10. The President/information of the conditions of the Federal appropriations and their relation to the Austin Amendment.

11. The President reported as follows: Conforming to the vote of the Board of Trustees at a previous meeting the services of Perry & Bishop had been secured to draw up plans, specifications for the proposed Home Economics Building for which an appropriation was made at the session of the Legislature in 1931, of \$25,000 for the preparation of the site, plans, and specifications and that the plans and specifications were now presented to the Board, together with the bill from Perry & Bishop for their services for this preparation.

IT WAS VOTED that the Board accept the plans as presented by Perry & Bishop for the Home Economics Building and authorize the payment of \$6,000 balance due on bill of \$6,000 for drawing plans, provided the plans and and payment are approved by the Board of Control. (Commissioner Hall has stated that the approval of the Board of Finance is not necessary until the plans are submitted for bids and that payment of \$5,000 to Perry & Bishop for completion of the plans satisfactorily to the Board of Trustees is entirely proper.)
