION.

Six hundred and twelve copies of the last issue of "The Campus" were sent out. Three hundred and twelve were paid subscriptions, one hundred and seventy-five were sent to men in the service, one hundred were sent to the High Schools in the state by President Beach, forty-eight were sent to advertisers, and the remaining twenty-two were sent as complimentary copies, or in exchange.

SHEEP AT FARMERS' WEEK.

Wool and Mutton for Connecticut is a Popular Slogan Now.

During Farmers' Week great interest was shown in wool and mutton for Connecticut. Professor E. L. Shaw of Morgantown, West Virginia, addressed a meeting of the Connecticut Sheep Breeders' Association, at which Professor H. L. Garrigus was re-elected secretary of the organization.

A competitive exhibit of dressed carcasses and fleeces resulted in the following awards:

Lamb Class—Cornell Green, South Willington, first and second; John Walbridge, Merrow, third.

Mutton Class—W. L. Penticaat, Jaconic, first; Cornell Green, South Willington, second.

Wool Class—John Walbridge, Merrow, first and second; Charles Gold, West Cornwall, third.

The college animal husbandry department exhibited four carcasses and three fleeces, but the exhibit being within the State, it was impossible to exhibit in competition. The carcasses shown by the college were sold at the close of the week at 29 cents a pound.

Interest in the sheep industry in Connecticut was shown by a number of farmers desiring assistance in securing breeding stock with which to start their flocks.

ANOTHER "LANDMARK" GONE.

Glass Case has been Removed from Hall of Main Building.

The glass case of surveying instruments, which has reposed in the lower hall of the Main Building ever since the turning of the old chapel room into a chemistry laboratory, has been removed.

It is not an uncommon sight to see someone rushing madly around the corner of the hall come to an abrupt halt just on the edge of the light streak on the floor, which marks the place where the case stood, only to realize that it is there no longer, and then with a sheepish grin to proceed on his way.

Considering the amount and kind of traffic at that point, it is a wonder that the case stood there as long as it did without being broken.

JUNIOR SHORT COURSE.

(Continued from page 1.)

that time the co-eds will have a spring vacation.

The mornings of the course will be devoted to the various projects, such as cooking and sewing for the girls, and livestock for the boys. Demonstrations will be a large feature, rather than lecture work. The afternoon programs will consist of field trips to various points of interest about the college farm. The evening meetings will be social ones rather than business ones, and the young people will learn their club songs. The college faculty will cooperate with the Extension Service and the county club leaders.

The course will be concluded with a get-together supper at which the different club members will speak.

LIEUTENANT CARRIER GETS WAR CROSS

CONNECTICUT BOY RELIEVED BAD SITUATION.

Went to Aid Company Hard Pressed and Without Officers; Took Charge.

(Special to the Times.)

Glastonbury, January 25, 1919.

Lieutenant William Harmon Carrier, Jr., son of Mr. and Mrs. William H. Carrier, has been cited for heroism and awarded the distinguished service cross for bravery in action near Tuilliere, France, on November 5. The citation is as follows:

"First Lieutenant William H. Carrier, Ninth Infantry. For extraordinary heroism in action near Tuilliere, France, November 5, 1918. While on his way to investigate the situation on the flank of his battalion, Lieutenant Carrier received word that the flank company was hard pressed and without officers. He fearlessly made his way across an open field swept by continuous machine gun fire. Although four guides were hit and his own clothing pierced, reached the company and saved the situation."

Lieutenant Carrier was born in Glastonbury and will be 24 years old in March. He attended the Glastonbury High School and then entered Connecticut Agricultural College, graduating in 1913. Returning home, he was foreman on his father's farm until he entered the service.

He enlisted in October, 1917, and on January 4, 1918, went to the officers' training school at Camp Upton, L. I., where his military training at C. A. C. proved of much advantage. He went to France in April, 1918, with Company I, Ninth Regiment, Second Division, and in July was commissioned Second Lieutenant. He was promoted First Lieutenant on the battlefield in October.

Howard F. Carrier of South Manchester, a member of the freshman class at the college, is a cousin to Lieutenant William H. Carrier.

PAID HONORS TO THE HOG.

Swine Growers had Space at Farmers' Week Exhibit.

Through the Extension Service of the college the Swine Growers' Association had an exhibit at Farmers' Week. This exhibit contained models of a movable hog house, a self-feeder and a hog oiler, furnished by the U. S. Department of Agriculture.

There was also a group of edible products of the hog furnished by The Sperry & Barnes Packing Company, and a series of photographs showing all the stages in the slaughtering of a hog, from the time it enters the slaughter house until the carcass is cut into its market parts. Literature on breeds and care of swine was available.

It is the endeavor of the Association to make the growing of small herds of hogs on Connecticut farms more common.

STUDENT LABOR FORMS A UNION

WANT A STUDENT EMPLOYMENT AGENCY.

Resolutions Contend More Efficient Service can be Rendered.

A meeting of students who are working for the College, and those who are interested in securing work, was held Tuesday night, January 28, in the Main Building. Emmanuel M. Shulman was elected temporary chairman, and Edward Sawin, temporary secretary.

It was brought out that there were many men who were skilled mechanics and artisans, and who could do the work just as efficiently and more cheaply than outside help, and whom the authorities say is difficult to obtain.

The following resolutions were presented and were unanimously adopted:

"Resolved, That the labor situation in the college will be improved, labor will be more efficient, and a more equitable distribution of work will be secured, if the students themselves handle the employment bureau, especially since they know the men more intimately and have a more accurate knowledge of their needs.

"Resolved, that we, as members of the student body who have to work our way, either wholly or in part, desire a student employment agency controlled by the students themselves, and under the supervision of a member of the faculty. This student employment agency to be managed directly by the students, the faculty representative acting in a supervisory capacity and as a court of appeal. We also desire that all students employed directly, or indirectly, by the college, or a department of the college, be secured through the aforesaid agency.

"We, the students, on the other hand will agree to place only competent men on any job and also to see that work is promptly and efficiently done to the reasonable satisfaction of the employer. In case a student continues to fail in doing his work in any way, the employment agency shall replace him and refuse to further employ him again for a period of time to be determined by the faculty representative together with the student employment manager.

It was decided to form a permanent organization. A committee consisting of J. S. Miller, A. Bird, L. L. Crosby, E. M. Shulman and E. Sawin was chosen to confer with the faculty, and to propose plans for this purpose.

MOSS ATTENDS FORESTERS' SESSIONS.

Albert E. Moss is going to New York City to a meeting of the Eastern Foresters' Association, for a few days. From there he is going to Portland, Conn., to do state forestry work.

PARTY FOR THE WINNERS.

Sophomore Girls Entertain Members of Rope-Pulling Team.

The winning of the Rope Rush on January 27, was celebrated by the Sophomore class with all the customary vim.

As soon as the rope was divided into short lengths to be kept as highly-prized trophies by each member of the class, plans were under way for the holding of a party. The men though tired and rather stiff were glad to hear the news that the co-eds of the Sophomore class would make all arrangements to hold the party in Grove Cottage and the affair was scheduled for 8.30 o'clock the same evening.

Upon their arrival at the Cottage each member was given ribbons of the class colors—royal purple and gold—which were proudly displayed. Through the efforts of William Maloney, manager of the orchestra, music was obtained for dancing which lasted until 10.30. During the evening one lone Freshman attempted to dance, but, although it has been said that Freshmen should be seen and not heard at a Sophomore party, the Sophomores think one should not even be seen. At intermission refreshments were served by the co-eds.

DEBATING CLUB ELECTS.

Mr. Price Delivers Address on Subject of Socialism.

The third regular meeting of the C. A. C. Debating Club was held Wednesday night, January 30, in the lecture room of the Horticulture Building.

H. B. Price, instructor in Economics, delivered an address on "Socialism." In the course of his remarks, Mr. Price explained the many proposals of leading socialists for transforming this country from a capitalist-owned and controlled basis, to that where everything is owned and managed by all the people. At the close of his talk, Mr. Price answered numerous questions that were put before him. On Wednesday night, February 5, Mr. Price will conclude a series on "Socialism."

The election of officers resulted as follows: President, S. I. Ward; Secretary, N. W. Alexander; Sergeant-at-arms, H. W. Fienemann; Program Committee, Andrew Schenker, and E. A. Osborn.

A committee, consisting of N. W. Alexander, Ernest Carpenter, and H. W. Fienemann, was appointed to draft some proposed amendments to the Constitution. It was suggested that the society hold a public debate in the Armory in the near future and to make arrangements for an inter-collegiate debating schedule.

PHI EPSILON NOTES.

The Phi Epsilon Pi has pledged the following men: Lionel Faulkner, Samuel Weiss, Louis Traurig, Abraham Klein, Harry Calachman.

TEAM WORK WINS FOR RHODE ISLAND

VISITORS SHOW SPEED AND
CAREFUL TRAINING.

Connecticut Team showed Flashes of Ability, but Lacked Consistency.

Connecticut lost a hard-fought basketball game to Rhode Island State, Saturday night, February 1, by a score of 30 to 18.

Rhode Island brought an exceedingly fast and well-trained team. Their passing was of high order and Connecticut found it hard to break it up. The Connecticut team showed a lack of training.

Rhode Island started off at a whirlwind pace and soon led, 10 to 3. At this point Connecticut braced and the visitors could not increase the margin. At the end of the first half, Rhode Island led, 20 to 13.

Both teams played at a furious pace in the second half, but Rhode Island managed to keep the advantage. Malloy featured for Rhode Island, while Lockwood, scoring 14 out of Connecticut's 18 points, starred for the home team. The summary:

Connecticut		Rhode Island
Lockwood	RF	Holden, Casey
Dean	LF	Spencer
Elcock	C	Malloy
Prescott	RG	Antillonus
Ryan	LG	O'Brien

Goals from the floor: Lockwood 5, Elcock 2, Malloy 4, Casey 2, Holden 2, Spencer 1; goals from fouls: Lockwood 4, Spencer 9, Holden 1; referee, Dillon.

COLLEGE SHAKESPEAREAN CLUB.

The initiation of the College Shakespearean Club was held Friday and Saturday nights, January 31 and February 1. Eleven freshmen were initiated into the club: William I. Graf, Stamford; Edward R. Granniss, New Haven; Harold A. Jaynes, Orange; Arthur M. Mitchell, Washington; Donald H. Lawson, Middle Haddam; Vernon C. D. Pinkham, Hartford; Clifford D. Prentice, North Haven; Herbert F. Webb, Greenwich; Carl P. Wenzel, Stapleton, N. Y.; Walter F. Wood, Jr., Tenafly, N. J.; Ralph S. Wooster, Forestville.

Beside the faculty members of the club, those present at the initiation were: D. L. Judd, '13; Trueman Hale, ex-'19; G. D. Wierpert, '18; Fred Paul, '21; and Charlie Pomeroy.

BATHTUBS ARE NOW INSIDE.

The Whitney House Apartments are to be Tenanted.

At last the old Whitney House is ready for occupancy. Smoke has been seen issuing from the chimney for several days past.

The bathtubs, which for sometime decorated the front lawn, have been installed. Professor Ben C. Helmick and family planned to move there from the Valentine House about February 1.

GIRLS' PARTIES PROVE POPULAR

MAY BE HELD EVERY OTHER
FRIDAY.

"At Home" Entertainment at Grove Cottage Helps to "Get Acquainted."

The first "At Home" for the students was given by all the co-eds at Grove Cottage, Thursday evening, January 23. About sixty couples were present and enjoyed dancing until 10.30. The music was furnished by the college orchestra.

The affair was such a success that the co-eds have voted to have "open house" every other Friday night throughout the year, provided basketball games or other entertainments do not interfere.

It is hoped that in this way the students will become better acquainted and thus will enjoy college life to the greatest possible extent.

SIGMA ALPHA PI NOTES.

The Sigma Alpha Pi fraternity held its annual Freshman smoker, January 24. Among the men who returned for the smoker were Lieutenant F. A. Hastings, '15, Lieutenant A. C. Mallett, '19, Sergeant H. A. Hopwood, '19, Sidney A. Edwards, '18, and V. E. Randall, '20.

Lieutenants Hastings and Mallett, and Sergeant Hopwood have recently been discharged. The two latter expect to resume their studies next fall.

Vincent E. Randall is now employed by the W. L. Hall Company of Waterbury.

Lieutenant W. B. Smith, '17, 9th Inf., A. E. F., who was wounded by shrapnel, has been discharged from a base hospital in France.

Ensign R. T. Mattoon, who has been released and placed on the reserve list, has taken a position with the commercial agency of Bradstreet & Company.

Robert F. Belden, recently discharged from Camp Devens, has resumed his studies here.

Albert C. Klingman, who has been married recently, is living in Indianapolis and is connected with the U. S. Food Research Laboratory.

The following men have been pledged to the fraternity: Edward W. Baeder, Frederick H. Carrier, Francis A. Hemmeler, and Robert E. Johnson.

H. E. Remington & Co.

Clothiers and
Outfitters

WILLIMANTIC, CONN

ALUMNI.

E. B. Fitts, '93, has charge of the College Extension School work in the State of Oregon. Address 240 North 23rd Street, Corvallis.

Mrs. A. S. Fitts, '94, won the news-writing contest, open to students in elementary journalism and journalism practice, at the State College in Corvallis, Oregon.

At the National Live Stock Show held in Denver, Colo., the week of January 18, two Commons Club members, Leo Marks, '15, and James Godkin, '16, encountered each other. Mr. Marks is Assistant State Club Leader for Wyoming, while Mr. Godkin is in the office of Cereal Investigation, with headquarters at Washington, D. C. He has temporary headquarters at Fort Collins, Colorado.

Dr. F. R. Combrie, '97, is now at Petrosky, Mich.

W. R. Nash, '05, has recently lost his wife and daughter. They were overcome by escaping gas at the home of Mrs. Nash's father in Providence, R. I.

F. F. Koenig, '05, has resigned his position at the New York State Veterinary College and taken up private practice.

Seaman F. J. Mahoney is with us again. "Mac" received his discharge on January 10, and lost no time in getting back to the "Hill."

Office, Eagleville, Conn.

Constant "crabbing" and dissension among a group of persons who should be working towards the same end, never get anyone anywhere. If the people of the United States did not pull with the President when the country needed to be united, where would we be today?

There is a great deal of agitation and talk at the present time about putting C. A. C. on the map. Of course we all want to see this done and we must all feel our responsibility in the matter. We want to know that Connecticut Agricultural College is known more than 65 miles away from Storrs, and this is only to be done in an effective and lasting way by sincere coöperation on the part of every student.

Let's all pull together for the good of our Alma Mater.

BRING THE OLD GRADS BACK.

Four years ago this coming spring an Alumni Day was held here. That did more to stir up the old spirit among our predecessors than any event that has taken place before or since that time.

Members of the Senior Class will recall that day with no small amount of pride. It was then that they were made to feel the responsibility that rested upon them for the betterment of their college.

To those who have the true college spirit the Connecticut Agricultural College means almost as much as home and anything they can do to boost old "Aggie" they will do with a will.

The alumni still have this feeling toward the college, and nothing

pleases them more than to get back here on the "Hill" and renew old acquaintances and meet new friends. Class and fraternity reunions are held that bring the older ones back to their college days.

At the last Alumni Day the slogan "400 students by 1920" was made, and would have probably been fulfilled, had not the war interrupted the plans. This work should be taken up again, now that peace has come, but the help of the alumni is needed and the best way to get this is to bring them back to their college days, and fire up the old Connecticut spirit within them. It is true that many of the men are in the service, but by June a large majority will have been discharged and will jump at the chance to renew acquaintances here.

Let's talk over the subject and get plans under way for the biggest Alumni Day ever held at old C. A. C.

BOOST FOR HIGH SCHOOL DAY.

At a meeting held recently it was stated that our slogan was "400 by 1920", and that we were far from it now. In the spring of 1916 one of the methods used to help procure these "400" was a High School Day.

Notices were sent throughout the state to all the high schools. Boys and girls were met in Willimantic by automobiles, loaned by the faculty. They were brought up to the "hill" and met by students who showed them the college from "Beebe's to the poultry plant." Every one coöperated and residents of Storrs enjoyed themselves as did the visitors, many of whom became residents the next fall.

Why can't we have a High School Day this spring? The year 1920 is not so far off but that we must realize we will have to hustle for our 400. To be sure the war is to blame for most of our difficulties, but by some good boosting by each and every one, there is no doubt but that we could fill our quota and beat the war after all.

WE'RE FOR WOMEN'S RIGHTS.

This is the last issue of "The Campus" under the management of the co-eds alone. We have been glad to manage the paper and have enjoyed it, since it was one of the ways in which we could do our "bit", both for our country and for our college.

We are glad to give over part of our duties to the men. However, the co-ed part of the institution is growing. The plan of the Home Economics Department is to have 100 girls here next fall. Should they not have a larger part in affairs than they do now? We are interested in athletics and we are interested in the proceedings of the Student Organization. We are not all suffragists, but we do want to be recognized.

We can see no reason, why, if the college is made up one-third women and two-thirds of men, as it probably will be next year, the co-eds cannot hold some offices in organizations of interest to all students. We

"GROVE COTTAGE" AND "KOONS HALL" REVEAL FRAILTIES OF OPPOSITE SEXES

The same mail brings to the desk of "The Campus" editors two contributions, one from a resident of Grove Cottage and the other from an inhabitant (or shall we say denizen?) of Koons Hall. Each contribution was intended for the "Safety Valve" column, where, you know, you can say most anything you want to about your neighbors, just so you don't bring the paper a libel suit. We are sure that the "Safety Valve" would blow off under stress of so much live steam as we find compressed into these contributions, so we are printing them side by side in the "deadly parallel" style. You can take your choice, and if you don't like either, don't blame us. We disclaim responsibility.

DON QUIXOTE HEROES.

Is it college men that we have here this year, or are they still of the grammar school age, even now clinging to their kid tricks? A little affair that I saw in the Armory before President's Hour made me wonder how it happens that this bunch of fellows have been admitted into college, when their minds are still in such a childish state.

What pleasure was derived by these big, husky fellows in capturing a little helpless mouse? I'm sure that if it was to scare the young women, their object failed, for from what I saw, they were decidedly more disgusted with the men than they were frightened at the helpless beast. Of course, I must concede that it was a great satisfaction for the "men" to know that, after a long, hard chase and a bitter struggle across the Armory floor, they were able to succeed in crowning their victory by ending the life of their enemy with a book. Doesn't it make one feel big and "chesty" to know that he has won a fight with someone—even if it is only a mouse?

GROVE COTTAGE.

THE "BLUSH" ON THE PEACH.

Have we college girls with us this year, or are they still children who must play at imitating chorus girls? It is a common thing for little girls twelve to fourteen years of age to want to become grown-up and think they have fulfilled their ambition when they can "doll out" in their big sister's clothes and apply barn paint to their fair young cheeks to such an extent as to make them look like well-developed cases of scarlet fever. We supposed we had young women with us, but it seems that we have been led astray by the other sex.

The other evening at supper when the Freshmen girls came into the dining hall with their heavy application of water-proofing material, they made about the same impression on the fellows present as the fellows did on the girls at President's Hour three weeks ago.

Let's call it quits and go back to the standard that befits college men and women.

KOONS HALL.

do not want to be football and baseball managers, nor do we want to be on the Student Council—we have one of our own—but we would like to have a greater part in college affairs in general.

The attitude of some students has been, "Oh, well, they are all right in war times, they kept the college on the map." Then we admit we are fairly peeved. We did not keep things running because there was a war, but because we loved the college and felt, and still continue to feel, that our college should come first.

WHO BROKE THE PLASTER?

"Campus" Reporter wants to Charge it to the Freshmen.

On the morning of Tuesday, January 28, 1919, we walked into the main building and found the furniture of "Prexy's" office arranged in stiff rows along the sides of the hall. As this was the morning after the Freshman-Sophomore rope pull, a time when peculiar things are rather likely to happen, some thoughts ran back

to the story we have heard of someone locking a bull in that office years ago, and wondered if this was some prank too.

But further investigation proved that it was only due to some fallen plaster which was being replaced. Just what made the plaster fall, we do not know. It is probable, however, that it was too weak to stand the strain of the frequent Freshman class meetings in the room above it.

MAKES SCIENTIFIC DISCOVERY.

Durham Succeeds in Isolating Bacterial Organisms.

G. B. Durham, '19, in working out the new bacteriology course in soils with Miss C. Mason and Professor W. M. Esten, has succeeded in isolating these organisms: Bacterium Ureae (Leube), Urobacillus duclauxii (Miquel), and Microsossus ureae.

This is the first time that these organisms, which play an important part in the formation of available plant food, have been isolated in this state at least.

HARTFORD SHOW A BIG SUCCESS

EDUCATIONAL AND TRADES
EXHIBITS PLEASE.

Members of Faculty and Extension
Staff Prominent in Staging
Farmers' Week.

Farmers' Week, which was held in the State Armory at Hartford, was deemed a great success by all who attended it. More than 50,000 square feet of floor space was filled with educational and trades exhibits.

Especially noteworthy was the corn show of Hartford County, with sixty-five fifty-ear exhibits, showing germination. The corn show and potato exhibits of the State Board of Agriculture more than filled five tables 60x4 feet.

A very large and attractive display of Connecticut apples, strictly educational exhibit on the food value of milk, the largest competitive egg show ever given in the state, home pantry and storehouse of home-raised products, model kitchens—all these attractions drew large crowds. It was estimated that more than 10,000 persons attended in four days, with a large number of evening visitors.

Demonstrations and lectures were held in Fox's store, in which home demonstrators of each county took part. These meetings were held entirely for the women that attended. Among the speakers at these meetings were Mrs. A. H. Benson, chairman of the Tolland County Woman's Committee; Miss E. M. Sprague and Miss Lovsnes, home demonstrator agent of Litchfield County.

The meetings were of great interest and well attended. Everyone was well pleased with the results of the week, except for the inconvenience of having the meetings and exhibits in different places. Great credit is due to Professor Kirkpatrick, who managed all details of the exhibitions. R. E. Dodge, of the Extension Service was chairman of the committee in charge of Farmers' Week.

ALPHA PHI NOTES.

The Alpha Phi smoker was held, Wednesday, January 22, in the club room. Mr. Warner, Lieutenant H. R. Brown, and Mr. A. G. Tappert were present as guests.

The following men have been elected to the fraternity: Leon I. Alling, William E. Finney, Norman Van Buren, Paul F. Kennedy, Leon H. Kibbe, Dwight A. Henion, Ralph G. Chaffee, F. A. Boulanger, Robert C. Howes, Everett F. Williams, G. O. Hutchinson.

Lieut. Metcalf, '16, who was recently discharged from the Aviation Service, was a visitor on the "Hill" the week of the 19th.

Milner L. Benham, Henry McFetridge and Geo. A. Stumph were visiting here January 22 and 23.

BARLOW TAKES CHARGE.

Girls will Have Chance to Use
Bowling Alleys.

The gymnasium was quickly gotten into shape for use and under Physical Director S. W. Barlow's direction, scheduled classes began Monday, February 3.

Mr. Barlow has also been working on the bowling alleys, and besides having regular times for this sport for the men, the co-eds will also have a place on the schedule.

GUARD DUTY IN LUXEMBOURG.

Esch, Luxembourg,
December 26, 1918.

Dear George:

Well, I guess the old war is over now and all we have left to do is to recross the vast Atlantic. Now that things have relaxed, I would like to hear from the "Hill" regularly and get "The Campus", if such a thing exists this year. In other words, I'd like to keep in touch with the old college.

At present my organization is doing barrier guard duty about Esch. We are comfortably situated in the city and are treated fine by the Luxembourgers. Yesterday was my second Christmas in the service, and in spite of the fact that I was far away, the time was passed pleasantly.

I am enclosing a copy of army orders in which my division was cited for its work the last month of the fight. Have checked the towns and woods that the 60th—my regiment—were in.

Let me know how everything is coming along at C. A. C.

Sincerely,

A. J. REEVES,
First Lieutenant Infantry,
Co. A, 60th Inf.

The towns and woods Lieutenant Reeves mentioned are as follows: Bois-des-Rappes, Aincreville, Clery-le-Grand, Clery-le-Petit, Dun-sur-Meuse, range of hills east of Meuse forming the bridgehead, Murvaux, and Foret-de-Woevre.

BASKETBALL SCHEDULE.

The following is a list of basketball games scheduled by Manager Bauer, '20:

- Feb. 1—Rhode Island State at Storrs.
- Feb. 7—Worcester Tech. at Storrs.
- Feb. 8—New Hampshire State at Storrs.
- Feb. 18—Stevens Tech. at Storrs.
- Feb. 22—Boston College at Storrs.
- March 7—Boston College at Boston.
- March 8—New Hampshire College at New Hampshire.
- March 15—Rhode Island State at Kingston.

SWINE GROWERS ORGANIZE.

College Specialist Active in getting
the Movement Started.

December 17, 1918, several swine breeders of Connecticut met in Hartford and organized the Swine Growers' Association. The meeting was called by D. G. Sullins, Swine Extension Specialist for the college, to satisfy a growing demand for the union of men of this state who are interested in swine. At this meeting the following officers were elected: President, A. N. Farnham, New Haven; Vice-President, S. B. Manwaring, Waterford; Secretary-Treasurer, D. G. Sullins, Storrs.

At the second meeting, held during Farmers' Week in Hartford, Mr. Farnham spoke. Mr. Farnham has had 42 years of experience with swine and in his speech he explained some interesting swine problems. Several other enthusiastic swine growers discussed phases of the industry.

FOOD ARMY WORK AT STORRS.

Council of Defense Turns Over Part
of its Duties.

By vote of the State Council of Defense, work of the Junior Food Army has been taken over by the Extension Service of the college, and will be carried on through County Farm Bureaus. A. J. Brundage, State Director, will be assisted by a state advisory committee under the chairmanship of Mrs. Samuel Russell, of Middletown, who had under her direction the work of the Junior Food Army during the war.

HELMICK A CAPABLE CHEF.

Men Prepare the Dinner for Community Gathering at Church.

It has been the custom in past years to have an annual dinner prepared at the local church by the men. Last year, in accordance with the food conservation laws, this was done away with, but this year it was revived.

Friday evening, January 31, this dinner was held and pronounced a success. Mr. Helmick was the head chef and filled that position most efficiently.

F. O. Vinton, sheriff of Tolland County, gave a talk on "Some Thieves I have Not Caught." C. H. Savage spoke on "Winning Prizes." There were also extemporaneous speeches, much enjoyed by all.

Mr. Savage donated a quantity of sweet cider.

The engagement of Mark Bishop to Hazel L. Rapson, was recently announced.

"KING" MUNROE TO OHIO STATE

WILL DO POULTRY EXTENSION
WORK.

Came to C. A. C. from Rhode Island in
1915 and was Graduated in 1917.

Henry D. Munroe, of the Poultry Department, is to leave the employ of the college on February 10. He has accepted a position with the Poultry Extension Service of the Animal Husbandry Department of the Ohio State University at Columbus, Ohio.

Mr. Munroe came to Storrs in the fall of 1915 as a member of the junior class, since he had already had two years at Rhode Island State. He received his B. S. degree here in 1917 and has been in the employ of the poultry department since.

"King", as he is known on the campus, has a host of friends, who are sorry he is leaving and who wish him all success in his new position.

ETA LAMBDA SIGMA NOTES.

Harry G. Hanks was on the "Hill" January 25 and 26. Mr. Hanks has recently been discharged from the service and has returned to business.

Walter Clark, '18, who is now testing milk for the state, will leave shortly for Argentina, where he will buy beef cattle for Swift & Company.

The fraternity has pledged the following men: Warren D. Burrington, Philip F. Dean, Austin C. Eaton, Robert P. B. Hughes, Philip Jaquith, E. Roy Marsh, J. Conrad Martin, Edward F. Plumb, and Paul L. Putnam.

NEW ARRIVALS AT STORRS.

A son, Robert Sawin, was born to Mr. and Mrs. Irving G. Davis of Storrs, January 28.

Recent visitors at the extension offices were C. B. Smith of the States Relations Service of Washington, D. C., director of extension work of the northeastern states, and M. C. Wilson of Washington, D. C., field supervisor of county agents for New England.

RE-ENLISTED.

Lieutenant Louis H. Collin, who returned from France with the 301st F. A., has re-enlisted and has been sent to Louisville, Ky. He was on the "Hill" February 2 for a visit, before leaving New England.

CAPT. WM. F. MADDEN LOSES HIS LIFE

FORMERLY COACHED SUCCESS-
FUL FOOTBALL TEAM AT
THE COLLEGE.

Killed by Gunmen while Performing
Guard Duty at Cheney Silk Mills.

Captain William F. Madden, chief guard of the Cheney Silk Mills, was instantly killed by a bullet fired by one of the gunmen who attempted to steal a valuable cargo of silk from the warehouse in Manchester on Friday night, January 31.

Captain Madden was football coach at the college in 1908, and turned out one of the best teams that has ever represented the Connecticut Agricultural College.

SALT DOMES OVER OIL-POOLS.

The masses of salt that force their way to the surface through the soft and deep soil of the lowlands in Louisiana and Texas are described in "Science" (New York), by Eugene Wesley Shaw, of the United States Geological Survey, who suggests a plan for using them in the location of oil-wells. These "salt domes," as they are called, are a proof, Mr. Shaw says, that all the baffling and fascinating questions concerning the structure of the earth's crust are not to be sought in mountain regions, as some geologists seem to think. The domes seem to be associated in most cases with deposits of oil, and the wells that have been sunk through them have shown what their upper structure is; but little is known about what lies beneath them, or of the causes that have produced them. Many of them are yet in process of growth, not yet having reached the surface, and these, Mr. Shaw thinks, might be found by gravity observations, salt being much heavier than the common soil of the region. He writes:

"Are the salt domes due to some process related to volcanic action? The domed form of the strata, which is much more commonly seen than the core itself, is such as might have been produced by a rising plug of igneous rock, and even the masses of salt and associated secondary deposits might apparently have been produced indirectly by intrusions. On the other hand, tho' many very deep wells have been drilled in salt domes, igneous rock has rarely if ever been touched. Since there are numerous varieties of salt domes—some making a conspicuous hill, some through

BIENNIAL REPORT TO BE OUT SOON

WILL INCLUDE RECORD OF
EXTENSION.

Document in Hands of Printer will be
Ready for Mailing Shortly.

The Biennial Report of the College for the two years ended September 30, 1918, is being printed by the State as a public document.

It will include the reports of the President, the Director of the Experiment Station and the Extension Division, and the financial statements of the Treasurer.

The report is in the hands of the printer and will be ready for mailing in the near future.

recent solution of the salt making depression, and some having little or no effect on the surface, the salt core of some lying at slight depth and of others at great depth—it would appear that if they are due to intrusion, the igneous rock should have been found in some of them. * * * *

"Are the domes due, as has also been suggested, to force of crystallization acting in some such way as they do in the growth of concretions, the salt being taken from saturated solutions and collected around some nucleus by molecular attraction? Ordinarily salt does not seem to behave in this way, and the associated great deposits of dolomite, gypsum, and other secondary substances would seem too much to ascribe to a kind of mass-action not controlled by some other set of forces operating at or underneath the locus of salt-dome growth.

"The apparent lack of concentric structure and of small salt concretions, and the presence of certain minerals, such as sulfur and copper ores, seem to point to a deep-seated cause for the domes.

"May the salt domes be due to a buckling and flowage of one or more beds of rock salt lying at great depth, as has been suspected concerning European salt domes? As a matter of fact the few determinations of specific gravity of the country rock that have been made indicate that it weighs in its natural wet state no more than salt, if indeed as much, and it seems very improbable that there has been any considerable horizontal thrust pressure. * * * *

"Since the domes are in a flat region, underlain by comparatively homogenous sand, silt, and clay, it seems more than likely that the salt, dolomite, gypsum, sulfur, compressed clay, and possibly igneous rock of

the domes would together have a specific gravity noticeably different from that of the country rock in which they occur and within the range of possibility that the difference could be detected by gravity observations. In other words, it seems possible that hidden salt domes, with the immensely valuable pools of oil and gas that are commonly associated, can be discovered through the help of gravity observations, which will thus reduce to a greater or less extent the cost of finding the oil-pools. * * * *

"The increasing value of oil and the keen interest in prospecting make it seem possibly worth while to make some practical tests with the gravity instrument on a known salt dome and surrounding country, especially since many wells are being sunk at random in the region.

"To be sure, some salt domes are known which do not seem to have oil-pools, and others are known which have not yet been fully tested, but the number of insufficiently tested domes is rapidly decreasing, and with the keener interest in the search for oil the time will no doubt soon come when it will be profitable to spend a great deal of money searching for salt domes, for they seem to be much more likely to contain oil than the surrounding country."

SHAKESPEAREAN CLUB PLEDGES.

The following men have been pledged to the College Shakespearean Club: William I. Graf, Edward D. Graniss, Harold A. Jaynes, Donald H. Lawson, Arthur M. Mitchell, Vernon C. D. Pinkham, Clifford D. Prentiss, Herbert F. Webb, Walter F. Wood, Jr., Ralph S. Wooster.

SERVICE RECORDS

Paul J. Hauschild, '13—Evacuation Hospital, No. 3, A. E. F., Germany, A. P. O. 930. Enlisted in ambulance service (M. E. R. C.) May 27, 1917, at Los Angeles, Cal. Called into active service August 1, 1917. Mustered in at the Presidio of Monterey, Cal. Sent to Base Hospital, Camp Dodge, Iowa, September 1, 1917. Remained at Camp Dodge until August 15, 1918. Sent to Camp Merritt, N. J., where remained two weeks. Embarked for overseas on S. S. Arca, one of a convoy.

Sergt. John W. Muller, '13—Engineer Troops Forestry, Bias, Landes, France. Entered Service March 1, 1918, by selective draft, sent to Camp Devens. Was sent to 30th Co. Depot Brigade; received Corporal's warrant on March 11; received Sergeant's warrant April 14; Left the States for France July 15, arrived July 22; sailed on the transport "Northern Pacific" Company C. Changed to one of the 20th Engineer Units.

Frederick M. Trinder, '17—11 Burnside Avenue, East Hartford, Conn. Drafted from Watertown, N. Y., August 24, 1918, in training with 17th Co., Tr. Bn., 157 Depot Brigade. Private. Discharged December 10, 1918, from Camp McClellan, Alabama.

Egbert R. Parsons, '09—Co. E, 307 Amm. Tn., A. E. F., A. P. O. 742, Lenox, Mass. Entered October 7, 1917, Camp Devens, 17th Co., 5th Bn., 151 Depot Brigade. Transferred to Camp Gordon, Georgia, November 11, 1917. Assigned to 307th Amm. Tn., 82nd Div. Appointed Sergeant December 1, 1917. Appointed First Sergeant, Co. E, same regiment, May 1, 1918. Left U. S. May 18, 1918. Service on three fronts—Chateau Thierry, St. Mihiel, and the Argonne. Caisson Company. Still in France.

Egbert J. Bailey, '19—Enlisted with Base Hospital, No. 1, December 6, 1917, as a Private. Was promoted to the rank of Corporal in July and to the rank of Sergeant in November, 1918. Served in the front line hospitals on a surgical team, from August 31, 1918, to October 24, 1918. On arrival in France in March, was assigned to duty in the operating rooms as surgical assistant. Since appointment as Sergeant has been in charge of operating rooms. Expects an early return to the States. Base Hospital No. 1 is the Bellevue Unit, from New York City, and has been situated at Vichy (Allier) in central France. We were the twelfth American unit in France and the first in Vichy.

REMEMBERS WHEELER'S PIE.

Toul, France,
December 8, 1918.

My dear Professor Wheeler:

Well, since March 11, the big day we have been having quite a trip. The third army made up the army of occupation to go to the Rhine, and the 1st and 4th Corps were attached to the third army, so F. R. S. No. 1, and F. R. S. No. 2 made ready for the trip. Our troops going into occupied territory were in regular advancing formation. We made ready and had quite a trip by motor. On the 18th of November we left for F. R. S. No. 2 and went by way of Headeourt; we had a chance to see some of the dams, partly completed for flooding the flats and some of the Hindenburg defense trenches.

Just a little touch on the prices, we found in Rudelange, the people had to meet: Coffee, \$5 to \$10 per pound; eggs, 2.50 marks; butter, 16 marks; silk stockings, 30 marks; shirts, 32 marks; shoes, 60 marks. We paid anywhere from 4 to 8 marks for a pie and it wasn't as good as the one you made that day. A bar of chocolate like we pay 15 cents for, drew 5 marks.

On December 2 we went up to Remich and followed down the Moselle, which we crossed going into Germany, and went up through Couz to Treves, where we put in. Here we received orders to return to Toul and join our battalion. We were glad and disappointed. We were scheduled for Colonge, but our trip was now at an end, and December 4 we started back and our company captain, Wright, was so good as to route us and take us a different way back by way of Arl, Trasson, Apoch, Thionville, where we again stopped, this time in Lorraine, leaving the next morning and routed by way of Metz to Toul.

This made quite a tour of advance territory, and we had a chance to see it in conditions and ways that will not be seen again. At Thionville we had a chance to sit in some of the big German Aeroplanes. Some were damaged, while others were in good condition as far as we could see—of course probably not so. We saw Metz with her walls filled with water.

Well, now in Toul our battalion headquarters all assembled and awaited our orders. They can't come too soon to suit us.

I hope when I get back to the States I will have the time to run up to Storrs. Our work as F. R. S. was interesting, and if I could have the chance again, I would choose that branch of service above any other. I will close for this time and wish you all a Happy New Year.

Very sincerely,

PVT. C. M. PFENNING,
Co. D., 29th Eng., A. E. F.

Top Dress with Nitrate of Soda

Feed the Crop; not the Bacteria

Every form of Nitrogen fertilizer, except Nitrate of Soda, must be broken down by bacteria and changed into Nitrate before it can become available for crops. Such bacterial action always results in costly Nitrogen losses.

Nitrate of Soda

is *already nitrated!* It does not have to undergo changes—but is immediately and wholly available. That's why Nitrate is the quickest, surest, most economical source of Nitrogen.

DE LAVAL

The World's Greatest Cream Saver

All over the world creamerymen, big milk concerns, dairy authorities and cow owners who have special opportunity for judging the worth of cream separators, have for years recognized the superior skimming and all-around efficiency of the De Laval.

That's why 98% of the plants throughout the world separating large quantities of milk use the De Laval. It skims so much closer that they can't afford to use any other machine.

That's why 2,325,000 De Laval's are in daily use—more than all other makes combined.

Not only is the De Laval the greatest cream saver, but it turns easier, is easier to wash, has larger capacity and greater durability than any other separator.

The more you know about cream separators the more certain you are to buy a De Laval.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

The De Laval Separator Company

OVER 2,325,000 DE LAVALS IN DAILY USE THE WORLD OVER.

JOSEPH W. PINCUS, PIONEER.

The following is taken from the January, 1919, issue of "The Jewish Farmer." Mr. Pincus is a graduate of the college, class of '98

"The announcement that Mr. Joseph W. Pincus had resigned his position as Educational Director and Editor of "The Jewish Farmer", is of momentous significance, not alone because of the weight of services rendered by him to Jewish agricultural interests, but also because his name is indissolubly linked with the history and development of Jewish farming in the United States. No justification, therefore, is needed for presenting to our readers an appreciation of his character and his work, and to attempt to briefly trace the salient lines of his constructive activity. These divide themselves into three departments: His establishment of a model farm at Woodbine, N. J.; his educational work among Jewish farmers under the auspices of the Jewish Agricultural and Industrial Aid Society, which included the founding of this publication; and his pioneer work in coöperation.

"The development of these activities is coincident with the broad history of Jewish farming in the United States; and it is of particular interest to note that Mr. Pincus began his activities in conjunction with the first Jewish agricultural school in this country. He was a teacher in the Baron De Hirsch Agricultural School at Woodbine, N. J., for nine years. Thus he had the distinction of being one of the first three Jews to take up agriculture as a profession, his two associates being Dr. Jacob G. Lipman, now Director of the New Jersey Agricultural Experiment Station and a Director of our Society, and Mr. Jacob Kotinsky, now an entomologist in the employ of the U. S. Department of Agriculture. That was in 1898, and the entire venture at Woodbine was surrounded with an atmosphere of experimentalism. In the succeeding twenty years Jewish farming has achieved a notable place in this country, and it is not too much to say that men of the type of Mr. Pincus have definitely contributed to that result.

"During 1907-1908 Mr. Pincus devoted himself to the model farm at Woodbine, the purpose of which was to give practical instruction to Jewish farmers in the technical and business side of farming. His work there was so significant that it attracted the attention of the Jewish Agricultural and Industrial Aid Society which, in 1908, called upon him to initiate similar educational projects along national lines. His first step in assuming his new duties was to go out among Jewish farmers and discuss their problems in a personal and concrete manner.

"This educational work soon attracted the attention of non-sectarian groups and of government agencies.

Federal and State authorities soon recognized the national service implied in such undertakings, and were ever ready to call Mr. Pincus into conference on important agricultural

GROVE COTTAGE NOTES.

Miss Ruth S. Buell, '21, spent the week-end of February 1, with friends in Meriden.

Two new cutting tables have been installed in the sewing laboratory.

The co-eds in the Cottage are not living in such close harmony with their friends, the bees, as last issue's article taken from "The Boston Evening Record" seems to signify. One of the Freshman has been stung twice by the bees, and wants to know why they should pick on her.

Miss Ella J. Rose went to visit schools in New Britain, Torrington and Winsted on January 30.

problems. The third phase of the work of Mr. Pincus centers about the activities of the Federation of Jewish Farmers, in which he played a prominent role.

"In all of this work Mr. Pincus has shown high qualities. Modest in nature, gifted with eloquence and sincerity, a fine student and a fine man, he has impressed his personality on Jewish farmers and has been responsible, in a large measure, for the constructive and finer sides of Jewish farming. Never consumed by ambition or love of power, responsibility has not altered the simplicity of his nature.

"Writing in 'Collier's Weekly', Isaac F. Marcossion thus summed up the work and character of Pincus: 'He was born for the job.' He expanded from editor of 'The Jewish Farmer' into an inspired missionary of the new agricultural order, bringing the word of science to the very doors of the backward.'

"It is not mere convention or rhetoric to state that the Jewish agricultural world sustains a very great loss in the departure of Mr. Pincus to other fields, but we would be unjust to him if we did not assure him of our sincerest wishes for his success.

"We are glad to pay this tribute to his achievements and to his work in behalf of the Jewish Farmer.

"We wish him God-speed."
