COLLEGE FARM CONSIGNS STOCK

MANY VALUABLE ANIMALS TO
BE SOLD.

Professor Garrigus Considers Annual
Sale of Surplus Stock.

For many years the beef cattle, swine, sheep, and horses, have undergone such a great change for the better by careful breeding and additions that, at present, there is great demand, not only in this state, but from outside, for animals bred at the College.

To meet this demand, partially, six registered Berkshire sows will be sent to the Berkshire sale at Brattleboro, Vt., which is to be held March 12, under the auspices of the New England Berkshire Club. The brood sows which will be sent are: Storrs Branford Duchess 4th, 242,870; Superb Ireworth Duchess 2nd, 248,891; Storrs Premier Duchess, 288,891; Storrs Branford Duchess 7th, 254,504; Storrs Branford Duchess 6th, 254,503; and Symboleers Duchess.

There is to be a Milking Shorthorn Congress and Sale at Erie, Penn., March 20 and 21. The College Shorthorns consigned to this sale are: the two-year-old heifer Ireby Buttercup, 732,399; the yearling heifer, Buttercup 3rd, 640,549; and the yearling bull, Blossom's Nipper, 650,350.

The Percheron brood mare, Susie, who, has proved herself an excellent draft horse, and brood mare at the college, has been sold to Judge Peasley of Cheshire, Conn. Susie now has

(Continued on page 2)

GOVERNMENT OFFICIAL HERE.

Inspects and Suggests New Courses
and Improvements—Causes
Anxiety.

Miss A. Richardson, Assistant Director of Home Economics in the United States, visited that branch of the college Tuesday, February 11. She came to see what the department is doing that she might make a report of its progress to the Federal Department. Miss Richardson prescribed new courses to be offered and gave many valuable suggestions as to where improvements might be made. Before her arrival here, there had been much talk about a "government official coming to inspect." Her title had much such an impression that when it was known that "the government" was really here, there was a grand scramble in the cottage and rooms were cleaned and dusted as never before.

JUNIOR INFORMAL DANCE TONIGHT

BOSTON COLLEGE TO PLAY
SATURDAY AFTERNOON.

Famous Comedians to give Vaudeville
Show Tomorrow Evening.

The annual Junior informal dance will be held Friday evening, February 21, starting at 8 o'clock and continuing until 1 a.m. The music will be furnished by Pickett's Orchestra of Willimantic and will include many of the most popular pieces. The program will consist of eighteen dances and three extras. The patrons and patronesses are President and Mrs. C. L. Beach, Professor and Mrs. G. H. Lamson, Dr. and Mrs. H. J. Newton, and Mr. and Mrs. G. W. Fraser.

Besides a large number of the student body and faculty who have signified their intention of attending, it is thought that many "old men" will be back for the dance. A large number of invitation cards have been sent to the alumni.

Other attractions for the week-end will include a basketball game with Boston College Saturday afternoon. In the evening a vaudeville show with one reel of movies will be given in Hawley Armory. Although this will be an amateur performance, the program will consist of numbers by our very best local artists, including the world-famed comedians "Brub" Dow and "Pop" Eaton; Miss Dwyer, the noted prima donna; Miss Sniffen, whose ability as a pianist is already well known and appreciated; Ward's Minstrels; the Peerless String Quartet and Wenzel of the "Wild and Woolly West." Music will be furnished by the college Jazz Orchestra, and there will be dancing after the show.

SANFORD MANAGES PLANT.

Munroe Leaves—Breaks Records in
Spite of Handicaps.

Henry D. Munroe left the hill Thursday, February 6, to spend a few days at home before leaving to take up his work at the Ohio State University.

During Mr. Munroe's management three records were broken even under adverse weather, labor, and feed conditions. The records thus established were in the egg production of: a pen of ten birds; a single bird in one year, 308, and a pen of ten birds in one week.

P. L. Sanford succeeds Mr. Munroe as superintendent of the Egg Laying Contest, in addition to his present work of obtaining blood samples for experimental data in connection with white diarrhea.

CAMPUS BOARD HAS ELECTIONS

CO-EDS TURN OVER PAPER TO
NEW MANAGEMENT.

C. R. Brock New Editor-in-Chief.
Composed of Equal Number of Men
and Women.

"The Campus", which has been issued entirely through the efforts of the women's class in journalism this college year, has been taken over by a new board of both men and women. The co-eds took over the responsibility of the paper last fall, as a war measure, upon the advice of the faculty, and were given credits for their work. On February 12 the Home Economics Department finished their first semester, and having completed their credits, the women resigned their offices on the paper.

Consequently, on Tuesday night, February 4, a meeting of the last year's and this year's boards of editors was held at Grove Cottage for the election of a new board. W. E. Stemmons, publicity man for the Extension Service, and instructor in journalism, held the chair. Elections for editor-in-chief resulted in choosing Charles R. Brock, '19, for the office. In accordance with the constitution, he appointed Robert F. Belden, '20, from the news board as managing editor. Gladys V. Daggett, '19, was chosen business manager. The news board elected consisted of Lincoln L. Crosby, '19, Helen L. Clark, '19, A. C. Bird, '19, Flora M. Miller, '20, M. Gertrude Luddy, '21. Members of the associate board elected were Salome C. Smith, '21, W. E. Brockett, '21, E. A. Osborn '21. The other two members of the associate board are the assistant business manager and the circulation manager. These latter are recommended by the business manager before being passed upon by the board. Vera A. Lee was recommended and elected as circulation manager. No recommendations were made for assistant business manager, as no one tried out for that position.

INSTITUTES UNDER WAY.

The Extension Service of the college is conducting a series of farmers' institute gatherings in various towns and communities of the state. These are practical schools for the farm men, women and young people of the state and cover a period of three or four days each. At these meetings about thirty different subjects, concerning agriculture, the home, and subjects of vital interest are being fully explained and discussed by capable speakers available for this work.

TRACTORS FOR DEMONSTRATION

TO BE USED IN MACHINERY
CLASSES.

Bulletin to be Published on the Value
of Tractors.

M. S. Klinck, in charge of the farm machinery at the college, has been making arrangements with a number of concerns relative to placing their tractors here. He hopes to get the Fordson, Cleveland, International, Case, Moline, and possibly others of well-known make, to use in demonstrating their ability and usefulness to students and farmers in this state.

There are about 200 tractors now in the state. To furnish definite information regarding their use the farm machinery department is sending out blanks to the tractor owners and users. This is to determine the kinds of machines used, the amount of work done by them, the number of horses replaced by the tractors, and the value of the machine and the work done. The data obtained will be worked into a bulletin and published for the information of Connecticut farmers.

There will be tractor demonstrations in the state through the summer, if the College is successful in obtaining a number of tractors this year. One of these will be given on the college farm.

COLLEGE TO OBSERVE DAY OF PRAYER.

Rev. Winship Recently in Overseas
Service to Speak.

The College will observe a universal day of prayer for students on February 23. This date has been set apart by the World's Student Christian Federation for this purpose.

The program here will be in charge of a committee consisting of W. F. Maloney, D. A. Evans, H. B. Bridges, M. H. Lockwood, H. W. Wright, G. B. Durham, G. O. Hutchinson, H. B. Beisiegel, and J. S. Miller. Rev. Marshall Dawson and Dr. E. W. Sinnott represent the faculty and are acting as advisors to this committee.

Rev. Winship, formerly of South Coventry, who has just returned from overseas service, and is now studying in the Hartford Theological Seminary, will speak on "The World's Citizenship of Today." Rev. Marshall Dawson, Chaplain of the College, will also give a talk.

A musical program will be rendered by the college orchestra after which Prof. C. A. Wheeler will lead the student body in the singing of religious songs.

PHI MU DELTA.

The fraternity held an initiation supper at Hotel Hooker in Willimantic on February 8. Dr. Edmund W. Sinnott acted as toastmaster. Among the speakers were Alfred Sheldon of the alumni, President A. C. Bird and R. F. Hawley of the initiates.

The candidates were Walter Barnes, Morris S. Downes, Charles Ferris, Winthrop Ford, Henry E. French, John W. Fuchs, Theodore Gardner, Robert F. Hawley, Franklin W. Hawley, Thomas Lilley, Marcus A. McCarron, Alfred F. Saffery and Enos White.

The alumni back for the initiation were A. C. Sheldon, '17, R. H. Barrett, '18, T. Weldon, '17s, S. H. Manchester, '18s, Gus Bochman, '18s, H. C. Belcher '19s, C. E. Skogland, '21.

John E. Gifford, county agent of Tolland County, has resigned, and Earnest E. Tucker has been appointed to take his place.

ANIMALS SOLD.

(Continued from page 1)

ten descendants, one of which was grand champion at the New England Live Stock Exposition, and another was grand champion at the International Exposition in 1917. Six of her descendants have been foaled in the college stables and without exception all of them are rated very high.

A red Shorthorn bull calf has been sold to J. Lawrence Raymond of Hadlyme, Conn., who has provided for the calf the farm of Ray Harding. This sale is one of the efforts of the college in building up the beef breeds of the state, with pure-bred sires.

The two Hereford bulls which are now being fitted for the sale to be held at Waterville, Maine, by the New England Hereford Association, are: Beau P., 758,903, a grandson of the junior champion at the International in 1912 and a son of an imported bull of great merit. Storrs Donald Lad, 695,444, a grandson of Bonnie Brae 8th and Sir Donald 12th, two of the most noted bulls of the breed.

There are about twenty yearling rams at the college which are being held for later sale.

The two-year-old Percheron stallion Storrs Victoria, is practically sold to a California man, who expects to settle in Somers, Conn. Storrs Victoria is out of the famous Dragon, Jr., and weighs now 1780 pounds, and will easily reach a ton in weight at maturity.

Professor Garrigus, head of the animal husbandry department, has had under consideration for some time an annual sale of the surplus stock of the college to the students and farmers of the community, the principal handicap being the lack of adequate facilities for sheltering and showing, especially if the weather should be unsuitable.

G. C. SMITH FORMS ORGANIZATION

TOBACCO GROWERS COMBINE IN FEDERATION.

Crops from 4,000 Acres to be Handled on a Coöperative Basis.

Prof. G. C. Smith has been instrumental in forming eight large coöperative tobacco organizations throughout this state. Three of these were put into operation last May and the remainder since the first of January this year. The total acreage now represented is approximately 4000.

Delegates from all the organizations met last week in Hartford to discuss the federation of the bodies into one and to adopt satisfactory by-laws and contract forms. At the head of this federation will be placed a man who is an expert in tobacco growing and marketing. All members will sign away their selling rights to him. In addition coöperative buying of fertilizer, cases, and supplies will be carried out under his supervision.

Such a plan will promote better methods and uniformity in sorting, sizing, sweating, and packing. Large warehouses also will be made available for this purpose.

"The idea of the organization," said Professor Smith, "is to afford the employment of a competent manager who can keep in close touch with market conditions, and so bargain on an even basis with the buyers. He may also sell direct to the manufacturers." Advertising campaigns will probably be conducted and an attempt made to standardize cigar leaf tobacco. Already the warehouses have been able to negotiate large loans from the banks to carry on the work. In one of the smallest organizations \$3000 was saved by having the sorting and packing done under the supervision of one man rather than having it done by independent individuals.

The tobacco growers in southern Massachusetts are desirous of forming similar coöperations and have asked Professor Smith for his aid in the work. Hugh M. Alcorn, state attorney for Hartford County, and T. L. Hughes, specialist for the U. S. Bureau of Markets in the warehousing of tobacco, are assisting in the work of organizing the tobacco growers.

CO-EDS HOLD SOCIAL HOUR.

The co-eds were "At Home" Friday, February 7, after the basketball game, to both the students here and to the members of the visiting team from Worcester. This furnished a good opportunity to show the outsiders some of the social life at C. A. C. The college orchestra furnished the music and dancing was enjoyed until 10.30.

HORSES MAKE CLEAN SWEEP.

Percheron Review Publishes Awards at New England Fair.

"The Percheron Review" for 1918 publishes the official report of the prizes awarded to Percherons exhibited at the New England Fair at Worcester, Mass., which was held last September. The report is given in full.

Stallions—(Aged)—First, Connecticut Agricultural College on Dragon Jr. 113,939; Second, S. F. Mason on Joquer 114,184.

Three-year-olds—First, Connecticut Agricultural College on Storrs Victoria 128,793.

Foals—First, Connecticut Agricultural College on Double Carnot 145,153.

Mares (Aged)—First and Third, Connecticut Agricultural College on Carnette 94,315 and Susie 40,487; Second, Morton Phetteplace on Ruth Irely 74,730.

Two-year-olds—First, second, and third, Connecticut Agricultural College on Susette 128,791, Mariette 128,792, and Lady Elsie 126,372.

Yearlings—First and second, Connecticut Agricultural College on Beth 138,972, and Carcile III 140,700.

Foals—First N. G.; second, Connecticut Agricultural College on Joan of Arc 145,154.

Champion Stallion—First and second, Connecticut Agricultural College on Dragon Jr. 113,939, and Double Carnot 145,153.

Champion Mare—First and second, Connecticut Agricultural College on Carnette 94,315, and Mariette 128,792.

Get of Sire—First and Second, Connecticut Agricultural College on get of Carbon II 100,017 with Storrs Victoria 128,793, Susette 128,791, and Mariette 128,792; and on get of Carnot 66,666 with Carnette 94,315, Carfera II 133,896, and Carcile III 140,700.

Produce of Mare—First, Connecticut Agricultural College on produce of Susie 40,487 with Susette 128,791 and Joan of Arc 145,154.

One Stallion and Three Mares—First and second, Connecticut Agricultural College on Dragon Jr. 113,939, Carnette 94,315, Carfera II 133,896 and Carcile III 140,700.

The special premiums awarded by the Percheron Society of America at this fair were as follows.

Stallion under 3; also Champion Stallion bred and owned by exhibitor—Connecticut Agricultural College on Storrs Victoria 128,791.

Mare under 3; also Champion Mare, bred and owned by exhibitor—First and second, Connecticut Agricultural College on Mariette 128,792 and Susette 128,791.

Champion stud, consisting of stallion and four mares, mares only bred and owned by exhibitor—First, Connecticut Agricultural College on Dragon Jr. 113,939, Susette 128,791, Mariette 128,792, Beth 138,972, and Joan of Arc 145,154.

Best three Mares owned by exhibitor—First and second, Connecticut Agricultural College on Susette 128,791, Mariette 128,792, and Beth 138,972, and on Carnette 94,315, Carfera II 133,896, and Carcile III 140,700.

EXTENSION FUNDS MAY BE DECREASED

FUNDS TO BE CUT BY APPROPRIATION BILL.

Strenuous Efforts Being Made to Prevent Passage of the Bill.

The Extension Service in Connecticut is going to be hard hit if the Agricultural Appropriation Bill in its present form is passed by Congress, for it will mean that home demonstration, boys' and girls' club, and County agent work will be greatly curtailed by the decreasing of the government funds.

The bill as it now stands will cut the funds appropriated for these phases of extension work in Connecticut from \$51,368 to \$4,393, if passed by the Senate.

"Should federal support be dropped, it will mean that the State and County administrations will have to assume the burden, or the work will be dropped," said I. G. Davis, Director of the Extension Service. "It will also mean that the effective organization built up through several years, and which made possible Connecticut's splendid part in food production and conservation during the war may be partly wrecked with the beginning of the next fiscal year, July 1." In addition to the crippling of state-wide extension work, the proposed reduction would result in loss of direct apportionment to County Farm Bureaus as follows: Fairfield \$6,960; Litchfield \$3,360; Hartford \$6,960; New Haven, \$6,960; Middlesex, \$2,160; Tolland, \$2,160; Windham, \$2,160; and New London, \$3,200.

Every effort is being made by parties and organizations in the state who are interested in this work, to prevent the passage of the Bill in its present form, and they have been keeping the wires hot between here and Washington in urging the senators to use their influence to restore the Bill to its old form. Governor Marcus H. Holcomb is taking an active part in the campaign, as are the State Council of Defense, farmers' organizations, women's clubs and state legislators. President Charles L. Beach spent a number of days in Washington recently in the interest of this work.

PRACTICE GROUP CHANGES.

The practice house group now at work consists of Helen Clark, '19, Loretta Guilfoile, '20, Agnes Hallock, '21, Helen Stevens, '22, and Dorothy Dick, '22. The second group left a pair of brass candlesticks on the living room mantel.

A sample menu from among those served by the second group was: fruit salad, hot baking powder biscuits, brown betty with whipped cream, tea or milk. Dinner for the same day consisted of broiled steak, creamed peas, French fried potatoes, fruit jelly, cake, home-made bread and butter.

A tea cart made its appearance in the dining room of the practice house a few weeks ago. By its aid the waitresses will find their work much lighter.

NEW HAMPSHIRE DEFEATS AGGIES

VICTORS SHOW SPEED AND
CAREFUL TRAINING.

Stenographers Defeat Windham High
Girls in Preliminary Game.

The basketball team lost its fourth game to New Hampshire by the score of 51 to 18 in the Hawley Armory on Saturday evening, February 7. Our boys fought their best, but were unable to break up the perfect team work and shooting of the visitors. During the first two minutes of play both teams fought on even terms without a point being made, but New Hampshire got started and ran the Aggies off their feet. As point after point was placed on the visitors side of the scoreboard and Connecticut's remained blank, the crowd became downhearted, but Lockwood brought back some hope by scoring two foul goals and a field basket. The half ended 28 to 8, in New Hampshire's favor.

The second half was a repetition of the first. Connecticut fought gamely but to no avail, as the New Hampshire five continued to roll up the score. The Aggies were severely handicapped by the loss of their two regular guards, Ryan and Prescott. Prescott was home sick, but is expected to be back in condition before the Stevens game. Lockwood scored 16 of Aggies' 18 points and played an excellent game at forward. Putnam and Dean also put up a fast game. Anderson put up a wonderful exhibition for New Hampshire, and to the spectators it seemed as if he had a magnet hung over the basket, so easily and often did he drop the ball through the ring.

The lineup:

C. A. C.	New Hampshire
Lockwood	RF Craig, Stewart
Dean	LF Butler, Perry
Elcock,	C Anderson,
Gronwoldt	Harris
Putnam	RG Shuttleworth
Gotberg	LG Davis

Score, New Hampshire 51, C. A. C. 18; goals from floor, Lockwood 5, Dean, Anderson 6, Stewart 5, Craig 4, Davis, Perry, Harris; goal from fouls, Lockwood 6, Davis 7, Anderson 6; referee, Dillon.

In the preliminary game, the girls defeated the Windham High Girls in a close, exciting game, by the score of 9 to 8. The 'Stenogs' started the game with a rush and led by the score of 5 to 1 at the end of the first half. In the second half, Windham took a decided brace and tied the score, but lost in the last few minutes of play.

B. G. Southwick has accepted a position with the Hartford County Farm Bureau as a special agent in tobacco work. Mr. Southwick was formerly extension agronomist in this state, but resigned early last summer to accept a position with the Massachusetts Agricultural College as farm management demonstrator.

PRIZES OFFERED STUDENTS.

1000 Word Statements to be Required
in Competition.

A friend of American students, through the Students Department of the International Committee of Young Men's Christian Associations, offers the following prizes for the best 1000-word original statements by students, on, "The Significance of the Foreign Missionary Enterprise in Making the New World."

A first prize of \$300, second of \$200, and a third of \$100, is offered for the three best statements by college and university students. The articles are to be signed with nom de plume accompanied by name and address in a sealed envelope. All articles must be typewritten on one side of 8½ by 11 inch sheets and must be received at the Student Department, 347 Madison Avenue, New York City.

Professor D. J. Fleming of Union Theological Seminary, Rev. W. P. Schell of the Presbyterian Board of Foreign Missions, and Rev. S. M. Zwemer of Cairo University, have consented to act as judges of the contest.

TRAVEL SERIES GIVEN.

Sunday evening, February 9, the last talk of the travel series was given in Christian Endeavor. D. H. Sullins presented the South from a Southerner's point of view under the topic, "The South as I Know It."

Walter Stemmons gave the Northerner's point of view under the topic, "Oklahoma, the Fringe of the South."

The Christian Endeavorers are planning for their annual service at the Epileptic Colony, to be held within the next two weeks.

CHICKEN OVER-PRODUCTION.

Eleven members of the college are hatching eggs up at the poultry building. According to D. E. Warner some of them may have some chicks in a few days. The class is much more optimistic about the outcome though and all eleven are looking forward to their baby chicks.

Miss Adeline Grabber of Bridgeport was the guest of Esther Sniffen the week-end of February 7.

Mrs. Alzina Bissell has recovered from her recent illness and has gone home.

R. H. Barrett, '18, has recently been discharged from the service as a second lieutenant and has returned to his former position as assistant county agent of Hartford County.

RECLAMATION AGENT INSPECTS CONDITIONS

OBTAINING INFORMATION FOR
SOLDIERS SETTLEMENT ACT.

Large Tracts of Land are Available
in New England.

A. D. Morehouse, representative of the reclamation service of the Department of the Interior, visited the college recently. He is investigating land conditions in the northern states in reference to the Soldiers' Settlement Act.

It is the plan of the government to make an appropriation for improving of farm lands to be sold to soldiers on a forty-year payment basis. It is desirable to get this land in a large tract so that houses, barns, schools, water supplies, and so on can be provided as the part of a large complete organization.

In Washington County, Maine, there is a tract of 35,000 acres which is under consideration. This territory is known as the "Blueberry Region", and is now owned by the Maine Central Railroad. The Interstate Commerce Commission would not allow the railroad to develop this property, so that it still remains one of the largest blueberry districts of New England. Another section visited was what is known as the "Kings-ton Plain" in Rhode Island, which is also a large piece of property.

In this state there are no large tracts of land such as these mentioned, which are available. However, Mr. Morehouse, is getting all the information possible, both regarding land and the attitude of authorities and state officials, for his report to the Secretary of Agriculture.

The old pine tree which stood on the south bank of the pond has been cut down. This old landmark was struck several years ago by lightning and partially killed.

DESERVING CREDIT.

For the first time in the history of the college the paper has passed through a period in which it was entirely managed by the young women of the institution. With the college on a war basis, the men were unable to carry on this work, but the Co-eds at once realized the desirability of continuing this work, especially for the benefit of the men in service.

The enthusiasm and seriousness of purpose with which they worked enabled them to put out the best editions in the history of the paper, without exception. This fact is even more significant because it was done by taking raw material to commence with.

The majority of the students do not realize and appreciate this action to the fullest extent, because they are not familiar with the publication, but we who have had experience know what a task they have had. We therefore wish to extend our most hearty thanks to the young ladies for the marvelous work they have done and also for their willing cooperation in aiding us in the further promotion of this good work.

"CAMPUS" TRY OUTS.

This edition of the "Campus" marks the opening of "try outs" to the men of the student body. The young women in the institution, in the past, did not consider this matter of much value until they published the paper themselves. The result was they became interested in

the work because of its educational value, if for no other reason, and are desirous of continuing a good portion of the work.

This will create a keener competition for the positions on the staff and board this coming year. However, there is opportunity for new students, particularly, to prove their ability if they have had experience, or if not, to gain some by starting now.

The expression of your ideas and thoughts comprises a larger part of your education. By making yourself proficient in this branch of your education you characterize yourself as a leader, which is one of the chief aims of this college. There is no better way to get this experience and show your college spirit than to turn in your name now and "get going."

SENIORITY.

Previous to the great World's War there existed in practically all educational institutions a condition which gave men and women prestige in proportion to their character, ability and most of all, to the length of the period which they had been connected with the institution. This condition, perhaps called traditional, was confined to the longer and shorter term students, yet it was always prevalent, but not interchangeable.

In the progress of every college career this prestige has been cherished and although it may have been seemingly misplaced at times, it was abided by. Such a question furnishes a good opportunity and reasons for dispute, but beneath it all lies a principle which is universally adopted. With the observance of this principle we find harmonious student life; the non-recognition of it invariably produces friction.

This status of conditions has of necessity been largely overlooked in war times and the principle involved violated. The result has been favorable because we, as a people, have been bent on winning the war, and due to the fact that certain conditions have ceased to exist. Now the old factors are again in action and although they may temporarily cause us discomfort, yet we should be willing to tolerate such things in order to create a smoother running and greater college. Although I believe in considering underclassmen, yet I believe in all cases possible seniority should be given preference, and the best man or woman "put across."

STUDENT GOVERNMENT.

At the beginning of the last collegiate year the faculty proposed a plan for student self-government. This movement was promoted because it was felt that the students could assume responsibility, and being more intimately intact with their conditions, could work out many of their problems. Such an organization would stimulate student interest in

SAFETY VALVE

Dear Editor:

It is a well-known fact that many of the best students at this college are dependent in whole or in part on the money that they earn at the college to put them through their college career. It is also true that these who have the ambition to go to college, when they are financially unable, and who are willing to go without and give up many of the good times in order to earn money, are the men who amount to something in after life. They are the men who will help the college to grow, because they are the men who will be cited as examples of what we turn out at Connecticut Agricultural College.

In view of these facts, it is selfish for men to hold positions when they are not dependent on the money earned to put them through college. Also some of the departments on the "hill" can use student labor, but will not. The greatest example of this is the dining hall.

In this establishment there are hired approximately twelve persons, outside of the several students who work there. Last year many more students worked there than this. These positions help many to pay their way. It has been rumored that the present system is more economical, but how can it be? Last year the students, who worked did not receive enough to pay for their board, but this year the ones who work there get their board and pay besides. This must exceed many times that which was paid to the students. There is not one of the positions outside of the kitchen that cannot be filled by students. There are also jobs in the kitchen that can be filled by students and these jobs can be filled at less expense. This might also help to make the price of board lower. This is the opinion of many of the students who are in need of work and cannot get it.

N. C.

the running of the college and form a closer association of faculty and students.

The plan as drawn up provided a committee called a Student Council, which was composed of one member from each class, the two freshman classes being excepted. Provision was made so that at the beginning of the second semester these two classes each had a representative. All questions which arose, either in the faculty or student body, were discussed with the committee and presented. This not only gave a means of exchanging of ideas between the faculty and students, but it also allowed a complete discussion of all sides of any question. Satisfactory settlements resulted without the usual friction.

This year a similar organization has been perfected and should be fully as successful as was that of last

Dear Editor:

I was back at the College a short time ago and was very much impressed by the many changes which had taken place just in the time that I have been away.

Perhaps a good many of these conditions and changes were brought about by the war. One of the most noticeable, was the different system in the dining hall. The central heating plant was furnishing steam for the dormitories and various other buildings on the campus. The concrete steps on the hill back of the Main Building was a pleasing sight to see and a great pleasure to walk down. This does not mean much to the new men, but the men who used that walk in the winter time, especially, can see the advantage of a modern walk.

I have been speaking of things pertaining to the campus or buildings, and I want to go a little further and mention something else that I noticed. I do not understand conditions nor circumstances, and do not wish to criticize unjustly. To me there seemed to be a decided lack of what we term true college spirit. I believe all should work for the good of the college first, and let other things fall in line in their natural order. There seemed to be some friction in athletics between manager and players. I heard (I was about to say a hundred things) from both sides, but did not believe all of them.

There were several other little things in the air which caused more or less friction. It is not necessary for me to mention them here, for the older men at college know them as well as I do. My point is this, to get those things which tend to cause an unfriendly feeling between the different organizations in college and all pull together for the good of old Aggie. Speaking from the viewpoint of one who is on the outside, I am proud of my Alma Mater and I want to see her continue to prosper. This is possible only by all pulling together and showing true college spirit.

C. A. P.

M. F. Abel, who left the agronomy department last June to join the Marines, will be back as farm management instructor the third term. Mr. Abel was first sent to Paris Island, S. C., and then to the Republic of Haiti, where he is now awaiting his discharge.

year. The only manner in which success can be assured is to show the Student Council we are backing them. Further, it is for our benefit as students, which we should realize at once, and demonstrate in our actions to the faculty that we appreciate their leniency and cooperation.

R. O. T. C. UNIT IS ORGANIZED

TEMPORARY CADET OFFICERS ARE APPOINTED.

Two Companies Formed—Six Students Elect Advanced Course.

The R. O. T. C. unit was organized at the drill period on Thursday, February 6, when temporary officers for the two cadet companies were appointed by Captain C. E. Cranston, commandant.

The men have been divided into two companies, A and B, of eight squads each, and are in charge of the following officers: Company A; Cadet Second Lieutenant F. Bauer; First Sergeant L. L. Crosby; Color Sergeant F. W. Wooding; and Sergeants N. W. Alexander, R. F. Belden, G. B. Durham, D. A. Evans, T. F. Murphy, J. F. Ryan, C. R. Brock, D. Scott. Company B; Cadet Second Lieutenant H. W. Wright; First Sergeant D. J. Hirsh; Sergeants H. B. Bridges, L. W. Cassel, E. D. Dow, H. B. Lockwood, P. N. Manwaring, M. L. Osborne, W. J. H. Shimmel. Corporals have been appointed temporarily. As the work advances and the men show their abilities promotions will be made according to qualifications and the full number of battalion cadet officers appointed.

The naval reservists, although not really a part of the R. O. T. C. because the terms of their enlistment are still binding are taking courses in military instruction along lines which are most beneficial in navy work. For this purpose they have formed into a signal squad in charge of Coxswain E. E. Brigham. The men enrolled in this miniature navy are: C. C. Compton, G. Dow, D. J. Graf, F. J. Mahoney, and J. C. Martin. In this manner they may get the usual drill credits.

The advanced work in the R. O. T. C. has been explained by the commandant and the following men have elected the course and will attend summer training camps, therefore receiving ration allowance of forty cents a day during the college year. To earn this they must put in five hours a week of military instruction, practical and theoretical combined. The men electing the course are: Herbert Wright, William Gronwaldt, Newton Alexander, Frederick Bauer, F. W. Wooding, and C. D. Prentice.

Captain C. E. Cranston, commandant, says "The men seem unusually willing and have the appearance of being well drilled, thanks to the efforts of Colonel Flynn during the S. A. T. C. There is no reason why we should not have one of the best R. O. T. C. units in the country."

Miss Helen Maxwell has finished the work for which she came here as a special student.

Mrs. Annette Butler, having earned her degree, has gone to her home in Bridgeport.

EXPERIMENT PLANNED.

Effort Made to Improve Pasture Lands of State by Simple Methods.

The agronomy department is planning to carry on pasture investigations this spring. A survey of the pastures in at least one town will be made and definite information will be gotten as to how much a farmer can afford to spend to improve pastures. In this state much good pasture land is unplowable, so that other logical methods of reseeding and improving must be worked out to be of any advantage.

ETA LAMBDA SIGMA.

George D. Hayes, Harry G. Hanks and Alton I. Horne were on the "Hill" over the week-end of February 8.

Mr. Hayes is now situated in New London and is in the employ of an engineering company of that city.

Mr. Horne is now employed by the American Thread Company of Willimantic and has charge of one of their supply rooms.

Gardner Dow, '21, was taken violently ill at noontime Friday and was sick all afternoon and evening. He was better on Saturday and on Sunday was taken to his home in New Haven. Mr. Dow had just returned to the college two days before. It is thought that the cause of his illness was over-exercise.

WHY EGGS WON'T HATCH.

Prof. G. H. Lamson and Leslie B. Card are working on data in respect to making a study of the factors relative to hatchability of eggs. Among the factors studied are the high winter yield, yield of parents, effect of cooling the eggs during incubation, results of successive hatches in the same year and in several years from the same individual hen.

PRACTICE HOUSE ENDS WELL.

The last group at Practice House vacated February 10. Among their guests were the Misses M. E. Sprague, Dorothy Buckley, Edith Mason, Ella Rose, Happy Potter, McCracken, Adeline Grabber, Capt. and Mrs. C. Dana Potter, Mrs. G. H. Campbell, Mr. and Mrs. A. J. Brundage, Mr. and Mrs. David Warner, and Messrs. G. M. Butler, J. L. Hughes, P. L. Sanford, Herbert Webb, William Hemmeler, H. B. Beisiegel, Donald Hirsch, E. Schulman, and S. I. Ward.

REV. G. B. GILBERT SPEAKS.

The principal speaker at President's Hour on Wednesday, February 12, was Rev. G. B. Gilbert of Middletown, Conn. In his talk he outlined the reasons for the unrest existing in the working classes today. In presenting the cause, he brought out many striking illustrations as well as many humorous examples.

SPIRITED DEBATE HELD.

Dr. E. W. Sinnott and H. B. Price give Talks.—Club Constitution Amended.

The C. A. C. Debating Club met Wednesday evening, February 5, in the lecture room of the Horticulture Building.

The speaker was H. B. Price, who concluded his series of talks on "Socialism." In handling his subject he showed some of the fallacies of the movement. A spirited discussion of the subject, in which many of the members took part, followed.

"Resolved, That the Government should Own and Control the Railroads" was the subject of a spirited debate Wednesday evening, February 12, at the meeting of the C. A. C. Debating Club. N. E. Himes and F. A. Boulanger upheld the affirmative side of the question, while R. B. Hughes and R. H. Mathewson championed the cause of the negative. The judges, J. S. Miller, H. B. Beisiegel and L. W. Cassel, awarded the decision to the negative.

Following the debate, Dr. E. W. Sinnott delivered a very interesting and instructive lecture on "Eugenics."

At the business meeting, an amendment to the Constitution, providing for a board of directors for the club, was adopted. S. I. Ward, A. F. Shenker and N. W. Alexander were elected members of the board.

SIGMA ALPHA PI.

The initiation of the Sigma Alpha Pi fraternity took place February 6. The following men were made members: Frank Hemmeler, New Haven; F. Howard Carrier, Manchester; Edward Baeder, Torrington; Robert Johnson, Norwich.

William F. Ladd, '13s, died recently at his home in Bethlehem, Conn.

Hugh Bennett, '15, recently won his eagles in the aviation service.

Charles Neumann is at present testing for Gardiner Hall & Co., in South Willington.

Sergeant Howard Goodrich, ex-'19, writes that he was recently transferred from the 301st Ammunition Train, which was leaving for America, to the 1st Replacement Depot, 16th Infantry. He wrote that recently while at St. Eigon he met Lieutenant Crampton, ex-'19.

COLLEGE ICE CROP FAILURE.

The question of filling the icehouse at Storrs is one which has troubled the farm department. The pond is so sheltered that it has frozen very little, and has been maintaining about a five-inch covering of ice, of poor quality, because of having been frozen and thawed so many times. The icehouses in Eagleville have been filled with good nine-inch river ice and in other places nine and ten-inch ice has been put up. By carting with four or five teams from points in the vicinity, it is expected that the icehouse can be filled within a month, unless a large amount of coal should come in at Eagleville, requiring the use of the teams to haul coal.

DRAMATIC CLUB HAS NEW HEADQUARTERS

ROOM FURNISHED IN BASEMENT OF COTTAGE.

New Furnishings to be Used in Club Room and for Stage Settings.

When the S. A. T. C. started at the college, the Dramatic Club met and decided to have a clubroom in the basement of the Cottage. A portion of the storeroom there was partitioned off and temporarily furnished with fittings lent by some of the members. This material was used as soon as college opened to furnish the dormitory rooms. Consequently, the Dramatic Club found it necessary to use a portion of the money in the treasury to purchase permanent equipment for the club, rather than give up their new headquarters.

A committee was immediately appointed to plan for the needs and obtain prices on furnishings. This committee made an investigation and submitted this information at the last meeting. Out of the funds available, seventy-five dollars was voted to carry out this project. Although this sum is not sufficient to furnish the room in an elaborate manner, it will make it possible to have a pleasant and comfortable place for the club to meet in the future.

Several years ago the club bought some furniture which has been used in setting up the stage for the plays that have been given. In selecting the new furnishings care has been taken to choose those which will harmonize with the old, and which may also be used in plays. Two chairs, a rug, and a lamp have already arrived. Another rug and the refinishing of the walls and floor are included in the present plans and other articles will be added from time to time as necessity demands. It is hoped to have the room ready for use when Miss Wallace returns to take charge as directress of the club.

PHI EPSILON PI.

The Phi Epsilon Pi fraternity held its initiation Saturday afternoon, February 8. The following men were admitted: Lionel Faulkner, '21, Louis D. Traurig, '21, Samuel Weiss, '21, Abraham Klein, '21, and Henry Calchman, '21.

David Traurig, '17, spent the week-end on the Hill, and assisted during the ceremonies.

Word has been received from Harold Kaseowitz, ex-'19, who is with the 305th H. F. A., that he is at a port of debarkation, Bordeaux, and expects to be home soon.

Lawrence Hoffman, '17, has received his discharge from the Army, and is engaged in business in New Haven.

Prof. A. T. Stevens attended the vegetable and fruit growers' meetings held in Horticultural Hall, Boston, Mass., Feb. 10 to 14.

WORCESTER TECH. TRIMS HOME TEAM

VISITORS WIN BY A 24-34 SCORE.

Teams are Evenly Matched in Fast and Exciting Game.

The C. A. C. varsity team met defeat at the hands of the Worcester 'Tech' quintet in a fast and exciting basketball game in Hawley Armory, Friday evening, February 7. The game started off in a whirlwind, both teams being apparently well matched. Although the 'Tech' boys showed their superiority in getting baskets, the splendid team work of the Aggies kept the visitors on the jump every minute of the contest. The score at the end of the first half was 11-18, in favor of the Worcester 'Tech' five, but the splendid work of Dean and Ryan soon brought the score up to 21-21. This was all that was needed to arouse the enthusiasm of our players as well as the students present and the contest was closely fought to the finish when the score stood 24-34 in favor of the visiting five. The lineup:

Connecticut	Worcester Tech.	
Lockwood	RF	Campbell
Dean	LF	Steele
Elcock	C	McCaffrey
Ryan	RG	Mossberg
Putnam	LG	Pickwick

Goals from the floor, Lockwood 2, Dean 2, Elcock, Putnam 2, Steele 2, McCaffrey 2, Mossberg 2, Kushner 2, Stoughton 4; goals from fouls, Lockwood 8, Mossberg 3, Kushner 7; substitutes, Richards for Putnam, Kushner for Campbell, Stoughton for Steele, Carlson for Pickwick; referee, Harrington.

RARE SPECIMEN PRESENTED TO STATE.

J. S. Miller has presented the State Entomology Department with a lady beetle, *Neomysia pullata* Say, the first specimen of which has been found and presented in this state. Mr. Miller found the beetle on arbor vitae at Branford, Conn., in the summer of 1917.

PIGS "AT HOME."

Five pens of three young pigs each were put in the new piggery February 8, to carry out a feeding experiment. Although the building is not yet completely fitted, it was found necessary to use it immediately. It is expected it will be ready for complete occupation soon.

Mrs. Alzina H. Bissell has returned to the home of her parents, where she expects to meet her husband, Lieutenant Bissell, who has been in the service abroad since the summer of 1917.

Discourtesy hurts the person who uses it more than the person toward whom it is directed.—Ex.

GRANGE HOLDS LIVE MEETING.

Report of State Meeting Given.
Current Topics Cause Discussion.

The regular monthly meeting of Mansfield Grange was held Monday evening, February 10, in the Church vestry at Storrs. After the usual business meeting, Prof. C. A. Wheeler gave a report of the State Grange meeting, held in Hartford, to which he had been appointed delegate. Current topics, including the Morrison Code, Government Control of Railroads and Telegraphs, and the Findings of the Meat Trust Investigations, were extensively discussed. Among the new men who took part in the program was P. N. Manwaring, who made some interesting remarks. A musical program was furnished by Mrs. H. D. Newton and M. H. Lockwood.

After the lecturer's program, the new officers, who were not present at the previous meeting, were duly installed. At the close of the meeting, light refreshments were served.

THE SHAKESPEAREAN CLUB.

Captain R. T. James, '16, who was stationed at Camp Devens and recently received his discharge, spent a few days on the "Hill" visiting old friends. Captain James expects to go to Washington State, where he will take up work in the large-scale production of apples in one of the leading orchards.

Word has been received here that D. J. Minor, '06, of Bristol, has lost both his house and horse barn by fire. The details of the loss are not yet known.

D. J. Minor, '06, was elected Secretary of the State Dairymen's Association. At the same meeting, M. E. Pierpont, '03, was elected treasurer.

M. R. Cahill, '16, first-class sergeant in the medical detachment at Camp Dix, New Jersey, expects to remain indefinitely at the base hospital there, where he has been working in the bacteriological laboratory.

WAR WORK FINISHED.

Prof. William F. Kirkpatrick has returned from a ten days vacation spent in South Carolina. After closing his work as manager of exhibits in the recent Connecticut Farmers' Week at Hartford he finished his work with the State Council of Defense, and will now devote his time to the poultry department.

A young registered Berkshire boar has been sold by the College to J. D. Kersley & Son of Madison, Conn.

Robert Sawin has returned from the army and is working on the poultry plant.

Many a man has dug his grave with his tongue.—Ex.

SERVICE RECORDS

Kelberg, Germany,
January 11, 1919.

Dear Link:

Received your letter written on Thanksgiving Day, a couple of days ago. I expect that you are now a private citizen again, and as the college has returned to a pre-war basis, that you are back on the Hill again. I am going to send this letter there on the strength of that supposition.

Your mess sergeant certainly put out on Thanksgiving Day. That was some feed you had. We were in Diedenhofen (French-Thionville) that day, and the company had beans for dinner. I was in a party of five that went out and ordered up a good dinner. We had soup, chicken, potatoes, roast beef, salad, bread, jam, wine, and coffee. It cost us eighteen francs apiece but it was certainly worth it. I would blow in a like amount any time.

We left Diedenhofen December 2, and hiked continuously until the sixteenth, when we hit this little town of Kelberg. It is a dead little hole about thirty miles from Coblenz. It takes a pass signed by the division commander to get to Coblenz, so we don't go.

We came through one corner of Luxemburg on the hike, crossing the Moselle into Germany proper. We climbed hills miles long and hiked from twenty to forty-five kilos a day. We saw some mighty pretty scenery, but a lot of good views were spoiled because the weather was misty most of the time and it was impossible to see very far. While we were on the hike I went into the kitchen as a "punk sergeant" was kicked out, and I was given that job. That is one of the good jobs in the army. I held that job for about ten days when there was another shakeup in the kitchen and I was put on as cook's helper. That is the job I am holding down now. I went on shift for the first time on Christmas Day. I am on one day and off two. I go on at 3 a. m. the day that I am on shift. I stand no calls, and do no guard. I am putting on a little weight, too. I can afford to as I lost several pounds in the Argonne.

I am glad to know that such a bunch of fellows received their bars. Also the way that Dick came through. I hope that John got his two bars. His outfit was certainly on the job and put out in good style at the front. We ran into a bunch from the 38th Infantry one night upon the Argonne while we were running a line to the advanced O. P. They were in the edge of a wood and challenged us about every four feet. You probably don't see much about us in the home papers, as from all that I can find out there seems to be a tendency to slight the regular army, and each paper is full of the doings of the national guard and national army of their section. We are in the 4th Artillery Brigade, 4th Division (Regu-

lars). Our outfit received the most citations of any outfit over here, but the only ones at home that know we exist are those that have friends in the outfit. We received the French and American citation at Chateau Thierry, St. Mihiel, and the American citation in the Argonne. The 90th Division is given lots of credit for its glorious rush to Sedan, but how many people know that the 90th Division Artillery never was in the scrap, and that it was the 16th that threw over the barrage above Bantheville and Andevain, that the Germans declared to be the worst of the war. And the regiment did that after the rest of the division had been relieved, as we started the drive at Monceville on September 26. We stayed with the 90th Division until the armistice was signed.

Personally, I don't care a hang whether they give us a write-up or not, but it sort of gets your goat to receive letters asking where you have been and saying that they never see your outfit mentioned. I know what I have been through and I think that my friends know that I have done my part, so I am satisfied.

No signs yet of when we will be going home, but I hope to be able to see you and all the boys at Commencement.

Faternally,

"GOODY."

SAFETY VALVE (Continued).

Dear Editor:

Appearance is half of any game. Take for instance a real estate agent who is trying to sell you some property that is is not neatly kept. The land itself may be of the best, but if it is grown up to brush and strewn with litter it does not make much of an impression on you as a good buy, whereas if a little time was spent in cleaning up the grounds you would probably be tempted to make the purchase simply because of its appearance. Even though you did not buy, it would leave a favorable impression in your mind. Such a case may be likened to prospective students or their parents who visit our college.

It is a safe bet that the papers entangled in the bushes in front of the Armory, and the conglomeration of articles strewn under the windows of the 'dorms' do not make a very favorable impression on visitors. They are very likely to form the opinion that a college that allows such conditions cannot have very high standards. Such is not the case, however, for we believe we have as high standards as those of any institution, but everyone must admit that the unsightly conditions existing in and about some of the buildings are not a very great advertisement to "Connecticut."

The college is visited every week by strangers who are forming opinions of us and these opinions are formed from the appearances of the college as a whole. If the students will co-operate with those in charge of the grounds, these nuisances may easily be avoided.

DE LAVAL

The World's Greatest Cream Saver

All over the world creamerymen, big milk concerns, dairy authorities and cow owners who have special opportunity for judging the worth of cream separators, have for years recognized the superior skimming and all-around efficiency of the De Laval.

That's why 98% of the plants throughout the world separating large quantities of milk use the De Laval. It skims so much closer that they can't afford to use any other machine.

That's why 2,325,000 De Laval's are in daily use—more than all other makes combined.

Not only is the De Laval the greatest cream saver, but it turns easier, is easier to wash, has larger capacity and greater durability than any other separator.

The more you know about cream separators the more certain you are to buy a De Laval.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

The De Laval Separator Company

LETTERS FROM FRANCE.

France, December 29, 1919.

Dear Professor:

You don't know how glad I was to find a letter from the college in my mail. It enclosed a questionnaire, a letter and the Honor Roll. I have filled out the questionnaire as well as I can, showing the changes I have made and so on.

A fellow has to be a long way from home and friends in order to appreciate them. My recent batch of mail, twenty-five letters, was the first I had received in over two months.

Am feeling fine and enjoying life as well as one can during a winter in France. We have very little snow here, but it rains continually, not a honest-to-God rain, but a steady drizzle that lowers your spirits and keeps your feet wet.

I joined the 139th Infantry November 5—just six days before the armistice was declared—so did not see any fighting. This regiment was just east of Verdun and shells were passing back and forth at times. That is all the action I have seen so far in this war.

Wishing you and your family a very Happy New Year, and hoping to be at the big reunion that will be held at C. A. C. when we all get home. I remain,

Yours very sincerely,

GEORGE L. PRINDLE,
First Lieut., 139th Infantry.

Cheshire, February 10.

Mrs. Richard A. Storrs, wife of Lieutenant Richard A. Storrs, who died in France, November 13, 1918, from wounds, has recently received a letter from Lieutenant Carroll J. Schepps, commanding Company F, 131st Infantry, giving details of the act, in the doing of which the late officer was fatally wounded. The letter is dated Luxemburg, January 7, and is as follows:

"It was with feeling of deep regret and sympathy that I heard of the death of Lieutenant Storrs. He was a man who commanded the respect of all his fellow officers and the men under him. His loss and absence is greatly felt by them.

His last act was an attempt to rescue from the enemies' territory, a wounded comrade, and it was in this act that he received his fatal wound.

You will rest assured that the supreme sacrifice made by him will long be remembered by his comrades, as it was in the performance of his duty to our glorious country, as well as an heroic act.

You and your children even in this sad hour, have occasion to feel proud of so noble and true a soldier."

Mrs. E. L. Gay and her daughter, Florence, of Winsted, visited here the week-end of February 7 with Mildred Gay.

Captain and Mrs. C. Dana Potter and their daughter, Happy, of Sound Beach, spent the week-end of February 7 here with their daughter, Kay.

INSPECTORS APPOINTED.

Rooms Must be Kept in Tip-Top Condition from Now On.

Section inspectors have been appointed by Captain C. E. Cranston, commander of the R. O. T. C. unit at the college.

This is a custom which has been carried out in the past and it provides for an inspector for each section.

The duties of the inspectors are primarily to inspect each room daily and see that the rooms are swept, beds made, and everything neatly arranged. In addition, he is responsible for the conduct in sections. Besides the regular daily inspection by the section inspector, there will be on the first Sunday of each month, a room and equipment inspection by the commandant.

The men selected for inspectors are taken from the roll of students who are taking the advanced work in the R. O. T. C. and are as follows:

Koons Hall:

First section, H. W. Wright.
Second section, C. D. Prentice.
Third section, not appointed.
Fourth section, W. Gronwoldt.

Storrs Hall:

First section, F. W. Wooding.
Second section, N. W. Alexander.
Third section, E. D. Dow.
Fourth section, P. N. Manwaring.

These men are held responsible and in case they do not perform their duties as prescribed, they are liable to fines laid down by the commandant.

New scales, with a ten-ton capacity are being installed near the office of the superintendent of buildings. The foundations are 16 feet by 8 feet and made of concrete and steel.
