THE CONNECTICUT CAMPUS

PROVIDENCE COLLEGE AT DOW FIELD SATURDAY

VOL. IX

STORRS CONNECTICUT, THURSDAY, NOVEMBER 2, 1922

NO. 6

DID YOU GET A "CAMPUS"

Many complaints are heard about people not getting a copy of the "Campus." There is a circulation department connected with the paper which intends to give everyone a satisfactory deal.

The paper is circulated on the Hill every Thursday night or Friday morning.

In case you don't get a copy of any issue write or see Donald Tucker, circulation manager and he will take care of your wants.

BANQUET WILL FOLLOW RHODE ISLAND CONTEST

ALUMNI WILL BE WELL ENTERTAINED AT REUNION

Dining Hall to be Taxed to Capacity—Student Tickets Sold in Seniority—Music During Banquet.

Capping the climax of the outdoor festivities of our greatest football classic of the year, the traditional Football Banquet will be held in the College Dining Hall at eight o'clock on Saturday evening, November 18.

The full capacity of 300 will be utilized, and the seating is being managed by James Mullane.

At the banquet there will be room for one hundred students, seniority being recognized in allotting the seats. The football squad, guests and alumni will take the remaining room in the hall.

E. O. Smith, former Secretary of the College, will be toastmaster. Following his address, President C. L. Beach will open the impromptu speeches. The president will be followed by Professor A. W. Manchester, Coach J. W. Tasker, Captain Maurice Daly, J. B. Thwing, president of the Alumni Association and "Vic" Aubry of the New York Association.

During the banquet, music will be furnished by the College Orchestra and the Glee Club will also entertain with several numbers.

Student tickets will be handled by Laubscher, Alexander and Lord; seating arrangements by Mullane and decorations by Hildring.

EXTENSION WORKERS IN ANNUAL CONFERENCE

Addresses and Discussion of Plans Occupy Time of Three Day Session

Seventy-five state extension workers met at Storrs for their annual convention October 25-28. The program

ATHLETES TO GIVE INFORMAL DANCE

VARSITY CLUB MEN ARRANGE FOR AFFAIR

Peerless Orchestra of Willimantic to Furnish Music.—Dancing from Eight to Twelve.

Following the custom of giving an informal dance during the football season, the Varsity Club, comprised of the letter men in all four major sports at the college, will give a dance in Hawley Armory Saturday night, with dancing from eight to twelve. This dance, the forerunner of the Football Hop, will follow the game here Saturday with Providence College.

The committee in charge, Paul L. Steere, '23, chairman, Ralph D. Brundage, '23, and Maxson A. Eddy, '25, have engaged the Peerless Orchestra of Willimantic to furnish music for the dance. Refreshments will be sold during the intermission. Programs will be placed on sale at the College Book Store tomorrow.

The purpose of the dance is to raise money for the Varsity Club, the money to be used for emblems for the graduating letter men each year.

AG CLUB PLANS FOR ANNUAL FAIR

High School Teams Will Compete.—May Use Space in Armory Basement This Year.—Dance on Last Night.

Plans for the Ag. Club Fair, to be held in Hawley Armory in December, are well under way. The Ag. Club is planning a bigger and better fair than the one held last year. More exhibits of general interest are to be presented and it is expected that the basement will be used in addition to the floor of the Armory.

For the High School teams there will be judging contests in Dairy, Fruit and Vegetables. There will also be a Farm Management contest, based on problems to be worked out by the various teams. A cup is to be awarded to the High School scoring the greatest number of points.

For the college students there will be judging contests in Dairying, Fruit Vegetables and Dairy Products. The contests will be carried on similarly to, and in preparation for the Inter-collegiate Judging Contests held at the Eastern States Exposition.

The last night of the Fair there will be a dance similar to the one held last year, of which all those who attended have very favorable impressions.

SHEEP WORM REMEDY DISCOVERED RECENTLY

PROF. G. H. LAMSON MAKES VALUABLE EXPERIMENTS

New Cure for a Stomach Worm is Safe and Far Superior to Previous Remedies.—Many Sheep Successfully Treated.

Experiments have been carried on by Professor G. H. Lamson, instructor in Zoology at this institution, for the last three years on the control of the sheep stomach worm which has proved so disastrous to many of the sheepmen of this country. Many remedies have been tried but one that was sure to kill this pest had not been known until recently.

PROFESSOR G. H. LAMSON Who Has made Valuable Experiments on Stomach Worms of Sheep

A solution of copper sulphate of from one to three percent strength was the best of the remedies that had been used, but the animals treated were not cured by this and many of them were injured and some killed by this treatment. The next step was to add varying strengths of nicotine solution and the results were favorable. Next the various strengths of the tobacco dust from which the thick nicotine solutions were made determined by chemical analysis. This showed that it varied from 5 to 3 percent strength. The next attempt was to use a 40 percent solution of the tobacco commonly known as black leaf 40. It was found that a dose of three teaspoonfuls or 15 c.c. to a quart of water made a very efficient vermicide when given in 4 ounces doses. Out of a flock 1000 sheep thus treated only three weak lambs died and practically no worms were left. These doses had to be changed according to the strength of the animals.

It was also found that the condition of the stomach previous to the treatment was an important factor in rid-

REUNION PLANS NOW NEARING PERFECTION

LARGEST GATHERING OF ALUMNI IN YEARS

Details Now Ready for Announcement by Committee.—Rhode Island Student Body May Come.

Plans formulated for the greatest Connecticut Reunion ever held, to be staged on the day of the Rhode Island game, will be carried out under the direction of Assistant Field Secretary Robert H. Mathewson, '22, of the Alumni Association.

Cheer Fest on Friday

The start of the two-day jubilee will come on Friday evening when the two famous cheer leaders, "Brub" Dow, '21 and "Phil" Dean, '22, will conduct a student and alumni "cheer fest" where cheers and songs, old and new, will be rehearsed and the gang tuned up for the big day.

Parade Before the Game

At 1:45 on Saturday, students and alumni will assemble at the Main Building for the parade, which will be formed at this point. Led by the famous Waterbury Drum Corps, the student section will be headed by the senior class with "Joe" Bemont, senior president, at the front. The alumni division will be led by E. D. Dow and P. F. Dean. With the formation of the line, the march will be taken up toward Gardner Dow Field.

Cheering Sections

On the north side of the gridiron there will be three divisions in the cheering sections, the first, nearest to the Armory, for the transient visitors and a special section for the band. The grandstand and one section of the bleachers will be reserved for students and west of this, three sets of bleachers for the alumni, giving in all a solid space for 1000 people on the Connecticut side of the field.

The Rhode Island rooters, whose numbers are an unknown quantity will

(Cont. on page 8 col. 1)

BLUE AND WHITE TO PLAY PROVIDENCE HERE SAT.

Outlook is Good for the Third Victory of the Season. All Veterans Will be Available for the Contest.

Coach Tasker's eleven will line-up against the team from Providence College for the second home game of the season on Gardner Dow Field Saturday afternoon. The visitors have a scrappy bunch but with the rate the Aggies are travelling, it is hardly probable that they will be able to penetrate the stonewall defense of Captain Daley's cohorts. One of the stars of the visitors will be Connors who was one of the shining lights of Rhode Island in the memorable game at Kingston last year.

All the Connecticut men who have been on the injured list have returned to the squad for practice and Coach Tasker will have a goodly number to choose from when he sends his team into the fray on Saturday. Connecticut came through the Worcester game in good shape, not a single serious injury being recorded.

The team is on the home stretch and the coming games should serve to put Connecticut in shape for that football classic on November 18 with her ancient rival Rhode Island State.

MEGAPHONE

Worcester, outclassed by Connecticut, provided good material for the Aggies' second victory.

Rhode Island lost again Saturday and seems to have difficulty in striking a winning stride.

Providence will be entertained next Saturday at Gardner Dow Field and the Nutmeg string of victories should be run up to three.

With the way the team is going it looks good for five victories on the final summary for the season.

The Springfield frosh were fast and heavy but the second team seemed to be suffering from stage fright after the first few minutes of play.

Rhode Island only two weeks from this Saturday. Better stock up with Smith Brothers and Ludens and commence practice for the big cheering of the day.

WORCESTER TECH ELEVEN PROVES EASY FOR BLUE AND WHITE MACHINE

ENGINEERS ARE COMPLETELY OUTCLASSED AND NUTMEGGERS TEAR THROUGH LINES FOR BIG GAINS

Connecticut Wins Second Victory with 26 to 3 Score.—"Marty" Ryan Does Heavy Scoring for Aggies.—Engineers Have Several Good Chances to Score but Final Push is Lacking.—Twenty Points Scored by Victors in Second Half of Contest.

After pulling through several tight places in the first half when Worcester Tech had several chances to score, the Aggies came back strong at the beginning of the second half and completely outclassed the Engineers in the last game of the season that will be played on hostile grounds, 26 to 3. Connecticut seemed unable to get going during the first quarter and Worcester was able to keep the ball in Aggie territory for the greater part of the first half. However, as soon as the Worcester Tech boys got the ball they seemed to be unable to gain against the stone wall defense of the Connecticut line and each time they were forced to punt, most of the punts going over the goal line, giving Connecticut the pigskin on the twenty yard line. Connecticut was unable to gain consistently in the first quarter and each time was forced to punt to midfield. Ryan made the first score of the game in the second quarter when he tore through the center of the Tech line for seven yards and a touchdown. Worcester made her only score of the game in the last minute of the first half, Johnson made a field goal on a drop kick from the twenty yard line, following an offside punt by Eddy.

Second Half Easy

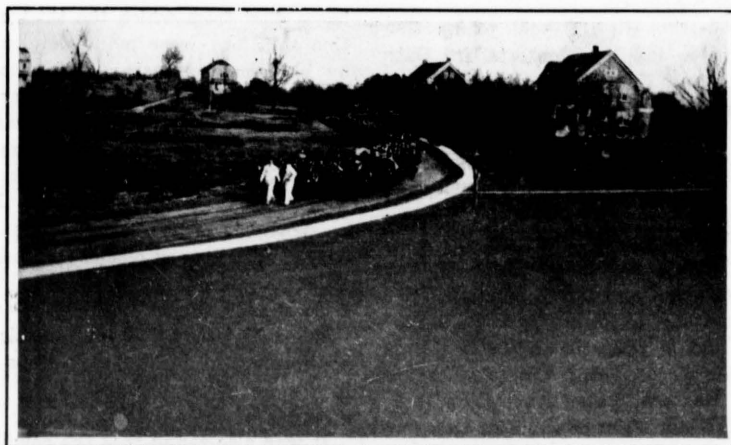

In the second half there was no question about the outcome of the game, the Aggie backs tearing thru the Worcester Tech line for long gains. Ryan, Hurley and Berry alternating at tearing off ten and fifteen yards gains through the center of the Engineers' line, which crumbled like so much paper under the terrific charging of the Aggie line. Ryan carried the ball over for both scores made during the third quarter. In the last period the Aggies kept up their onslaught of the Tech line and "Bob" Berry carried the ball over for the final score. Coach Tasker immediately sent in all the men left on the bench and they carried on the good work, keeping the ball within the twenty yard line most of the time but they failed to add to the score, although an intercepted forward pass which Radovitch pulled down brought the ball to the goal line just as the final whistle blew, stopping a certain score.

Worcester 3—Aggies 6

Captain Daly won the toss and elected to receive at the north goal, but on the kick-off Prentice, who received the short kick fumbled and Berry of Tech recovered the ball on the Aggie thirty yard line. The Worcester backs were unable to make any gains and Johnson kicked over the goal line, giving the Aggies the ball on their own twenty yard line. After trying three plays through the line which did not gain any appreciable distance, Eddy kicked to midfield. Worcester here gained a first down but was again forced to punt. Cohen, receiving the ball, lost it in the sun and Worcester recovered. Neither team was able to gain any ground at all and the first quarter ended with the ball in Connecticut's possession on their own twenty yard line. After trying several plays at the line, Cohen made the only Aggie pass of the game to Dunn, making first down and from that point long gains through the line carried the ball over. Eddy failed to drop kick for the extra point. Eddy kicked off to Johnson who brought the ball to the thirty yard line. Here Worcester was forced to punt and on the return punt Eddy kicked offside on his own thirty yard line. Several plays brought the ball in front of the up-rights and Johnson drop-kicked from the twenty yard line. The first half ended with the score Worcester 3—Aggies 6.

Students and Alumni Parading Before Rhode Island Game Two Years Ago

SPRINGFIELD FROSH WIN LOOSE GAME

Scrubs Play Weird Football and Opponents Run up Big Score on Fumbles and Poor Tackling—Final Tally 37—7.

Springfield freshmen experienced little difficulty in running up a 37—7 score against Connecticut's scrubs on Gardner Dow Field Saturday. Many of our second string men had been taken to Worcester, thus weakening the team considerably. Springfield uncorked a fine passing attack, which coupled with a strong offensive, gave them the upper hand at all times. Poor tackling and frequent fumbling marred the work of the seconds, especially in the last quarter, when the team crumbled and the red and white scored twenty-four points. Just before the whistle blew, however, when the Bay Staters were on a drive that threatened to culminate in another score, Swem intercepted a pass and raced seventy-five yards up a clear field for Connecticut's only touchdown. He added a point immediately afterwards with a perfect drop kick.

The line play of Captain German of Springfield, former Lafayette freshman star, was outstanding. He was all over the line and followed the ball closely, intercepting an Aggie pass and nailing a fumble in front of the goal. J. Shaw also played a great game for Springfield. He kicked four out of five drop kicks for points after touchdown, ran twenty-five and eighty yards respectively for touchdowns after catching forward passes, and drop kicked a forty yard field goal successfully.

Swem starred for the Aggies. "Red" Thomson, his former team-mate at East Hartford High, also played a good game, as did Wehger and Donahue.

Touchdowns: J. Shaw 2, Fuller, Persky, Mathias, Swem. Points after touchdown: Drop Kicks, J. Shaw 4, Swem 1. Substitutions: Connecticut, Eyre for Peck, Press for Balock, Malumphy for Fellmar. Springfield, C. Shaw for Elliott, Bond for Shafer, Hamlin for Bond, Jones for Hamlin, Brooks for Crawley, Dietrick for Brooks, Grenagle for Persky, Vivvets for Fuller. Referee: Guyer. Umpire: Zimmerman. Head linesman: Ricketts. Time: Four twelve minute quarters.

Dont forget the Varsity Club Dance Saturday night. All funds will be used in giving emblems to graduating letter men.

INJURED QUARTERBACK HAS BROKEN HIP

Rabinowitz Who Was Injured Last
Week Now in Hartford Hospital

Joseph Rabinowitz, quarterback of the scrubs, who was injured in football practice last week, is resting as comfortably as can be expected in Hartford Hospital with a broken hip. The accident occurred a week ago Tuesday and at the time the extent of the injury was unknown. Rabinowitz was attended by Dr. Simonds, the college physician, who ordered an X-ray to determine the exact nature of the hurt. The result showed that the lad was suffering from a fracture of the hip and he was removed to the hospital in Hartford by a private ambulance.

SIDELINE CHATTER

"Red" O'Neil was pretty hard on the Worcester backs, several of them being forced to take the count after he tackled them.

"Archie" Cohen got a surprise when E. Eddy, the center, passed to him on a kick formation instead of to M. Eddy, the regular kicker. "Archie" was game however and gave the ball a good boor.

"Mac" Eddy seemed to have considerable trouble with his punts, not being able to get off one good one during the game.

The contest between the Berry brothers now stands two to nothing in favor of "Bob". Make it three—nothing when you meet in basketball, "Bob."

"Marty" Ryan seems to have reached his stride at last and has made three touchdowns in each of the last two games. It's a good habit.

"Archie" Cohen was forced to leave the game in the last part of the first half because of his infected foot, and Moreland took his place at the helm.

Nearly every play time had to be called out while the players worked over some Worcester player who could not stand the gaff.

Connecticut tried only one forward pass and it worked. Worcester must have tried twenty-five in frantic efforts to score a touchdown. All of these failed with the exception of two which gained about ten yards apiece.

The new barracks recently erected in the rear of Storrs Hall are now in use by the Two-Year men. The building has been completely furnished and at night its lights add to the brilliance of the campus illumination.

MEDIATOR RULES

The Mediator wishes to call attention to the fraternity rushing rule that forbids freshmen to eat at the same table with upper classmen.

CONNIE SAYS

Much favorable comment has been aroused by the appearance of the new golf hose at the College Store. They are the product of National Sports-wear Company of New York, a firm which specializes in college wear. The socks are of the latest designs and colors and woven from the best material obtainable. At three dollars the pair they are a wonderful bargain and several of the leading style-plus students have announced their approval by buying early. The supply is limited, so get yours now. Pay day is today.

Orders for knickers may be left with the manager of the Connecticut Co-op. Everything that's new in style and snappy cloth, with the damage so low that "Connie" bought a pair himself. Names of satisfied buyers on request.

After a full evening on the floor of Hawley Armory at a dance the inner man must needs be satisfied and in order to accommodate the hungry hordes the Lunch will be open after the Varsity Club dance Saturday. The new chef will positively be on hand and the menu will consist of cold meat sandwiches, java and pastry.

In the future, all church goers and other late risers, will have the privilege of enjoying a light repast from nine to ten in the breakfast room of the Lunch. This innovation has been made with considerable difficulty and it is hoped that the volume of patronage will warrant its continuance.

A large humidor of Edgeworth for a dime. No coke but honest facts. The store has received six jars of Edgeworth, \$1.75 variety, and will sell chances on them at the low price of ten cents per pasteboard. Only eighteen chances to a jar and consequently each and every ticket has a good chance of winning the "turkey." Ryan is cleaning a place on his desk for one, so get busy.

BACTERIOLOGISTS TO MEET AT NEW HAVEN

There will be a meeting of all bacteriologists and all those interested in this study in Kirtland Hall, on the Yale Campus, Hillhouse Avenue, New Haven, Friday afternoon, Nov. 3. All bacteriologists are cordially invited to attend.

The following are planning to attend: Miss C. J. Mason, C. C. Ellis, K. Bryant, T. Hilton, L. Faulkner, C. A. Slanetz and E. J. Slanetz.

CONNECTICUT ALUMNUS PUBLISHED THIS WEEK

The Connecticut Alumnus will appear this week carrying a front page cut of the team that swamped Trinity. This issue will be sent to over 1000 active members of the Alumni Association.

FRESHMAN FOOTBALL

Year after year here at Connecticut it is the same old story in athletics—developing our teams from a bunch of freshmen, many of whom do not even know the rudiments of the game and some of whom have never before handled the ball in this prospective sport. How many stop to think of the time, the expense, and the general waste this policy of allowing freshmen to play on our varsity team costs?

Other freshmen who have a mediocre ability, or perhaps it borders the "star" class, come to Connecticut and they are short of finances. In order to induce them to remain here they are given loans of money by the alumni association or from some other source. At the end of the freshman year, if they have made good in their studies and perhaps played a mediocre game in some of our sports, they leave and go to some other institution. Next year the process begins over again with the same waste of time and energy to say nothing of the loan that has gone from the college, perhaps never to return again, for few care for the institution if they leave after being here but one year.

The college has reached the stage where the one year rule, now in force in colleges of the country, could be passed. This would do much good work toward producing better teams to represent the Blue and White. Freshmen would be trained by men who have the time to teach the rudiments of a game they would be given a chance to show the abilities in their studies during the first year. At the beginning of the sophomore year when they report for a tryout for a team they are as good as seasoned men and can be taught the tricks and advanced "dope" of a game. No one coach can successfully handle fifty men, as is now being done in football, and train some men in the bare fundamentals of the game and at the same time give the proper amount of time and the coaching to a crew of men that are to represent the college

in athletics. At the present time there are men enough in the athletic department to warrant a division of the squad into the varsity and freshmen group without additional expense.

Again, after a man has showed his ability during the freshman year, if he warrants it, he may be given a loan to help him defray the expenses of the college with a good amount of assurance that the money will be paid back at the proper time. Men who spend two years at Connecticut usually stay until they get their degree and are then loyal alumni of C. A. C.

A freshman team would scrimmage against the varsity and would be playing games with Trinity freshmen, Mass Aggie, or any other of the smaller New England colleges, in many of which the one year rule is in force.

A ruling that all men must be enrolled in the institution for at least one year before they be allowed to participate in any varsity athletics would do much toward giving Connecticut better teams. It would also be a great saving in time and often in money in form of loans from the alumni association that are often mis-used or wasted at the present time. Freshmen would acquire the habit of studying in their first year at the college and then in their sophomore year they would be in good scholastic standing and would know the first principles of the game they wished to play and they are men in a condition to be developed into a good varsity team that is capable of making a record of which any small college could be proud.

THIEVING OF SIGNS

We have heard of various kinds of kleptomaniacs but the latest has developed among the fellows who aim to make a collection of pretty pictures. Quite like grammar school days, is it not?

The Advertising Club is doing good work for the different activities of the college. On nearly every occasion of note there are neat well-made signs posted in the proper places for the purpose of advertising the event. It often happens that some one stoops so low as to remove the sign before its natural life has passed away or even before the maker's beck is fairly turned from pushing the last thumb tack into place.

Hand-made signs may be a good room decoration but people who desire to display advertising on their walls should be considerate enough to let the sign remain before the public as long as it is intended to serve as an advertising agent. If it is merely good pictures some childish-like hoarder desires, we would suggest a visit to the Five and Ten where a few nickels will purchase a good supply.

Men in the Advertising Club work hard to produce an attractive sign and they should be given a fair deal.

Signs on the Bulletin in the Main Building are often removed for unknown purposes or just because some one desires a thumb tack to advertise for his own benefit. It would be well for us all to be a little more considerate of other people's wants.

THE R. I. GAME

In the hands of the alumni of our colleges rest the greater part of the development and growth of our modern educational institutions. It is this body of men who have gone out into the world and achieved success and who, from the love they cherish for their Alma Mater, work long and hard to help her climb the ladder of Fame.

Our own alumni body, altho comparatively small, has achieved much good work during the past years.

The alumni reunions at Commencement have done much toward bringing the alumni together and uniting them for the good of the institution. The monstrous reunion planned for November 18, the day of the historic gridiron contest between Rhode Island and Connecticut, is another connecting link.

The reunion, coupled with a game and banquet this year, is expected to cause all the alumni in the surrounding country to lay aside the daily tasks and visit a certain spot known as Storrs, that is nestled in among the Hills of Mansfield. Many of the fraternities are also planning informal reunions at this time.

Sleeping accommodations will be provided by the committees in charge of the festive program for the weekend and everything to give the alumni a rip-roaring good time is being looked to. Let's see you here, Alumni!

THE POINT SYSTEM

Many of our college activities are now suffering for want of efficient leaders and all because the leaders are too heavily loaded with activities. It is far better for the college, the activity, and for the individual that only a certain amount of time be given to activities and to have that amount small enough to keep the individual within his own limitations. This will avoid the cases where some individuals have so many activities that they only half do any of them or that they slight their studies in an attempt to keep up with the standards of their activities.

In the near future the Student Senate will bring a plan before the student body of a system that will allot each activity a certain number of points, based on the time each activity requires, and no person will be allowed to carry more than a fixed number of activity points at any one time. This will in no way prevent men from entering more than one sport during a year nor will it interfere with men who are now holding offices. It is intended to prevent men from overloading with activities and then letting everything slide by, with the college and the activity suffering the consequences. It is merely a preventative that once in effect will produce no hardships and will do much good.

The Student Senate has made reports on the financial standings of the various publications of the college to the faculty committee on Student Publications, of which Mr. Walter Stemmons is chairman.

SAFETY VALVE

SLACKERS

Dear Editor:

In the issue of the Campus for last week I notice mention of the fact that the girls' Literary Club has not been heard from for a long time. I wish to add a bit to that brief discussion.

As I understand it some of the girls were elected to take charge of the organizing of the Literary Club. Are these girls asleep?

It is a shame that a club of that nature that can do so much good among the girls be left to pass out of existence because the person or persons appointed to the responsible position of looking after the club are sleeping at the post.

The girls have often complained that they have not been given a show. Now when they have, they loaf. I should like to see the Literary Club show signs of life. It would indeed be a bad state of affairs if some fellow called some of the girls slackers.

—Energetic.

COLLEGE DAIRY HERD SHOWS IMPROVEMENT

The Jersey cow, Star Robin Storrs, which was fourth in a class of twelve animals at the Hartford Fair, and with her sister stood third in Produce of Cow, has just finished a 200-day test and is due to calve again in two days. She has easily fulfilled the requirements of production and reproduction necessary for registration in the Jersey class A. A.

Star Robin is the highest record Jersey ever bred by the college.

AWAKE! PRESS CLUB!

For various reasons many of the activities of the college were slow in getting started this year—some were slower. The Press Club is one of the latter.

Six weeks of the college year have already passed and this organization has not held a single meeting. One or two have been attempted but these only in a half hearted manner.

Perhaps the leaders of the Club are not altogether to blame for this laxity but they have not been over-ambitious in carrying out the work of the Club.

Last year the Press Club did much good work in sending the news of the college to the papers of Connecticut and of neighboring states. The way was paved for more good work to be achieved this year. The opportunity still exists but it looks as if the good organization of the Press Club has been left to die in its tracks, without a struggle, because the leaders are too engrossed in other activities or because they wish to rest on their laurels of the previous year.

KAMPUS KLIPS

Meow!!

Once I had a little bird
And his song
Was the sweetest ever heard;
He is gone;
Some cat got him.

Once I had a white pet mouse,
He was great;
Wiggly, dancing little mouse,
He is ate;
Some cat got him.

Once I had a lovely beau,
Had a bus;
Lots of cash to spend, you know;
I could cuss!
Some cat got him!
—Pennsylvania Punch Bowl.

Frosh: "That guy Ryan is some wise egg."

Other Frosh: "How come?"

Frosh No. 1: "Why he says that he is going to have a Pyrene buried with him when he kicks off."

Heard in Soils Class

Hill: "Don't they plow the green straw into the ground for fertilizer?"

Thompson: "You never see green straw."

HOW ABOUT IT C. A. C.?

At one of the dormitories of a well known college two young housemaids were comparing notes on academic life.

"Well," said Norah, dimpling, "the faculty has brains, and the college girls have the clothes; but believe me, the maids have the looks!"

—J. B. Fullerton Co.

(Cont. from page 1 col. 1)

was opened at a session in Holcomb Hall on Wednesday, by an address from Director H. G. Baker in charge of state extension work.

Following Director Beker's address, A. K. Merritt, of the United States Department of Agriculture at Washington, spoke to the state workers on the psychology of extension teaching. Another speaker from Washington, H. W. Hochbaum, used as his subject, "How to Increase Our Volume of Business." He was followed by Prof. A. W. Manchester of the faculty, whose studies in farm management in the state have led him to believe that we should adopt the economic viewpoint in program making.

A supper and entertainment for the extension workers was held in the church vestry Wednesday night. The supper was in charge of the Home Economics Class in Institutional Cooking. The feature of the evening was a mock hearing before the Appropriation Committee of the Legislature. Members of the extension staff took the various parts.

Thursday the state workers began formulating their programs for the year and at a joint meeting on Friday afternoon all the programs were discussed and the conference brought to a close.

The Time Is Here To Feed Up

WITH \$40.00 worth of good Buffalo Corn Gluten Feed and Diamond Corn Gluten Meal Mixture, well fed with good roughage, you can produce at current prices \$170.00 worth of milk.

These feeds to be found in every good dairy ration and in every live dealer's stock.

CO-EDS PROPOSES TO COOK FOR BANQUETS

GIRLS SERVED STATE EXTENSION WORKERS

Home Economics Class given Practical
Experience in Cooking for Large
Numbers.—Will Prepare Suppers
and Lunches for Groups, if Occasion
Arises.

Not only are our co-eds now learn-
ing to cook delectable tit-bits for the
individual which they hope some day
to meet, but they are being taught to
prepare what might be termed "mass
meals," repasts for those who patron-
ize cafeterias, lunch rooms, banquet
halls, automats, and other institutions
of culinary fame.

"Institutional Cooking" is the name
of the course in which our junior and
senior girls are now wielding a wicked
tea kettle and burning their fingers
on the hot laboratory stoves of Hol-
comb Hall. Many Home Economics
grads are now being called upon to
manage the school lunch rooms as
teachers in secondary institutions, ac-
cording to Miss E. Sprague, Dean of
Women, and for that reason the course
is being given.

To teach the co-ed how to prepare
and serve meals in large quantities is
the aim of the course. It seems that
the girls are anxious to practice on the
members of the community and will
not pass up a chance to prepare sup-
pers or lunches for groups who may
wish to spread a large table cloth at
any time during the college year. As
a matter of fact, the co-eds have al-
ready demonstrated their ability along
culinary lines at a recent banquet of
State Extension workers given in the
church parlors. The girls prepared
and served a four course dinner for
seventy-five members of the Extension
Service who complimented the cooks
on the excellence of the meal.

It can be readily seen that our co-
ed cooks can offer references with
their applications.

EIGHT PIECE ORCHESTRA TO GIVE CONCERT

College Musicians Rehearsing for Big
Event.—Playing Regularly for Sat-
urday Night Dances.

At the opening of the college year
the College Social Committee engaged
Mrs. M. J. Farrell to be manager of
the College Orchestra. Under the di-
rection and management of Mrs.
Farrell ten students have been rehear-
sing regularly. The pieces are as fol-
lows: Piano, H. Mannierre; Violins,
H. Mooz, A. Bulbulian, J. Jacoby;
Drums, F. L. Leary; Saxophone, L.
Hitchcock; Banjo, A. Marcus; Oboe,
L. Kenneth; Cornets, V. Weiss and R.
Robbins.

A five piece orchestra has been fur-
nishing music for the Saturday night
dances, and the manager is prepared
to furnish an excellent eight piece or-
chestra at any dances. The playing is
steadily improving and is being espe-
cially directed toward a concert to be
given about the first of January.

DR. GUMBART GIVES INTERESTING LECTURE

"Paris and Peaceful France" is Sub-
ject of Illustrated Talk Last Wed-
nesday Night.

On Wednesday evening at seven-
thirty Dr. Gumbart gave an illustrat-
ed lecture in Main 7 on "The Tourists
Paris and a Peaceful France." The
lecture was given under the auspices
of the Romance Languages Departmmt
and was well attended. Dr. Gumbart
spoke from an intimate knowledge of
his subject and presented the lecture
in a very interesting manner. The
lecture was illustrated by very beau-
tiful colored, sepia and ordinary slides
which gave an added touch of color
and interest to the talk.

Edgar Tucker, ex-'06, is now in
charge of the extensive watersheds
of the Bridgeport Hydraulic Company.

(Cont. from page 2 col. 3)

ed off, kicking over the goal line, and
Worcester put the ball into play on
the twenty yard line and punted im-
mediately to midfield. Tech's line went
to pieces and the Aggie backfield took
turns at making first downs, Ryan
carrying the ball over through the cen-
ter of the line. Eddy again failed to
score at drop-kicking. The Aggies
kicked off to Johnson, who was down-
ed on his fifteen yard line. Several
line bucks failed and Johnson kicked
to Moreland who brought the ball back
fifteen yards before he was downed.
Another march down the field took the
ball over, Ryan making the score.
Eddy added one point with a drop
kick from scrimmage. Although they
threatened to score several times more
in the period, the quarter ended with
the ball in Connecticut's possession on
the Worcester twenty-yard line. Sev-
eral line bucks gave the Aggies first
down on the ten yard line and from
there "Bob" Berry went through cen-
ter for another score. Eddy was suc-
cessful at drop-kicking, making the
score Connecticut 26—Worcester Tech
3.

For the remainder of the period,
Connecticut continually threatened but
was unable to add any points, and the
game ended just as Radovitch was
downed with an intercepted forward
on Worcester's five yard line.

Summary

AGGIES	WORCESTER
M. Eddy, Radovitch le	Berry
O'Neil, Bolan lt	Wilcox

Berry; field goal, H. Johnson; goals
after touchdowns, M. Eddy (2). Ref-
eree, Madden, Amherst. Umpire, Rog-
ers; Hill School. Linesman, Larkin,
Holy Cross. Time 12 minute periods.

CAMPUS PHILOSOPHER

Today's philosophy springs from the senior who was asked to define speed.

—C—

"Speed," he replied, "is a relative term. For instance, there's the speed of a co-ed and the speed of a race-horse."

—C—

And the prof. said "Very good."

—C—

Honi soit qui mal y pense!

—C—

Who'll be the first co-ed to don the outer coverings of the male and invade Connie's lunch at midnight?

—C—

For it must be tough to stay in Holcomb Hall when the odor of hot coffee and hamburgs is abroad.

—C—

Hallowe'en Masquerade, Varsity Club Dance and Football Hop . . . Who said most of one's money went the first week of school?

—C—

Now that it's getting colder, the co-eds can study evenings.

—C—

Or converse in the library.

—C—

You can't win a game on last Saturday's score.

MOONLIGHT STROLLERS SHOULD AVOID WIRELESS

Complicated Ground System Near Mechanics Building May Prove a Trap for Lovers.

The moonlit evenings of October are very seductive for romantic people, and others inclined along the same path, who desire to stroll under the stars and admire the scenery. Persons so afflicted, if the malady may be called such, are inclined to become forgetful of their surroundings and wander from the beaten paths.

Many examples of this sort are never heard of but one striking incident has recently come to the attention of the college sleuth. The new wireless outfit has a very complicated ground system which covers a considerable area in the vicinity of the Mechanic Arts building. Of late the operator has been troubled by the fact that on several occasions the aerial has been damaged by collisions with various and sundry individuals. As the aerial is stationary it is obvious that the damage could have been caused by none others than the individuals mentioned above.

As trespassers are liable to become entangled in the wire and find themselves hopelessly confined and as winter is approaching it is hoped that no longer will the lovelorn saunter thru the workings of the ground system.

"The Girl He Couldn't Leave Behind" is the title of the play selected for the Football Hop. Tryouts have been held with Miss Louise Benn in the leading role of Lila Corners supported by Donald Bassett as Felix Pendleton.

LECTURER AND EXPLORER ADDRESSES STUDENTS

L. O. Armstrong of the Bureau of Commercial Economics Tells of Life in the Northwest. Slides and Movies Add to Lecture.

"The Headwaters of the Columbia River" was the subject of a lecture given by L. O. Armstrong of the Bureau of Commercial Economics at Washington, D. C., to a large audience in Hawley Armory last Thursday evening.

Mr. Armstrong was very familiar with the life in the woods of the northwest section of the country, having been an explorer for governments and railroads for forty years. He has also lived with and studied the Indians and the frontiersmen. The Canadian Government selected Mr. Armstrong to put on the Indian pageant at the Tercentenary celebration of the founding of the city of Quebec.

Mr. Armstrong was in charge of the pageant celebrating the discovery of Lake Champlain. He is also one of the founders of the Alpine Club.

Lantern slides and two reels of moving pictures which showed the life in the wilds and the life of the Indians as characterized in the pageants, added to the interest of the lecture.

ZOOLOGY DEPT. HAS NEW HEADQUARTERS

Apartments in Main Building Remodeled Into Classroom, Offices and Laboratory

The Zoology Department of the College has secured the use of the apartment on the south side of the Main Building to accommodate the ever growing needs of space for classes and laboratories for the numerous courses in Zoology.

Two years ago the department was used by stenographers who have since been accommodated in Holcomb Hall. Last year the rooms were used by Earl Moore, instructor in Mechanical Engineering, who has moved to Whitney Hall.

The several rooms comprising the section have been remodeled to suit the needs of the new occupants and room provided for careful individual study. A laboratory and class room for advanced Entomology courses occupy two of the rooms with offices for Professor Lamson, head of the department and Mr. J. A. Manter, instructor in Entomology, utilizing the remaining space.

GAMMA CHI EPSILON TO HAVE INFORMAL PARTY

The active members of the Gamma Chi Epsilon Honorary fraternity will assemble for a business meeting and informal party with the honorary and alumni members at the Phi Mu Delta House tomorrow evening.

The honorary members of the organization are: Dr. Edmund W. Sinnott, President Charles L. Beach, Dr. Howard D. Newton and Professor G. H. Lamson.

Following a short business meeting light refreshments will be served.

HALLOWE'EN OBSERVED BY MASQUERADE IN ARMORY

Many Unique and Colorful Costumes Worn.—Prizes Awarded to Miss Benson and "Brad" Ricketts. Affair Great Success.

The masquerade which was given by the girls on Hallowe'en night proved a very enjoyable affair. The Armory was decorated with orange paper, pumpkins and corn stalks, which created the proper Hallowe'en atmosphere. Practically every one who came was in costume. Bradford Ricketts, a cannibal from the Fiji Islands, was led into the hall by "Wally" Houston, his trainer. They were both cleverly costumed. Miss Blanchette, who came as an Irish woman, was one of the features of the evening. Almost every type from a sheik to a hobo was represented.

After the grand march, the prizes were awarded. Miss Benson, who wore an orange and black Hallowe'en dress received the prize for the most attractive and appropriate Hallowe'en costume and Bradford Ricketts, who came as the Wild Man of Borneo, was given the prize for the most original make-up.

During intermission Miss Louise Benn's dancing class entertained with a group dance and Miss Benn danced "Pierrette."

The patronesses for the affair were Miss Sprague, Miss Scharfenstein, Mrs. Lundberg, Professor and Mrs. Davis. Cider and doughnuts were served during intermission. The college orchestra furnished music for the dancing. Funds from the masquerade will be used to help pay for the girls' piano.

LADIES' CIRCLE PRESENTS PLAY IN COLLEGE CHURCH

Members of the Ladies' Circle of the church presented "The Old Peabody Pew" in the Church on the Campus last Friday evening. The play, written by Kate Douglas Wiggin, was given as a means of raising money for the Church Fund. It is expected that the play will be repeated at Mansfield and again at the Center.

(Cont. from page 1 col. 4)

be accommodated on the opposite side of the field. Rumor has it that the entire student body, led by a band, will invade Storrs, but no authentic report confirming this rumor has yet been received.

The game is yet to be decided but all other arrangements have been carefully attended to. Pennants will be on sale for two bits each by Ralph Brundage and Louis Metelli.

The traditional bonfire will follow the game with the lofty Rhode Island pyre erected by the freshmen, where the game will be played over again by the team and spectators and a great assemblage of Connecticut men will honor the team representing Connecticut Aggie.

(Cont. from page 1 col. 3)

ding the animals of these parasites. The nicotine was much more effective if the animal had been without food for 18 hours previous to the treatment.

While the nicotine sulphate is an active agent and effective vermicide, the stomach worm is by no means controlled merely by drenching the sheep. The stomach worm lives over the winter in Connecticut on the pastures and is active again throughout the summer. The worst enemy of the stomach worm is dryness and it especially likes moist places.

Dosing the animal with epsom salts before and after the treatment is another factor in getting rid of the stomach worms. This is usually done 12 hours previous to the dosing and again 24 hours after the first dose.

All that can be done to increase the range of pasture helps the effectiveness of this remedy. The nicotine sulphate, although it is exceedingly effective, holds no magic that kills the worms that remain in the pastures, nor does it free the sheep from these parasites unless the proper measures are taken before and after.

M. Fresen, ex-'23, is now enrolled in the Ohio Northern University. Fresen was enrolled in the Mechanical Engineering Course while at Connecticut.
