NO. 28

The Sigma Alpha Phi fraternity announces the granting of a chapter by the national fraternity of Alpha Gamma Rho, having twenty-one chapters.

CONNECTICUT DAY WILL BE NEXT WEEK TUESDAY

ATHLETIC FIELD TO BE SCENE OF MUCH ACTION

Faculty and Student Body to Forget Studies and Work on Gardner Dow Field. Co-eds to Serve Dinner

Connecticut Day, Tuesday, May 9, the big day for improvements and general clean-up work on the Hill, looms up large on the Aggie calendar and from present plans, promises to be the most beneficial yet held at the College. The faculty executive committee, consisting of Professor Kirkpatrick, chairman, A. W. Manchester and R. G. Patch, met with the student and girls' committees Monday evening when the exact work to be done was decided upon and bosses assigned to the various groups. The men who are in charge of the several divisions of work will choose the men who are to work under them and all work done will be completely organized.

The following appointments have been made:

Track improvements: Coach Daly and W. F. Wood, supervisors with P. L. Putnam, C. M. Van Buren and C. H. Ferriss bosses with 75 men.

Leveling athletic field: H. B. Beisiegel, supervisor with four men.

Repairing grand stand: E. G. Ashman and A. M. Mitchell, supervisors with 15 men.

Repairing tennis courts: H. E. Bolan and R. H. Mathewson, supervisors with 18 men.

Painting signs: Professor Kirkpatrick and V. D. Pinkham.

Improvement of surroundings of Dining Hall: A. W. Frostholt, M. F. Daly and B. S. Juralewicz, with all remaining men.

Under the present plans the track will be widened, rolled and generally improved and the upper end of the athletic field will be plowed, harrowed and leveled in order to eliminate the objectionable rise in that portion of the field. The grand stand is in great need of general repairs, which will be made and several improvements added. At the tennis courts, all but three will be dismantled and the wire, poles and other material used in improving those left. The great work of the day will be in the vicinity of the Dining Hall, where the stumps

CONNECTICUT TRACKMEN DOWN MASS AGGIE IN DUAL MEET AT AMHERST LAST SATURDAY

BLUE AND WHITE COMES FROM BEHIND IN LAST FEW EVENTS AND WINS 72 TO 63

Each Team Wins Seven First Places. Nutmeggers Excell in Distance Runs and Several Field Events. Wood Leads the Connecticut's Scoring.

Mass Aggie went down to defeat at Connecticut's hands for the third time this year when our trackmen romped home from the Bay State Saturday afternoon on the long end of a 72-63 tally. Things looked bad for Connecticut in the early events of the meet but Mass. Aggies lead was gradually cut as the distance and field events were run off.

Seven first places were scored by both teams, while the hammer throw went to Connecticut. The Blue and White scored eight second places to Mass. Aggies' six and four thirds to Mass. Aggies' ten.

Captain Wood led Connecticut's scoring, getting a first place in the broad jump and a second in the mile and the two mile runs for a total of eleven points. Paul Steere flashed across the tape first in the mile run after a pretty race in which Connecticut captured all three places. The quarter proved disastrous to the Blue and White, Atchison of Mass. Aggie winning the event in 54.4 with two other Bay State men closely following. "Larry" Lawson won the javelin throw with a mighty heave of 150 ft. Ashman, Jacoby, Dossin and Slutzky also captured first places for Connecticut.

Summary:

100 yd. Dash—Sully (M), Slys (C), Shultz (M)—Time—10.3.
Mile Run—Steere (C), Wood (C), Jacoby (C)—Time 4 min. 53 sec.
120-yd. Hurdles—Hill (M), Heath (C), Salmon (M)—Time 14.4.
440-yd. Dash—Atchison (M), Pierce (M), McReady (M)—Time 54.4.
Two-mile Run—Jacoby (C), Wood

(C), Alger (M)—Time 11 min. 16 sec.
220-yd. Hurdles—Woodworth (M), Hawley (C), Heath (C)—Time 27.3.
Half-Mile—McReady (M), Alger (M), French (M)—Time 2 min. 7 sec.
220-yd. Dash—Salmon (M), Slys (C), Pierce (M)—Time 23.0
High Jump—Barker (M), Sully (M), Woodworth (M)—Ht. 5 ft. 5 in.
Shot Put—Ashman (C) Twormey (M) Salmon (M)—Dis. 34 ft. 6 in.
Broad Jump—Wood (C), Woodworth (M) Atchison (M)—Dis. 19 ft. 10 in.
Pole Vault—Dossin (C), Holdridge (C), Bates (M)—Ht. 9 ft.
Discus Throw—Slutzky, (C) Noble (C), Mills (C)—Dis. 102 ft.
Javelin Throw—Lawson (C), Smith (M), Purple (C)—Dis. 150 ft.
Total—Connecticut 72—Mass. Aggie 63.

FACULTY SUBSCRIBES LIBERALLY TO FUND

The faculty subscriptions to the Monteith Portrait Fund have been recently handed to the treasurer of the Student Council and amount to over \$150. About \$250 still remains to be raised. The Alumni Association, which has already contributed \$50, has signified its intention of donating a larger sum toward the portrait.

H. A. Greene, who painted the picture, has been commissioned by the Student Council to secure a frame for the painting in New York City. The portrait is now being exhibited in the Athenaeum and later will be shown in galleries in New York City before the unveiling at Commencement.

Due to a change in program the speaker for President's Hour next week will be J. Franklin Babb, a noted Chataqua lecturer.

COLLEGE DINING HALL INSPECTED

EFFORT WILL BE MADE TO REDUCE COST OF MEALS

Frank Longley of Longley's Lunch in Hartford, Gives Comparisons and Makes Suggestions

The treasurer of the college, in an effort to lower the running cost of the dining hall, recently succeeded in getting Frank Longley of Hartford, proprietor of Longley's lunch system, to inspect our system and offer suggestions for its improvement. Mr. Longley is greatly interested in farming and he has visited the college several times to secure information. In addition to being a successful restaurant man, he is president of J. F. Longley & Sons, Inc., who operate a large Holstein breeding establishment in Plymouth, Maine.

There are four Longley lunches in Hartford, all run on the cafeteria plan. These serve 4,000 meals a day. The average labor cost of a cafeteria is about 22 to 24 percent of its receipts, but through the use of a central kitchen and bakeshop and because of the immense volume of business transacted, the Longley system operates with an 18 to 20 percent labor cost. Only one high-priced chef is kept, and the food is transported by auto. Labor cost in the college dining hall is slightly over eight cents per meal, and is no higher than that of the average city cafeteria. The dining hall served 21,556 meals in March at a total labor cost of approximately \$1,704.

Mr. Longley suggested that some of the men who work in the kitchen should also put in time behind the counter serving food, and advised some other minor changes in the handling and serving of food.

These suggestions have already been acted upon. The prices paid here compare favorably with Mr. Longley's prices. The cost of milk to the dining hall is fourteen cents per quart, while the Longley system obtains it for eleven. On the other hand, flour and sugar cost less here. Mr. Longley's method of purchasing meats is about the same as employed here. Both concerns buy cuts and are supplied by the same firms in Boston.

Mr. Longley was pleased with the

(Cont. on page 6 col 4)

ARE YOU?

If you are one of the few who have failed to turn in their special assessment for track equipment, then it is up to you to fall in line. Look up the collector in your section or get in touch with Manager "Chub" Ferriss.

Over thirty-five men are working hard every day in the week in order that the Blue and White may continue to fly high on the track. Coach Daly has visions of a big season and he is devoting his entire time to his men.

You are handicapping their efforts severely by delaying your contribution to track work for the purchase of essential equipment must be withheld pending the securing of finances.

Fall in line, Aggies! Don't delay longer! Today's the day!

AGGIE BALL TOSSERS PILE UP A 7-0 SCORE ON CLARK UNIVERSITY

CONNECTICUT RECOVERS FROM BATTING SLUMP AND POLES OUT ELEVEN HITS

Laubscher, Lord and Sawin all Given a Chance on the Mound. Mullane Relieves Mettelli Behind the Bat in the Eighth.

Coach Tasker's Connecticut Aggie ball tossers accomplished the expected on Gardner Dow field Wednesday in turning back the Clark University aggregation by a 7-0 count. That the Aggies have recovered from their batting slump with a vengeance was plainly evident, eleven hits being garnered off the Clark twirlers, while the Worcester collegians were successful in pushing only one count into the hit column, accomplishing this by a long drive of Lord's first ball when he relieved "Bob" Laubscher at the start of the fourth inning.

Coach Tasker gave Laubscher, Lord and Sawin all a chance to show their wares on the mound, while he sent in Jimmy Mullane in the eighth to relieve Captain Mettelli behind the bat. "Deac" Sawin retired five men in two innings by way of the strikeout routs.

"Louie" Alexander went through the whole game at second, the first time this season, accounting for one turn at the bat with a two bagger. Laubscher and Mettelli both crossed the rubber twice, the first time coming in the second inning when, after a double steal, both came in on a long drive to deep center by "Louie" Ganem. In the fourth inning they repeated the tallying stunt, coming in on a drive by Wetstine.

The fourth frame was a bad one for the Clark heavers, the Aggies battling around once. "Benny" Gordon had a big day with the willow, poling out three healthy singles.

The Megaphone

The Blue and White colors flew high at Mass. Aggie Saturday.

C. A. C. 72 — M. A. C. 63.

"That's all there is. There is no more."

Except that

The untiring energy which Track Coach Daly has expended since his arrival in the Spring has certainly brought results.

The genial track mentor sure knows how to go after results and what's more, he gets them!

The Dual Meet with Mass. Aggie was a success in more ways than one. It not only brought out the fact that track is here to stay and that it is worthy of the hearty support of the student body but it showed that our

neighbors in the Bay State are just as anxious to maintain friendly relations as we are.

There can be no more room for misunderstandings or injustices, real or fancied, which befog the real issue of intercollegiate relations in athletics, namely the development of a keen and friendly rivalry "for the game's sake."

Captain Wood was high man for the Nutmeg State boys, placing second in the mile and in the two-mile and coping off the broad jump with a mark of 19 ft. 10 1-4 in. Good work, after a week's layoff, say we.

In a few more weeks, when Coach Tasker's boys get the hang of handling that club, it will be impossible to stop the onward march of the Aggie nine.

Saturday's game was a humdinger.

Delano, the Springfield twirler, was credited with a no hit game, which may be ascribed in a large measure to the weakness of the Aggies with the stick.

STUDENT BODY HAS NO SYMPATHY FOR SLACKERS

Candidates for Varsity Squads Are Consistently Breaking Training

Aggie men are apt to boast and rightfully so, of the old spirit, that, in fair weather or foul, keeps the Blue and White ever flying in an honorable manner.

Aggie teams in the past have won renown for the strength of character of the men comprising them. Are we in danger of losing this reputation?

For the past few weeks, Coaches Tasker and Daly have given close attention to the spirit in which their charges have observed training regulations.

The majority of men under their charge were found to be observing strict training. All honor to them! Sad to relate, however, our track and baseball squads both contain a fair sprinkling of weak willed Willies, who cannot sacrifice a good time for the interest of their Alma Mater.

An instance of this is shown by the fact that two track men of ability who have notoriously and persistently broken training rules, failed even to place in the M. A. C. Meet.

Another instance of this is the return of six members of the ball squad from Willimantic at one A.M. last Thursday.

NEW SWIMMING POOL TO BE OF MODERN DESIGN

Comparisons Made With Other Pools Throughout New England

In order that the new Dunham Pool which is to be constructed this summer in the basement of Hawley Armory may be up to the minute in every respect, Raymond I. Longley, treasurer of the College, and L. B. Tenney, superintendent of buildings, are making inspection trips to several modern pools in the New England States.

Recently the large pool at Yale University was inspected and its many advantages noted. Several pools in Y. M. C. A. plants throughout the section have been visited and a trip to the modern pool at Dartmouth College is contemplated.

Coaches Tasker and Daly are giving all they have to their respective charges. The students must not and will not countenance this consistent breaking of training rules by candidates for varsity squads.

A man who will disregard even the elementary principles of training is a slacker. He is not an Aggie man. He is not entitled to the privilege of representing the Blue and White. The student body has no sympathy for any man laid off any squad for disregarding training regulations.

SPRINGFIELD COLLEGE HANDS AGGIE NINE A DEFEAT IN SECOND HOME GAME

PHYSICAL DIRECTORS WIN IN FAST GAME, BUT CONNECTICUT HOLDS THEM TO A 3-1 SCORE.

Baystaters Strong at the Bat and Knock Out Eight Hits. Connecticut is Weak in Hitting

Springfield College left the Nutmeggers at the short end of the count in nine innings of fast baseball on Gardner Dow Field Saturday. The Physical Directors reaped in eight hits from "Bob" Sawin, the Aggie moundsman, while the Blue and White were not able to connect for a hit off of Delano, the elongated twirler from the Bay State.

The Aggies lone tally counted when "Benny" Gordon drew a free pass and stole second. "Kid" Brundage drove a hot one to short, advancing Gordon to third, on a fielder's choice. Gordon came home on Sawin's bunt to the initial sack.

Springfield retaliated in their half of the second frame. Civileto reached first through a ball over short. Evans hit inside, reaching first and placing Civileto on second, both advancing on Maynard's bunt. Merri-man then rallied after a count of two and three with a fast drive through second, netting himself two bases and enabling the two base runners to cross the rubber.

Springfield did not score again until the sixth inning. Evans drew a free pass to first, advanced to second and

crossed the home station on a long drive by Maynard midway between left and center field, which netted two bags.

The remainder of the game was a pitchers' battle, marked by brilliant work afield by both teams. Brundage, the Aggie left fielder, made a difficult catch on a foul fly far out of his territory. Berry caught two hot liners between first and second and Emigh netted two long ones out in center field. Neither team was able to score in the last two frames.

Consistent battery work marked the performance of Delano and Sawin, Sawin walking but one man and Delano three. They were both credited with six strikeouts. The game was errorless for both the Blue and White and for Springfield. The Aggies seemed to be unable to connect with the balls pitched by Delano, but by tight field work and consistent playing they were able to keep the final tally to 3 to 1, which is considered a good showing, when it is taken into consideration the team that the Aggies played against.

**FACULTY CLUB HOLDS
ANNUAL LADIES' NIGHT**Various unique forms of amuse-
ment were put on as a source of enjoy-
ment at the annual Ladies' Night en-
tertainment, given by the Faculty in
their club rooms in Hawley Armory
on Thursday evening, April 27.Walter Stemmons, as a traveled
professor, told of his relations with
the people of a certain place called
Storrs. He illustrated his talk with
slides taken from snapshots of the
faculty in daily life. Music for dancing
was furnished by the College Or-
chestra; the bowling alleys were open
and card tables arranged for those
who cared to do either. Following a
tableau, representing the faculty ath-
letes, refreshments prepared by the
chef were served in a most delectable
manner.**JUNIORS NOW REHEARSING
"IT PAYS TO ADVERTISE"**Coach M. J. Farrell has begun the
rehearsals for "It Pays to Advertise,"
the Junior Play. This play is an
amusing three act comedy which was
first staged in the George M. Cohan
Theatre. The scenes are laid in the
New York offices of two rival soap
manufacturers. The first in an old
established firm, and the second is
controlled by Rodney Martin, a young
man of the idle rich class, who is
competing against his father in the
older firm. The plot is well worked
out and contains many laughable in-
cidents as well as a cleverly inter-
woven love affair.The cast is well picked and Mr.
Farrell expresses the opinion that
this will be one of the most success-
ful Junior plays in years.**TEAM WILL PLAY MASS.
AGGIES NEXT SATURDAY**Inspired by the fight and aggres-
siveness brought to light in the Clark
game, Coach Tasker's nine will travel
to Amherst Saturday bent on main-
taining the winning record which the
Blue and White colors have acquired
with reference to contests with Mass.
Aggie this season. The defeats in
football and basketball in Bay State
territory have been repudiated in a
large measure by the success of the
track team at Amherst last Saturday,
coupled as it was with the defeat of
the Bay Staters on the Gardner Dow
field diamond the week before.Captain Mettelli and his cohorts
are certain that they can add the fin-
ishing touches to the work, however,
and to this end the work of the squad
will be devoted today and tomorrow.It is probable that the lineup which
played the Clark College game will
remain intact, the only change being
the replacement of "Bob" Berry at
second by Alexander who appears to
be back in his old time form.It is an even toss as to who will
draw the pitching assignment, since
all three men worked part time in the
Clark University contest. The squad
will make the trip by machine, leav-
ing Hawley Armory early in the fore-
noon.**ALPHA PHI FRATERNITY
HOLDS ANNUAL BANQUET**The annual banquet of the Alpha
Phi Fraternity was held in the college
dining hall, Saturday evening, April
29. A number of alumni returned to
witness the game with Springfield in
the afternoon and to attend the ban-
quet. W. E. Stemmons, honorary
member of the fraternity, was also
present.

The following menu was served:

Fruit Cocktail
Chicken Gumbo Creole
Boiled Eng. Turbot Bechamel Sauce
Duchesse Potatoes
Sliced Cucumbers
Rolls Butter
Roast C. A. C. Turkey
Cranberry Sauce
Mashed Potatoes
New Asparagus Drawn Butter
Pickles Jelly
Lettuce and Tomato Salad
Cheese Crackers
Apple Pie a la Mode
Cafe Noir

CONNECTICUT DAY

Before the next issue of the Campus appears another Connecticut Day will have passed into the great treasury of Time. This is the annual Labor Day of Storrs upon which the plebians and patricians, girls and electricians, profs and mechanics, wrestle with Mother Nature in an effort to wash her face and comb her hair.

No one is exempted from this terrific struggle with the surrounding environment. No,—the meek and the lowly, the proud and humble, the just and the unjust, all transpire, perspire, almost expire as they stagger on and on beneath the tremendous loads of crullers that are passed round and round by our cooks, the co-eds.

Who is that person bending to his task like a coal heaver in the stokehold of a tug boat? Ah! no other than Professor — who will discover about twelve o'clock that he "ain't what he used to be", but never mind, there he is, showing some of the up-rising generation how to manipulate a crowbar.

"Democracy and the Open Shop" reads like a Hicks Prize subject. Here we have a complete demonstration. The democracy of Connecticut Day is rampant and what shop could be more open?

The business of the day is to keep busy, and if the contractor who built the Pyramids could get a look at the activities of Connecticut Day he would realize the puny significance of his little gravestone job for the kings of Egypt.

All in all, Connecticut Day is a combination of a seven ring circus, a clam bake, a street cleaning exhibition and an earthquake. It is a great institution. Its celebration this year should be the greatest in history.

THE HICKS PRIZE

A number of general subjects have been chosen this year for the annual Hicks Prize Essay contest. Every student in the institution should be able to write two thousand words on any one of five or six topics chosen from the thirty-nine subjects listed. No great amount of research work is

necessary or desirable. Your essay will be judged according to its excellence of English composition. Your ability to turn a neat phrase now and then in your English themes may bring you a prize if applied to one of the subjects of the contest. The contest closes on May 27. Paper is cheap and you can borrow ink from your roommate. Don't borrow his ideas, though; use your own and go to it.

THE CAMPUS PHILOSOPHER

There are only a few more Sunday afternoons before the summer vacation, so make the most of them.

— C —

It's mighty hard to have to think up a column of philosophy when you want to go trout fishing.

— C —

What's the fun of sleeping in class if the prof doesn't give a darn?

— C —

We suggest as subjects for companion pictures: Diogenes looking for an honest man and Al Bates searching for a stray golf ball.

— C —

Judging by his actions, the average collegian has absorbed enough religion to realize that he's a long time dead.

— C —

There are days when it's h——l to have to work one's way through college.

— C —

During Junior Week it would be well to bear this in mind: "A class a day keeps the doctor away."

— C —

The new all-college room will allow more quiet in the library evenings. Shell out, ye scholars!

— C —

Fewer studes would sprawl on the campus lawns if they were charged for the seed required to plant the bare spots they make.

— C —

Many of the frosh are already beginning to feel their "sophomoric oats." But remember, '25, the ball field must be rolled for a month more, and the pond is still wet, in spite of Volstead.

— C —

The telegraph service to the Hill will be suspended Connecticut Day. You can't get off that way.

— C —

A good example of genius led astray is the chap who predicts rain for Junior Week.

NO MORE SMOKING IN COLLEGE BUILDINGS

Smoking will not be allowed in the college buildings according to a recommendation made recently by the student affairs committee and approved by President Beach.

The text of the ruling is as follows:

"Students are prohibited from smoking in college buildings other than men's dormitories, except, however, that the director of physical education may at his discretion designate a smoking room in the Armory on special occasions."

EXCHANGES

New Hampshire Day at New Hampshire State College will fall on the third of May this year and a great deal of work is planned for this annual festivity.

— C —

The student council at Williams and Mary College has banned drinking, voting to expel any man found under the influence of liquor after he has once been warned.

— C —

Western Reserve University will have a new school of medicine soon. Plans are complete and evacuations have been started. The building has been made possible by a gift of \$2,500,000 made by Samuel G. Mather several weeks ago.

— C —

The retiring editorial board of The Stute at the Stevens Institute of Technology has just published a burlesque number entitled "The New York Ash Can, dedicated to people who drink." Arthur Whizbang has a column of sapient suggestions.

MAY SECURE CHAPTER OF JOURNALISTIC FRAT.

Two seniors of the publication advisory committee, R. H. Mathewson and H. F. Webb, visited the national secretary of Pi Delta Epsilon, the honorary journalistic fraternity, at New York City during the Easter vacation. Negotiations for a chapter of this fraternity were begun by Mr. Mathewson after the intercollegiate conference at M. I. T. last year, which was attended by four Connecticut delegates. Up to this time no definite arrangement had been made for petitioning the Grand Council of the fraternity, but after conversation with the national secretary at New York, definite information has been obtained. It may be impossible to secure a chapter of the fraternity this year, since the national convention is held in April or May and a petition would be too late for the present year. However, publication men on the Hill believe that a chapter can be obtained next year by sending an immediate petition.

ANNUAL PUBLICATION BANQUET TO BE HELD

Campus and Nutmeg Boards to Meet and Discuss Publications

In accordance with the custom established last year the members of the Campus and Nutmeg boards are planning the annual publications banquet to be held in the college dining hall on the evening of May 15.

Although this banquet is given primarily in the honor of the seniors who have carried on the work of publications at the college, it also serves to bring together the men and women of the college who are interested in and are working on publications at the college. The members of the faculty committee on student publications, Walter Stemmons, R. I. Longley and Professor A. W. Manchester, will give short talks on subjects relating to publications work.

SAFETY VALVE

THE HANDBOOK

Dear Editor:

With the approach of the college year, the editors of the Connecticut Handbook are looking forward to pick their successors and as yet the number of choices seems to be limited.

If the college is to have a chapter of the Honorary Journalistic fraternity, Pi Delta Epsilon, the handbook is to be one of the factors in securing a branch of this organization and the underclassmen that are interested in publication's work should see to it that this book is not neglected.

According to the present editors, there are no freshmen trying out for positions on the Handbook board and there is yet time for the real workers. Freshmen who are interested should report at once to either Editor-in-Chief George Hildring or Business Manager John Oberly.

To the Editor of the Campus:

We appreciate the concern which the author of last week's article has for the unrepresented co-eds, the boys, and the campus in general in regard to the Co-ed Weekly. But may I suggest that it is a good policy not to interfere in affairs that do not concern one. This altruistic spirit is fine, but some discretion should be employed as to the limits of its use.

The Co-ed Weekly got its publicity, not from a "select few of the co-eds who are posing as leaders of the aforementioned paper in an attempt to gain undue attention," but from the boys. They were the ones who advertised the paper around the campus. Once out the news went around like wildfire—but again may I say that the boys did it. Those connected with the paper had no desire to make it known because it was their intention from the beginning not to make it public.

Permit me to assure the writer, however, that the co-eds who see the paper are in no peril of becoming mentally deteriorated and besides they are as capable of judging what is good for them to read as the writer of any other student on the Hill. As for the unrepresented co-eds, they too can take care of themselves.

It seems rather queer but at all other times the boys do not even think of the co-eds, except socially. (In that case, however, the boys enjoy at least half the benefits, if not more). In fact they rather laugh at the girls' athletic endeavors, but where their own curiosity is aroused, then they come out with this plea for the well-being of the co-eds. It's all too obvious!

(Signed) Fair Play.

The Willimantic Chamber of Commerce was addressed by Governor E. J. Lake Tuesday night. Reference was made to the excellent opinion which officials now hold in regard to the college. The Field Day of the Chamber, to be held at Storrs on June 29, was further discussed.

DAVID VAUGHN SPEAKS ON "AMERICAN IDEALS"

Professor David Vaughn of Boston University, reputed to be one of the best speakers in New England, spoke at President's Hour on "American Ideals."

Discussing somewhat the European attitude toward American ideals, Professor Vaughn told how boastfulness is considered by many Europeans as one of the ideals of America; an impression gained no doubt, thru American tourists. Bolshevism, said the speaker is not something that can be prevented or abolished by making laws; it is not a definite thing, but is an ideal. If ever Bolshevism reaches America, he continued, it will not come on Russian steamships but through American profiteers.

"It is time that men began doing their own thinking," said Professor Vaughn, "time that they got away from the impression that a thing is inferior because it is new or different. Instead, men should believe a thing because it is a fact and is true. Suppression of free speech is dangerous, because it leads to tyranny. Liberty is a fundamental American ideal. Custom is a form of tyranny in America. Poverty is another form of tyranny in that it prevents many from realizing their ambitions by means of an education. Poverty requires a man to earn food and clothing and makes it impossible for him to spend money for an education.

"Justice and service are two other American ideals. America has no use for a parasite."

Summing up his talk, Professor Vaughn stated that America's ideals are truth, freedom, justice, equality, service and fraternalism.

PROMINENT ATHLETE IS CONFINED TO HOSPITAL

Arthur Mitchell Attacked With Appendicitis. Operation is Successful

Arthur M. Mitchell, '22, former captain of football and a prominent senior of the college underwent an operation for appendicitis at the Danbury Hospital last Tuesday night.

Mitchell has not been feeling well for the past two days and was confined to the local infirmary since last Sunday.

Reports from the hospital yesterday morning state that "Mitch" survived the operation and all indications are that he will recover in due time.

DEAN LEAVES SCHOOL BECAUSE OF ACCIDENT

Philip F. Dean, a prominent member of the class of 1922, has left college for the remainder of the year, to superintend the operations of his father's place in Glastonbury. Mr. Dean's father met with a very serious accident on April 25, while cranking a truck which happened to be in gear at the time. No internal injuries resulted but he will be confined to the hospital for some time. Mr. Dean will graduate with his class in June.

The Vermont Cynic has recently issued a woman's number.

Take It From The Air

NOT only music, but news, speeches, messages of every sort, are today being picked out of the air.

"How has this come about?" we ask.

The new impetus given to radio development may be definitely associated with the development of the high power vacuum tube, for that made broadcasting possible. And the power tube originated from a piece of purely theoretical research, which had no connection with radio.

When a scientist in the Research Laboratories of the General Electric Company found that electric current could be made to pass through the highest possible vacuum and could be varied according to fixed laws, he established the principle of the power tube and laid the foundation for the "tron" group of devices.

These devices magnify the tiny telephone currents produced by the voice and supply them to the antenna, which broadcasts the messages. At the receiving end, smaller "trons", in turn, magnify the otherwise imperceptible messages coming to them from the receiving antenna.

Great accomplishments are not picked out of the air. Generally, as in this case, they grow from one man's insatiable desire to find out the "how" of things.

Scientific research discovers the facts. Practical applications follow in good time.

NEWSPAPER CONTEST**

Mrs. A. B. Brundage was the winner of the two hundred dollar prize offered by the Farmer's Wife, an agricultural home paper published in St. Paul, Minnesota, and edited by Secretary of Agriculture Wallace.

The topic discussed by the seven thousand contestants was, "Do you Want Your Daughter to Marry a Farmer?" Ninety-four percent of the answers were in the affirmative, as was Mrs. Brundage's.

**FORMER STUDENT WINS
FAME AT BOSTON COLLEGE**

Henry S. Tonry, ex-'20, is the Captain-Elect of 1922 Football Team

Henry S. Tonry, ex-'20, is the captain-elect of the Boston University football team for 1922.

Mr. Tonry entered Connecticut in Sept., 1916, and achieved considerable reputation as a football player. He left college in January, 1917, to enlist for service. It is claimed that he was the first C. A. C. man to enter the war after the declaration of hostilities by the United States. He saw service with the 102d Machine Gun Regiment, and was twice wounded. Mr. Tonry is a member of the Phi Mu Delta fraternity.

(Cont. from page 1 col. 4)

meals served, and thinks the college has a very fine plant. Things are running smoothly and all we need is a larger volume of business.

Commenting on the general situation, Mr. R. I. Longley, college treasurer, says:

In the future our efforts will be towards further reduction in the labor cost. In my opinion it will probably be necessary to serve poultry not oftener than once or twice a month, because we lose money on it. The dining hall does not want to make a profit; we simply want to break even while the college is in session. Few stop to realize that a reduction in cost of one cent per meal means a saving to the student body of \$2,000 per year, on the basis of 200,000 meals served in that time. Dissatisfaction is sometimes expressed at the overhead charge of \$30 per semester which every student who eats in the dining hall must pay; however, this just pays for the labor of serving the food.

The average price paid for a meal on the cafeteria side is twenty-four cents. This is slightly too low, since these are mostly dinners and suppers. Provided the number of students securing breakfast at the cafeteria could be increased, I feel that we could get by with an average cafeteria check of twenty-five cents.

From the standpoint of service, the Dining Hall has had a most successful year, visitors on the Hill often commenting favorably on our systems.

We want all guests to feel that the college is giving them a hearty welcome. I expect to go to a restaurant and hotel convention in Chicago early next month and hope to get some valuable information there."

CONNECTICUT AGRICULTURAL COLLEGE ALUMNI NEWS

HARTFORD CLUB PLANS PROGRAM FOR YEAR

President S. P. Hollister has a Good Stunt for Commencement

The Executive Committee of the Hartford County Alumni Club met recently to plan their program for the next year. This included:

- I. Better Fellowship.
 1. Banquet in fall of 1922.
 2. Club Meetings.
 - a. May—to plan for participation in Commencement.
 - b. October—to talk over football prospects.
 - c. December—to plan social for members and present students.
 - d. February—Business meeting and basketball.
 - II. Assistance to College and Alumni Association.
 1. Help correct mailing list.
 2. Help interview prospective students.
 3. A committee to plan participation in commencement.
 4. Secretary will help supply personal notes.
 - III. Other things.
 1. A membership committee will be appointed to get new members.
- This program will be submitted to the next regular meeting of the club for action.

President Hollister says that the Hartford Club does not need any suggestions for their club stunt at Commencement. He apparently has something up his sleeve. Keep your eye on this Hartford Bunch on June 10th.

ALUMNI NOTES

H. L. Bushnell, '02, is field agent for the St. Louis highway road company. His territory is Connecticut, his address is Baltic.

"Bill" Maloney, '21, has gone to Rochester, N. Y., with the local branch of the Automatic Refrigeration Co.

Edward Grannis, S. A. T. C., who has been with the Western Electric Company in Hartford, has been transferred to the New York office.

Earl Blevins, '21, has recently gone with the Retail Credit Co., of Bridgeport, Conn.

J. S. "Stev" Ricketts, ex-'15, is now located at 114 Prospect Street, Norwich, Conn.

Dan Weaver, ex-'13, following the death of his step-father, Senator Barnes, departed for California to take up Poultry farming.

Herbert Marsh, '08, is a practicing veterinarian at Cooperstown, N. Y.

AGGIE GRADUATE HEADS HIGHWAY DEPARTMENT

PATTERSON GIVES IDEAS ON CONDITIONS OF ROADS

Compares the Views of the Public and the Highway Repair Men

Mr. Irvings Patterson, '05, who is now chief engineer of the Highway Department for the State of Rhode Island in commenting on the highway situation gives the following:

"The professional highwayman in the United States today is engaged in the greatest public undertaking of all time. He is engaged furthermore in a profession which is so recent in its development that a great mass of the public appears to be unaware of its existence. It seems to the professional road builder today that the majority of people regardless of their vocations are expert in matters pertaining to the highways. Almost everyone today is a motorist and perhaps this accounts for the fact that almost everyone admits that he knows a good deal about roads. Those who have been engaged in road building actively during the last fifteen years, therefore, have acquired either a philosophic view or a cynical view of public interest in roads. To the motorist who professes expert knowledge of highways, the road builder very often is provoked to remark that the human race has possessed organs such as we possess today for a great many years, and still the medical profession is respected generally and is comparatively free from intrusion by the laity.

During the past decade or decade and a half there has been a desperate search by road builders to find a panacea for all of the ills which roads are heir to. This panacea appears to be particularly allusive, probably due to the fact there has been no correlation between the activities of the road builder and the activities of the builder of highway vehicles. Those engaged in the latter pursuit have been several jumps ahead of the road builder and so we find the best roads of yesterday are not adequate for the traffic of today, figuratively speaking.

When traffic over highways becomes stabilized and when a great deal of research work has eliminated many indeterminates in the profession to-for specialists and home demonstration more interesting than it is today, but it will be perhaps more satisfactory to those engaged in it. The providing of a system of highways in any community for the traffic of today is a tremendous undertaking. Convincing of the tax paying public that a tremendous expenditure is necessary in order to secure a comprehensive system of modern roads is not the least of the difficulties. The roads of today are a medium of transportation no less important than are the railroads."

CONNECTICUT WOMEN FIND GOOD POSITIONS

TEACHING SEEMS TO BE FAVORITE VOCATION

Many Opportunities for Women who Graduate from College

Nearly all of the women who have recently graduated from the Home Economics department of the Connecticut Agricultural College have excellent positions. Several are successful teachers, while three are nutrition specialists, three are home demonstration agents and two are dietitians in hospitals.

Best of all, women who have taken the Home Economics Course are trained to make better wives, mothers and community leaders.

There is an ever increasing demand for women trained in Home Economics and likewise constantly new developments along that line.

Teaching positions probably still hold first place but there are also very attractive opportunities for those who prefer institutional work either as managers or dietitians in tea rooms, cafeterias or hospitals.

There is usually a greater demand for specialists and home demonstration agents in extension work in Home Economics than can be supplied. Positions in institutional and extension work usually call for persons of more experience and maturity than those who are just completing a college course, hence there is a large field for teachers or others who desire to take further training in Foods, Nutrition and Institutional Management. Commercial firms, welfare organizations and departments of education are adding skilled nutrition specialists to their staffs. These positions pay well and the work is very interesting.

WATERBURY ALUMNI CLUB TO MEET ON MAY 19

On May 19 the Alumni Club of Naugatuck Valley will meet at Cheshire at the home of Mark Bishop, '06.

The program of the evening will include the approval of a program for the current year.

S. M. "Steve" Crowell, '05, of Middletown, Conn., now has 6,000 chicks and expects 3,000 more. "Stev" is carrying 2500 laying birds at the present time. He says he is not doing everything just as he would like to, but he is improving so there is hope for "Steve." His plant and birds really look fine.

George E. Smith, '98, is an engineer with the Connecticut Highway Department. His home is in New Milford, Conn.

DANBURY ALUMNI CLUB PLANS FOR NEXT YEAR

Will Have Good Start at Commencement

The Danbury Alumni Club held their spring meeting at Washington Depot, Tuesday evening, April 25. The purpose of the meeting was to plan the working program of the club for the next year.

The program adopted included the following:

- I. Fellowship
 1. Club meetings at irregular intervals, not more than four a year.
- II. Assistance to the College and Alumni Association.
 1. Help revise mailing list.
 2. Help interview prospective students.
 3. Secretary will help collect personal notes of alumni in area.
 4. A committee to plan the Club's part in Alumni participation.

The Club voted to assess their members to help finance the work of the Field Secretary.

Light refreshments were served by the members.

There were thirty-one present at the meeting and everyone seemed to feel the meeting was worth while.

This Club seems to think they will have a good stunt for Commencement. Let's watch 'em.

E. D. DOW LEFT BACHELOR ROW LAST FALL

"Brub" and "Chink" Ransome Secretly Married in Greenwich

Mr. and Mrs. Donald McPherson of Winsted announce the marriage of their niece, Miss M. Louise Ransome, '22 to Everett D. Dow, '21, of Hartford. The marriage took place at Greenwich, August 1, 1921.

Mrs. Dow was a member of the class of '22 and has been prominent in class and college work during her course at Connecticut. "Chink," as she was commonly known among her girl friends, was secretary of the senior class prior to going into teacher training work a short time ago.

Mr. Dow, or "Brub", as he is more commonly known among his associates, is at present employed on the editorial staff of the Meriden Record. He was very prominent in many lines of college activities while at Connecticut, holding among other things, the position of president of his class during his junior year. He was also manager of football during the 1919-20 season, Editor-in-Chief of the 1921 Nutmeg, Editor-in-Chief of the Campus last year, a member of Gamma Chi Epsilon and the Druids. He is a member of the Phi Mu Delta fraternity.

JUNIORS NOW READY FOR BIGGEST DANCE OF YEAR

Junior Prom Program and Rules Announced by Committee

According to the program for the Junior Prom, as announced by the committee, there will be eighteen dances with three extras. Two of these dances will be waltzes, the rest fox trots. Moonbeams will add to the charm of three numbers.

A ten piece Peerless Orchestra will furnish the music.

Chairman P. L. Steere of the Junior Prom committee announces the following rules pertaining to the dance and decorations for it:

1. The dance will be held Friday night, May 19, 1922, in the Hawley Armory. The price of the dance will be \$5.00 per couple.

2. Concert from 8:00 to 8:30 P.M. Dancing from 8:30 P.M. to 2 A.M.

3. The dance will be strictly formal. Tuxedos permissible.

4. The regular college dance rules will be in effect.

5. All decorations in boxes will be blue and white. Fraternity banners permissible.

6. There will be no decorations from lattice work to the running track, except by the consent of the dance committee.

7. Decorations on all boxes must be down by Saturday noon. All nails, tacks, and other fixtures must be entirely removed.

8. Care must be taken of the Armory equipment, and everything removed must be replaced.

Per Order,
DANCE COMMITTEE.

(Cont. from page 1 col. 1)
will be removed between this building and the athletic field and all underbrush and rocks carted away.

Work will commence at eight sharp and all men are supposed to be at the athletic field several minutes before the hour in order to be at their places when the whistle blows. A new feature this year will be the serving of dinner at the Dining Hall, when the co-eds will replace all waiters and thus allow so many more men to continue their work as long as possible.

Following the custom established last year, supper will be served out-of-doors near the grand stand. W. C. Baxter, assisted by six men, will have charge of the "eats" and a good feed is assured for those who have toiled during the day. An entertainment followed by a dance will be the program for the evening. The plans for the evening are being taken care of by a committee composed of William Graf, Miss Gladys Goldthorpe and Miss Margaret Hall.

Last year the faculty turned out in force and are planning to repeat this year and it is up to the student body to follow this excellent example and to put in a full day of real work for Connecticut.

He Reached the Top

THE Vice-President of a great life insurance company who began his career as an agent has this to say to seniors who are about to graduate from college:

"If you love work and desire to pursue an honorable, useful and lucrative mission in life this is the business for you to take up. Life insurance salesmanship offers a fine field for the energies of the splendid young men in our colleges.

"That this is true is demonstrated by those college men who have taken up life insurance for they have shown that the college man is fit for this kind of a job and that the job also is fit for the college man.

"The work of the life insurance salesman is distinguished by independence and opportunity for directing his own. It gives all possible opportunity for individual initiative and a chance to make an ample income at an age when most fellows are struggling on a wage pittance."

That is the story of one who began at the bottom and reached the top without the help of a college education. The advantages are with you who graduate from college. Before deciding your career make inquiries of the "Agency Department."
