LEAP YEAR DANCE WAS A BIG HIT FOR THE GIRLS

HALL CLEVERLY
DECORATED

Co-eds 'Play the Man'; Invite Their Partners and Manage the Most Novel Dance Ever Seen at Storrs.

A novelty dance under the direction of the Sophomore Girls was held in Hawley Armory, Saturday evening, April 17.

Being Leap Year, the Co-eds took advantage and planned the dance accordingly, inviting their partners, filling out programs and in general joyfully "playing the man" throughout the evening.

The decorations and box arrangements were different from any previous dance. Blue and white bunting formed a sky for a huge Japanese parasol, decorated with Japanese lanterns. These lanterns gave the necessary moonlight for two of the dance numbers. One large box simply but attractively decorated, seated all of the dancers.

The Peerless Orchestra from Willimantic furnished the music. The dance program consisted of sixteen numbers.

The Patrons and Patronesses were: President and Mrs. C. L. Beach; Mr. and Mrs. G. H. Lamson; Mr. and Mrs. A. T. Stevens, Mr. Skinner and Miss Barker; Mr. Hughes and Miss Rose; Mr. Bauer and Miss Mason.

Faculty present: Mr. and Mrs. C. A. Wheeler; Mr. and Mrs. E. H. Gumbart, Mr. and Mrs. D. E. Warner.

Students and others:

Edith Anderson, Lincoln Crosby; Ann Arnold, H. Boas; Dorothy Baldwin, Harold Carried; Mabel Bennett, Percil Sanford; Ethel Bemont, Robert Keeler; Gertrude Benson, Ellsworth Langdon; Gladys Bidwell, Harry Lockwood; Frances Bristol, Donald Bassett; Ruth Burghardt, Edwin Voorhees; F. F. Blanchette, E. W. Crampton; Georgia Brown, Dwight Scott; Miss Buckley, W. H. Poole; Irene Colaty, C. Markham; E. Dillon, E. Lord; M. Dunn, C. Mahoney; M. Dwyer, S. Patterson; E. Earle, S. Dodge; E. Ellis, B. Ricketts; V. Ericson, L. Osborn; A. Flannigan, H. Bolan; B. Gilbert, P. Lord; M. Gay, P. Dean; N. Gerhardt, W. Wood; G. Goldthorpe, D. Graf; A. Hallock, G. Goodearl; N. Hallock, V. Pinkham; R. Herschman, L. Faulkner; S. Ives, L. Wadhams; M. Jacobson, C. Dossin; M. Jackson, P. Johnson; F. Kittner, P. Manwaring; D. Linton, H. Hopwood; B. Linton, R. Pullen; A. Larson, L. Alexander; A. Larkham, R. Brundage;

COLLEGE BATTALION MAY TRY FOR HIGHEST HONORS

IF SO GENERAL STAFF
OFFICER WILL INSPECT

Colonel Palmer may Recommend C. A. C. for Distinguished College Trial

Lieutenant-Colonel Guy G. Palmer, who inspected the R. O. T. C. battalion last week stated that he expected to recommend Connecticut Agricultural College for an inspection by a General Staff officer, in view of having this college designated as a "Distinguished College."

Regulations prepared by the War Department make the following provisions. Colleges and universities (including land-grant colleges), not exceeding 20 percent of the institutions maintaining units of the senior division, which best meet the following conditions, will be designated as distinguished colleges, and the year, or years, in which distinguished colleges will be added.

a. The curriculum of the institution must be sufficiently advanced to confer degrees.

b. The average age of students on graduation must be less than 21 years.

c. The student body must exhibit unusual efficiency in military training.

d. Graduates of that year must by reason of discipline, education and military training be qualified for commissions in the army.

In addition to the inspections by the district inspectors, a special inspection by a committee of the War Plans Division, General Staff, for the purpose of selecting the distinguished colleges, will begin about April 1 and be completed by about June 1 in each year.

After careful consideration of these reports, the R. O. T. C. Inspection Committee of the War Plans Division, General Staff, not later than June 20 in each year, will prepare and submit to the Chief of Staff, not later than June 20 in each year, the lists of institutions recommended to be designated as distinguished colleges.

In 1918, three New England colleges, namely Yale, Norwich University and University of Vermont were among those selected. Norwich was the only one chosen in 1919.

It is certainly within the bounds of possibility that Connecticut can come up to the standards set by the War Department. To be designated as a distinguished college would give national publicity to Connecticut and would be well worth the efforts of the students who drill. It means that every member will have to make himself proficient in drill.

PRESIDENT BEACH ENTERTAINS SENIORS

ALL OF FACULTY PRESENT

Customary Senior Reception Held in Hawley Armory. Extension Workers and Many Outsiders Meet Seniors.

A reception in honor of the Senior Class was given by President and Mrs. C. L. Beach, Thursday, April 15, in Hawley Armory. This was the second reception of the sort given this year, one being held in September for the entire student body to welcome both new and old students to the Hill.

Among those present at this "at home" for the Seniors were the Faculty, Sub Faculty and Office Employees. This offered a very good opportunity for the Seniors to meet the new members of the Faculty and those workers in the Extension Department and other departments of the college with whom they very seldom come in contact.

Some of the out of town guests were also present, among them being: Dr. and Mrs. D. E. Taylor, Judge and Mrs. Arnold, Mr. Louis H. Arnold, Mr. J. E. Keeler, all of Willimantic, Mr. and Mrs. F. O. Vinton of Eagleville, Mr. and Mrs. C. T. LaMoine of the Mansfield State Training School, Gardiner H. Hall of South Willington and Mr. and Mrs. Willard H. Farrington of Mansfield Depot. The Majestic Orchestra or Willimantic first rendered a concert and then dancing was enjoyed from 8:30 to 11 P.M. The colors of the class of '20, red and white, were predominant in the decorations, roses helping very well to carry out this color scheme.

PRESS CLUB BEGINS PUBLICITY WORK

Several Assignments on State Papers Made to Members of Press Bureau

There was a meeting of the Press Bureau and candidates, Thursday evening, April 15, in Main 7. It was presided over by Earle Blevins, '21, and several candidates were assigned newspapers in which they are attempting to get articles printed.

As soon as a candidate has an article printed in any newspaper or magazine he becomes a member of the Press Bureau. It is from the Press Bureau that elections will be made to the Press Club later in the spring. Some of the reporters already members of the Bureau are Miss A. Flanagan, M. Lockwood, Earl Blevins and F. Maier.

FIENEMANN CHOSEN EDITOR OF "CAMPUS"

ASSUMES POSITION
LEFT BY BROCKETT

New Editor Has Made Remarkable Progress on Board

Owing to the fact that Warren E. Brockett, '21, our former Editor-in-Chief of the "Campus," has been forced to leave college on account of sickness, the Campus Board met on Monday night, April 19th, and elected Henry W. Fienemann as Editor-in-Chief. Mr. Fienemann has advanced rapidly as a journalist since becoming a member of the board, and as he is taking over a well equipped office in the fourth section of Koons Hall, his work should be notable.

With the greater efficiency and enthusiasm which is thus created by having a well equipped headquarters, the "Campus" is destined to become a paper which will better serve its purpose.

To fill vacancies on the Board caused by the withdrawal of Vera A. Lee, '21, and Warren E. Brockett, '21, the board further elected William F. Maloney, '21, and Theodore F. Gardner, '22, as members. The vacancy on the News Board left by Mr. Fienemann, will be taken care of in the near future by further elections.

The Managing Board will meet shortly to discuss plans for the management of the office.

(Cont. page 4 col. 4)

BOOKLET TO BE PUBLISHED BY FRESHMEN

Will Contain Information of Use To Next Year's Entering Class

That the present Freshman Class will make up some sort of booklet to sell to the next year's Freshman instead of a large card is the recommendation made to the class by the Mediator.

It is proposed that the book contain Freshman Rules, College Songs and Cheers, Who's Who and What's What at C. A. C. It might be a little more expensive than the card but would produce good results. In many of the large colleges this is done by the Christian Association.

Two cups will be purchased for the winners of this year's pool and bowling tournaments. Next year large cups will be purchased and will be given to the organization winning it for three consecutive years. A better plan for running the tournaments is under consideration and doubtless will be accepted for next year.

AGGIES PLAY SPRINGFIELDS TODAY

SPORTS

COACH MELLOR ARRIVES

TRACK MEN ARE WORKING HEADS OFF

Possibility That a Meet May Be Arranged With Rhode Island

Altho the track policy is far from settled, the track men are showing the highest type of college spirit and are working daily on the cinder paths getting in shape for the proposed meets against Massachusetts Agricultural College, Rhode Island and the Intercollegiates at Springfield. Not even a coach is on hand at the present time due to the absence of Coach Guyer, but the men are plugging along by themselves and that is the spirit that wins. No captain or manager has been elected and it is doubtful if a manager will be elected this season, but if a team leaves the Hill to represent Aggie, a captain will be chosen just before the first meet. A large amount of objection to the Mass. Aggie meet is still found in the student body. The feeling among the students is that the Bay Staters are too fast for the first meet considering the fact that Connecticut is running intercollegiate track for the first time. A proposal has been received from Rhode Island for a meet and the followers of the cinder path feel that this would be much better for a starter. Therefore, if sufficient money can be raised to finance a meet with our rivals, it will probably take the place of the Mass. Aggie event. Some of the best men will be taken to Springfield for the New England Intercollegiate meet and while they will be pitted against the best runners in this part of the country. Coach Guyer is confident that we will be able to capture a few points. The men who are on the squad include: Sprinters Lilley, Levy, Wooster, Goodearl, Heath Fresen. Middle Distancers: Wooster, Hawley, Beardsley, Smith, and Stocking. Milers: D. Graf, Fiene-man and Wood. Field Events, Voorhees, Gleason, Gronwoldt, Ashman, and Dossin.

PAUL L. PUTNAM ELECTED BASKETBALL CAPTAIN

At a recent meeting of the members of the Basketball Team, Paul L. Putnam of Bloomfield, a member of the Sophomore Class and of the Eta Lambda Sigma Fraternity, was elected captain of next year's five.

Putnam played right guard and was one of the mainstays of the team. He is a clever defense man and has a good eye for the basket. Besides playing on the Basketball Team, Putnam won his letter in baseball last spring and represents the Sophomore Class in the Student Council. He is also a member of the Varsity Club.

Putnam came to Connecticut from Loomis where he played on the Basketball Team.

SPRINGFIELD WILL RIVAL AGGIES THIS AFTERNOON

Many Changes Made in Line-up Since Brown Game. Will not Meet Worcester this Season

The game with Worcester Tech which was to be played in Worcester last Saturday was cancelled by the Worcester Tech manager on Saturday morning, although Captain Mahoney, who was at his home in Worcester, said that the day was alright for a game and that a large crowd went out to the field to see the contest, only to be turned away by the Worcester management. Repeated efforts on the part of Manager Osborn to have the game played on Monday, which was Patriots Day in Massachusetts, failed and so the team will not have a chance to show its wares against the Massachusetts boys this year.

The blue and white nine will cross bats with Connecticut's ancient rivals on Friday of this week and, if comparative box scores are any indication of the result, the Aggie boys should have an easy time with the engineers from Kingston as Connecticut held the heavy hitting Brown team to a 3 to 2 score, whereas Brown soundly trounced the Rhode Island nine to the tune of 10 to 1. Since the Brown game the squad has improved greatly in hitting ability and ought

to be able to nick the opposing pitchers for some solid hits, while Alexander and Johnson are twirlers who can be relied upon to hold the hits of the engineers to a small number. The Aggies are still smarting under the defeat handed them in basketball and will put forth their best efforts to even the score and the boys from Kingston have not forgotten the trouncing they received at the hands of the blue and white warriors in football last fall. The team will have many changes in it when it takes the field, as a number of changes in the infield will be made necessary by using Alexander in the box instead of at short. Hopwood will be shifted from third to short and Feldman will cover the dizzy corner. In the outfield Emigh, who failed to show up in the batting column, will be replaced by Moore. The probable lineup for Connecticut will be:

Catcher, Mahoney or Metelli; Pitchers, Alexander, Johnson, Lord; 1st Base, Bauer; 2nd Base, Brigham; 3rd base, Feldman; Short stop, Hopwood; Right field, Metelli or Emigh; Center field, Moore, Left field, Lord.

TENNIS TEAM HAS SIX GAME SCHEDULE

Will Play Springfield on Court While Nine Does Same on Diamond

The Tennis Team is back on Connecticut Athletic list this year after an absence of two years due to wartime conditions. Last fall the team was reorganized and an elimination match to determine the best players was staged. The five highest men in this contest believed they had material for a winning combination, so they got together and elected Crawford Griswold, '21, captain, and Harold Bridges, '20, manager. Since Bridges graduated in January his work has been carried on by W. F. Wood '22, who has arranged the following schedule:

April 24 Springfield at Springfield.
May 1 Trinity at Storrs.
May 8 Clark at Storrs
May 15 Trinity at Hartford
May 22 Clark at Worcester
May 29 Springfield at Storrs.

Due to the late season the first game with Boston University, which was to be played April 16, at Storrs, had to be canceled. This game will be played on a later date if it can be arranged.

The men who will go to Springfield on Saturday are Griswold, Wood, Pul-

len, Trost and Upham. F. Bauer will not be able to play with the team this year, because of his position on the Varsity Baseball Team. The loss of Bauer will be keenly felt by the team. Nevertheless they expect to put up a good game at Springfield.

"BILL" MELLOR OF WHITE SOX TAKES AGGIE NINE

New Coach a Man of Wide Base- ball Experience and a Col- lege Man

William Mellor has been secured as coach for baseball to take the place of Ross Swartz, who left the college Monday.

Mr. Mellor graduated from Brown University in 1896 and for two years pitched on the varsity team which was the best nine Brown ever had. From 1902 until 1906 he played professional ball with the American League, the Georgia Club, the Western League and in 1906 played with the Texas League. Since then Mr. Mellor has been coaching baseball in the east, having coached Rhode Island State and Brown University.

Mr. Guyer says that we are very fortunate to secure such a man as Coach Mellor and everyone feels confident that he will put out a winning team for Conn. State College.

JAYNES WILL BE QUIN- TET MANAGER IN '21

A. A. Votes to Back Varsity Club in Controversy Over Letters for Girls

At a meeting on Friday evening April 16 the matter of what kind of a letter should be given to the Girls' Basketball Team, Tennis, Track or any other sport that might spring up. It was voted that the Varsity Club should offer suggestions to the Athletic Association that the constitution of the Athletic Association should be amended so that there would be major and minor sports, football, basketball and baseball, constituting the major sports and all others to be minor sports. It was suggested that the certificates given for minor sports differ from those issued for major sports. The Club also decided that the letter for all minor sports be the same, a Boston-Roman C with the initials of the minor sport on each side of the letter.

The meeting of the Athletic Association called for the purpose of electing the Assistant Basketball Manager for next year was held Monday evening April 19. The names of Harold Jaynes and Philip Jaquith were read by President Mahoney as having been approved by the Athletic Council for the position. Ballots were taken, the results of which were 137 for H. Jaynes and 80 for P. Jaquith. President Mahoney then said that nominations were in order for manager for next year's basketball manager. Earle Blevins, present assistant manager, was nominated and elected.

After the elections, a letter from Coach R. Guyer was read by H. Gleason, '20, the president of the Varsity Club. The letter suggested that the Varsity Club consider the matter of awarding letters to the girls basketball team and to the tennis team and present their recommendations to the Athletic Association. The Club's re-

(Cont. page 3 col. 1)

Check No. 869, made out for five dollars, has been received by the treasurer of the Athletic Association. This is the first contribution received from the people outside the college community since the financial statement of the Athletic Association was published in the Campus. I trust this is one of the many checks which we shall receive; later in the season a list of contributors will be published.

SECRETARY TORREY IN PROVIDENCE HOSPITAL

Registrar Contracts Scarlet Fever at Capital

Professor G. S. Torrey is in the Providence Hospital with a case of scarlet fever. Mr. Torrey had been in Washington, D. C., for about a week previous to his return to the college on Sunday, April 18. He complained of a sore throat and stated that he was not feeling especially well. He went to his home in Providence on Monday and it was from this place that word was received that he was ill.

The disease was probably contracted while Mr. Torrey was at Washington, as the incubation period is from two to five days. The Secretary's office was disinfected Tuesday morning.

Doctor E. W. Sinnott will tend to Mr. Torrey's classes during the latter's absence, which it is hoped will be not more than a month.

(Cont. from page 2 col. 4)

commendations were that girls' basketball and tennis, also hockey and track teams be classed as a minor sport. Letters, flanked by smaller letters—TT for tennis and BGB for girls basketball—were then shown.

A somewhat heated discussion followed Misses Martindell, Arnold and Miller holding that the girls represented the college as much as the men; that the girls stood for clean sportsmanship as well as the men; that they were full fledged members of the A.A. and thus entitled to equal privileges. Putnam, Moore, Blevins and Dow took the stand that a "C" was a varsity emblem and should be worn only by members of teams that played other colleges. It was their belief that athletics should be established on a much firmer basis and that the awarding of the "C" should be made only for football, basketball and baseball. P. Manwaring was of the belief that the girls should get some sort of insignia, but he did not favor having them classed as either a major or minor sport. It is a possibility that there may be a split between the men and the co-eds. In such a case the girls will have their own athletic association and support their own teams.

It was finally voted that the Athletic Association back up the Varsity Club in its recommendations.

DAHLIAS TO HELP FIGHT HIGH COST OF LIVING

Make a Delicious and Wholesome Food When Eaten Raw

Last summer a rare opportunity was offered at the college for studying the Dahlia. The trial garden of the American Dahlia Society attracted much attention from residents and visitors due to the many beautiful specimens of this flower that were grown.

The April issue of the Bulletin of The American Dahlia Society brings out a point outside of the decorative value of the plant. It is the food value of Dahlia tubers. A member of the American Dahlia Society is quoted, as saying, "We should encourage the Dahlia tubers as a delicious and wholesome food. Whomsoever loves radishes will love the relish of the tubers, which have stored within the vital mineral salts which the body needs. For use as salads it will be better known eventually."

It is said that the tubers should not be cooked but should be eaten like radishes. They are very healthful and have a fine flavor. We do not have to wait for the Fall harvest, we can go out and scratch a hill and carefully cut off a nice tender root, crisp and pungent, without injury to the bush. From this we can see that the Dahlia will serve us double, being a thing both of beauty and utility.

R. I. REDS LEAD AT CONTEST

Drop in Egg Yield

The three leading pens in the egg-laying contest are as follows: Pinecrest Orchards, Groton, Mass., R. I. Reds, 946; George Phillips, Seymour, Conn., White Leghorns, 917; Charles H. Lane, Southboro, Mass., R. I. Reds, 896.

Last week was the twenty-fourth week of the egg laying contest. The egg yield always drops during this week. It has done this for the last six years. This "slump" will last for perhaps two weeks, then the hens will "come back" and reach the highest egg production of the year early in May. This year there was a drop in production of 98 eggs.

It will be at least six weeks before the young turkeys are placed in the coops near the water tower in connection with the blackhead experiment. At present one of the coops is being used as a brooded house for young chicks.

One of the brooders operated by a student, in his individual pen, caught fire the other night. No appreciable damage was done and the fire soon burned itself out.

(Cont. from page 1 col. 3)

The leading newspapers of the state as well as the Boston and Springfield publications are already covered. Candidates are needed, however, for some of the smaller and more local newspapers of the state.

PROF. FISHER TO GIVE NEW COURSE

New Field Opens in State

Professor Fisher made a careful survey of the Connecticut dairy situation last summer and found that during the months of April, May and June there is usually a large surplus of milk. On the other hand, a shortage frequently occurs during July, August and September. These conditions commonly result in a great loss in dollars and cents to the farmers and a loss in valuable food products to the consumer.

The Dairy Department has been very active in finding ways and means of preventing, or at least minimizing these losses, and those who are acquainted with the milk powder plant feel that that will do much in that direction. When milk is reduced to a powder form it will keep indefinitely and so the Connecticut surplus could be utilized to tide over the shortage of late summer.

Milk powder, especially the skim-milk powder, which has better keeping qualities than the butterfat powder, has a great variety of uses. Its use in the household is very limited for its dietetic value cannot compare with wholesome fluid milk. It is used to some extent in bakeries, hotels, confectionery and ice cream plants, but its most important use is in places where geographic or climatic conditions bar the profitable husbandry of the dairy cow. As a substitute in such situations, powdered milk is valuable and is now used in the Army and Navy, on ocean liners, in mining and lumber camps, and has become a practically indispensable part of the diet in these places.

Milk condensing and milk powdering are now recognized as important factors in the dairy industry and several eastern colleges, including our own, have included these courses in the curriculum.

At present the course which Professor Fisher is giving, consists mainly of lectures, but the department hopes to install suitable machinery for the practical work, in the near future. Professor Fisher is very enthusiastic over the new course and expressed the opinion that with the opening of this new field of industry in Connecticut, the course should become one of the most popular and practical in the department.

SHALL WE SEPARATE OUR ACTIVITIES FROM CO-EDS?

The recent A. A. meeting was a most interesting one in spite of the fact that some few had their feelings hurt. Many of the arguments however contained some very valuable suggestions.

In the discussion as to the type of letter to be awarded to the members of the Girls' Basketball Team some of the co-eds spoke of withdrawing from the Athletic Association and forming an A. A. of their own. This was greeted by many of the men as very advisable.

There is no doubt that this is true and that such a separation would be for the best. Most of the men object to the co-eds in the A. A. and if the girls were not part of that organization they would be much more independent of thought and action. Such a separation would be tasteful for both co-eds and men students and would probably better the college in many ways.

But why stop at the A. A. The Girls do not like the spirit and attitude of their male classmates and the men feel that they are considerably hampered from real virile class feeling because of the girls.

Why not make the change in the classes also? There are certainly enough girls in the class of 1923 to set up a class organization of their own. Then they would be able to have their own class customs and traditions without being hampered by the actions and customs of the men. This action would make the banquet much safer and would allow the men more freedom. About the only class tie in common would be the banner.

As long as the boys and girls are grouped together in activities there is going to be more or less discontent and a separation would tend to give the girls more responsibility of their own. You would probably find the two classes of students respecting each other and giving the proper spirit and encouragement to each others activities after the separation was made.

The men like to see the girls really do things worth while. If they can run a dance of their own as well as the Leap Year dance was managed, and have a student council, there is no reason why they shouldn't be able to maintain creditable class organizations and hold managerships on their own teams and activities.

Such a plan might give the sensible co-eds a chance to educate their underclass sisters in college traditions and prevent such kiddish, selfish and unsound actions as a few showed at the A. A. meeting.

Certain we are of one thing. The time is ripe for a men's athletic association and the boys will be foolish to turn the opportunity down and so will the girls.

LET'S ALL BACK UP AGGIE

The "Campus" is the official newspaper organ of the students of the Connecticut Agricultural College and as such stands for Connecticut first, last and always. The policy of "I" first and Connecticut next is a thing of the past but still holds sway in the minds of a few people on the Campus who care only to hear their praises sung and it is time that the entire student body took it upon themselves to see that this thing STOPS and stops IMMEDIATELY. As Mr. Dow said at President's Hour too few of us are doing our limit to advance Aggie. We have a new baseball coach on the Hill and already the old stuff has started. Our Mexican Athletic squad has settled on his trail and enlightened him who our big athletes are and what men he should use in the coming games. This is not an idle brainstorm of the writer but he has definite proof to back his words.

The same thing happened in football last fall and ruined the basketball season this winter and Coaches Guyer and Swartz know only too well that certain individuals on the campus are altogether too eager to help coach the teams. Give the coach a chance. HE KNOWS the game and is capable of picking his own team. It is time that the student body put a stop to this practice that is annually ruining our teams even if they do injure the feelings of a few so-called Connecticut men.

Connecticut is no place for the man that put I first and Aggie second. A few years ago the pond would have come to our aid and have stopped this traitorism and might well be used in the future if necessary. What would you do if your pitcher deliberately threw the game away in the pinch? Well throwing the game away by breaking the nine's spirit is just as bad.

REMEMBER!!! CONNECTICUT FIRST!! I MYSELF AND I can come later.

SAFETY VALVE

ALL GOOD FRESHMEN SHOULD TAKE HEED

Dear Editor:

Occasionally one hears of college spirit but upon observation he begins to wonder if there is any found in the class of '23. The class was quite large to start with and for that reason felt a little independent but the majority lived up to the freshmen rules. Some had the idea that they were getting away with something if they broke a rule but really they did not. The banquet was a success to the Freshmen, due to close cooperation in their own class. College spirit begins as class spirit. Let it extend out of the limits of the class.

There is a college rule issued from the president's office which states that the freshmen will go to meals between 7:00 and 7:20 A.M., 12:20 and 12:45 at noon and 5:50 and 6:15 P.M. Who is to correct the youngsters if they break this rule and enter early? President Beach has done his part. It was not four weeks ago that he reminded the freshmen of this rule at "President's Hour."

There is also a rule that all male students should wear a tie, a coat, and be in a presentable condition before entering the dining hall. This is not unreasonable to demand. Any gentleman would do it in his own home. These rules are respected by the upperclassmen but the freshmen are the individuals who do not respect them. It is possible to go into the dining hall three minutes after the door is open and find eight or ten freshmen to a two or three upperclassmen. Who is at fault here? Is it the fault of the ticket-chooper or is it the fault of the individual? In my opinion it is up to the freshmen to live up to the college rule and if he has any college spirit at all he will do it. This college is not burdened with rules and if there are two or three it is essential that they be lived

up to if the machinery is to run smoothly, otherwise they would not be there. The principle thing which causes some of the freshmen to act the way they do is because they are youngsters, they are not college men. They run around making lots of noise and if they get into the dining hall early they think they are putting something over on some one, but in reality they are putting something over on themselves.

It is college tradition that the freshmen should take care of the Gardner Dow Field. Are they doing it this year? If one makes a trip to the field they see the same 30 or 35 loyal boys out there each time. Where are the rest? They think that they are getting away with something if they stay in the dormitories or the main building and fail to show up. Who profits by it, the college or the freshmen? Who suffers for it, the freshmen or the college? This is a case where the freshmen put themselves before the college. All of the upperclassmen have been through this sort of work and they are proud that they could do some thing for the college which would show results. If they could not play on the teams they could at least prepare a field so that the players would have something to work on.

Come on freshmen, grow up and show some real spirit and forget the high school stuff and be college men. C. A. C. is a college in name and should be a college in spirit so lets go and make it worth while. Lets start today and be college men and feel that you are doing your part. Put the college spirit first and yourself last and take a personal interest in the welfare of the college. The chief cause of the trouble is indifference, so put aside this indifference and feel some responsibility and to do real work.

DO NOT FORGET; THE COLLEGE FIRST AND THE INDIVIDUAL LAST.

—A Live Sophomore

CREDIT TO BROCKETT

With the withdrawal of Warren Brockett from college because of sickness, the "Campus" has lost a tip-top editor-in-chief and the Junior class a willing worker.

When Mr. Brockett assumed his post of editor, the policy of the paper had just undergone a change and the "Campus" published on a weekly basis. This change absolutely doubled the work of the board of the previous year.

That the "Campus" has been a success is due to a very large degree to the conscientious and energetic spirit of Mr. Brockett and the student body owes him no little thanks for his part in making the "Campus" a paper of, by and for the students.

It is especially to be regretted that he should have been taken sick at this time for he was a worthy candidate for Gamma Chi Epsilon. Although he has been absent since the mid-year

examinations, the elections to the honorary fraternity were withheld for many weeks hoping for his return to finish his exams.

While at college Mr. Brockett besides his activity on the "Campus" figured in several dramatic club productions, was a member of the Nutmeg board and did very fine work on the Stock Judging Teams.

According to the recent advice from his home, he will visit the Hill during Junior Week and providing his health returns, he will again enroll at C. A. C. in the fall.

(Cont. from page 1, col. 4)

Although the new office is well equipped, there are many furnishings which will be necessary and helpful towards insuring greater efficiency and smoother action. A plan is under way whereby the necessary funds will be raised without inconveniencing any students.

KAMPUS KLIPS

Prof. Lamson in Entomology: "Teeter where do all the bugs go in the winter time?"

Teeter, waking up suddenly: "Search me!"

Bolan in Geology: "Hey Blevins, you better be careful that you don't get into an argument with Prof. Lamson while he's got all those rocks on his desk."

HEARD IN CHEM. 3

Wright '20: "Is starvation a matter of days or weeks?"

Dr. Newton: "I have heard of men going without food for two months."

Austin: "Huh, that's nothing. I board at the dining hall and have lived for six months without eating."

"One-third of the college students go to the devil; one-third are just average; and one-third rule the world."

"If a young man kisses a girl she does not want him to tell it—but she is disappointed if he doesn't repeat it."

FROM A GIRL'S DIARY

Monday—Virgil tried to hug me.

Tuesday—Tried again.

Wednesday—Ditto.

Thursday—Said if I didn't let him next time we went riding he would turn the car over and kill us all.

Friday—I saved seven lives today.
—Exchange.

Red Markham had to buy a new bottle of ink. Have you had visitors, Red?

The Dancing Demons of the first section, Storrs, are getting into shape for the Junior Prom. Ask Austin.

Who knows the definition of "Capital Punishment"? Please explain it to some of the Freshmen.

Did anyone find "One ton of nut and one of pea coal" as advertised on the "Lost and Found" bulletin board?

Ossey—I feel like a dead man.
Lockwood—You are dead.
Mahoney—Sure you're dead, that's why you've turned black.

We don't have to adopt wearing overalls up here. We'd be accused of dressing up if we did.

The Social Committee had a training table last Wednesday night.

Who signed the "petition"?

The coach wants some more "dumb bells" for the gymnasium. Look out, Freshmen.

Someone said that this issue of the "Campus" would be two weeks late. Some one was wrong. However, the issue next week will not be published for two weeks.

Exclamations of Monday Night.
"All males ought to be exterminated!"

"Take that beast home!"

"You boys are too high fallutin!"

NEW DAIRY BARN IS TO BE A MODEL OF ITS KIND

Will Move the Old Crane House Soon

Work on the new dairy barn which is to replace the one destroyed by fire last summer is progressing rapidly and its completion is expected by July.

The site on which it is being built was selected and the plans for the building drawn with the idea of obtaining the most efficient means of storing hay and grain and feeding it to the herd in the main barn.

The dimensions of the new barn are 40 ft. x 100 ft. It is of stone and brick construction throughout. Both upper and lower floors will be of concrete in order to make it practically rat proof. An alleyway for feed trucks runs through the new barn which will connect with the one in the main barn. There will be a large mow at the north end of the barn extending from the foundation to the roof which will hold between 150 and 200 tons of loose hay. This hay will be handled by means of a motor hoist.

The second floor will be used as a grain storeroom. On the first floor quarters for the herdsman and an office have been provided for. Lockers, washroom and storeroom will also be built.

It is probable that the young stock will be kept in their present quarters on the old barn floor until next year when it is planned to construct a barn for them modeled after the present structure.

Professor White has been well pleased with the condition of the young stock after they had passed through a real New England winter under seemingly adverse surroundings.

In order to secure an entrance from the road for wagon and truck it will be necessary to remove the old Crane House. This will be done as soon as possible. It is expected that the new barn will cost \$25,000 and when finished will be a model storage barn and a credit to the institution.

The first milk powder factory in Connecticut is now in operation in Hawleyville, under the management of Mr. A. H. Beebe, a former student at C. A. C.

According to Professor Fisher such a plant should be of great help to Connecticut dairymen in so far as it enables them to market their surplus milk in a more remunerative form.

EXCHANGE

More than 400 students of the freshman and sophomore classes of Clemson College (South Carolina) "struck" and departed on special trains, according to a press dispatch, as a protest against certain restrictions imposed on a cadet who rebelled against "kitchen police."

The students at Dartmouth recently refused to adopt the Honor System by a vote of 578 to 436. Students at Columbia University have recently been debating this same question.

De Laval Users are on Profit Side

No machine used on the farm returns a larger profit on the investment than a De Laval Cream Separator.

It saves from 25 percent to 50 percent of cream twice a day every day in the year over crocks and pans and from 10 percent to 25 percent of cream over an inferior or half-worn-out separator.

With butter-fat at the present high-prices these savings mount rapidly. Many thousands of users have found that their De Laval's paid for themselves in a few months. De Laval users are always on the profit side of the ledger at the end of the year.

More De Laval's are used than all other makes combined.

If you don't know the local De Laval agent, write the nearest office below

GLEE CLUB WORK- ING AGAIN

Mr. Farrel Back to Coach

The Glee Club has started out strong again and are going to show some creditable results in the near future. Mr. M. H. Farrill is back again and under his direction results are bound to come. The reason for the lull in the activities which is just passed is due to the fact that we did not have and could not get a director. An entertainment will be staged here at Storrs some time before June.

Manager Webb has some good trips in view and with a little hard work and a few rehearsals the club will put on an entertainment that will be a pleasure for any one to listen to.

Members watch the bulletin board for meeting schedules and be to every meeting and help the director, the president and the manager to put on an entertainment that is a credit to the organization.

ETA LAMBDA SIGMA

Hilan N. Rogers ex-'18 who for the past year has been on a farm in Florida, expects to return to his home in Waterbury this spring as his health is much improved.

Harry Hanks '06, Joe Dillon '18, Ernest Carpenter ex-'21, Willard Allen '16, Walter Clark '18 and "Skip" Cassel attended the initiation of Nicholas Enigh and Bertrum Smith last Thursday.

Harold Bridges '18 attended the Leap Year Dance last Saturday night.

Harold C. Davis ex-'19, has opened up a brokerage office at the corner of Church and Chapel Streets, New Haven, Conn. In addition to this new work he is still sales manager for the Armour Co., Waterbury, Conn.

SHAKESPEAREAN CLUB

Mr. J. A. Gamble, '09, professor of Dairy Husbandry at Maryland State College, writes Professor H. L. Garrigus, '98, and wishes to be remembered to his friends.

The same sentiments were expressed in a letter from Professor H. D. Chatfield, of the Mechanical Engineering Department at Hartford University.

The social to the co-eds will be given by the Fraternity on the evening of Wednesday, April 28 in Hawley Armory. The patrons and patronesses will be professor and Mrs. S. P. Hollister, Professor and Mrs. G. H. Lamson, Professor and Mrs. A. W. Manchester.

"Tuey" Norton, '17, has returned to his home in Bristol, Conn., after undergoing a successful operation in Dr. Mason's Hospital in Willimantic.

T. B. Schmidt, '16, was on the hill over Sunday.

"Hank" Cahill, '16, is still testing for the Dairy Extension Department.

John Hildring '18 is in the Army Recruiting Service and will be unable to return for Alumni Day.

PHI MU DELTA HONORS CONNECTICUT BOYS

EVERETT D. DOW CHOSEN
NATIONAL PRESIDENT

Morris A. McCarron, Editor of
Monthly Paper and Frater-
nity Year Book

At the recent convention of the Phi Mu Delta Fraternity, held at the Nu Gamma Chapter at the University of Vermont in Burlington on April 15, 16 and 17, Connecticut men, members of the Nu Alpha Chapter, were elected to responsible offices in the National administration.

Everett D. Dow '21 was elected National President and Marcus A. McCarron '22 was chosen editor-in-chief of the Phi Mu Delta Triangle which is the monthly publication of the Fraternity. The paper is at present edited by Mr. Dow but his commission expires in June. This is the second year that the publication has been handled by the Nu Alpha Chapter.

The delegates representing the Connecticut Chapter at Burlington were Rollin H. Barrett '18 for the alumni, and Everett D. Dow '21 and Charles H. Ferriss '22, from the active members. This was the third annual convention of Phi Mu Delta. Next year the conclave will be held at the Nu Beta Chapter at the New Hampshire State College, Durham, N. H.

"Zunk" Prescott was a week-end visitor on the Hill. He is the same old boy and as full of life as ever. He is working in New Haven now but expects to be back to college next year and play football.

Lemuel Stoughton spent Sunday on the Hill. He has given up the milk testing work for the summer and will return to his home to run the farm.

A great many of the alumni are planning to be on the Hill May 22 and the more the merrier so let every one make a special effort to be at C. A. C. that day.

Brothers Dow and Ferriss had a very successful, profitable and enjoyable trip to the Nu Gamma Chapter of Phi Mu Delta.

ALPHA PHI NOTES

Bertram A. Crawford '17S of Norwalk, Conn., is making a tour of the world on a private yacht. When last heard from he was in Charleston, S. C., and was expecting to sail shortly for South America.

"Bud" Hemion ex-'20S, visited the Hill April 17-18. "Bud" is employed by the Geometric Tool Company of New Haven.

Clarence B. MacKay '19S and Special, has completed his course at the New York School of Fine Arts and has returned to his home on West Rock Avenue, New Haven.

Richard E. Barry ex-'21, who is now a student at Brown University, was prevented from attending the Brown game by sickness.

There will be a meeting of the members of the Cheerleading Committee in Room 5, Storrs Hall, on Monday, April 26.

CAMPUS OFFICE WILL RUN A BULLETIN BOARD

Watch for Baseball Results
Over Rivals

One of the features of the new Campus office is the bulletin service which is being run by the newspaper to keep the latest news before the student body. News items and announcements have been the chief material issued in the past week but it is the plan of the board to have more news as soon as the office system is well under way.

The announcement of intercollegiate baseball results has proved popular. In the future articles of interest about the college will be given mention before the paper goes to press. Announcements of various meetings will also be featured in this bulletin service.

It is desired that all students and members of the faculty cooperate with the Campus Board. If presidents of organizations will give notice of meetings to the newspaper board they will be posted on the bulletin.

SIGMA ALPHA PHI

Word has recently been received from Robert E. Johnson '22. He will soon be well enough to leave St. Raphael's Hospital of New Haven. We expect him back on the Hill in two or three weeks.

F. A. Hemmeler, ex-'22, was with us over Sunday. He is now working for C. Cowles & Co., N. H. Dealers in automobile accessories.

"Peck" Sanford '18 spent the week-end on the Hill.

"Perry" Wallace '21 is back on the Hill again after a brief illness.

Clarence Vaill '23 has left college for the rest of this semester to help on the farm in Goshen.

Dallas Thomas '23 recently initiated into the Fraternity has also had to go home to help work on the home farm in Highwood, N. H.

"Buzz" Mattoon '19 spent the week-end of the April 10th on the Hill.

COSMOPOLITAN CLUB

The new electric grafonola has arrived together with records.

A. J. Bendokas was high man for the club in the Inter-Fraternity Bowling Tournament.

John P. Bishop is working for his father who is engaged in the printing business in Bridgeport.

Leonard C. Feussenick became a member of the club last week.

S. G. Bowers entertained his parents on the Hill Sunday, April 18.

JUNIOR WEEK PLANS

Plans for Junior Week have been definitely decided upon by the Executive Committee and are now well under way. Alumni Day will probably be the big feature of the whole week and every minute of the day will be taken up.

It is planned to have a booklet form of program printed for the week. The play and banquet committees are working hard on the plans.

WORK BEGUN ON BACTERIOLOGICAL PLOTS

Bacteria Continue to Increase the Fertility

The Bacteriological Department has commenced working on its experimental field which is located north-east of Storrs Garage. Spring plowing has been completed and at present the seed bed is in preparation.

From this season on the plans are to grow crops without the addition of any fertilizers or manures. Bacteria will be depended upon to maintain the fertility of the soil. The following applications per acre had been made on the field in 1917, which at that time was abandoned land: 4 tons of limestone, 4 tons of rock phosphate and 7 1-2 tons of barnyard manure. During 1918 and 1919 only manure was applied.

Legumes feature in this experiment. Clover, soybeans and alfalfa will be sown with oats this spring on some of the plots. The oats sown at the rate of three bushels per acre acts as a nurse crop. Experiments are also being conducted with corn, potatoes, mangels and other garden crops. As a rule, the rotations are so arranged that the land is plowed once in three years.

A new imported variety of mangel will be tested out this summer. This mangel is said to be excellent in quality and one of the heaviest yielders known.

During the summer, over one thousand soil samples are to be taken from 114 plots and tested for the number of bacteria per gram of soil. From these samples about 1400 petri dish plate cultures will be made and the number and kinds of bacteria recorded. So far the number of bacteria has increased with the fertility of the soil.

HORTICULTURE NOTES

Professor Stevens was in Boston a few days ago to make arrangements for the New England Fruit Show that is to be held in Hartford next fall.

The season at Storrs is about ten days behind that of last year, as students planted peas on the 22nd of April a year ago.

An interesting fact was discovered in connection with muck land by Prof. Stevens. He found that in the ridges of ground left from last fall the frost has not disappeared and was only eight inches below the surface while in the space between the ridges no frost was to be found.

The Garden Department has promises from three garden tractor manufacturers to give demonstrations at the College during Farmers' Week this summer.

EXPERIMENTAL FIELD NOTES

The work of the Experimental plots has been started this spring with preliminary preparation in the barns. This has been followed by the seeding this week. About twenty-five varieties of oats have been sowed in a variety test.

STUDENT CONFERENCE COMMITTEE MEETS FOR HIGH SCHOOL DAY PLANS

Letter is Sent to High Schools

In accordance with the vote cast April 12 in the Student Organization, President D. J. Scott appointed Howard Gleason, Francis Mahoney, Howard Goodrich, F. Frederick Maier and Miss Frances Bristol as a Student Conference Committee to meet with Prof. Slate, chairman of the High School Day Committee.

Two conferences were held and the suggestion was adopted that the senior class of every High School choose its own delegates to visit us on High School Day. Prof. Kirkpatrick and Lowry Osborne, manager of baseball, visited Amherst Monday and arranged to exchange dates so that Amherst will play here on May 29 instead of May 1. This makes it possible to complete the schedule of a game in the afternoon and a dance in the evening.

Appointments of the various committees for the day will soon be completed and full arrangements made for our guests.

The following letter has been sent to the president of the senior class in every High School in the State.

Dear Sir:

The faculty and student body take pleasure in extending to members of your class, an invitation to attend the Annual High School Day, at "Your State College," on May 29th.

Owing to the fact, however, that our large enrollment this year has filled all available dormitory space, it is impossible to invite every High School Senior in Connecticut, much as we would like to do so. The maximum number of guests we can accommodate is about 500. To allow every graduating class to participate, it will therefore be necessary that the class send a delegation, amounting to 20 percent of its members, or one for every five. We are therefore asking you, as president, to arrange, at once for the choosing of these representatives by vote, or otherwise, and mail not later than May 5th, the list of names with addresses. It would be desirable that those interested in the courses offered at Connecticut be given preference.

As soon as these names are received, each one on the list will be sent a personal invitation and admission card which will entitle him (or her) to:

- 1 Transportation from Willimantic to Storrs and return.
- 2 Lodging over night.
- 3 Admission to the baseball game with Massachusetts.
- 4 Reception and Dance in Hawley Armory in the evening.

The only expense will be for food, a nominal sum of one dollar for meals while at Storrs.

Remember, we must have the list not later than May 5th. Will you arrange for chaperons for the young women.

Cordially yours,

Chairman.

The Connecticut Agricultural College Storrs, Conn.

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in the School of Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture.

Recent appropriations have provided additions to lands, buildings and equipment valued at \$950,000. Expenses low. No tuition charge to residents of Connecticut. Military instruction. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President

PLANS FOR JUNIOR FORMAL COMPLETED

Nature to Aid in Decorating

Practically all of the arrangements for the Junior Formal have been formulated. The dance is to be held on Thursday Evening, May 20. The reason why the dance is to be held on a Thursday evening is so that the baseball men can attend without interfering with and breaking their training.

The Alumni Day Committee is considering having a band here if it is not too expensive. Ice cream will be sold by the committee on that day. Judging from the large number of replies already received from the Alumni, we will have plenty of visitors.

A very good program has been made and the latest music out is to be played to insure everyone a pleasant time. There are to be eighteen numbers with three extras. The time of the dancing is from 8:30 P. M. until 2:00 A.M. A concert will take place from 8:00 to 8:30.

The decorations planned are to be very beautiful and the Chairman of the decorating committee intends to bring Nature into full display to make the plain walls of the armory look like a trysting place in a forest. Much has to be done but with the help of many eager hands he expects to accomplish a great deal in making the dance one not to be forgotten in a hurry.

In answer to the call of the executive Chairman for names of those going to the dance, a goodly number replied. Over eighty couples have handed in their names and a great many more are expected. It is expected that 100 or more couples will attend. The plans call for it to be one of the largest dances held by the college. Many Alumni members and visitors are coming to the dance and preparations by the Junior Week Committee are so as to insure one and all a never to be forgotten time.

The dance is to be a formal affair and all rules and data wanted are posted in the Administration Building on the bulletin board.

Music will be supplied by the Peerless Dance Orchestra of Willimantic.

ESTER SNIFFEN RETURNS TO COLLEGE

Co-eds Prepare for New-Comers

Miss Esther Sniffen, who left college early in the fall, because of ill health, has returned to finish her Sophomore work. Miss Sniffen expects to make up her first semester credits and go on with her course.

The Misses Doris and Beatrice Linton had as their guest for the week-end Miss Marion Stone of West Hartford.

Miss Katherine Potter had as her guest for the week-end her sister, Miss Mary Potter of Sound Beach.

The Women's Student Council has appointed a committee to draw up a letter of greeting to the young women registered for the courses next year. The committee consists of Gladys Goldthorpe '22, Anna Arnold '23, and Anne T. Flanagan '23.

LAMB KEPT IN DORMITORY

Senior Acting Part of Nursemaid

"Father" Bauer, '20, is acting as nurse maid to a little lamb which he is now keeping in his room. When asked if it cried any he said, "No, only when it gets hungry." "Father" is learning how to feed it with a bottle. The lamb may live.

Lambing season has just started at the Experiment Station flock. At present there are about a dozen little lambs varying in age from two weeks to almost nothing. All of them are doing well with the exception of the Bauer lamb. It was not expected to live but at present it is doing very nicely.

LAST ENTERTAINMENT COURSE GIVEN

On Wednesday evening, April 21, the fifth number of the entertainment course was given in the Hawley Armory by the Boston Quintet assisted by Miss Gladys Gibbon.

Miss Gibbon, who entertained us last December in the second number of the series, gave several readings and amusing impersonations. The Quintet which consisted of Walter E. Anderson, Contra-Tenor, Ralph L. Harlow, Tenor, Arthur R. Gould, Baritone, Augustus T. Beaty, Mass, and Robert Nichols, Tenor and accompanist, rendered many fine selections.

The program, which follows, was very pleasing and much appreciated by the large audience present.

- | | |
