MINUTES OF THE MEETING  
OF THE  
BOARD OF TRUSTEES  
THE UNIVERSITY OF CONNECTICUT

Held in Storrs

December 16, 1970

The meeting was called to order at 10:10 a.m. by Chairman John J. Budds. Trustees present were: Messrs. Bishop, Budds, Gill, Holt, Marcus, Maxcy, McCormick, Nielsen, Tasker and Waller.

2. The Trustees asked Mr. Bailey to convey their appreciation to Francis Kelley, Superintendent of Mansfield Training School, for his very thoughtful Christmas gifts.
3. Provost Gant informed the Board that the faculty of the School of Pharmacy after a year of study has supported the view that orderly growth and development of the school is intimately related to formal organization of subject area groups. On the Provost's recommendation, THE BOARD VOTED to approve the establishment of the following academic Sections:

  - (2) Medicinal Chemistry and Pharmacognosy
  - (3) Pharmaceuticals

Copies of the final report will be distributed in the near future.
5. President Babbidge, commenting on the recent fire damage to the ROTC building, reported that the press accounts were accurate and that an investigation is underway by Security, State Police and the F.B.I. Mr. Tasker, reflecting the Trustees concern and outrage at the willful damage to State property, proposed a \$1,000 reward for information leading to the conviction of those responsible for the fire. THE BOARD VOTED to approve the proposal with the specific understanding that funds for the award would come from private contributions.
6. President Babbidge, in a follow-up report on the Patricio incident, indicated that thirty five students have, without identifying themselves as disruptors, voluntarily placed themselves on probation and have agreed to participate in discussions designed to better understand the importance of free speech in a University community.

Two persons under suspension for previous misconduct of a of a related nature have been identified and action has been initiated to consider this permanent dismissal from the University. A third person who is a minor already under the care of the courts has been reported to his probation officer.

7. On the recommendation of Provost Gant, THE BOARD VOTED to approve "allied" agreements between the School of Medicine and the following:
  - (1) World War II Veterans Memorial Hospital in Meriden

THE BOARD VOTED to approve the recommended increase in cost for meals under the board plan.
11. Chairman Budds called upon Mr. Gill, Chairman of the Task Force on Environmental Studies for a presentation of their Report. Copies of the Report were distributed and Mr. Gill reminded the Trustees that last July 1970, they had approved the establishment of a Task Force to prepare plans for "the creation of an academic unit of the University broadly concerned with

the study of our natural and social environment," which would utilize the special talents and resources of the College of Agriculture and Natural Resources and provide for University-wide involvement. After briefly reviewing the various proposals which had been considered by the Task Force, Mr. Gill explained that the Report recommended that a School of Environmental Studies be established which will pioneer in both methods and substance of teaching and meet the increasing needs of the people of the State. In addition to the offering of baccalaureate, master's and doctoral degree programs, a service program would provide contractual research and the dissemination of information to individuals, groups and governmental agencies. The Report further recommended that the College of Agriculture and Natural Resources be renamed the School of Agriculture and Natural Resources with its own Dean, and that its program of service, teaching and research be strengthened with proper funding to assure the viability of the school and its programs.

After thanking and complimenting Mr. Gill and his committee for the constructive efforts, THE BOARD VOTED to accept and approve in principle the Report of the Task Force.

15. President Babbidge informed the Board that he would attend a meeting with Governor-elect Thomas Meskill on December 22 to review the University's budget situation. Mr. Meskill has suggested a ceiling of \$84.7 million on the University's budget for the next biennium, in contrast to the \$104.3 million requested by the University. The President indicated that \$90.9 million would be required to maintain a "stand still" status.
16. THE BOARD VOTED to lay on the table until the January meeting the following recommendations of the University Senate concerning additions to the appropriate sections of the Board's Laws, By-Laws, and Rules:

- (1) A minimum of one full week, excluding time when the University is in recess, shall be allowed between the distribution and collection of ballots for University Senate elections.
- (2) At all Senate elections, persons eligible for election who feel they would be unable to serve shall be given an opportunity to withdraw their names from the list of candidates for nomination. The names of those persons who have withdrawn, as well as the names of persons who have served two consecutive terms, shall be indicated on the nominating ballot.

The ballot for the second vote (election ballot) in any Senate election must indicate the number of votes each nominee received. In addition, there must be listed the names of those persons who were not nominated but who received at least 70% of the number of votes received by the nominee with the fewest votes.

After the election, the number of votes received by those persons who were elected and the number of votes received by nominees who were not elected must be made public.

- (3) At a meeting called at the request of at least twenty-five per cent of the members, the presiding officer shall be the Secretary of the Senate Executive Committee.
17. THE BOARD VOTED to lay on the table until the January meeting the following recommendations of the University Senate concerning Article XK2a of the Board's Laws, By-Laws, and Rules:

Membership in the academic community imposes on students, faculty members, administrators, and trustees an obligation to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster

and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus. The expression of dissent and the attempt to produce change, therefore, may not be carried out in ways which injure individuals or damage institutional facilities or disrupt the classes of one's teachers or colleagues. Speakers on campus must not only be protected from violence, but given an opportunity to be heard. Those who seek to call attention to grievances must not do so in ways that significantly impede the functions of the institution.

Students are entitled to an atmosphere conducive to learning and to even-handed treatment in all aspects of the teacher-student relationship. Faculty members may not refuse to enroll or teach students on the grounds of their beliefs or the possible uses to which they may put the knowledge to be gained in a course. The student should not be forced by the authority inherent in the instructional role to make particular personal choices as to political action or his own part in society. Evaluation of students and the award of credit must be based on academic performance professionally judged and not on matters irrelevant to that performance, whether personality, race, religion, degree of political activism, or personal beliefs.

It is a teacher's mastery of his subject and his own scholarship which entitle him to his classroom and to freedom in the presentation of his subject. Thus, it is improper for an instructor persistently to intrude material which has no relation to his subject, or to fail to present the subject matter of his course as announced to his students and as approved by the faculty in their collective responsibility for the curriculum.

Because academic freedom has traditionally included the instructor's full freedom as a citizen, most faculty members face no insoluble conflicts between the claims of politics, social action, and conscience, on the one hand, and the claims and expectations of their students, colleagues, and institutions, on the other. If such conflicts become acute, and the instructor's attention to his obligations as a citizen and moral agent precludes the fulfillment of substantial academic obligations, he cannot escape the responsibility of that choice, but should either request a leave of absence or resign his academic position.

18. Provost Gant distributed, as a matter of information for the Board, copies of a recent resolution by the College of Liberal Arts and Sciences' faculty reaffirming its dedication to the right to speak freely, to listen to all sides, and to debate in a spirit of free inquiry.

19. On the recommendation of Provost Gant, THE BOARD VOTED to approve the following:

The Board of Trustees of The University of Connecticut hereby agrees to accept with thanks, and subject to the conditions outlined in the Foundation's letter of December 2, 1970, the grant from The John A. Hartford Foundation, Inc. in the amount of \$94,688 for dynamic renal function studies in renal transplantation.
