CAMPUS DAY TRANSFORMS GROUNDS

STUDENTS AND FACULTY TIRED BUT SATISFIED

Swan Lake and Dining Hall Areas Made into Real Groves

At 12:00 P.M., Thursday, May 25, "Campus Day" became a thing of the past and journeyed on to join the many other red letter days of the C. A. C. Calendar in the hall of fame.

Campus Day was suggested by the High School Day committee as a day to be set aside for a general clean-up and improvement of the campus and buildings. Committees under the supervision of A. W. Manchester mapped out the plan of action and arranged the gangs for the many tasks.

Promptly at 8:30 Thursday morning the entire student body and faculty assembled on Dow Field, wearing their oldest clothes and a happy smile, to be told off for their appointed tasks by Field Marshall Alexander. With a determined "do or die" spirit the details marched off to their work under the command of senior leaders. Groups were assigned to the New Dining Hall, grove between Dow Field and New Dining Hall, Swan Lake, Infirmary, Creamery, Hog Barn, Roads, Dormitories, front campus and Dow Field.

At the new dining hall a crew of huskies under the direction of Arthur Frostholtm graded around the building and laid the foundations for the lawn that will some day ornament the building.

Gardner Dow Field came in for a good share of attention. Most all faculty members were stationed here and this may account for the fine work done. The track was drained and widened by three feet over the entire length. Drains were also put in at the lower end of the field and the tennis courts were reclaimed for use. Another victory for perseverance!

Swan Lake came in for its share of attention and the grove surrounding it was trimmed and spruced. Men with hip boots waded through the pond and salvaged the wrecks of half a dozen rafts that dotted the water.

Three details of men in cars posted all main roads within a radius of twenty miles with sign posts, showing direction to the college.

All roads around the campus were scraped and leveled off by a crew of men. A tractor was used to pull the scrapers.

An old clothes dinner was served at noon and up to that time no casualties had been reported from starvation or over work although the headquar-

COMPANY C WINS THE AMORY CUP

ALUMNI AND VISITORS PLEASED BY EXHIBITONS

Cadet Officer Awards Presented

Company C, under the command of Cadet Captain M. H. Lockwood was victorious in the contest for the Amory Cup on Alumni Day. The judges, W. T. Ackerman, G. L. Prindle and F. B. Thompson, rated each company after each event in the contest. First the companies were inspected. Then each had a turn at drilling in close and extended order for twenty minutes. After this signalling and tent pitching took place. Battalion parade closed the program. During this ceremony, when "Officers Center" had taken place, President Beach presented the cup to Captain Lockwood who carried it as his company passed in review.

The detailed standing of the companies is as follows:

	Co. A.	Co. B.	Co. C.
Inspection	80	90	85
Close Order	75	85	95
Extended Order	75	75	70
Signalling	73	79	98
Tent Pitching	88 1-3	80	86 2-3
	391 1-3	409	434 2-3

At the conclusion of the drill the cadet officers received the cash prizes offered by the college for their work done in these positions. The cadet major and captains received \$25, first lieutenants \$20, second lieutenants \$15, and first sergeants \$10 each.

MEMORIAL TABLET FOR GARDNER DOW

The Gardner Dow Memorial Tablet was unveiled Alumni Day, Saturday, May 22, at 2 o'clock.

The tablet is a medium sized bronze plate bearing the name of the Gardner Dow Athletic Field which was named in memory of him, and the date and place where the football player was killed. It is placed on the north pillar of the arch which is over the entrance to the athletic field.

The Blackguards, of which Gardner Dow was a member, presented the tablet to the College. The Blackguards deserve much credit for this and they have been working all year to raise the money.

Paul Manwaring gave the presentation speech followed by a talk by President Beach. The impressive scene was closed by singing "The Alma Mater."

ALUMNI DAY BREAKS ALL PAST RECORDS

COLLEGE ANXIOUS TO PLEASE GRADUATES

Two Hundred Present at Alumni Supper

The biggest and best Alumni Day ever staged was one of the features of Junior Week. All day Saturday, May 22, was crowded with attractions for the visitors, and, in spite of the chilly northeast wind and the occasional gusts of rain, everyone spent a very enjoyable time.

At 9 A.M. the competitive drill for the Amory Cup was held. This included close and extended order drill, shelter tent pitching and signalling. Captain M. H. Lockwood, leading Company C, captured the cup by a neat margin.

Shortly after eleven, the crowd which had gathered to see the soldier boys perform, made its way to a point in front of the former site of Grove Cottage to witness the planting of the Junior tree. The Junior class marched in a body, led by President E. D. Dow, from the Horticultural Building to the front campus. Mr. Dow gave a short talk. J. H. Bigger recited a short poem, appropriate to the occasion, entitled "A Tree." Doctor E. W. Sinnott, the adviser of the Class of 1921, delivered an excellent informal talk on the fitness of planting a class tree. Each member of the class then threw a small amount of soil on the roots of the baby European Larch.

Soon after this the gathering dispersed and spread in all directions to the respective dining places. At 2 P.M., however, it had again formed, this time at the north end of Hawley Armory, to witness the dedication of a tablet to Gardner Dow. Here President C. L. Beach made an impressive speech in honor of Gardner Dow. After the unveiling, all present joined in singing "Alma Mater."

Outside of the unpleasant weather the only other thing that could have spoiled the day was Connecticut's defeat at the hands of Rhode Island in baseball, at three o'clock. Connecticut lost 8 to 2.

The Alumni Supper, held at 6 P.M. in the Dining Hall, was the largest ever held. There were over 200 persons present. Several prominent alumni spoke and on the whole it was a very enjoyable occasion.

Since the speakers' program for the supper did not end until 8:30, it was necessary to hold up the Junior Play until that hour. This attraction drew a capacity house and the players made the most of their opportunity to show

PROMINENT MEN INSPECT COLLEGE

TRUE FACTS PRESENTED TO STATE VISITORS

Committee Formed for Further Action

Wednesday was one of the most eventful days in the history of the Connecticut Agricultural College.

Nearly one hundred of the most influential citizens of the State made a pilgrimage to Storrs to look over the College and make suggestions to the trustees and also to arouse public sentiment to the needs of the College.

The guests began to arrive during President's Hour, which was held at 10 o'clock instead of 11, so that the dining hall could serve two dinners. After President's Hour the visitors were taken about the campus in autos and given a good opportunity to see just what their state college was like and the work it was doing. The students had dinner at 11 o'clock and at 12:30 the visitors were served a luncheon consisting of tomato soup, lamb chops and potato, rolls, pickles, peas, strawberry short cake, cigars and coffee. On the walls of the dining hall were the plans of three buildings which the trustees hope will be erected within the next few years. The plans were for a Science Hall, Girls' Dormitory and Agronomy Building.

After everyone had eaten, Joseph W. Alsop of Avon, one of the trustees of the College rose and told the guests why the Pilgrimage had been planned and carried out. He called upon them as some of the best citizens of the state to look into the needs of the institution carefully and suggest or criticize anything that they saw. He compared the institution to a manufacturing plant stating that it was divided into three main parts just as a factory is divided into departments. First he considered the experiment station as compared to the research laboratory and thought that this was one of the most essential and important divisions of the institution, because it is here that advanced methods of agriculture are formulated and their worth tested. Mr. Alsop was convinced that all modern scientific agriculture was based on the work of the experiment station. He next took up the college or, as he called it, the factory proper where the actual teaching is done.

Here he stopped to explain the trustees ideas regarding the growth of the college. The trustees do not feel that Connecticut needs a state university like some of the big state universities in the west because the east

Aggies Defeated by Rhode Island State

SPORTS

Track Team at Kingston June 5th

FRESHMEN CINCH CHAMPIONSHIP

The Freshmen cinched the inter-class baseball series when they defeated the Seniors in the last game of the season, Thursday afternoon, May 27. The Seniors scored their only run in the first inning. Moore pitched good ball for the upperclassmen but received poor support.

The lineup:

Freshmen	Seniors
Deegan 3b	Upham 3b
Lilley cf	Resnick 2b
Patience ss	Lockwood 1b
Baxter p	Moore p
Brundage lf	Scott ss
Block rf	Gleason cf
Daly, Mullane c	Feldman lf
Dehne 1b	Wooding c
Cohen 2b	Goodrich rf

The score:

Seniors	1 0 0 0 0—1
Fresh.	2 1 0 1 1 3—8

INFANTS SWAMP '21 NINE

The Junior team met its first defeat at the hands of the Freshies, Wednesday afternoon, May 26. One bad inning for the Juniors caused the infants to pile up seven runs. Baxter fanned nine men. He also laid out three hits out of three times at bat.

The line-up:

Juniors	Freshmen
Alexander 2b	Deegan 3b
Dow p	Lilley cf
Pool 1b	Patience ss
Graf c	Mullane c
Compton rf	Baxter p
Maloney ss	Block rf
Austin cf	Dehne 1b
Gates 3b	Brundage lf
Woodford lf	Cohen 2b

The score:

Juniors	2 0 0 1 0 0—3
Fresh.	3 0 7 0 1 0—11

SENIORS HEADED FOR CELLAR

The Seniors dropped their third game of the season on Wednesday, May 26. The upperclassmen led until the fifth, when they blew up and allowed the School seven runs.

The lineup:

Seniors	School of Ag.
Upham 3b	Ricketts 1b
Gleason 1b	Chamberlin 2b
Lockwood 2b	Schlott ss
Moore p	Trost 3b
Evans lf	Bendokas lf
Wooding c	Hogan cf
Crampton ss	Resnick rf
Scott cf	Leffingwell c
Belden rf	Bristol p

The score:

Seniors	3 0 2 1 2—8
School	2 0 1 1 7—11

CONNECTICUT TROUNCED BY RHODE ISLAND STATE

ENGINEERS PRESENT STRONG TEAM AND DEFEAT AGGIES EASILY

After a week of gaiety the success of the 1920 Junior Week was slightly dampened by wet weather and the baseball team of our rivals Rhode Island on Dow Field which trounced the blue and white nine to the tune of 8 to 2. The Aggies seemed to lack their usual pep and bonehead plays were made time and time again counting for several of the visitors runs and cutting short a number of good chances to score. Evidently it was a case of too much dancing and gaiety and not enough sleep on the part of the Connecticut squad. The game opened as if it would be a runaway for the home team but the conditions changed in the 3rd and from then on the Aggies were fighting on the defensive. Johnson started for the third time within a week but the strain was too much for him and the Engineers chased him to the showers in the sixth. Laubscher, who relieved him, was hit rather freely also.

The game by innings:

First Inning. E. Johnson worked P. Johnson for a free ticket to first but was so satisfied with himself that Metelli caught him dreaming and Mahoney tagged him out. Nordquist slammed the pill to center field. Sickler misjudged the ball and came in too far but saved the situation by making a grandstand catch. Greenhalph found Johnson for a single but died on first as Lord easily gathered in Murphy's high fly.

Lord started the inning off with a neat single but was thrown out when he attempted to steal second. Brigham fanned the air and Sickler flew out to Lucey.

Second Inning. Hudson slammed the pill in a terrible manner but Sickler cut it off with a pretty catch. Casey walked and went to second on Whitaker's sacrifice bunt. Johnson tossed Lucey out at first.

Mahoney banged the pill to center for a single. Alexander hit the first pitched ball on the nose for a double scoring Mahoney. Hopwood fanned. Bauer's drive was too hot for Whitaker and Father rested safely on first with Alexander on third and none down. It looked as if the old ball game was going to be put on ice right then and there but Hopwood whiffed the ozone and an attempted double steal on the part of Bauer and Alexander wound up in a double play that took the heart out of Connecticut and gave Rhode Island confidence.

Third Inning. Turner hit to Brigham and was retired at first. E. Johnson slammed the pill into right field, Bauer just barely being able to reach the ball but unable to stop it with the result that Johnson was rest-

ing on third when the ball was thrown back to the infield. Nordquist scored E. Johnson with a pretty single but was thrown out, Metelli to Alexander, when he tried to steal. Greenhalph ended the inning by flying out to Sickler.

Connecticut went out in one, two, three order.

Fourth Inning. An error, a base on balls and a hit combined with some prize ivory work allowed the Engineers from Kingston to cross the plate twice and take the lead from which they were never headed. Connecticut again retired in one, two, three order.

Fifth Inning. Two hits and an error aided by pretty base running on the part of Rhode Island resulted in two more runs for the visitors but Turner was twirling wonderful ball and the Aggies failed to get on the paths.

Sixth Inning. Laubscher replaced Johnson on the mound and shut the visitors out without a run but Lucey found him for a two bagger.

Lord and Brigham drew free passes after Metelli and Laubscher were out. Sickler cracked out a single scoring Lord but Brigham was run down between third and home when he attempted to score a few minutes later.

Seventh Inning. The Rhode Island boys continued their hitting practice slamming out two doubles and a single scoring two more runs while Turner fanned two of the Aggies and Lucey caught Alexander's hard hit fly.

Eighth Inning. An error by Hopwood followed by two singles was the cause of Rhode Island scoring their eighth and final run. Connecticut went out in one, two, three order.

Rhode Island punched out two hits in the ninth and Brigham got a hit and reached third but both sides lacked the power to score and the game ended with Rhode Island on the long end of a 8 to 2 score. The game, which was played on a wet field in a drizzling rain was witnessed by a large crowd of alumni who were back for Alumni Day and by a considerable gathering of the fair sex, including Prom visitors.

Box Score:

	AB	R	H	PO	A	E
Rhode Island						
E. Johnson 3b	5	2	2	0	2	0
Nordquist ss	4	0	2	3	0	1
Greenhalph lf	4	2	2	2	0	0
Murphy c	5	1	1	13	3	1
Hudson rf	4	1	1	0	0	0
Casey 2b	2	1	0	2	1	0
Whittaker 1b	4	1	0	5	0	0
Lucey cf	4	0	2	1	0	0
Turner p	4	0	1	1	2	0
	36	8	11	27	8	2

TRACK MEN GOING STRONG

Will Run at Kingston June 5

The track team is progressing and the members expect to make a clean-up at Kingston on June 5. There are about twenty fellows out training but it is not known how many will make the trip. Some of the fellows are making good at pole vaulting and high and broad jumps.

A new jumping pit is being constructed near the tennis courts. This will be large enough so that all kinds of jumping may be carried on there.

The running track was repaired and put into fine shape by the committee in charge of the A. A. Field on clean-up day.

SOPHS BOW TO FROSH

The Freshman Baseball Team hung up its third victory of the season when it trimmed the Sophs, Monday afternoon, May 24, to the tune of 5 to 1. Dehne went wild in the beginning of the fifth and walked two and hit two batters, allowing one run. He soon tightened up, however, and the second year men could not get another man across the plate.

The line-up:

Sophomores	Freshmen
Howes ss	Deegan 1b
Brow 2b	Lilley cf
Jacquith Beisiegel lf	Patience ss
Putnam cf	Baxter lf
Jaynes c	Mullane c
Wood 1b	Dehne p
Heid p	Brundage 3b
Lawson, Jacquith rf	Cohen 2b
Frostholm 3b	Block rf

The score:

Soph.	0 0 0 0 1 0—1
Fresh.	2 0 1 0 2 x—5

Conn.	AB	R	H	PO	A	E
Lord lf	3	1	1	1	0	0
Brigham 2b	3	0	2	5	3	1
Sickler cf	4	0	1	3	0	0
Mahoney 1b	4	1	1	13	0	0
Alexander ss	3	0	1	0	7	0
Hopwood 3b	3	0	0	0	1	2
Bauer rf	3	0	1	1	0	0
Metelli c	3	0	0	3	4	0
Johnson p	1	0	0	0	2	1
Laubscher p	2	0	0	1	1	0

	29	2	7	27	18	4
R. I.	0	0	1	2	2	10—8
Conn.	0	1	0	0	1	00—2

Two base hits, Alexander, E. Johnson; three base hits, E. Johnson; stolen bases, Hudson, Greenhalph; sacrifice hits, Whittaker, Nordquist; base on balls, Johnson 3, Turner 2; struck out, Johnson 1, Turner 10; double plays, Murphy to Casey to Murphy. Umpire, Morin.

The United States Department of Agriculture spent \$40,000 in introducing Egyptian long-staple cotton into the arid regions of the Southwest, especially Arizona and California. Production of this variety now amounts to \$20,000,000 annually and the cotton is of unusually high grade.

JUNIOR WEEK ENDED BY JUNIOR PLAY "NOTHING BUT THE TRUTH" VERY WELL PLAYED

Manwaring Deserves Credit

Junior Week wound up with one of the best dramatic productions yet seen here, when the Junior Class presented "Nothing But the Truth." Probably the fact that the play seemed like a fairy tale, because of the way the actors trifled with money, helped some.

Salome C. Smith, and Everett D. Dow, as leads, did very clever work. E. Selden Clark, as the Bishop, showed himself to be splendid material for character parts. Rose Schoolnick and Ruth Burghardt were 'perfect vamps.' Perry Wallace, Charles Neumann and William Maloney played their parts well, even though they knew they were to lose ten thousand dollars. Marian Nutting, as the maid, did well.

The presentation showed good selection of both show and cast, and also splendid coaching. Paul Manwaring coached the show and deserves a great deal of credit. Herrick's Orchestra of Hartford furnished dance music after the play.

(Cont. from page 1 col. 1)

ters staff is yet anxious in regard to reactions from overwork.

Soon after dinner the axes and shovels were again shouldered and the attack was continued. By three o'clock the faint and weary were very much in evidence and at four-thirty the battle was declared a victory and everyone adjourned to Dow Field to enjoy a burnt offering prepared especially for the occasion by the co-ed contingent. 'Tis said that some of the more daring workers went through the bread line twice. This is merely one way of stating that a man with an appetite will do almost anything.

Immediately after luncheon a baseball game was started in which the Co-ed Freshmen trimmed the "Stenog" nine by a five to three score. The playing of both sides was featured by spectacular base running.

In keeping with the spirit of the day an old clothes dance was held until ten o'clock. This served the two-fold purpose of entertainment and an antidote for the stiffening joints and sore muscles that were everywhere in evidence.

The results secured from "Campus Day" have led many to suggest that it be made a yearly custom and this will probably be carried out. It is planned to make improvements of permanent nature in future years. This year's contribution to permanent improvement was the placing of neat durable sign posts at all important roads within a radius of twenty miles of the college. Next year it is planned to hold "Campus Day" before Junior Week and its following gala days.

It is probable that next year's organization will have more time to work and will strive for the erection of a new grandstand on Gardner Dow Field.

CLASS OF 1910 REUNION COMING

Mr. Root Writes from Oregon

Portland, Oregon,
May 15, 1920.

To the Editor of the Campus:

Dear Sir:

May I ask you to insert in your valuable paper a small item relative to the Third Reunion of the Class of 1910. The first was held in 1912, the second in 1915 and the third is "book-ed" for 1920. This is a reunion of our class after a lapse of ten years and ought to be a good one. I will appreciate it very much if you give this notice rather important space in your paper.

The fact that Alumni Day comes so close to Commencement may cause a falling off in the number of Alumni visiting the Hill on the latter day. I will leave the notice to be arranged by you. Urge all the members of the class of '10 to be present. Unfortunately I will be unable to attend myself but as Secy.-Treas. of the Class it is my duty to get the "ball a rolling."

The Campus is an excellent paper and improves with age. It is a credit to the institution. Put "1910 Class Reunion" in large type if you can.

While in Los Angeles a short while ago, I happened upon Leo Mark '15. He is scouting around contemplating the purchase of a ranch in southern California. I also saw in Monrovia, Cal., a Mr. Raymond, who used to be a prof. in the college back in the nineties. You might look up his initials and the exact date of his professorship and enter the above as a little item in the campus. As I am less than a hundred miles from Corvallis, Ore., I hope to get down and look over the Oregon Agricultural College and incidentally see Prof. Fitts.

I hope you may enter the Class Reunion notice at your earliest convenience. What day is Commencement this year?

With best wishes,

GEORGE A. ROOT,

Secy.-Treas. Class '10.

Address:

3 Hilgard Hall, Berkeley, Cal.

An event occurred on Campus Day which well bring forth the versatility of our Co-eds. Besides demonstrating to us that they know how many hot dogs a hungry man wants, they also made known to the world their ability to toss the pill, ramp on the sacks, or play that noble game of baseball, as it were.

Although the Stenogs did not push them very hard, still our girls showed up extremely well in various departments of the game. Their heavy hitting, for instance against the brilliant twirling of Mr. Warner should win special praise. Miss W. in particular certainly wields a wicked rolling pin.

Allow us to suggest that the Varsity get dope from the Stenogs on the proper way to coach on the sidelines.

The greatest chances in the game were taken by Dutch Maier but he Twenty-three applications have been managed to come through all right. received from fellows desiring to umpire the next game in this league.

BARRED ROCKS FIRST IN CONTEST

R. I. Reds Make Fine Winter Record

The outstanding feature of the 29th week of the laying contest at Storrs is the fact that a Long Island pen of Barred Rocks from Westhampton Beach has relegated to second place a Massachusetts pen of Rhode Island Reds from Groton that has hung tenaciously to first place since the second week of the contest. In other words these Reds have outdistanced all comers for more than six months and although they are still going strong and are by no means out of the race, they are at least for the time being, no longer the leading pen in the contest. No matter where it finally finishes in the race, this pen of Reds already have to their credit one of the best winter egg records ever made at Storrs.

The three leading pens at the end of the 29th week are as follows:

Jules F. Francais, Westhampton Beach, L. I., Barred Plymouth Rocks, 1200; Pinecrest Orchards, Groton, Mass., R. I. Reds, 1198; George Phillips, Seymour, Conn., White Leghorns, 1177.

The hatching season at the poultry plant is practically over, with the exception of a small amount necessary to carry on certain experiments during the summer.

There has been no water at the poultry plant during the past week. All water is carried from the beef barn.

The department has received shipments of feed that will supply the poultry for about three months.

CAPTAIN REWARDS CO. FOR SUCCESS

When Cadet Captain M. H. Lockwood began the drilling of Company C, in preparation for the recent competition, he offered the Company a celebration smoker in case they succeeded on capturing the Amory Cup.

Therefore double was the glee of members of the Company when they were awarded the Cup; and as a sequel the Company will hold their smoker in the College Shakespearean Club Fraternity Room on Thursday evening, June 3rd.

Following out the new plan inaugurated recently by the Campus Board we take great pleasure in announcing the star reporter for the month of May. The following men have done outstanding work on the reporting staff and are listed as star reporters for this month.

George E. Slye, '23

Raymond Abbe, '22.

Oliver J. Lyman, '22

Harold Steck, '23

Byrd Standish, '23

C. A. Slanetz, '22.

CLASS PRESTIGE

An upperclassmen should command all the respect due him. If this is not the case, there must be something radically wrong. Either his actions on the campus are such as to cause underclassmen to lose their esteem for him, or the fault lies with the two lower classes.

At every college, Juniors and Seniors are regarded with a certain amount of esteem, often coming close to awe. This must be firmly instilled into every entering class, not only by the Sophomores, but also by the upperclassmen. A freshman who goes into a room occupied by Juniors and begins to act as he pleases, must be set aright and if necessary, dealt with in such a manner that the impression made is a lasting one.

Can anyone conceive of conditions at an institution where Freshmen do as they please? Where these conditions do exist, the institution would cease to be a college. The lessons learned by the underclassmen stand by them all through college and even in after life.

JUNIOR WEEK REVIEW

Connecticut has recently completed one of the greatest Junior Weeks in its history.

Starting, practically with the Junior Prom on Thursday night, the big events continued in the road of success that the Prom had so well traveled upon.

The social happenings of this Week are the acme of student activities. It has been said that we went to extremes this year in these one-week events; that we over-emphasized the importance of the affairs in preparation and in achievement. There is no question that a tremendous amount of mental and physical energy was expended to make Junior Week the success that it was, but no man could participate at the Prom or witness it, and regret the work put in, for instance, on the decorations.

It is at the Prom that we live on one of the highest planes of school life. Not only do we have a good time but the formality of the affair, the aesthetic side of it, the impressiveness of the whole thing carries us up for the time to a higher order of things.

The Blackguards on Friday night were able to entertain the visitors well. Some of the original phases of their show were well staged.

To top off the week, crowds of alumni, came back to glimpse the old scenes on Saturday, Alumni Day. The R. O. T. C. battalion endeavored to interest the guests and alumni in competition for the Amory Cup. The movements of the companies were hampered somewhat by the marching ground but they showed the high quality which the battalion has attained in the last year.

After the unveiling of the Gardner Dow tablet, the Blue and White nine endeavored to beat the Rhode Island State team before a crowded grandstand and mobbed sidelines. It is to be hoped that the spectators looked past the score figures and saw in the game some of the good playing that the Aggie nine has in it and which it has displayed at other times during the season.

The Junior Play, which always accompanies any Junior Week, was exceptionally well presented by the members of '21. Much favorable comment has been heard about the presentation of "Nothing but the Truth." It was a high class production. Our best players were represented in the leading roles and it is hardly necessary to say that they vindicated the college's opinion of their acting ability.

Junior Week was well planned and carried out. Credit is due to nearly every one in the institution for its successful culmination.

NO CLASSES ON MAY 31

There will be no classes Monday, May 31st. The usual R. O. T. C. Decoration Day exercises will be omitted this year because of the early closing of the military school. A mass meeting will be held in the Armory, Sunday morning, May 30.

THE GARDNER DOW TABLET

Gardner Dow will never be forgotten as long as Connecticut College exists. The field which bears his name is now marked at its entrance with a tablet which speaks a simple story, one that may be read by all who enter upon our field, players or spectators. We have no finer thing to exhibit on our campus than this little tablet. Let the visitor read and pass in to the games. Let him not forget Gardner Dow, who fought and died for the Blue and White.

CAMPUS DAY

By the united labors of the students and faculty, our campus has been cleaned, transformed, and beautified. Campus Day work this year was well done; the gangs were well organized beforehand and they were able to attack promptly and efficiently the jobs of the day. Very few shirked. Professors worked equally with students. All hands did well.

Not only for High School Day are the improvements effective but are permanently of value to the college. The revised version of the grounds certainly looks great.

We are tempted to think of what might be done if this united effort could be put forth into other lines.

INFORMATION ABOUT OUR COLLEGE

Number of students last fall.... 354

Number of students now 280

First class graduated in 1883.

Acres owned by College about 1300.

Horses and colts about 30 Percherons.

Sheep and lambs 300 Shropshire.

Beef Cattle 30, Herefords, Shorthorns Angus.

Hogs 75, Berkshire.

Milking about 20 cows; Jersey, Holstein, Guernsey, Ayrshire.

Acres of corn, 25.

Acres of oats, 10.

Hay, Alfalfa and Clover, 50 acres.

Orchards, equivalent of 25 acres.

Vegetable department about 10 acres

Three Main Divisions of the College:

Teaching, Experiment, Extension.

Some faculty are full time teachers, some full time extension, others full time experiment and a large part devote their time to two or three of these branches.

Actual number who are teaching classes about 45, about 65 faculty members.

Capacity of water tank 300,000 gals.

Height of tower 80 ft.

Depth of well 800 ft.; 160 ft. below sea level bottom.

Number of laps of the running track per mile—4.

Inside track 17 laps per mile.

We are about 640 feet above sea level.

Height of chimney at heating plant 125 ft.

Floor in gymnasium 72 x 140 ft.

No. of graduates, about 475.

No. who have studied here 2500.

SAFETY VALVE

HARMONY WANTED

Where are our warblers? It has annually been their custom to gather on the front campus a summer's night and sing away the cares of approaching exams. But this year our tenors or something must be out of voice because it has only been once or twice that a small gathering on the dorm steps has run through our old melodies. We long for the floating notes of "My Coal-black Baby" or "By the Light." If it doesn't inconvenience you too greatly, songsters, couldn't you oblige the inhabitants of Storrs with a selection now and then.

—Ukelele.

DON'T SPOIL IT NOW

The biggest "Campus Day" ever held at Connecticut brought about almost unbelievable results. Our campus has surely been transformed. The changes and improvements made are most of them lasting and worth while. It rests on all of us, however, whether or not we keep the grounds looking neat. What can look more unsightly than large pieces of paper festooned around the shrubbery on the campus?

We have one of the best laid out campuses in New England and it should be our ambition to keep it the reatest of any campus in New England.

The fellows at C. A. C. have a privilege which is not present at many colleges, namely smoking on the campus. There is nothing more unsightly than to see the entrances to buildings strewn with cigarette butts. A sure way to rid the grounds of these is to follow out the restrictions which were imposed by the military authorities during the S. A. T. C. course at Connecticut. No butts were allowed to be thrown about. After each smoke the user was required to tear off the paper, scatter the tobacco and roll the paper into a small wad. In this way the appearance of these unsightly objects was entirely done away with.

It rests with us all—are we going to keep the campus looking at its best or shall it be allowed to become littered up?

THE CONNECTICUT AGRICULTURALIST

The Ag. Club Monthly is coming through. It needs 500 subscriptions to start on a sound basis. Boost it by subscribing; send a subscription home to the folks; get a few farmers you know to subscribe. This new paper will be worth reading and the first issue appears October 1, 1920. It is expected that every 'Ag' student at Connecticut will subscribe and send one subscription to some one. Just give the 'Ag' Club the assurance that it can place 500 copies. "The Connecticut Agriculturalist" is a coming reality. Give it a start!

KAMPUS KLIPS

Doctor Newton in Chem. Class:—"Gentlemen, no examination questions will be taken from your Chemistry textbook."

Few minutes later, Mr. Cambridge Book Store: "Give you a quarter for the book." "All right."

Few minutes later, Stude: "Connie, three bottles of soda."

Trials for Our Storekeeper
Said Meelogne
To Mahogne,
"Do you sell this here bologne?"
Said Mahogne
To Meelogne,
"You may be my friend and crogne,
But your head is hard and bogne
When you ask me for bologne.
Toddle home and play it on your
phogne
Graph. What do you think this is, a
meat market?"

CAMPUS DAY QUIPS

Van Buren: "Hot dog."
Brub Dow: "I'll clean up around the
Valentine House."
Nurse: "Twenty men came in here
sick this morning."
Miss Taft: "Give them all the beans
they want."
Scoop Manwaring: "Gracious!"
Rube Gleason: "It's too bad my
band left its music home. We could
a had a band concert."

Although preparations and developments have been kept as secret as possible, it has finally leaked out that the wireless aerial reaching from the physics laboratory to the telephone pole near Horticulture Hall is only part of a plot to communicate with Mars.

At the time this article goes to press Marshall Beebe and Doc Faulkner, who are reported to be in charge of the project could not be located.

An inspection of Beebe's room brought to light large quantities of wireless apparatus, astronomical maps, wave charts, signal codes and one enlarged picture of Mars in the dark, covered the wall above his bed. Great piles of wireless appliance catalogs were found in his closet.

No special emphasis was laid on the noises and lights in the Physics Lab at night until the appearance of the aerial.

The return of Beebe is awaited with intense anxiety so that information can be obtained as to how far his work has progressed.

(Cont. from page 1 col. 4)

is well supplied with larger colleges and universities, but favor rather the idea of a technical school for agriculture, science, mechanic arts and home economics on the lines that M. I. T. is a technical school for engineering. He said that agriculture is one of the burning questions of the day and he felt that C. A. C. was a formidable weapon in combating the lessening of production on the farm. He was glad

to say that the people of the state were slowly awakening to the good of the college and that Connecticut was yearly gaining more and more support from the people of the legislature.

Some years ago a definite plan for the future of the college was made and a New York landscape artist drew a plan for the campus. At the present time about one-half of the buildings planned have been erected but the plans were figured to accommodate a student body of 350 and today we already have passed that mark so that the question of accommodating students is a serious one especially since the girls' dormitory was burned last summer. A plan has been suggested to run the college the year around. This plan has its advantages and disadvantages and nothing has been done in regard to putting it into effect.

At this point Mr. Alsop concluded his talk by appointing an executive committee composed of President Beach, Professor Dodge, Senator Heald of Stafford, D. J. Minor of Bristol, S. McLean Buckingham of Watertown and Mrs. A. H. Benton of Andover. This committee withdrew in order to draw up sub-committees to do the work planned.

The next speaker was Mr. E. Kent Hubbard of Middletown, president of the Manufacturers' Association, trustee of the college and a member of the state finance board.

Mr. Hubbard spoke from the financial angle and stated that he was extremely proud of the progress made by the college in the past twelve years which was in many ways phenomenal. He thanked the faculty, some of whom he said had stuck to their posts at C. A. C. in the face of offers of larger salaries in other positions. The main difficulty encountered he thought was the excessive cost of erecting buildings at Storrs. Many people had suggested moving the college elsewhere but at the present time the college represents over a million dollar plant and must be kept going.

He said that the college had already received more than its share of state funds in proportion to some of the insane asylums, hospitals, etc., and in considering the budget to be presented to the next legislature, the needs must be whittled to the lowest possible amount consistent with the burning needs of the college.

Mrs. Joseph W. Alsop was the last speaker and proved a loyal friend of the college. She was rather at odds with Mr. Hubbard's views and thought that the college was perhaps the most important state institution in that it was building men and women to lead the state in the next generation.

She felt that the state must give sufficient funds to carry on the work successfully and sincerely hoped that the coming legislatures would realize the value of the college and support it loyally. Mr. Alsop is an Aggie supporter first, last and always and deserves great credit and thanks from the student body.

Following the speeches the party broke up into the sub-committees and left to investigate the college in detail and make a report of the various needs to the executive committee.

The Pilgrimage was a grand success and ought to be a big step in the advancement of Connecticut.

THE CONNECTICUT
AGRICULTURAL COLLEGE
FARM DEPARTMENT

PHI MU DELTA

Clarke Barnes is in the lumber business at his home in Mystic.

Lemuel Stoughton is farming at his home at Warehouse Point this summer. He spent the winter doing cow testing work for LeRoy Chapman of the dairy department.

Joseph Ayer is still in the dairy business at North Franklin, Conn.

Geo. Prindle is working for a farm implement and tool company at Shelton. George says that farming is alright but that he likes inside work best.

Ralph Ackerman is in the Boston office of the International Agricultural Corporation. This concern handles commercial fertilizers.

Among those who were on the Hill Alumni Day were: Ralph Ackerman, "Benny" Thompson, Clarke Barnes, "Eddie" Newmarker, Paul Butler, Stoughton, "Ned" Sherman, Ralph Fairchild, Martin Roser, "Bill" Brown, Joseph Ayer, Fred Trinder, Arthur Bird and George Prindle.

ALPHA PHI

The fraternity has recently added a new Columbia Grafonola and several pieces of new furniture to the equipment of its fraternity room in Koons Hall. Many repairs and alterations have also been made.

Burton E. ("Butch") Callahan attended the Junior Prom. Butch absent-mindedly left his "fliver" on a public street without hitching it and as a consequence was forced to make a flying trip to Hartford early Friday morning to explain his neglect to the police officials. He got off, however, by handing them his usual line and a small tip, and returned to the Hill for Alumni Day.

The Alumni Brothers present on Alumni Day were Benj. P. Storrs, Imbert F. Fellows, Harold B. Ellis, Rufus R. Knapp, Burton E. Callahan, George A. Stumpf, Trueman H. Spencer, George J. McDermott, Clayton E. Warner and Milner L. Benham.

Richard Mathewson of Bridgeport High School visited the Hill for a few days as the guest of his older brother R. H. Mathewson, '22.

UPSILON CHAPTER OF PHI EPSILON PI

Donald Hirsch, '19, Dave Traurig, '16 and Nat Cohen visited the Hill on May 22nd.

Sam Beizer, "Judge" Goldenthal and "Moe" Jacobs represented Kappa Alpha and Pi Chapters respectively.

George Sneiderman, '22, was initiated on May 22nd. "Lou" Traurig, "Kelly" Calechman, "Vic" Raine and "Abe" Klein attended the initiation as well as the above named alumni.

The Annual Fraternity Banquet will be held in the Hotel Garde, Hartford, June 5, at 8 o'clock.

Has anyone found that Sophomore Class meeting that was advertised on the Lost and Found Bulletin Board.

SHAKESPEAREAN CLUB

The following alumni were on the Hill Alumni Day.

Lewis W. Stevenson, '10; Theodore C. Waters, '06; Harry B. Risley, '06; S. G. McLean, '03; Morton E. Pierpont, '03; Ralph G. Tryon, '06; Chas. R. Beach, '19; Horace C. Vickert, '13; Charles B. Pomeroy, '97; Julian Norton, '17; Elmer N. Dickenson, '17; Theodore Schmidt, '16; Elmer F. Farnham, '15; J. A. Morgan, '16, and Jay S. Ricketts, '15.

"Buck" Cadwell, '15, writes from Cuba and asks to be remembered to all his friends. He is working for the Francisco Sugar Co., and expects to plant 6000 acres of sugar this spring.

Among the Committee of 100 who were on the Hill, Wednesday, May 26, were Oliott F. King, '97; Charles B. Pomeroy, '97; Henry Robert Scoville, '19; Morton E. Pierpont, '03; Dwight J. Minor, '06; H. G. Manchester, '15; and Standliff Hale, '96.

Donald L. Judd, '13, writes from Hawaii where he is teaching school. His address is Lonainanuna School, Lanaina, Maui, Hawaii.

ETA LAMBDA SIGMA

Among the alumni brothers on the Hill for Alumni Day were:

Edwin S. Bishop, Ernest E. Carpenter, Thomas H. Desmond, Edwin "Pop" Eaton, Herbert Gillette, Alton Home, Benedict Kilbride, C. Dewey Knott, Dr. Frederick Miller, C. J. Reed, Andrew Shenker, Keith Scott, Wayne Storrs, James B. Thwing, Nelson H. White, Edward Sherman, Edwin S. Mansfield, Charles S. Francis, Willard Allen, Lawrence Cassel, Walter T. Clark.

The following brothers were on the Hill for Alumni Day.

W. B. Smith, Francis Hemmeler, C. Franklin, "Sid" Edwards, Ray Dean, R. A. Smith, "Peck" Sanford, L. Burwell, Ed. Luther, R. Mattoon, Hugh Bennett, W. Wright, H. Butterworth, A. C. Kingman, Paul Hauschild.

On April 21, Robbins A. Smith was married to Miss Lillian Leonard in New York City. He is at present manager of Maplewood Farm in Cheshire owned by Judge Peasley.

HIGH SCHOOL DAY ISSUE

The Annual High School Day issue of the Campus will appear next week Saturday. After much deliberation, the Board decided on this date rather than the Saturday before or the Saturday on which High School Day occurred. The Seniors will then have seen the college and its members and they will be able to appreciate much better the contents of the High School issue of the college paper. Besides the regular news it will contain over sixteen columns of items that will interest the prospective sub-Freshmen of Connecticut. We hope to be able to run a few cuts in this issue, supplementary to the articles and stories. It will mean a good deal of work to get this issue out within a week but it will not be over a day or two late anyway.

SPEED DEMON MAKES RECORD TRIP

Champ Clark's Lizzie is Wonderful Car

Barney Oldfield, Ralph de Palma and other kings of the racetrack, beware lest your laurels be snatched from you; for right here in our midst is a youth who bids fair to eclipse in a spectacular manner the best records you ever made.

Champ Clark went home a couple of weeks ago. It seems that Champ is the proud owner of a rheumatic Tin Lizzie, vintage of 1914 or thereabouts, to which he is quite attached. Not wishing to leave his Lizzie home to pine away without him, he brought her along upon his return. He started from home late Sunday night and came around through Hartford, which he reached at just about midnight. He noted the time on one of the street clocks. It was just twelve. "Now," quoth Champ, "Here goes a busted record between Hartford and Storrs, by heck!" So he settled back comfortably in his seat, gave her the gas and let her rip. She ripped. According to Champ's tale, the telephone poles went by just like a picket fence. Manchester, Bolton, Andover and Willy all went by in rapid succession. Somewhere between Bolton and Andover he passed the State of Maine Express as if the latter were anchored. He sailed up Spring Hill on high like an aeroplane sliding up a cloud-bank. And when his panting but triumphant Lizzie was safely parked out by the Dining Hall, he pulled out his trusty Ingersoll to get the time. Just one o'clock! "Gosh," says Champ, "I must have been going between 45 and 50 miles an hour all the way." He proceeded to tell people about it the next morning, starting off with a very cynical and doubting audience of roommates, who tried to convince him that the fliver hadn't been made yet that would do 50, but he stuck to his story. He later admitted that his engine was hitting on only 3 cylinders, and that he had to stop 3 or 4 times on account of battery trouble. But that did not make any difference. Any body could figure out his speed.

However, as if often the case, the right or wrong of a thing is determined upon circumstances more or less obscure and insignificant at the time. After much talk on both sides, somebody finally happened to suggest that Hartford was going on Daylight Saving time, while his watch was on standard time. At that, Champ became suddenly pensive. "Oh," said he, "I never thought of that."

And so it came to pass that he was two hours on the road instead of one, and that his net rate was about 20 miles an hour, which is a much more reasonable speed for a 1914 fliver than is 50.

Hog cholera serum has reduced losses from that disease to a minimum. The saving to farmers of the United States through use of this preventive serum is estimated to be \$40,000,000 a year. At the rate hogs are being vaccinated against cholera, it seems possible that within a few years the disease will be practically stamped out.

MINERAL IN MILK

Milk holds a valuable place in the average dietary, on account of the composition of its mineral constituents. Cereal foods contain relatively little calcium, sodium or chlorine, hence animals are unable to grow on diets composed solely of cereals unless these inorganic deficiencies are supplemented.

Milk, on the other hand, is rich in calcium, for it contains about three times as much as does the entire wheat grain, and about six times as much as does corn meal. The presence of an abundant supply of calcium in the food is essential, for it not only contributes to the maintenance of the proper neutrality of the body fluids, but is needed to form strong and well-developed skeletons.

(Cont. from page 1 col. 3)

that they had real talent. "Nothing but the Truth" was presented.

After the play a few dance numbers were offered by the Herrick's Orchestra from Hartford, until midnight when the fun makers, both young and old, made their way to the dorms and bed.

Among the Alumni present were: Arthur C. Bird, P. A. Camp, G. A. Stumpf, M. L. Benham, G. B. Durham, T. H. Spencer, S. W. Barlow, C. A. Barnes, E. H. Foote, Mr. and Mrs. C. J. Shelton, Mr. and Mrs. A. J. Brundage, Mr. and Mrs. H. E. Savage, R. E. Fairchild, A. J. Randall, A. Schenker, T. H. Desmond, Mrs. T. H. Desmond, C. R. Brock, F. V. Williams, C. E. Franklin, S. A. Edwards, E. L. Newmarker, P. L. Butler, E. M. Luther, H. D. Bennett, W. H. Wright, I. F. Fellows, T. C. Waters, S. G. McLean, H. P. Averill, L. W. Stevenson, H. Busby, W. H. Allen, W. T. Clark, Shorty Ellis, J. B. Kilbride, A. Klein, B. E. Callahan, V. Lee Baeder, E. C. Eaton, H. E. French, W. Holden, P. J. Hauschild, C. D. Grant, E. Dalrymple, A. E. Clark, M. E. Merrick, H. E. Bronson, E. Jewell, R. I. Fuller, J. R. Fuller, P. Hopson, F. A. Carley, A. Weigold, G. L. Prindle, C. B. Pomeroy, F. Rosebrooks, M. E. Pierpont, A. E. Moss, L. H. Swenson, W. B. Smith, O. B. Hendryx, Mrs. F. Bauer, Mr. and Mrs. J. A. Morgan, W. J. Cassel, L. M. Chapman, W. T. Ackerman, J. B. Thwing, W. H. Brown, Jr., E. C. Wadhams, E. Manning, E. Ayer, B. P. Storrs, N. A. Cohen, F. Trinder, A. Hall, L. Taurig, D. Taurig, H. Presky, R. C. Ackerman, F. L. Aiken, E. E. Carpenter, E. H. Patchen, H. C. Vibert, B. D. Henston, G. L. Fish, N. H. White, E. N. Dickenson, A. Horne, R. H. McCall, W. L. Storrs, E. S. Bishop, E. S. Mansfield, H. B. Risley, F. A. Miller, R. G. Tryon, P. B. Roth, L. E. Stoughton, P. L. Sanford, C. D. Knott, E. W. Baeder, F. H. Von Tobel, F. R. Cramer, W. A. Bates, E. S. Moss, B. A. Brown, E. R. Sherman, G. Luddy, C. W. Jewett, A. C. Klingman, M. L. Roser, C. L. Robinson, H. Calecham, H. L. Clark, G. V. Daggett, L. E. Gould, H. W. Cartwright, W. P. Baldwin, K. Scott, N. E. Hines, R. W. Brown, A. C. Foote, R. H. Barnard, J. H. Blakeslee, A. C. James.

CHURCH NOTES

Mr. Dawson will occupy his pulpit in the church on the campus at 10:45 on Sunday, May 30.

CHRISTIAN ENDEAVOR

Topic: Being a Comrade.

Reference: Prov. 27:9—10, 17—19.

Leader: Unannounced.

The attendance last Sunday showed an increase over the Sunday before. We have a good topic for next Sunday, one that is easy to talk upon and your talk will help liven the meeting.

AT OTHER COLLEGES

SPRINGFIELD COLLEGE

One hundred men at Springfield have voiced their opinion of the American girl. The Springfield College man's idea of the kind of a girl he wants for a wife is well set forth in the following representative reply: "A lover of sports, yet delighting in the home; a girl with brains, ready wit, independence and frankness." Asked what things were detested in a girl, the trait which received the greatest condemnation was snobbishness.

NEW HAMPSHIRE COLLEGE

"The Story of Extension Work in New Hampshire during the Year 1919" is the title of a bulletin just published by the New Hampshire College Extension Service. Under the headings of Work for Better Farms, Better Homes and Better Communities, the bulletin describes the activities of the Farm Bureaus and extension agents and tells many of the results accomplished.

ENTOMOLOGY STUDENTS TO WORK IN NEW JERSEY

Connecticut will be well represented in the fight against the Japanese Beetle in New Jersey this summer. Five of our bugologists are practically sure of governmental appointments for the work. J. Bigger and C. Compton of the Junior Class and H. Jaynes, R. Mathewson and T. Gardner of the Sophomore Class are the Storrs entomologists who intend to let the Japanese Beetle know he has struck a different place from Japan.

The beetle was imported from Japan in the grub stage nearly ten years ago. Within this period it has multiplied so rapidly as to infest a considerable portion of New Jersey adjacent to Philadelphia. Realizing the danger of a spreading of the insect, the government has organized a fight against it. Some of the leading entomologists of the country will work on this problem and experts will be sent to Japan to study the parasites of the beetle.

The standing of the interclass league is as follows:

Recent appropriations have provided additions to lands, buildings and equipment valued at \$950,000. Expenses low. No tuition charge to residents of Connecticut. Military instruction. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President

BLACKGUARDS PRESENT UNIQUE MINSTREL SHOW

ALL OUR COMEDIANS
SEEN IN ACTION

Acrobatic Stunts and Vaudeville
Skits Finish Program

Friday evening of Junior Week saw the Blackguards again on the boards for their last show of the year. They had a very critical audience to play to, composed of numerous Junior Week visitors and many people from adjacent towns.

The Minstrels opened the program and occupied the stage for upwards of an hour. They were uniquely and heterogeneously attired and their arrangement on the stage was original to say the least. Ricketts and Mahoney occupied the left end, while Van Buren and Dow held down the right, P. Manwaring, Interlocutor, assisted them in their digging of ancient relic.

As a whole, the minstrels were fairly good. The songs were well taken off by Agate Wood, Ricketts, Van Buren and others. Special mention must be made of the pair of musicians manipulating the viol. Most of the audience would agree that their methods of drawing music out of their instrument were some of the funniest items in the show.

Crampton's Gym team, which followed the minstrels, outdid itself in its second appearance and gained hearty applause for various contortions and acrobatic tumblings.

Our famous skit artists, Brub and Scoop, followed Crampton in an attempt to captivate the audience with their usual line of vaudeville dialogue. It must be said that they succeeded well, too, except that Scoop forgot some of the words in the college medley.

The Blackguard Trio, The Wash Room Quartet, Brub in a monologue and Katz and Company kept the audience going till the Grand Finale.

Although the Blackguards achieved nothing exceptionally high-class in this production, there were several outstanding original bits of work in the show which made it worth going to see.

Members of the Blackguards: Interlocutor, Paul N. Manwaring; End Men, Francis J. Mahoney, Norman Van Buren, J. Bradford Ricketts, Everett D. Dow, Orchestra, Milton Katz, Kenneth M'Kee, William Graf, Carl Brandt, Henry Flynn. Directors, Paul N. Manwaring, Everett D. Dow. Business Staff, William Maloney, Edward Lord, Earle Blevins, Franklin Hawley. Men in the show, C. Compton, H. Beisiegel, P. Dean, A. Frostholm, C. Hartwell, H. Neuman, D. Lawson, V. Pinkham, H. Steck, G. Sneiderman, H. Webb, D. Bassett, E. Clark, E. Fogg, G. Hildring, G. Slye, H. Jaynes, R. Laubscher, E. Modell, P. Steere, H. Tillinghast.

The reports of these committees, with any recommendations and suggestions, will be given to the executive committee, which will summarize the reports and submit them to the Trustees.

RESULTS OF RECENT PILGRIMAGE

On Wednesday, May 26, about 60 prominent citizens of the state made a pilgrimage to the State College at Storrs in order to study at first hand the work and needs of the institution, and to determine, if possible, what the future policy of the College should be.

This visit was made at the invitation of the Trustees of the College, who invited representatives from each of the following State organizations: The Manufacturers' Association, State Chamber of Commerce, Headmasters' Association, Farm Bureau and State Grange. Each organization was entitled to eight representatives and in addition a number of other prominent men and women were invited. Some of the delegates were unable to come but expressed their willingness to help the committees in any way possible.

A committee of six, composed of President Charles L. Beach of Storrs, Professor R. E. Dodge of Storrs, Senator Heald of Stafford, D. J. Minor of Bristol, S. McLean Buckingham of Watertown, and Mrs. A. H. Benton of Andover, met and appointed committees to study the various departments. In most cases three members were appointed on each committee, with one or two faculty members in addition, and each committee was given the power to increase its numbers to seven. The committees, with the chairman of each, are as follows:

Administration and Library—H. B. Mallory of Danbury, Chairman.

Agronomy and Agriculture Engineering—Dr. Walter C. Wood, New Canaan.

Animal Husbandry—Samuel Russell, Jr., Middletown.

Dairy—S. McLean Buckingham, Watertown.

Experiment Station—A. M. Farnum, New Haven.

Extension Service—J. M. Whittlesey, Middletown.

Pomology, Vegetable Growing, Apiculture and Forestry—Stancliffe Hale, South Glastonbury.

Academic Studies—Harrison B. Freeman, Hartford.

Home Economics—Mrs. B. T. Avery, Ledyard.

Agricultural Economics and Marketing—La Mott Russell, Manchester.

Mechanical Engineering—E. C. Weldon, New Haven.

Poultry—H. A. Birdseye, Farmington.

Science—C. C. Hyde, Teacher in Hartford.

Student Accommodations—N. H. Bachelidor, Loomis Institute.

Only three members of the Executive Committee were present: E. G. Hill of the "Hartford Times," A. E. Bowers of Manchester and C. J. Abell of Lebanon.

For each committee a summary of the work of its own particular department had been prepared, and before leaving, some of the committees met to discuss the problems of their own departments. Other committees arranged to meet at the college within two weeks for a further study of the situation.
