THE CONNECTICUT CAMPUS

A MERRY CHRISTMAS AND HAPPY NEW YEAR

VOL. VII

STORRS CONNECTICUT, SATURDAY DECEMBER 18, 1920

NO. 11

FRATERNITIES PLEDGE THIRTY-NINE NEW MEN

RUSHING SEASON WAS LONGEST EVER KNOWN

Various Initiations Will Probably be Held on Return from Christmas Vacation.

The longest rushing season ever known at the college came to an end Friday night when the Freshmen who were to receive bids, repaired quietly to Hawley Armory to pledge themselves to the fraternity of their choice. For twenty-four hours silence had been maintained between upperclassmen and Freshmen, to be broken for the first time, when Freshmen who had signed their bids in the presence of the Mediator, went to the fraternities of their choice to be joyfully received by the 'actives' and congratulated.

According to the Mediator the result of the bidding is as follows:

College Shakespearean Club: Paul Beardsley, W. Burgess, A. C. Hotchkiss, C. J. Pillion and E. Taylor.

Eta Lambda Sigma: A. M. Birks, H. E. Bolan, E. M. Eddy, C. J. Dunham, J. C. Grace, M. Morley and J. S. Szafer.

Sigma Alpha Pi: Wilbur Brown, Stephen Cooke, L. Kenneth, F. Littleworth, C. A. Matthews, Fred Metzger, R. Mills, K. Moses, N. E. Platt, N. Purple, E. Ranne, R. Wing and W. Youngberg.

Alpha Phi: E. T. Balthazar, L. M. Benham, G. Gunther and G. Miles.

Phi Mu Delta: Ronald Bamford, John Dillon, Wilbur Lawson, H. Nelson, John Oberly, Russell Palen, Lawrence Parker, Fred Peterson, Benjamin Pinney and Howard Wilson.

H. WALES LINES CO. TO ERECT NEW GIRLS' DORM

Bids for the new girls' dormitory were opened by the building committee Wednesday and the contract let to the H. Wales Lines Co., of Meriden, who built the dining hall and several other buildings on the campus. The Board of Contract has approved the plans and specifications and the construction company agrees to have the building ready for occupancy September 15, 1921.

The bill passed at the special session of the legislature making the appropriation for a Woman's Building for the college had been mislaid but recently came to light and has been certified by the Secretary of State.

ACTIVITY LEADERS TALK AT COLLEGE ASSEMBLY

PRESENT THE SCOPE OF FIVE ORGANIZATIONS

Football Letter Men Receive Certificates—Ag Club Medals Are Awarded

The College Assembly period on Wednesday, December 15, was given over to a presentation of student activities by members of the student body, and to the awarding of various certificates and medals.

Gold medals which could be worn as watch fobs had been offered by the Ag. Club for the individuals scoring highest in the judging contests, which were held in connection with the Ag. Club Fair on December 10, and the medals were presented at this time. J. C. Taylor, Class of '21, won the poultry judging contest, and C. A. Slanetz, '22, won the crops judging, with R. C. Robbins, '23, a close second. A similar medal, offered by members of the Dairy Department for the man scoring highest in all dairy products, went to W. D. Burrington, '22. The following men all stood so high in judging dairy products that the Dairy Department presented them with mentoes in recognition of their judging ability: J. H. Lovett, 2nd; C. M. Hartwell, 3d; R. E. Johnson, 4th; R. C. Robbins, 5th; and J. M. Greene, 6th.

The first speaker on student activities was M. H. Lockwood, President of the Agricultural Club. He briefly outlined the history of the Club, its activities and future plans. A program of lectures and moving pictures on agricultural subjects is given throughout the year, with a winter fair and a spring live stock show.

L. E. Faulkner, President of the Debating Club, was the second speaker. He outlined the Debating Club's plans for a triangular debate to be held between Rhode Island State, and Connecticut Aggies, and either Mass. Aggies or Trinity on the subject of immigration. The Rhode Island debate is already being arranged for, and Mr. Faulkner urged everyone interested, and especially the Freshmen, to try out for the debating team.

R. H. Mathewson, Editor-in-Chief of the 1921 Nutmeg, presented the cause of the College Year Book, and declared that the success of the publication depended upon its circulation, for the Editorial Board was already well along with its plans for the best Nutmeg ever published.

W. F. Maloney, President of the Dramatic Club, spoke of the part which dramatics play in College life.

THREE MORE ATHLETIC FIELDS TO BE SECURED

SPRINGFIELD Y.M.C.A. GYM TEAM HERE MARCH 4

Winter Interclass Schedules Feature Basketball, Volley Ball, Indoor Baseball and Hockey

It is probable that the Physical Education Department will soon be able to handle its outdoor activities satisfactorily for three new athletic fields are to be constructed between the present athletic field and Whitney Road. These fields will run at right angles to the present gridiron. The tennis courts will be rebuilt at the south end of the Armory. Although all of this improvement is not probable within the next year, a sum of \$5,000 has practically been assured with which to start the work.

Owing to the fact that it was necessary for the varsity football squad to use the field this year, the plans for interclass games in football and soccer and field hockey for the girls was changed to class football and a cross-country run.

The indoor program of the department has begun and is swinging into its stride in fine shape. Judging from the interest shown in class practices there will be some real battles fought this season.

It is the aim of the department to get as many men and women as possible playing on some team, so that they may receive not only the exercise but also the training that is acquired only by team play. With this in view a league schedule has been made out in basketball and volley ball for men, and basketball, volley ball and field hockey for the women.

The men's basketball league games will be played on Monday evenings at 7 o'clock. Two games of 15 minute periods are selected for each Monday.

The volley ball league will play its games on Wednesdays at 4:30 o'clock p. m. The girls' games will be played on Saturday afternoons at 4:30 o'clock, except those in which the stenographers participate, when the games will be played on Thursday evening at 7 o'clock.

GIRLS' INTERCLASS SCHEDULE

1923-1924—Basketball—Dec. 16.
1923-1924—Hockey—Jan. 13.
1924-Stenographers—Baseball, Jan. 10
1923-1924—Basketball—Jan. 27
1923-Stenographers—Baseball, Feb. 3
1923-1924—Hockey—Feb. 10
1923-1924—Baseball—Feb. 17
1924-Stenographers—Baseball Feb. 24
1923-1924—Basketball—Mar. 3

AG. CLUB WINTER FAIR HAS NEW FEATURES

STUDENTS INTERESTED IN DAIRY PRODUCT JUDGING

Co-eds Hold Big Candy Sale—Many Entries for Judging Contests

What the Agricultural Club produced on the Armory floor last Friday afternoon and evening proved to be one of the most unique and educational of its Annual Winter Fairs.

At ten o'clock the Armory was opened to those who wished to see the exhibits. Many students, members of the faculty and neighboring farmers were present critically reviewing the educational exhibits in dairy, agronomy, home economics, apiculture, poultry, animal husbandry, publicity and floriculture. The splendid dairy exhibit and large home economics display attracted many of the spectators.

A successful Co-ed Candy Sale was held soon after the opening of the doors. The excellence of the product was evidenced by its quick disposal for the fair was scarcely under way when the last package was sold.

Beginning at one o'clock demonstrations of different phases of Agricultural and Domestic Science Work were given every hour. Official judging of exhibits occurred at three o'clock.

A new feature was introduced this year in the Dairy Products Judging Contest. At 4 p.m. twenty-nine students began judging the classes in ice cream, milk, and butter under the supervision of Professor R. C. Fisher. G. C. White and L. L. Chapman. Soon after supper the Crops and Poultry judging contests were held in the Armory.

The movies were attended by a large crowd in the evening. Between the reels Crampton's famous gym team pulled off a half-hour vaudeville act and astonished the audience with its ability.

The dancing which was run on a nickel a dance system, proved very popular. During intermission considerable merriment was introduced when several boxes of apples exhibited by the Horticultural Department were sold in a little impromptu auction. At 11 o'clock the college orchestra executed grand finale.

The results of the contests are below:

Dairy Products Judging Contest
High Man—W. D. Burrington
Second—J. Lovett.
Third—C. M. Hartwell.
Poultry
High Man—J. C. Taylor.

Aggies Win First Home Game

SPORTS

Alexander Scores 23 Points

FROSH TOSSERS UNABLE TO BEAT '21 QUINTETTE

Juniors Hesitate at Critical Points and Lose to Sophs

The Sophomores defeated the Juniors; and the Seniors won from the Freshmen in the first games of the interclass basketball series in the Armory, Monday evening.

Lack of team-play was evident on the four quintettes although Brundage and Baxter worked well for the Sophomores. In both games most of the points were secured through fouls. The highest point getter of the evening was Brundage, '23, who caged four field goals and five fouls for a total of thirteen points. The outstanding individuals for the teams were Morley '24; Blevins, '21; Lawson, '22; Boas, '22; and Bamford, '24. The summary:

Sophs	Juniors
Baxter rf	Beisiegel
Brundage lf	Dean
Bolan c	Lawson
Patterson rg	Wooster
Emigh lg	Boas

Score: Sophomores 20; Juniors 15. Goals from fouls: Lawson 11, Brundage 5. Field goals: Beisiegel, Boas, Baxter 1, Brundage 4. Referee, Maier.

Seniors	Freshmen
Wallace rf	Morley
Osborne lf	Purple, Ranney
Johnson c	Bamford
Blevins rg	Brown, Lawson
Alexander, N. lg	Youngberg
	Slutsky

Score: Seniors 15, Freshmen 11.

Goals from fouls: Blevins, Bamford 7. Field goals: Alexander, Osborne, Morley, Bamford 1, Blevins 2. Referee Swartz.

CO-EDS DEFEAT AMERICAN THREAD GIRLS' BASKETBALL TEAM

The Co-eds defeated the American Thread Mills Girls Basketball Team Friday night in Hawley Armory to the tune of 9 to 8. In the first half the Co-eds were outclassed, the score for that period being 7 to 4 in favor of the American Thread.

In the second period Jean Smith made a couple of good field goals and from that time on the Co-eds held the lead, allowing the Willimantic girls to get but one goal to the Co-eds two field goals and one foul goal. The Co-eds lost many chances to score by their poor passing.

The summary:

Co-eds	A. T. Co. Girls
N. Hallock lf	M. Kegler
Jean Smith rf	D. Curran
Emma Reed c	D. Forant
Elsie Wattie lg	F. Baker
Olga Sagal rg	C. Shea
	B. Lynch

AGGIES LACK A SCORING MACHINE AND PLAY MISERABLY

Gronwoldt Makes Only Aggie Field Goal

Playing off-form the blue and white five lost the opening game of the season to Trinity in the Hartford High Gym by a score of 26 to 13. The Aggies seemed lost and failed to hit their stride throughout the game. Trinity opened up in whirlwind style and before the Aggies knew that the game was in progress they had amassed a total of 12 points. Alexander finally found where the basket was located and dropped in a foul. The remainder of the half was fairly interesting and the Aggies fought on even terms with the Hartford Collegians but failed to gain on their opponents score. The half ended with the score 20 to 6 in favor of the blue and gold quintet. A heart to heart talk by Coach Swartz instilled a little life in the team and they did manage to outplay their opponents in the second half and scored one more point than Trinity but all of the State College points were on fouls. Gronwoldt heaved the only Connecticut field goal of the night. It was not the fact that Trinity was good that they won but rather the fact that the blue and white played miserably. In Bolles Trinity had a man who was clever at tossing in long shots but it is doubtful if they have any better team this year than they did last season. The Connecticut five failed to develop any offense whatever and when they got possession of the sphere they appeared lost and did not pass. The defense was also weak at times the guards being continually sucked down the floor, allowing the Trinity forwards to slip behind them but as a rule this failed to do Trinity any great amount of good as they seemed weak on short shots. A large crowd saw the game but the majority of that crowd were Aggie backers and if the blue and white did not win the game they certainly showed Trinity a few pointers in college spirit.

The summary:

Trinity	Connecticut
Bolles rf	Putnam
Canner lf	Alexander
Mills c	Gronwoldt
Nordlund rg	Sickler
Tansil lg	Lord

Field goals: Bolles 6, Canner 2, Mills, Nordlund, Gronwoldt; Four goals, Canner 5, Alexander 3, Sickler 8. Referee, Dillon.

Goals from floor, Kegler 2, Smith 2, Curran 1, Reed 1; Goals from fouls, Hallock 3, Curran 2; Foul goals missed: Hallock 9, Curran 8, Smith 2, Kegler 1, Lynch 1; Referee, Maier, Aggies. Time of halves, 15 minutes.

CONNECTICUT WINS FIRST HOME GAME

Defeats Middlebury 33 to 25 in Easy Fashion. Alexander Scores 23 Points

Striking their real stride the State team played rings around the fast Middlebury five and won in rather easy fashion to the tune of 33 to 25. It was an entirely different team from that which faced Trinity and Wesleyan last week and the results of Coach Swartz's hard coaching this week were plainly in evidence. For the first time this season the blue and white showed a smooth working offense and the defense was also greatly improved. Coach Swartz seems to have struck the right combination and if he can develop that combination as much in the next few weeks as he has in the past week this year's team ought to develop into a winning machine. Alexander and Baxter teamed up nicely and with a little more work together will make a clever pair. Gronwoldt at center showed a new lease of life and even surpassed his form of last year. Putnam was back in his own position and played a much better game than he did in the opening games and Lord also showed a vast improvement and aided in the scoring by a number of pretty passes to Alexander under the basket. Alexander broke the ice with a clean shot from the side and from then on the Aggies held the lead. The Middlebury boys fought hard but the blue and white five outplayed them and continued to forge to the front leading by a score of 17 to 9 at the end of the opening half.

In the first part of the second half it wall all Connecticut but Putnam, who was injured by a severe blow on the head in the early part of the game began to weaken and finally had to be relieved. This tended to slow down the Aggies slightly and Middlebury gained slightly towards the end of the game but never became dangerous. The final count was 33 to 25 in the Aggies favor.

The summary:

Connecticut	Middlebury
Baxter rf	Hardy
Alexander lf	Leonard
Gronwoldt c	Davis
Putnam rg	Heath
Lord lg	Lacy

Field goals: Alexander 6, Baxter 2, Gronwoldt 2, Putnam, Leonard 5, Hardy 2, Heath.

Foul goals: Alexander 11, Leonard 5, Heath 3.

Referee, Dillon of Hartford; Scorer, Blevins; Timer, Cohen. 20 minute halves.

AGGIES DROP HOME GAME TO WESLEYAN

Final Count 31 to 20 in Black and Reds' Favor. Referee Fails to Call Fouls on Numerous Occasions.

The Wesleyan basketball team defeated the Connecticut Aggies last Saturday in Middletown by an easy margin, 31 to 20. There was considerable fouling throughout the whole contest and the game was a cross between a football and a basketball game. The feature of the game was a flying tackle by Alexander. This was most likely due to the fact that several men on both teams were on the gridiron during the past season. The game started off well, the score at the middle of the first half being six all. From then on Wesleyan had a slight edge and the period closed 16 to 12 in their favor. In the second half the laxness of the referee turned the game into a veritable football match in which the Wesleyan men were superior for they held continually without being called and they managed to pile up an eleven point lead, the final score being 31 to 20.

The summary:

Wesleyan	Connecticut
Robertson, Ryalls lf	Putnam, Capt.
Robison	
Robison, Robertson rf	Alexander
Hartman c	Gronwoldt
Deppen, Conway lg	Lord, Baxter
Adams	

Hosdowich rg Sickler Daly
Goals from floor: Robison 5, Hartman 3, Hosdowich 2, Sickler 3, Alexander 2; Goals from fouls: Robertson 7, Robison 2, Sickler 3, Alexander 3; foul goals missed, Robertson 2, Sickler 9, Putnam 2, Robison, Alexander; Referee, Oberdick, Springfield College. Timer, Blevins, Aggies; Scorer, Bate-man, Wesleyan. Time of halves, 20 minutes.

FRESHMEN USE ORANGE AND BLACK FOR BANNER

The Freshman Class banner which will soon appear on the campus, embodies a new feature different from the banners adopted by previous classes. Instead of including the numerals 1924, the number 24 is spelled out.

The banner was designed by Stephen Cooke and is being made by the Green Mountain Card Co., of Vermont. It is eighteen by thirty-six inches, made of black felt with orange letters and a narrow orange border. "Connecticut" and "Twenty-four" spelled out beneath it are in the form of a diamond similar to the 1922 banner.

A sample is expected to arrive in a few days. Orders are being taken by the class banner committee composed of F. C. Littleworth, chairman, R. Bamford and Miss Moore.

NUTMEG STAFF PROCURES 280 SUBSCRIPTIONS

**Will Probably Total Four Hun-
dred Before Publication**

The Nutmeg circulation campaign which ended Wednesday, December 15, realized over 275 subscriptions. Many signified the intention of subscribing for a book after the return from the Christmas vacation.

The Nutmeg Staff have been working on the book steadily and the football section of the annual is pretty well shaped up. After the Christmas holidays it is the intention of the Board to display photographs on the Bulletin Board in the Main Building that will probably appear in the 1921 Nutmeg.

Student donations of pictures will thus be placed on exhibit. The Book hopes to secure for use the numerous photos that have been taken and will be taken by the fellows or co-eds of any persons, scenes or happenings about the campus. To secure such pictures is the object of the bulletin exhibit. V. D. Pinkham will be glad to receive any prints at any time for display on the board.

Professor Irving G. Davis and W. H. Darrow attended a recent meeting of the New England Association of State Marketing Officials, and both men spoke at this meeting. Professor Davis was later elected the Secretary-treasurer of the Association.

(Cont. from page 1 col. 4)

Corn and Potatoes
High Man—C. A. Slanetz.

A gold medal was given to the high man in each of the three contests at the first College Assembly after the Fair. W. D. Barrington was also high man in the Butter and Ice Cream classes of the Dairy Products Contest. C. M. Hartwell was high man in the Milk class. A year's subscription to a periodical representing the above will be given to the high men in each class.

The chief winners in the exhibition contests were as below:

R. C. Abbe won most of the ribbons in Corn and Small Grains; R. G. Chaffee in Vegetables; Garry Miles in Poultry; and W. J. Foord in Apiculture. The greatest number of first premiums in the Home Economics Exhibit went to Miss Mildred Gay. R. C. Abbe had the largest number of entries of any single exhibitor.

A total of 160 entries was made at the Fair and the secretary feels that this number of entries should be larger next year, especially in the corn and small grains classes.

The publicity end of the Fair will be well cared for by S. Kostolefsky. He is planning to have write ups and cuts in some of the more important agricultural periodicals of the United States.

Financially the fair was a true success this year and the Ag. Club is planning for a two day affair next year. In May the Ag. Club expects to hold an outdoor carnival which shall include a live stock parade and judging.

MEDIATOR SMOKER SHOWS INTERNATIONAL TALENT

**Prize Bouquet Won by Egyptian
Trio**

An innovation in college custom appeared Thursday evening in the form of an upperclass smoker held under the auspices of the Mediator to relieve the strain incidental to the eve of fraternity pledging. A program of great merit was presented under the tutelage of F. W. Maier and H. F. Webb of the Mediator. Although no elephants or calliopes were in the vicinity nobody will deny that the affair was a circus. In fact speculation was rife among the audience as to what P. T. Barnum would have done with such material, the majority claiming that they would make fine canvasbacks.

In order to give the reader an accurate impression of this gorgeous event we will describe it by acts or rounds whichever you prefer. The curtain rises accompanied by a loud rumbling and roaring which upon further investigation is found to emanate from J. Bradford Ricketts who holds down the center of the stage while gesticulating frantically with both hands. Opinion among the audience was divided as to the effectiveness of this act, many stating that they could form an opinion more easily if they knew what he was talking about. When interviewed on this point Mr. Ricketts indignantly replied that it was a Norwich version of "Mary had a little lamb."

In the next act we have "Mahoney and Daly, The Bookstore Duo," as announced by Mr. Webb. This was true enough but Webb forgot the piano with which Mahoney charmed the audience by a new version of "Round and Round the Mulberry Bush."

As all programs must have a climax this was provided by "Lockwood, Metelli and Kostolefsky of the Short-shirt Circuit," in a stirring pantomime which they called "She was only a horseman's daughter." What the audience called it is a different thing.

Mr. Lockwood who is famous the Campus over for his ability as a Spanish athlete, enlarged his repertoire to include that of a Greek athlete in order to harmonize with his teammates.

Last but not least came Steere, Steck and Hildring Company in a thrilling melodrama about which the least said the better for them.

Smokes and refreshments were then in order and the gathering broke up into small congenial groups to while away the time at cards and songs until late in the evening.

At a recent meeting of the Mansfield Post No. 46 of the American Legion the following officers were elected.

Post Commander, Arthur Barrows of Mansfield Center; Post Adjutant, C. A. Slanetz; Treasurer, J. Lovett. The executive committee consists of L. V. Dodd of Manchester Center, Dewey Dore of Mansfield Center and E. J. Slanetz.

AT OTHER COLLEGES

The American Red Cross Society honor flag for men's colleges has been awarded to *Williams College*, where 86 percent of the student body took out annual membership in the organization. *Brown University* won second best in the eastern college campaign with 80 percent enrollment, followed by *Worcester Tech.* with 70 percent.

Among the women's colleges *Wellesley* and *Wheaton* both went over the top with 100 percent.

The *Rhode Island "Beacon"* reports that more than forty candidates for the basketball team are out for regular practice.

Reverend Vaughn Dabney, pastor of the Community Church at Durham, N. H., recently made his farewell address to the student body at *New Hampshire State College*. Upperclassmen will no doubt recall the inspiring talk given by Rev. Dabney at College Assembly last year.

Harvard, *Dartmouth* and *Army* appear on the 1921 *Middlebury College* football schedule for the first three games of the season.

Statistics compiled by the recorder at *New York University* show students representing forty-five states and forty-seven different nationalities. Connecticut ranks third among the states with an attendance of 158 students.

(Cont. from page 1 col. 2)

The Connecticut Agricultural College has the first New England chapter of the new honorary Dramatic Fraternity, Theta Alpha Phi, which was founded at Oklahoma Agricultural College in 1919. The local chapter has eight charter members, who have taken a major part in three plays, or a minor part in four plays.

E. D. Dow, Editor-in-Chief of the Campus, declared that working for the Campus was one of the best ways in which a student who was not inclined toward athletics could serve the College and urged Freshmen to try out for the places which would be vacant on the Campus Board in June.

Insignia for the Co-ed's basketball team of last year has not arrived as yet, but the following girls were given the right to wear the emblem CONN.: Miss Arnold, Miss Linton, Miss Wake-man, Miss Natalie Hallock, and Miss Smith.

Football certificates were also awarded to the following men, who have won their letter in football this year: Captain Mitchell, Graf, Ashman, Clark, Alexander, Wallace, Hajosy, Ricketts, Maier, Boas, Daly, Juralowitz, Emigh, Baxter and Manager Dow.

David E. Warner presented the certificates.

As this is the Mansfield Post, it was considered to put the work in the hands of the members from the town, consequently a majority of the officers were elected from the resident members.

FROM THE EDITOR'S DESK

The social committee scored a tremendous hit with the students in the choice of the second entertainment of the winter series. From the standpoint of an 'ink-slinger' it was far and above other entertainments of similar nature as regards talent of the performers and it had enough modern zip and prettiness to make the audience certain of the century they were living in. We suspect that certain of the 'ultra good' were gasping for fear the jokes might not meet their standards for humor, but apparently everything went over well, though there is a possibility that such a 'peppy' quintet of girls may not be considered fit entertainment for Aggie men, for they responded rather 'too enthusiastically' when applause was appropriate.

The rushing season is over, and it is safe to say that everybody is thoroughly pleased that it is, for 'tension' has been rather high on the Hill for the past few days, and a normal condition of things will soon be resumed. Whether the new methods are applicable to Connecticut, we cannot yet tell, for there has not been enough time as yet to render a verdict on the carrying out of the whole season. It seems to have been popular with many of the Freshmen, but the upperclassmen seem more or less divided. What the Mediator will do for next season cannot be imagined, as debate over this year's system is certain. That the newly inaugurated system is an advantage to Freshmen cannot be doubted, but it may not be so with the fraternities.

There are only five more weeks of casses before the mid-year examinations, and they are serious obstacles in the way of more than one of us. The text books haven't been getting more than a glancing attention of late (some books never do get more than that, anyway) and for some persons their further presence on the campus depends on how much work they put in on their studies from now on. Christmas vacation often helps some,

usually those who need the study least for the others are so tired and so needy of a complete rest, that they take one, which rest is the same as the one they have been taking all year at college.

CHRISTMAS VACATION

As each day falleth behind on the fourth horizontal row of the December, 1920, Calendar, we come nearer to that day which is specially marked in pencil, ink, or crayon upon nearly every calendar in either dorm.

The 23rd is the name of that blessed one-seventh of the week when the populace of this here village will leave these environs and cause the Mayor of Willy to consider passing an Immigration Bill against the "Storrs crew" as our friend of the Spoon used to call us.

Well, we intend to lead a lazy life during the approaching relief. The old Ostermoor will do extra duty when we're at the family domicile. We'll stay in bed till we are jolly glad to arise from sheer exhaustion from reposing too long. We'll dive under the bedsheets and lay deadhead like a sunk submarine in the Great Salt Lake. No Big Bens; no gentle voice in your ear, "Get up You Big Stiff"; just the gentle tones of mother calling, "Arise, sweet one, 'tis half past two in the post meridian!"

And then we'll bound out like an athletic tiger, full of vim, vigor and velocity, jump into our duds and we're ready for the day's work.

Did we say work? That's wrong but we have no eraser. Kindly cross out the word in the text gentlemen and substitute the term "sport." (Botany 1 students: Don't get this mixed up with mutation.) Yes, we think sport is the word.

And now we come to the pith of the matter, gentlemen, might I say the point at which our lines of thought converge,—just what really do we propose to do during these hours of unaccustomed release from effort? Of course, all your relatives will be glad to see their little rah-rah boy back from school and you'll have to go around and look wise and clever as your three months in the cafeteria have made you.

And as for that red tie which your best damoiselle is sure to present you with, don't throw it away. Save it. It will be useful as a turban for some of our co-ed basketball athletes.

One word more while we're on this subject. Be sure and give the old man a nice big humidor of Fore and Aft Seaman's Tobacco. This will fill him with gratification and carbon dioxide and he will think what a wonderful taste his son has in tobacco.

Well, after you have broken the house down trying to get the tree out the back door, and finally succeeded, we mean in getting it out the door, and have burned it up in the back yard, it will be time to think of what you are going to do now that Christmas day has past.

Don't go into Hartford or New Haven to see a musical comedy. Every old chump will be doing this. Think up something original. Run down to Atlantic City for a few days. (Just a minute, on second thought, we think you'd better take the train.) Or meet your girl inside the movies with a bag of peanuts. Perhaps the Roof Garden at New York wouldn't be a bad idea if your means are limited. At any rate, don't lose any opportunity of showing the people how a brainy college lad can enjoy himself.

Along about the middle of vacation you will probably experience an indescribable longing to open a textbook. But be firm. Resist the temptation. It will be hard, of course, but many a man has been able to do it without putting stuff in his coffee either.

When New Year's Day comes make some kind of a resolution or resolutions. Don't draw it up in writing as your family might come across it some time and think you were sick or something. But just say it in your own mind that you're going to force yourself to cut out this and you're going to do that and so on. And when you come back to school don't be afraid to speak out and tell the fellows all about it. They will only be too glad to help a sturdy young man carry out his noble purposes.

Along towards the end of the recess you'll have the very dickens of a feeling that you want to get back Storrs. But don't let this bother you. Take your time in coming back. Do you think the Secretary's office will dare to give you any more than 60 or 70 cuts? No, sir! Thirty would be enough to fire you. But, anyway, do not be in any hurry to get back. The loss of a couple of week's work will be absolutely nothing to worry about and furthermore, your girl on the Hill can get along without you for that length of time.

With this terminal piece of advice, we close, and wish to thank you all for allowing us to fill this space which hitherto was as blank as a Senior's face at graduation.

MERRY CHRISTMAS AND
A HAPPY NEW YEAR

—Micky Finn.

RESULT OF ROLL CALL

The Storrs Branch of the Hartford Chapter, includes Eagleville, Mans-Gurleyville and Wormwood Hill. Our field Depot, Four Corners, Merrow, quota from the chapter was 168 members and our final figures are 346 members made up as follows:

1 Sustaining Member.
3 Contributing Members
342 Annual members

346 Total Membership.
Total subscription, \$367.00.

This is an increase of three over last year. The Senior Class had the best percentage of the classes. The Shakespearean Club had the best percentage of the frats. The Co-eds had a greater percentage than the men students.

LOOKOUT DIGOUTS

From the copies of the Lookout, the predecessor of the Campus, come many odd and interesting facts regarding our former college life and customs.

To all who read this paper it will be plainly seen that the occupants of Storrs Hall acquired the habit of being rather mischievous a long time ago, for in the March issue of 1909 one reads of a certain fellow falling down the stairs and making loud protestations because his next door neighbor had borrowed the lantern that was supposed to hang in the hall to find his way up to the cow barn.

In the bygone days everyone was proud of the blue R. O. T. C. uniforms with their white stripes and they were considered a mark of honor. To those who suffered from confinement in the full dress suits, probably some of this pride was melted away at the annual military ball when the youngsters tried to dance in full uniform on a hot spring night.

Work on the Horticultural Building was begun on April 14, 1908, and the cornerstone was laid on May 28.

The Greek letter Phi was awarded to the members of the Lookout Board as is a "C" to the athletes at the present time.

In 1908 the Freshmen with thirteen men won the annual rope rush from a team of Sixteen Sophomores. The contest was staged at ten o'clock at night and at the end of the ten minute period the Sophomores had been pulled out of the pond and up onto the Freshman side of the muddy waters.

Due to the lack of sufficient funds there was no intercollegiate basketball team during the winter of '08 and '09. Interclass games were played with greater enthusiasm, however.

STUDENT RELIEF WORK IN EUROPE

The European Student Relief Fund originated as a result of the investigations made by the World Student Christian Federation and the American Relief Administration. The hope of these organizations is to relieve the pressing needs of the students and professors of Central and Eastern Europe.

The situation is a very serious one and immediate relief is necessary. Some of the following conditions were found in Budapest:

26 percent of the students were living on two meals or less a day.

33 percent of the students possessed two suits of clothing or less.

15 percent of the students were without coats.

15 percent of the students had but one pair of socks or none at all.

The work is being taken up by all of the leading colleges in the country and Connecticut has been asked to do her share.

Burton E. Callahan, '18S, recently tired of selling public service securities and has gone into the garage business in Hartford.

KAMPUS KLIPS

"The was a fair co-ed named Jean, Who aspired to become kitchen queen, She took domestic science, And with every appliance, She prepared a whole meal from a bean."—Life.

Must be our Jean.

Teeter claims to have discovered the reason why so many Freshmen are making use of the drinking fountain at the pump house. "All green things need water," says he.

Pinkie said he was going to break up the W. S. G. A. meeting the other night.

Were his plans carried out?
No; but Pinkie was.

We wonder who the charming young lady is who McK, L—d and D—n were trying to reach on phone number 14, Willimantic, the other evening. We might add that this is the number most folks use to get in touch with the jail house.

Compton: What are you looking for, Ted?

Gardner: Nothing.

Compton: You'll find it in the trunk where that jug of sweet cider was.

Bates: There are at present about sixty-five male freshmen here not including the girls.

"Be sure you're right then go ahead," Dave Crocket said, but he is dead; The man today who gets along And goes ahead is often "wrong."

Dr. Sinnott: What is natural selection?

Student: Taking the best umbrella in the rack.

She: A girl's features are stamped on a man's heart.

He: "Yes, but it is always the complexion that shows on the coat collar.

Merle: How old is a person who was born in 1886?

Sam: Was it a man or a woman?

Bennie: "I don't think you are a bit romantic. Didn't you ever want to hold your sweetheart's hands?

Swede: Yes, once.

Bennie: When was that?

Swede: "She had four aces and all I had was a pair of sixes."

Kiss is a noun, though usually used as a conjunction. It is never declined. It is more common than proper. It is not very singular and is generally used in the plural and agrees with "me."—Ex.

A FRESHMAN

A boy stood on the burning deck
So far as we could learn,
Stood there in perfect safety,
He was too green to burn.

SENIOR CO-EDS TAKE TRIP THROUGH HARTFORD

See Marketing Methods of Supplying Food to City

A marketing trip through Hartford was conducted by Professor I. G. Davis for his class of Senior Home Economics Students, Monday, December 13. Robert Belden, '20, reporter of current market prices in Hartford, assisted Mr. Davis in planning and making the trip arrangements.

The trip was taken for the purpose of demonstrating the different marketing methods as they are worked out in the process of supplying food to a city. Swift and Company's Plant, Fowler and Hunting Company, P. Berry and Sons and the Municipal Market of Hartford were the places visited.

The great magnitude of the amount of products in these plants was a noticeable point and special emphasis was laid on the different methods of refrigerating and the various cold storage rooms. Besides the wholesale marketing companies and those working on a commission basis, many retail stores were also noted.

REVUE GIRLS' SINGING PLEASES STUDENT CROWD

Reference to a "trolley in this town" by one of the charming artists of the Light Opera Revue at the second number of the Entertainment Course, Wednesday evening provoked a tremendous burst of applause and laughter from the audience who filled Hawley Armory. The "Revue," which many of the audience found to be the most entertaining feature that the social committee has procured for a long time, excelled in its musical and fun-filled presentation.

Janet Hersey, as the "Sunshine Girl" drew a large share of the applause for her delightful and ingenious methods of pleasing the people. Her smile and clever stories gave an added life and zest to the performance, which was of a type and character seldom seen on the Armory stage.

Violin selections were well chosen and rendered and piano solos were well received. Songs and readings had a prominent part and were accompanied by effective stage work and attractive costumes.

LAND GRANT COLLEGES OF NEW ENGLAND TO UNITE

Representatives of the Board of Trustees of the Land Grant Colleges of New England met at Springfield December 10 and 11 and decided to form a permanent organization in order that the six such institutions can act as a unit in various cases and in this way have more influence. Pres. C. L. Beach attended as the representative from Connecticut State.

One topic of discussion at the meeting was the practicability of establishing a uniform tuition charge for out of state students of New England.

DE LAVAL Separators Save in 7 Ways

QUANTITY of cream that no other separator will recover completely, particularly under the harder conditions of every day use.

QUALITY of cream as evidenced by De Laval butter always scoring highest in every important contest.

LABOR in every way over any gravity system, and also over any other separator, by turning easier, being simpler, easier to clean and requiring no adjustment.

TIME by hours over any gravity system, and as well over any other separator by reason of greater capacity and the same reasons that save labor.

COST since while a De Laval Cream Separator may cost a little more than a poor one to begin with, it will last from ten to twenty years, while other separators wear out and require to be replaced in from one to five years.

PROFIT in more and better cream, with less labor and effort, every time milk is put through the machine, twice a day, or 730 times a year for every year the separator lasts.

SATISFACTION which is no small consideration, and can only come from knowing you have the best separator, and being sure you are at all times accomplishing the best possible results.

EASY TO PROVE THESE SAVINGS

These are all facts every De Laval local agent is glad of the opportunity to prove to any prospective buyer. If you don't know the nearest De Laval agency write the nearest De Laval office as below.

FOOTBALL BANQUET ENDS THE 1920 SEASON

Squad Royally Fed at College Dining Hall

Football definitely gave way to basketball when the football squad of the season of 1920 met for the last time on Wednesday evening, December 15, at the College Dining Hall and there partook of a banquet and reviewed the season, now and then making allusion to the season to come.

Physical Director Roy Guyer and Mrs. Guyer, Captain Robert Boyers and Mrs. Boyers, Mr. David Warner and Mrs. Warner, Professor Sherman Hollister and Mr. John L. Hughes who were present with the squad donated the principal parts of the feed which were supplemented by Miss Viola Taft. Mr. Hughes served in the capacity of toastmaster.

Captain Boyers was the principal speaker of the evening and besides paying tribute to the game of football as the leading sport, he gave some sound advice as regards football policy for the next year.

He also graded the teams which he had seen playing in New England. Other speakers were Mr. Warner, Prof. Hollister, Mr. Guyer, Captain "Art" Mitchell, Manager "Brub" Dow, "Bill" Baxter, "Dutch" Maier, "Rackett" Ricketts, "Beano" Graf, "Dan" Graf, "Fat" Schleichert, and "Perry" Wallace.

FOUL SHOT WINS GAME FOR DASHING JUNIORS Sophs Now in Lead—Juniors and Seniors Tied

Monday afternoon the Juniors defeated the Seniors and the Sophomores triumphed over the School of Agriculture in the second pair of Interclass basketball games.

The Junior-Senior game was very hotly contested, both teams being evenly matched. At the end of the second half the score was 8 all and in the extra five minute period the Juniors were able to win the game on a foul shot by Beisiegel. Boas and Beisiegel starred for the '22 men. Blevins and Wallace played the best game for the Seniors altho the playing of all men on both teams was especially good. The line-up:

Wallace and Blevins, fs; Osborne and Alexander gs; Bowers and Johnson c for the Seniors and Beisiegel and Dean, fs; Boas and Wooster gs; and Mitchell c. for the "Dashing Juniors."

In the Sophomore-School game the Sophomores had the edge on the "Ag" men winning by the score of 12 to 5. The playing of Brundage for the Sophomores was the feature of the game. Lilly and Clark played well for the School: Line-up:

Sophomores: Brundage, Mullane, fs.; Patterson, Emigh, gs; Bolan, c. S. of A.: Clark, Schlott, fs.; Ashcroft, Irwin, gs.; Lilly, c.

The standing of the teams to date:

	Won	Lost
Seniors	1	1
Juniors	1	1
Sophomores	2	0
Freshmen	0	1
S. of A.	0	1

"MOSQUITOES" SUBJECT OF INTERESTING TALK

Dr. Jenkins Gives Clear Idea of Insect Pest

Dr. E. H. Jenkins, Director of the State Experiment Stations, delivered a very interesting address at College Assembly, December 22. His subject was "Mosquitoes." He treated the subject from the economic and scientific viewpoints and in referring to various phases of the mosquito's activity, he interposed some excellent humor. The substance of his remarks is as follows:

The mosquito causes a great amount of economic damage to mankind. As a carrier of malaria and yellow fever it has cost millions of lives and millions of dollars. There are about five hundred species of this insect, about twenty-five being found in Connecticut.

The greater part of the mosquitoes found in Connecticut breed in the marshes along the coast. As the mosquitoes can breed only in wet places, control measures are put into effect there. A light coating of oil over pools of water has a temporary good effect. A better way is to drain these places. This entails the digging of ditches. The state undertook some of this work in 1912 and found that drainage could be accomplished at \$12 per acre. Various places along Long Island Sound have received this treatment. Three-fourths of the cost is paid by subscription and one-fourth by state funds. Other mosquitoes breed in rain barrels or swampy places on farms. These should be controlled by the owner on his premises.

In places where mosquitoes are a menace the cooperation of all people is necessary in order that the danger may be removed.

CLUB CHOOSES THREE MEN TO DEBATE R. I.

Comins, Abbe and Flynn to Argue Immigration Question

A meeting of the Debating Club was held Monday evening in Horticultural Hall. President L. E. Faulkner reported that the subject of the R. I. debate had been changed to read, Resolved: That all alien immigration to the U. S. should be suspended for a period of two years. Tryouts for the debate were held and the following men presented three minute speeches: E. J. Slanetz, R. C. Robbins, R. A. Collins, C. A. Slanetz, H. D. D. Boas, H. E. Flynn, R. C. Abbe, L. E. Faulkner, Commins. The Judges were Professor Vining, Dr. Gumbart, Dr. Denlinger and Dr. Gentry. These Judges decided that the men who should debate for Connecticut were Comins, Abbe and Flynn, with Boas as alternate.

The Club gave a vote of thanks to the Faculty for their services as Judges.

ALUMNI NOTES

A large number of C. A. C. alumni have taken a definite part in the carrying out of numerous projects of the farmer in relation to better application of economic efficiency and business methods.

Dwight Miner of Bristol is the manager of the Bristol territory, while R. H. Buell is Secretary of the Thomaston division. Many others might be mentioned as promoters of the Co-operative Buying Efficiency. This Association has done business to an amount of \$4,000,000 during the past year.

Benjamin Storrs, who was Market Reporter for the Hartford Market has been pursuing a course in Marketing at Columbia. Mr. Storrs will return to his work on January 1. During his absence Robert Belden, '20, has taken charge of the work. After January 1 Mr. Belden will probably be offered another position with the Extension Service.

Richard E. Barry, formerly of So. Manchester, Conn., is now employed as a salesman covering Eastern Connecticut for the Puritan Soap Company of Rochester, New York. His present address is 75 Thayer Street, Providence, R. I. He says Willimantic is on his list and on his next trip around he expects to visit the Hill.

Ed. Granniss, ex-'22, of New Haven is living with "Dick" Barry at Providence, R. I. He is taking an engineering course at Brown University.

George I. Ball has been reappointed to the position of Creamery Inspector of the whole State of New Jersey. His address has been changed to 138 George Street, New Brunswick, N. J.

Mrs. Walter T. Ackermann is leaving on the 23rd of this month for Ames, Iowa, where her husband is taking an Agricultural Engineering Course at the State College.

AG. CLUB NOW PLANNING FOR SPRING CARNIVAL

A meeting of the Agricultural Club was held on Monday evening, to hear the reports of the various committees regarding the recent fair. Plans for the next fair or carnival to be held in the spring were discussed. It was decided that in order to insure a successful Fair next year, plans should be formulated immediately. To follow this up the President was instructed to appoint a nominating committee to make out a list of Committee Chairmen for the Fair next year. This committee was appointed with Samuel Kostolefsky as Chairman.

The Club voted to express its appreciation of the help and cooperation of the Faculty and of Co-eds in making the last affair a success.

Plans are also under way to put on Livestock exhibits and Judging contests some time in the early Spring.

S. B. Morse, '18, is now Assistant Chemist and Bacteriologist with the Onondaga Milk Producers' Co-operative Association. Sam says, although he really never expected to get into the dairy game, he likes the work immensely.

RESIGNS TO AID CHURCH IN FUND CAMPAIGN

**REV. M. DAWSON WISHES TO
BUILD MODEL POULTRY
PLANT**

**Thinks Problem of Rural Minis-
try Can Be Solved By Side-
line Occupation**

As previously announced in the Campus, Rev. M. Dawson, who has taught History 3 for two years past, has resigned from the teaching staff of the faculty, which is take effect January 1st. He has done so because of the pressure upon his time of certain projects he has been developing which are of considerable interest to the college. The first of these is, of course, the plan for raising a fund of \$100,000 or more, if possible, for erecting a church at Storrs which will not only be what Dr. Denlinger calls "a new shrine at Storrs," but which will afford proper facilities to the students, for activities and hospitality.

The second project upon which Mr. Dawson is working is what may be called a "demonstration poultry plant." He is building and equipping what will become a model small poultry plant, to have a capacity of from 200 to 300 hens, illustrating all the new ideas advocates by our poultry department, with facilities for replacement of the stock each year. The purpose of the experiment is to tie up the rural ministry more closely to the agricultural colleges, by proving to them that a man who has a general understanding of agricultural problems, plus the ability to handle some one agricultural side-line in a skilled way, can earn enough from such a side-line to keep him from being forced to the wall by the economic pressure of too small salary.

Mr. Dawson's plant is now operating with 138 pullets, and it is probable that the monthly revenue from even that small number of pullets will prove to be equal to the average wage of the typical rural preacher. When the plant is fully developed, Mr. Dawson thinks it will show that a skilled man living in the country in New England can earn from \$1,000 to \$1,500 a year net from a model small flock, in one-third of his working time.

This model plant, however, will serve other purposes. It will be the only model commercial plant adjacent to the campus, and will offer a good illustration to students and visiting poultrymen, of how to start a one-man plant. It will also afford employment, equal to good scholarship to a student-assistant, to be employed with Mr. Dawson from among the poultry students at the college. To such a student, who demonstrates his capacity and reliability, Mr. Dawson proposes to pay all that the student's labor will reasonably yield. In short, Mr. Dawson would delegate a part of the responsibility for the operation of the plant to the student, thus giving him a fine opportunity to step out, immediately upon graduation, as an experienced and successful man, into whatever larger field might open.

R. I. DEBATING TEAM COMING TO CONN.

**Will Argue Immigration Ques-
tion in Hawley Armory Be-
fore Easter**

The College Debating Club voted to accept Rhode Island's choice of a subject for an inter-collegiate debate, to be held in Hawley Armory sometime before the Easter vacation, at a special meeting held on Monday evening, December 13.

Several weeks ago Rhode Island State College challenged C. A. C. to a debate, and the Debating Club accepted the challenge. Rhode Island proposed several subjects for debate, and was asked to make a definite choice of one, which she did, choosing the proposition: "Resolved, that immigration to the United States should be suspended for a period of two years."

At the meeting on Monday night, the Debating Club accepted the subject and chose the affirmative side. A committee was appointed to draw up a tentative definition of terms, which will somewhat limit the scope of the debate.

In the debate there will be three speakers and one alternate on each side. Each speaker will be given twelve minutes to present his arguments, and the first speaker on each side will have an additional five minutes for a summary and rebuttal. Three prominent men not connected with either college will be selected as judges.

Tryouts to select the best debaters will begin at once, in order that a number of the best men may be preparing material during the Christmas vacation. Students who are not members of the Debating Club are eligible to try out for the Debating Team, and anyone interested should see President L. E. Faulkner as soon as possible.

The plant may also be used later in breeding fine and reliable cockerels for raising the standard of egg-production throughout the State. Mr. Dawson's pen of White Wyandottes, which took first place in the Home Contest with a pen average of 220 eggs, will be the nucleus of this later development.

"The great satisfaction I find in keeping poultry," says Mr. Dawson, "is that I can control both local and general conditions, which the teacher cannot do in his class-room, nor the preacher in his auditorium. If I find a pullet does not lay eggs, she can be sold for meat. If I want to fill a chicken-house I can do so. I can get performance commensurate with the effort I put into it or know who is to blame for the failure. This psychological satisfaction makes poultry-keeping an ideal side-line for the teacher or the preacher, who so often have to deal with intangible results, or no apparent results at all."

Now that he has been relieved of his class in History, Mr. Dawson expects to devote some of his time to writing, having on his hands several requisitions for publications.

FOUR YEAR COURSE in Agriculture, designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements, four-year high school course. B. S. degree.

TWO-YEAR COURSE in the School of Agriculture, for those who have not the preparation, time, funds, or inclination to take the four-year course. Open to those who have completed the work of the common school.

FOUR YEAR COURSE in Mechanical Engineering. Four years of high school work required for entrance. B. S. degree.

FOUR-YEAR COURSE in Home Economics. Open to young women who are high school graduates. B. S. degree.

SHORT WINTER COURSES in Agriculture.

Recent appropriations have provided additions to lands, buildings and equipment valued at \$950,000. Expenses low. No tuition charge to residents of Connecticut. Military instructor. A catalog will be sent upon request.

CHARLES LEWIS BEACH, President.

CLOTH SOLD AT COLLEGE MADE FROM CONN. WOOL

Sheep Club Product Woven By Park Mills in Dayville

With wool market broken to bits and prices low, things looked rather dark for a successful season to the girls and boys of the Connecticut Boys' and Girls' Sheep Club last summer.

A. G. Skinner, wool marketing specialist, came to the rescue, collected twenty-six hundred pounds of wool, mostly from the New Haven and Middlesex County Clubs, added some from the college and sent this to the E. Frank Lewis Company of Lawrence, Mass., to be scoured. The cleaned product was sent the mills of Angus Park in Dayville, Conn., where it was made into cloth for the actual cost of weaving only.

From twenty-six hundred pounds of wool "in the grease" eleven hundred forty-two yards of cloth were made, in three different patterns. Although the existing market conditions made the cloth almost worthless the boys and girls were paid from eighty cents to one dollar per pound for the wool. To offset this expense the cloth was sold to the students of the college and other people around Storrs. The orders have far exceeded the supply so the season turned out to be a success to the boys and girls as well as the other people that were connected in this little project.

1923-Stenog. Baseball—Mar. 10

1923-1924—Hockey—Mar. 17.

1923-1924—Baseball—Mar. 24.

It is hoped that an indoor baseball league for men may be worked in for a Saturday afternoon feature during the dull winter months. The bowling alleys which proved to be considerable of an attraction last spring will be opened again as soon as repairs are made and new duck pins arrive. The fraternity bowling league was very successful last year, and it is believed that it will be organized again this winter. If not, an interclass league will be formed.

Two new features have been added to the Physical Education Department's program for this year. Every student will be required to take part in a public exhibition of gymnasium work which will come about the last week in February, and the gymnasium team from Springfield Y. M. C. A. College will give an exhibition at the College on Friday evening, March 4.

WHY GIRLS LEAVE HOME

Long Beach, Calif.,
November 21, 1920.

Dear Campus:

This is a greeting from two former C. A. C. people who have recently changed their Connecticut abode for California quarters. While we have become real California "boosters," we are very earnest readers of The Campus and will always be interested in Storrs and its people.

Yesterday we met to spend the week-end at Long Beach where one of us is very pleasantly located, and after exchanging Storrs news decided to send you a letter. While waiting for a car yesterday within a stone's throw of the Sierra Madre foothills, who should greet us on her return from a hike up the mountains but Eleanor Aspinwall, C. A. C., '16, who has just come to live in Pasadena. How we all talked Storrs and C. A. C. while waiting for the car.

We two are most enthusiastic over California climate, flowers, blue skies, sunshine, cafeterias, and the friendliness of the people. Don't you wish you had been to dinner with us last night—fresh green peas, French artichokes, barracuda (a Pacific fish), ripe olives, strawberries and cream, accompanied by the strains of "Dardanella," which made the high heeled pumps of one of us jazz under the table.

At this season, just outside the door in the little white court poinsettias twelve feet high are covered with scarlet blossoms while geraniums and roses climb to meet them. A block away the white crested waves of the Pacific are rolling in and several courageous bathers are riding on the waves. Everyone who has a car, from a Ford to a Locomobile, has come to Long Beach for the afternoon.

Good-bye—we're going to join them on the "Pike," the Coney Island of Long Beach, and wish you were all here to go with us.

ELIZABETH M. ELLIS.
MAUD E. HAYES.

POULTRY NOTES

First place in the egg-laying contest this week was tied by W. H. B. Kent, Cazenovia, N. Y., Barred Rocks, and the Old Town Farm, Peterboro, N. H., Rhode Island Reds. Each had 42 eggs. The next four places were held by R. I. Reds. This is the sixth week of the contest.

Mr. Warner recently visited the 23rd Annual Show of the Springfield Poultry Club, where he judged 21 pens of R. I. Reds for egg production.

Professor W. Kirkpatrick spent a few days recently at the Portland, Me., Show, where he judged all of the production classes. There were 1500 birds there. He also gave two or three talks at Portland and at Freeport. This week Mr. Kirkpatrick is at the Bangor show.

Dr. Dunn has returned from Buzzey Institute, Harvard, where he has been completing the arrangement of material for the nine-year report on the Egg Laying Contest, which will be published in bulletin form very shortly.
